Medics4Sewa

We believe in helping where help is needed specially in rural areas.

Our mission is to encourage Doctors and Dentists from UK with specialist skills to volunteer for worthwhile work in India. We expect that doing this kind of voluntary work will in time become the norm.

As more and more people join us, we aim to create a Medics4Sewa community with a passion to serve, to learn, to understand, to teach, to inspire, and to be inspired.

In order to provide the very best treatment available in the 21st Century there is a need to improve and update the present facilities with the newest instruments and technology.
