In Touch With *Nature*

As the first light of dawn filters through the trees and the earth beneath our feet hums with quiet life, we are reminded of our deep connection to the natural world. The rustling of leaves, the soft sway of branches in the wind, the organic flow of water in a stream—all are gentle reminders for us to seek beauty in nature's raw, unrefined elegance. Our *In Touch With Nature: Spring & Summer 2025 Collection*, is a tribute to that connection. It draws from the soothing harmony found in nature's forms and textures, offering a way to bring the outside in, grounding your space with the same serenity and warmth that only the natural world can provide.

This collection celebrates the balance between artistry and sustainability, showcasing craftsmanship that blends functionality with beauty. In Touch With Nature is a movement toward reconnecting with the environment, offering a mindful approach to design.

Each piece reflects nature's fluid shapes with soft curves and open-weaving patterns, complemented by a neutral palette of whites, natural browns, and Mocha Mousse (Pantone's 2025 Color of the Year). Prioritizing sustainability, the collection uses eco-friendly materials and traditional techniques, supporting both the planet and the artisans who preserve their craft.

Designed with beauty and function in mind, this collection offers versatile pieces—storage baskets, trays, lightings and planters—that enhance any space while maintaining a nature-inspired aesthetic. Whether in the living room, kitchen, or garden, each item blends practicality with elegance.

The *In Touch With Nature: Spring & Summer 2025 Collection* is an exploration of nature's beauty through thoughtful design. It's more than decor; it's a way to create a space that feels grounded and elevated, a deeper connection to the natural world.

FEATURED PATTERNS

THE BUTTERFLIES

Inspired by the graceful flutter of butterflies in spring, this pattern can shine in both modern or traditional spaces.

THE CLOUDS

Light and airy, this elegant design pairs with washed rattan for a bright, refreshing seasonal look.

THE WATER HYACINTH

This season, we highlight water hyacinth, a flowering plant that blooms vibrantly in spring. With a simple yet refined design, these pieces let the material's natural charm shine.

THE PETALS

This design captures the softness and movement of blooming flowers, adding a touch of organic elegance to the collection.
