

**NVQ LEVEL 2 DIPLOMA  
IN-SITU RESIN FLOORING**

# TRAINING OVERVIEW

## FeRFA Training

Nurturing the next generation of talent

At FeRFA, we believe in nurturing talent and enhancing skills through our comprehensive training programmes. From Specialist Applied-skills Programmes (SAPs) and advanced NVQs, to shorter CPD courses, our Training & Development Programmes are designed to equip industry professionals with the tools they need for success, ensuring a robust future for the resin flooring industry.

## Specialist Applied-Skills Programmes (SAPs)

- In-Situ Resin Flooring
- Surface Preparation

Our flagship SAPs provide comprehensive training that leads to NVQ Level 2 Diplomas, equipping participants with the necessary qualifications to obtain a CSCS Blue Worker Card and secure eligibility to work on construction sites across the UK.

# WHAT TO EXPECT

The **FeRFA NVQ Level 2 Diploma in In-Situ Resin Flooring** is designed to equip candidates with the skills and knowledge necessary to excel in the resin flooring industry. The course offers hands-on experience with various resin flooring materials, insights into industry best practices, and opportunities for career progression.

## **Key Components:**

- **Hands-On Training:** Candidates gain practical experience with different resin flooring materials and techniques.
- **Industry Insights:** Learn about the latest advancements and best practices in resin flooring.
- **Career Development:** Achieve a recognised qualification and progress towards advanced roles and further education.
- **Health and Safety:** Comprehensive training in health and safety regulations specific to the construction industry.

## **Course Structure:**

The course is divided into several modules, each focusing on a critical aspect of resin flooring installation and maintenance. Training sessions are structured to provide a balanced mix of theoretical knowledge and practical skills.

# WHY ENROL?

## Benefits for Candidates

By completing the NVQ Level 2 Diploma, candidates will:

- Gain a recognised industry and construction qualification.
- Develop practical skills and knowledge applicable to real-world scenarios.
- Enhance their employability and career prospects within the resin flooring sector.
- Receive ongoing support from FeRFA, including access to resources and industry events.

## Benefits for Employers

Investing in employee training through the FeRFA NVQ Level 2 Diploma offers several advantages:

- Upskill your workforce, leading to improved quality of workmanship.
- Demonstrate a commitment to professional development and industry standards.
- Enhance your company's reputation for employing skilled and certified professionals.
- Benefit from improved staff morale and retention rates.

# MODULES & LEARNING OUTCOMES

## **Module 1: Induction and NVQ Introduction**

- Housekeeping, VQ Registration, and Employment Rights & Responsibilities
- Health & Safety Awareness, including legislation, risk assessment, and PPE

## **Module 2: Surface Preparation**

- Techniques for preparing substrates, including shot blasting and grinding
- Importance of moisture testing and dealing with expansion joints

## **Module 3: Resin Flooring Systems**

- Overview of epoxy, polyurethane, and MMA resin systems
- Applications and benefits of each type

## **Module 4: Installation Techniques**

- Step-by-step installation procedures for different resin systems
- Practical sessions on applying self-smoothing screeds and flowable screeds
- Quality control and troubleshooting common issues

## **Module 5: Health and Safety**

- Understanding and complying with the Health & Safety at Work Act 1974
- Management of Health & Safety at Work Regulations 1999
- Safe working practices and accident prevention
- The importance of PPE and proper usage

## **Module 6: First Aid and Asbestos Awareness**

- First aid training and certification
- Understanding the risks and safety measures related to asbestos

## **Module 7: Advanced Application Techniques**

- Forming saw cuts and joints
- Safe use of abrasive and diamond wheels

## **Module 8: On-the-Job Training**

- Supervised practical training on various job sites
- Real-world application of classroom learning

# WHERE CAN IT LEAD?

## **Career Progression**

Upon successful completion of the NVQ Level 2 Diploma, candidates can advance their careers by pursuing higher qualifications and specialised roles within the industry. FeRFA supports continued professional development through additional training programmes and resources.

## **Further Qualifications:**

- NVQ Level 3 Supervisor – CSCS Gold Card
- Site Supervisors Safety Training Scheme (SSSTS)
- Site Managers Safety Training Scheme (SMSTS)
- NVQ Level 6 Construction Manager – CSCS Black Card

## **Join FeRFA and Excel in Your Career**

FeRFA is committed to the continuous improvement and professional development of the resin flooring industry. By joining our NVQ Level 2 Diploma programme, you will be taking the first step towards a rewarding and successful career in resin flooring.
