ProDecor – Inspired by Life

Summary

Key	All measurements in mm	We do not recommend using power tools to tighten the handle screws.	All natural materials may vary in colour and structure from those depicted.
	Length or width		
	Height		
	Hole distance		
	Packaging unit		
	Cut to size		

Cleaning products for handles and knobs:

- ▶ Please use a soft, lint free cloth and mild water-soluble detergents such as liquid or neutral soap.
- ▶ Do not use any abrasive cleaners, scouring pads, cellulose thinners or irritant/corrosive chemicals as these may damage the surface over time!
- ▶ Marks should always be removed as quickly as possible to prevent them from staining the surface.

Interior design is an expression of personal style. This is why there are four ProDecor style worlds: for homes with personality.

NEW MODERN

DELUXE

Technology. Transparency. Practicality.

NEW MODERN impresses with its clear cut, futuristic style and cool touch. Purist looking furniture fronts in masterful perfection.

Homes that speak to the senses – with a touch of luxury:

Shimmering metals and majestic colours define the DELUXE style world. The powerful handle design conjures an ambience that pleases the senses, extending an irresistible invitation to touch ...

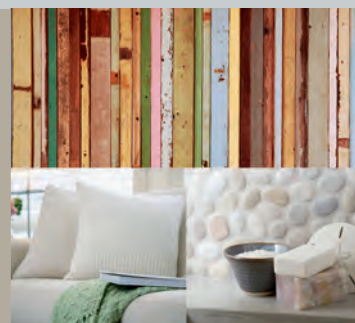

ORGANIC

The idyll of unspoiled nature.

This collection is fired by organic shapes and natural looking, rough feeling finishes. Want to live with nature's charm? Welcome to the world of ORGANIC style!

FOLK

Furniture handles that tell stories.

Traditional shapes and colours. Opulent patterns and soft finishes you want to touch. Ingeniously crafted used looks exude appealing warmth. FOLK is pure joy. For your customers too.

SERVICE

Accura drilling gauge

Accura - the practical and efficient universal modular drilling jig for perfect work results

Drilling jigs for handles

Different drilling templates and stops can be positioned anywhere on the Accura rail with metric and imperial measurement scale (lengths from 500 to 2000 mm).

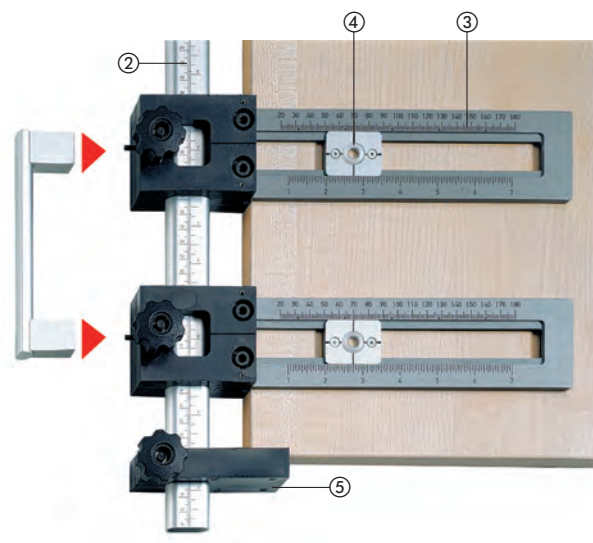

Markings for drilling holes for the 32 mm hole spacing system.

Accura drilling jigs for handles

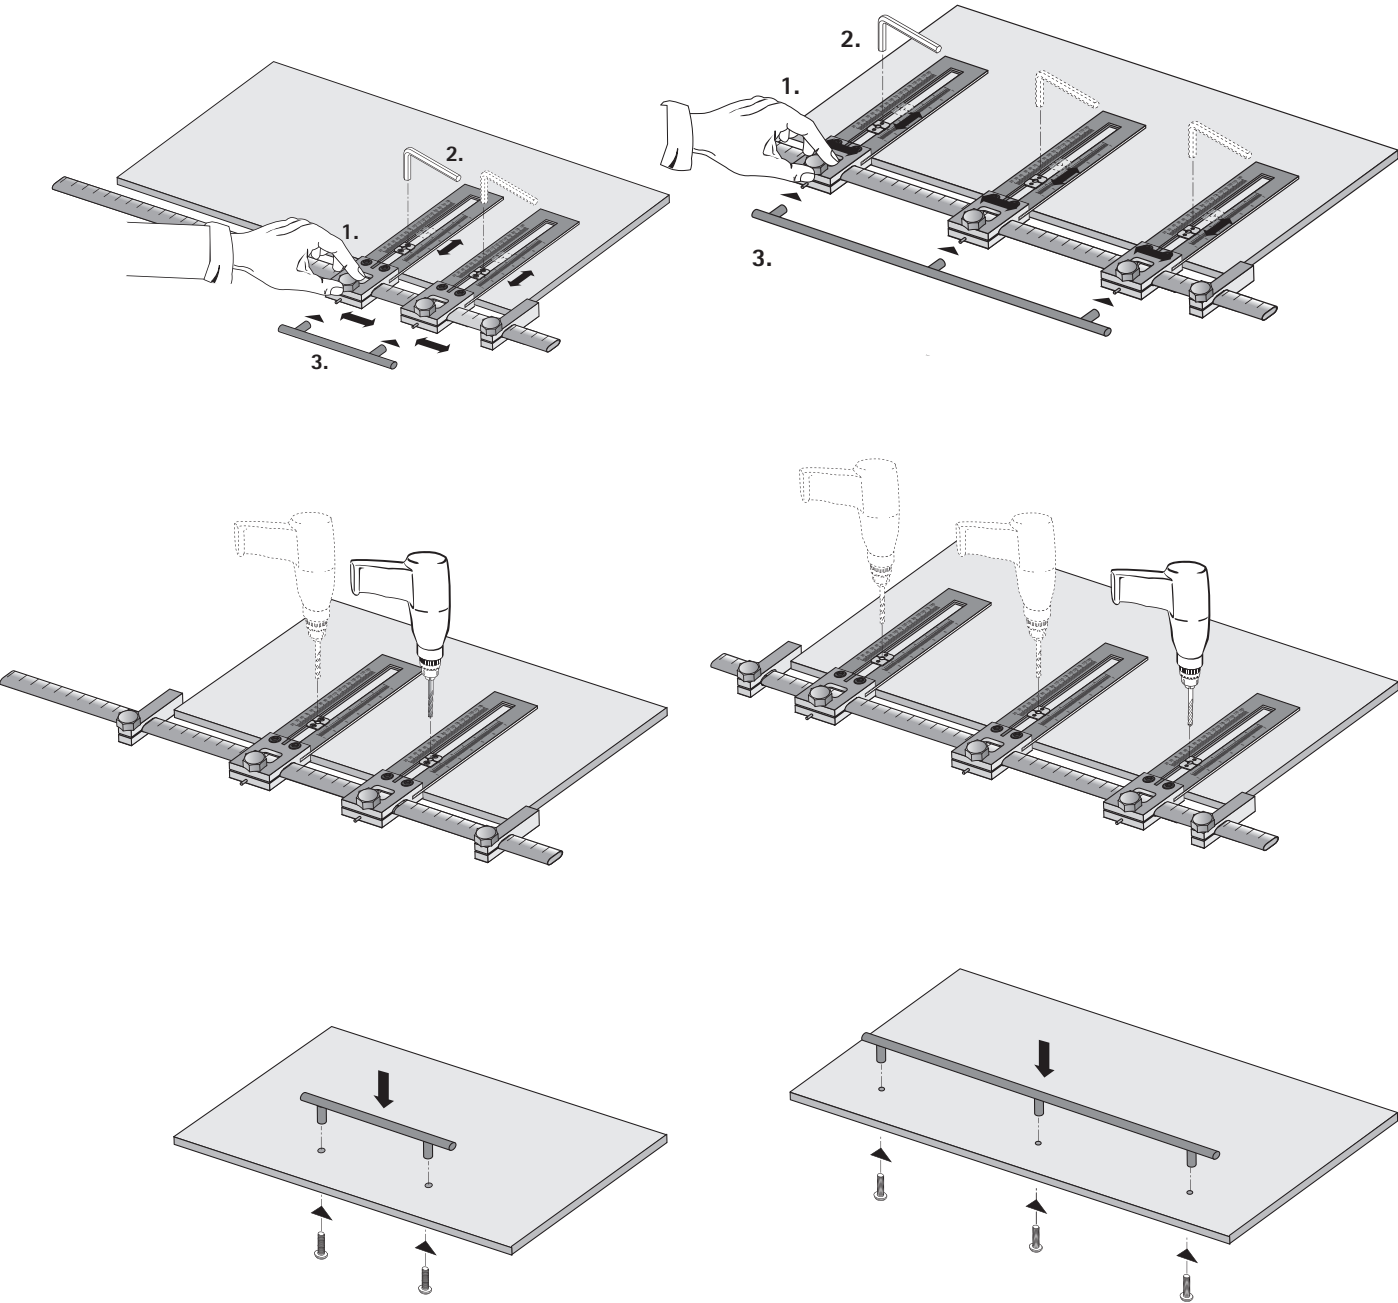

- Accura drilling gauge, kit for handles contains:
- 2 Accura drill templates for handles
 - 2 drill plates with guide sleeve for 5 mm high-powered high-speed steel twist drill
 - 1 Accura slide rail with measuring scale in mm and inch, Length 500mm
 - 1 adjustable stop for front edge alignment
- ② Accura rail with metric and imperial measuring scale, with "System 32" marking points
- ┌─┐ 500 mm
 - ┌─┐ 1000 mm
 - ┌─┐ 1500 mm
 - ┌─┐ 2000 mm
- ③ Accura drill template for handles, including drilling plate with guide sleeve for 5 mm HSS twist drill bits aluminium/plastic
- ④ Replacement slide rail with drilling bushes for Accura drilling templates for handles
- ⑤ Adjustable stop for fronts and individual (dismantled) cabinet sides, plastic

SERVICE

Accura drilling jigs for handles

- Set chosen positioning on the front
- Set hole spacing and check using
Handle fixing points
- For a handle with 2 or 3 stems:
Place drilling jig on front and drill
- Screw on handle

For two symmetrically positioned handles:
First position drilling jig on one side to drill the holes for the 1st handle and then, without altering the setting, position drilling jig on the other side to drill the holes for the 2nd handle.

SERVICE

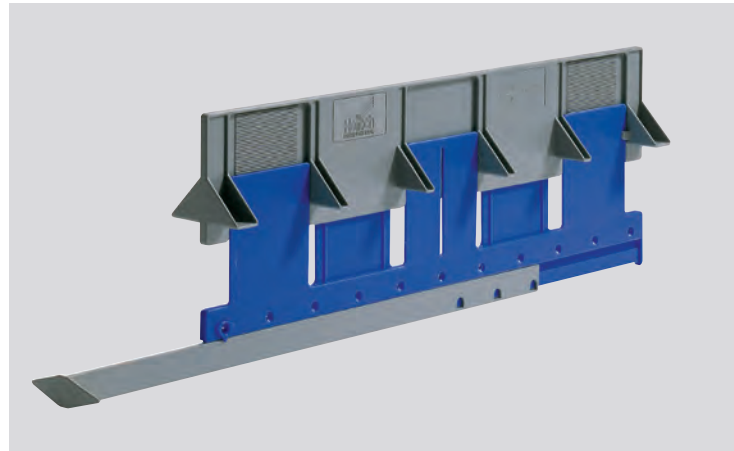

Universal hole marking template for handles and knobs

Adjustable, two-dimensional hole marking template for fast, accurate marking of System 32 hole patterns for

- Handles (Hole spacing of 32-320 mm)
- Knobs

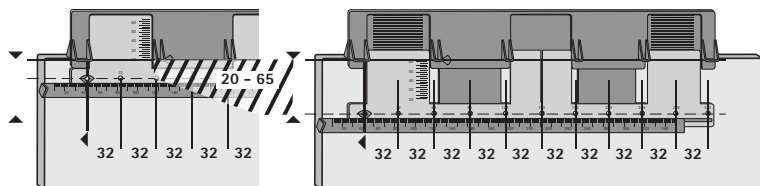

Range of adjustment:

- Distance from drawer front side edge to first fixing hole of handle 10 - 334 mm
- Distance from drawer front top/bottom edge to position of handle 20 - 65 mm

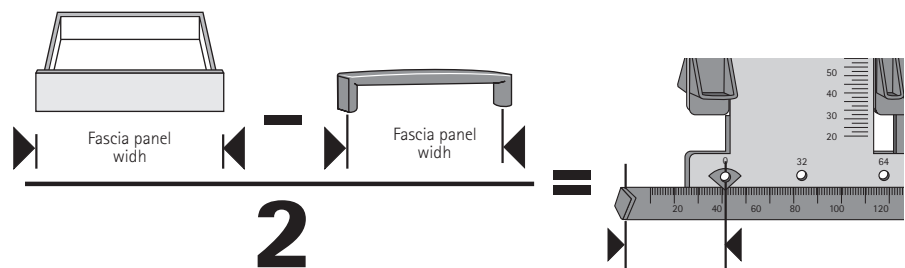

0 048 771	1

Setting for height positioning

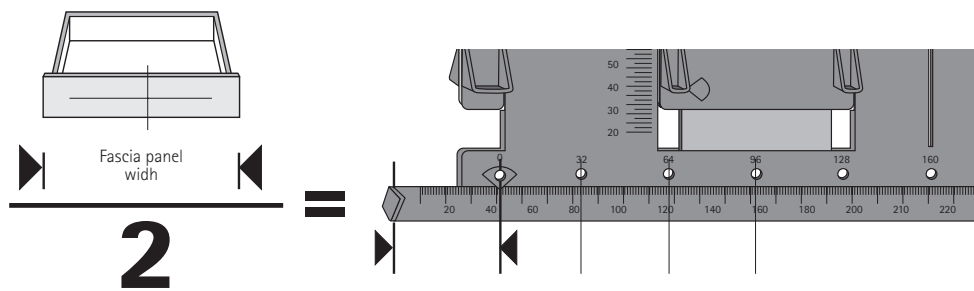

Calculations formulae

Side positioning for a handle

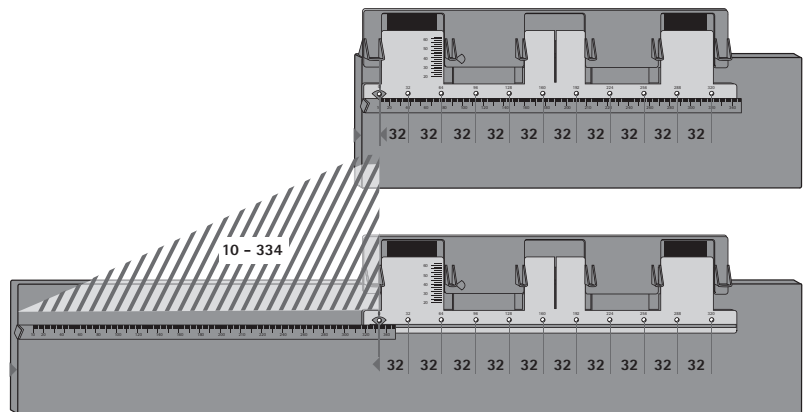

Distance from drawer front side edge to first fixing hole of handle (min. 10 mm / max. 334 mm)

Side positioning for a knob

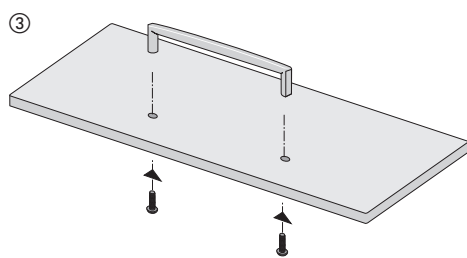

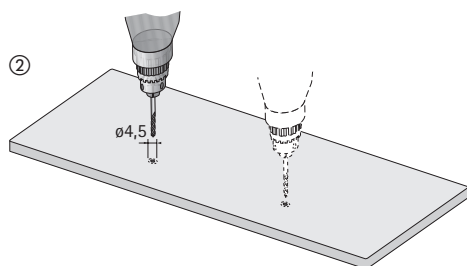

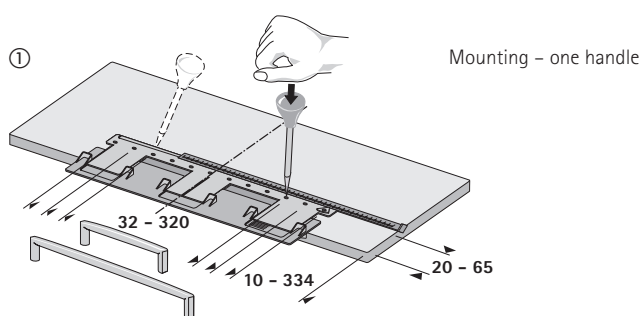

Distance from drawer front side edge to knob fixing hole (min. 10 mm / max. 334 mm)

Setting for side positioning

SERVICE

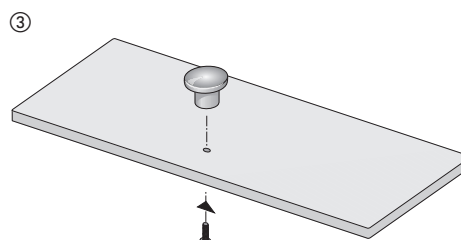

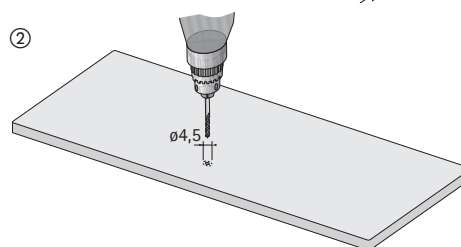

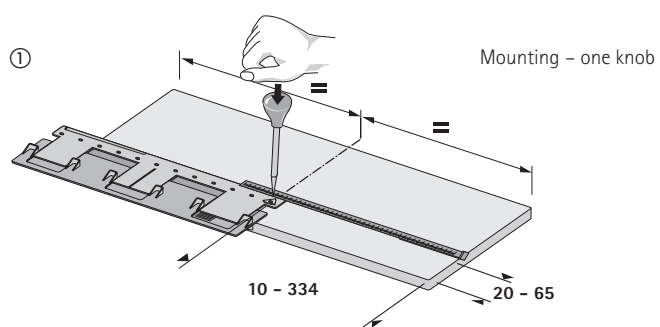

Universal hole marking template for handles and knobs

① Set drilling jig and mark drill hole positions

② Drill fixing holes

③ Screw on handle

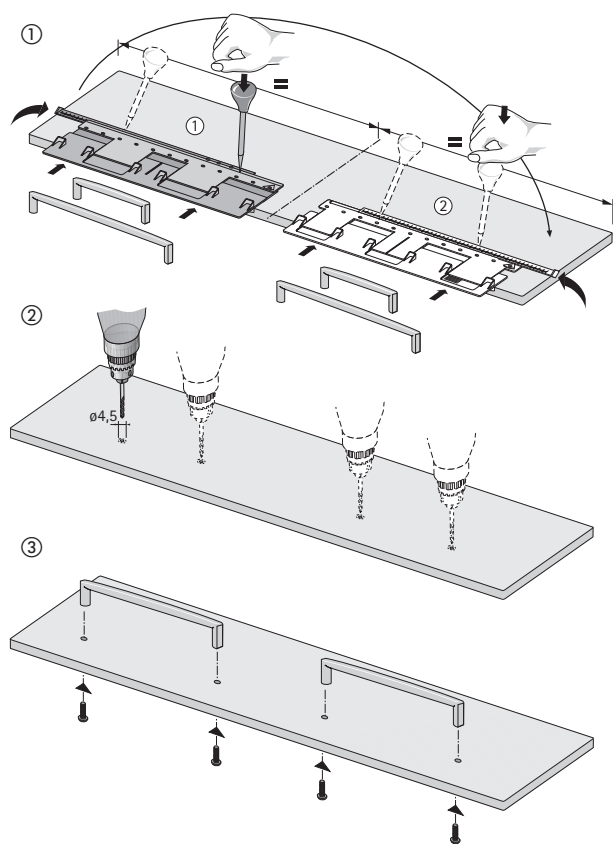

① Set drilling jig and mark drill hole positions

② Drill fixing holes

③ Screw on knob

The universal hole marking template can simply be used the other way round for accurately transferring hole patterns from right to left.

Mounting - two handles (positioned symmetrically)

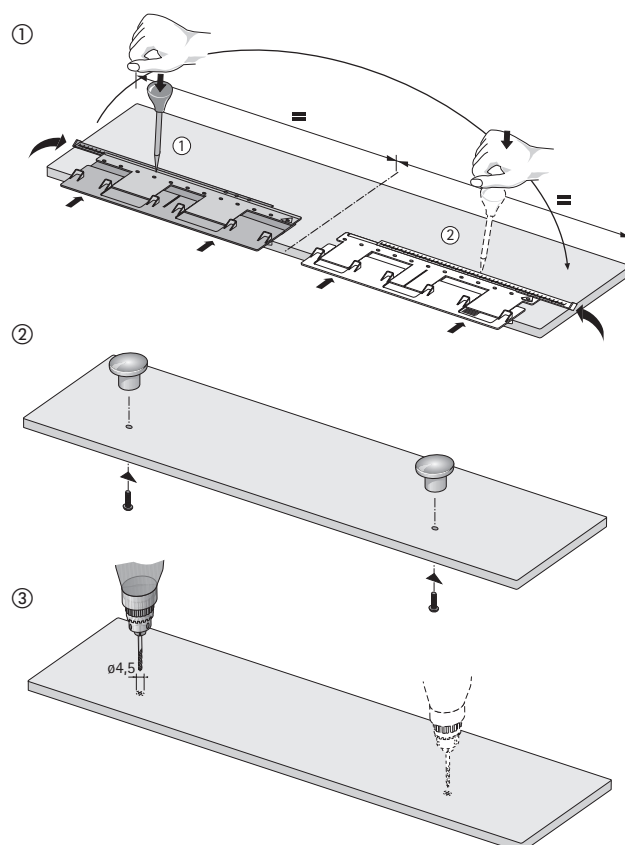

① Set drilling jig and mark drill hole positions

② Drill fixing holes

③ Screw on handle

Mounting - two knobs (positioned symmetrically)

① Set drilling jig and mark drill hole positions

② Drill fixing holes

③ Screw on knob

The universal hole marking template can simply be used the other way round for accurately transferring hole patterns from right to left.
