LS508 IVORY DREAM

Explore and experience all things stone with Lavistone.

Stone selections have always been a pivotal decision for Australian households when creating or updating interior spaces. Lavistone is cognizant of this and was founded to offer high-quality stones with innovative designs.

Established in 2018, Lavistone possesses a profound understanding of stone aesthetics. Our collections seamlessly integrate with global influences and Australia's distinct charm. We take pride as a comprehensive stone supplier in Australia, always keeping pace with design trends while exceeding expectations.

Experience the Lavistone difference today.

GEN SURFACE

Australia's first-choice benchtop solution, engineered with recycled materials.

LARONA PORCELAIN

Exquisite palette of porcelain stoneware with exceptional performance and versatility.

NATURAL STONE

Nature's wonders, from quarries all over the world to your space.

GEN SURFACE

Pioneering a new generation of stone solutions, Gen Surface is an advancement in Australia's most preferred benchtop material.

Engineered with steadfast commitment to sustainability and benchtop excellence, each slab of Gen Surface is meticulously crafted with masterful precision, transforming recycled materials into the centrepiece of your home. Designed in Australia, Gen Surface is a collection seamlessly integrated with global influences and Australia's distinct charm.

CARE & MAINTENANCE

INTERIOR USE ONLY

Lavistone is designed for interior application only. Exterior applications of Lavistone products are not covered by Lavistone’s 10-year Limited Warranty as exposure to direct sunlight or weather may result in a colour change or damage over time. Therefore, it is recommended that exposure to direct sunlight is avoided.

HIGH LEVEL OF HEAT RESISTANCE

Although Lavistone has high level of heat resistance, the surface can be damaged due to rapid heat changes or thermal shock. It is strongly recommended that hot pots, frypans or plates are placed on a heat resistant product such as a heat trivet or wooden chopping board rather than directly on the Lavistone surface.

PREPARATION OF FOOD

It is recommended that you avoid using sharp implements on the Lavistone surface to avoid damage. We recommend that food is prepared on appropriate cutting boards or plates rather directly on any Lavistone surface to avoid damage to both the surface of your benchtop and your kitchen implements or appliances.

TOUGH BUT NOT INDESTRUCTIBLE

Exposure to strong chemicals and solvents can permanently damage the Lavistone products’ surface. Avoid using highly aggressive or corrosive cleaning agents such as oven cleaners that contain high alkaline (high pH) levels. Do not use products that contain trichloroethane or methylene chloride. Please rinse the surface immediately with water if the surface is exposed to any damaging products.

MATT AND TEXTURED FINISH

Matt and textured finish products add extra dimension to the design. While they have the same high performance as polished collections, Lavistone’s matt and textured finish designs have a lower polish level, which means more frequent cleaning may be required to maintain the appearance. We recommend that you clean stains and spills immediately, and only use a fresh or clean cloth that has been thoroughly washed as oil or other containments may be transferred to the surface.

LAVISTONE CREAM CLEANSER

Lavistone Cream Cleanser with micro particles is specially developed to maintain your stone surface, ensuring their optimal appearance and longevity.

HOW TO USE:

Apply a small amount of product onto a wet, non-scratch scrub. Gently wipe surface in a circular motion, avoiding excess pressure and spending too long on one spot. Use a microfiber cloth to remove excess suds, rinsing with warm water as required. When finished, clean surface with a clean dry cloth.

10-YEAR WARRANTY

Lavistone provides a 10-year limited warranty on manufacturing defects subject to the terms and conditions set out below. This warranty is available to the original purchasers of Lavistone products for a period of 10 years from the date the product is installed, provided the product has been used in an interior setting for residential or commercial projects. Lavistone warranty is limited to either repairing or replacing the product at its discretion as a result of a defect arising from the manufacture of the product, upon receipt of satisfactory proof of purchase and use of the product.

What is not covered in the warranty?

1. The warranty applies to the original purchasers of the product from Lavistone or its authorized resellers, and it is not transferable to any subsequent owners.
2. The warranty is for manufacturing defects only and does not cover any defect or damage arising from:
 - a. any modification, alteration not authorized in writing by Lavistone;
 - b. any use or dealing with the product or any work or alteration made by any party other than Lavistone;
 - c. misuse or inadequate maintenance including as recommended;
 - d. any use of the product for which the products are not intended.
3. The warranty does not cover any subsequent fabrication, installation and/or application of the slab.
4. The warranty does not apply where the product is installed by anyone other than a qualified and licensed stonemason or other tradesperson.
5. The warranty does not apply when the product has been removed, altered or moved from their original place of installation.
6. The warranty does not apply for damages and defects when the product is used for flooring or any exterior applications.
7. Applications in fireplaces are not covered in the warranty due to the way it is designed and the amount of heat output.
8. The warranty does not apply to any surface variations in pattern, colour or shade within or on the surface of the slabs. Each slab is unique and variations do occur between batches.
9. The warranty does not apply to damages and/or defects resulting from or are contributed to by a failure to clean and maintain or inadequate cleaning and maintenance of the product in accordance with the Lavistone Care and Maintenance Guide.
10. The warranty does not apply to any damage and/or defect due to the product being mishandled or misuses including but not limited to excessive heat, excessive weight, chemicals and exterior application etc.
11. The warranty does not apply to any chips, cracks and scratches unless they were caused by manufacture defects. Chipping is not a material fault, as it is often caused by an external impact to the edge of the benchtop surface. Cracking is not a material defect. It is normally caused by inducing mechanical stress externally on the product after installation, such as excessive heat and excessive weight, or inadequate support under the surface.
12. When a product is replaced by Lavistone, subject to its absolute discretion, the 10-year limited warranty will run from the date of replacement.
13. To register the warranty, please fill out the Lavistone warranty form at www.lavistone.com.au with proof of the date of your purchase of the product. If you do not register this warranty within 60 days of purchase of the product, this warranty is void.
