# **GLOVES**

# ***NEOFLEX***

## **Net-Zero Carbon-Inset® Gloves**

With the assistance of The Carbon Consulting Company (CCC) and The Sustainable Future Group (SFG), and through the work done by Lalan's Green Future Initiative, our rubber-based land and biodiversity conservation project, we are now proud to present a range of certified net-zero Carbon-Inset® Products: the NeoFlex range of gloves.

CCC assessed and quantified the carbon footprint of manufacturing our LD selected range of products following the Life Cycle Analysis approach. CCC also measured the amount of carbon that would be sequestered through our land conversion project. SFG then independently verified the product carbon footprint assessment and our project's emission removals (Carbon Insets) using the ISO 14064-2 Standard. The insets obtained from our project will be used to negate the environmental impact of producing the selected products, which can then be certified as "Carbon-Inset® Products".

# The Your Safety Factory Difference

**Supply Nation**

Your Safety Factory is proudly Supply Nation Certified, Australia's peak Indigenous business registration body, with a strong reputation as one of the industry's most trusted and ethical suppliers.

As a 100% Indigenous owned company we are proud to partner with the Circular Head Aboriginal Corporation, with donations from our Martula range supporting Aboriginal Health and Culture Awareness initiatives.

Your Safety Factory has Australia's first and only Certified Net Zero Emission gloves - the NeoFlex range - plus biodegradable & recycled gloves, along with new initiatives for a greener economy and a sustainable future.

Your Safety Factory has partnered with Redkite since 2014 and are proud to support families facing cancer across Australia. Donations from our range have exceeded \$200,000 thanks to your support.

Your Safety Factory is committed to 100% Business Social Compliance Registration for all suppliers covering labour, health & safety, environment and business ethics, improving our global supply chain and the working conditions at all suppliers.
