

STRENGTH IN BEAUTY

Custom Drapery Hardware

Highland Forge products are made of steel, to last, with the attention to detail that leads to strong, non-sagging hardware and smooth installations.

Our authenticity of material, design sensitivity, and understanding of aesthetic and functional demands of customers is what makes Highland Forge the choice for custom rods, finials, brackets, rings, and other drapery hardware.

Rods

**Straight
Ends with
Finials**

**Wall-to-
Wall (Inside)
Mounts**

**French
Returns**

- Our high-strength, non-telescoping rods can achieve long spans with minimal brackets and are customizable to include finials, French returns (curved and mitered), or Socket brackets for wall-to-wall mounts
- Our French return rods fit flush against your wall and have flawless bends with zero deformity. Our Post brackets allow for easy installation. Double rods with returns are available upon request

- Available in steel and stainless steel

See additional rod information on page 21
