Jeff Keating, Chair
Tricia Caldwell
Gordon Onsager

Jacque Warwick
Delray Luce
Elaine Parks

Marc Nelson, Principal
Marlene Perry, Vice Principal for Finance
Gina Hubin, Director of Growth - Recruiting and Admissions

Faculty & Staff Request Guidelines

The Committee of 100 is a group of 70 to 100 members that meets every year to consider funding for specific requests from the Faculty and Staff. This is an excellent opportunity to obtain items for your classroom and/or department that may not otherwise be covered by the budget. The Executive Committee ("Committee") is a smaller group that reviews and approves all of these requests before they go to the larger Committee of 100 for consideration. When submitting your request, please carefully read and follow these guidelines:

- Item(s) being requested must align with the Mission of Auburn Adventist Academy ("AAA"), which is to: **Seek** Divine Wisdom (James 3:17); **Inspire** Innovative Minds (1 Corinthians 2:9); and **Build** Eternal Relationships (1 John 4:7).
- Item(s) must enhance the educational experience and/or campus life experience of the students. If the item is not for a specific classroom, it must benefit AAA as a whole (for example, an item used for recruitment or marketing). Tables, chairs, and desks will not be considered a high priority for funding through the Committee of 100.
- **All requests must be reviewed and approved by AAA Administration before Committee consideration.**
- Focus should be on items that can be used for years to come.
- If a request exceeds \$5,000, the requester may be asked to personally present their request to the Committee of 100 Executive Committee at a meeting scheduled by the Committee. ***This applies to each request. For example, if you are requesting multiple of the same item, and that total amount exceeds \$5,000, you may be asked to present to the Committee. Note: If you are requesting 5 different items, the \$5,000 applies to each item, not the total combined.***
- If a request involves technology, it must also be reviewed and approved by the AAA Technology Committee before it is submitted to the Committee for review and approval.
- The Committee will review all requests that are received by the deadline established by the Committee. Requests received after the deadline may be deferred to the following year.
- ***Please do not request more than five (5) different items.*** If multiple different items are requested from a single department and/or classroom, requests may be denied or deferred to the following year (request must be resubmitted the following year if deferred) so that funds may be distributed more equally. If you are requesting multiple different items, please indicate which of those items are a priority for your classroom/department, since it may not be possible to obtain all of the items you are requesting. ***You may request more than five (5) of the same item (i.e., books, art/drafting kits, etc.).***
- A Request Form must be completed for each different item. ***If the request is for multiples of the same item, please put them on the same Request Form.***
- Item descriptions must be concise and describe in detail what the item is and how it will directly benefit the students or AAA as a whole. The Request Forms must be fully completed (all questions answered) in order to be considered.
- The Committee of 100 funds are not to be used for transportation purposes.
- Once items have been funded, ***they must be purchased by the requester by December 31*** of the funding year, or the funds will be returned to the Committee of 100. Purchasing the item is the ***sole responsibility*** of the purchaser and is to be done within the guidelines of the Finance Office, as instructed by the Vice Principal of Finance.

Athletics

1. Functional Smith Machine with Cables

A functional trainer with a selectorized Smith bar combines the safety of a guided barbell with the convenience of built-in weight stacks. Instead of loading plates, users can easily adjust resistance by moving a pin, making it faster and more efficient for group training in a school setting. The guided bar helps students practice core lifts such as squats, presses, and lunges with proper form and reduced risk of injury, while the dual cable system allows for a wide variety of strength and functional exercises. This all-in-one design provides a safe and versatile way for students to learn basic weightlifting techniques, build confidence, and train effectively without the need for multiple separate machines.

Total Cost - \$3328.89

English

2. TV and TV Mount

Sony 85 Inch Flatscreen TV and Perlegear TV Mount.

Total Cost - \$1470.80

Film Production/Photography

3. DJI RS 4 Mini Combo, Gimbal Stabilizer

The DJI RS4 mini is a gimbal stabilizer with an excellent reputation for maintaining smooth camera motion for handheld situations. Smooth camera movements are important for quality film production, and this item would add an invaluable tool to our toolbox.

Total cost - \$495.24

4. Shure SM7dB Dynamic Vocal Microphone w/Built-in Preamp

An exceptional mic for vocal recording. Will be used to record vlogs, spoken word and musical performances.

Total cost - \$605.55

5. Aputure Amaran 150c COB Video Light

Aputure amaran 150c produces stunning color quality throughout its expanded bi-color CCT range of 2,500K to 7,500K with green-magenta adjustment and 360° HSI color control with >90% coverage of the Rec.2020 Color Space. And with high CRI/TLCI [95+], SSI (D56) [71], and SSI (Tungsten) [83] scores, the amaran 150c can reliably output color-accurate light to achieve faithful skin tones.

This light will enhance the lighting capabilities we have by providing a brighter more accurate light for our illumination needs.

Total cost - \$276.86

6. Sony Alpha 6700 - APS-C Interchangeable Lens Camera with 26 MP Sensor

This is the same camera that has been requested for the last 2 years. With the addition of a photography class for second semester this year, we will need more cameras. With this camera, we will have 3 cameras to complete our toolkit for Film Production classes. However, with the addition of a photography class that appears to be in high demand, having this additional camera will provide more students with the opportunity to explore photography with hands-on access to real cameras.

Total cost - \$2043.49

Foods Class

7. Air Fryer

An air fryer is a better and healthier way of cooking. In practical ways, I would love to show students what they can make at home using this machine

Cost of 1 - \$93.74

Total Cost of 5 - \$468.70

8. 3 Piece Pasta Machine Attachment

Students will enjoy having the experience of making their own pasta.

Cost for 1 - \$77.20

Total Cost of 5 - \$386.00

9. 5 QT Stainless Steel Mixer Bowls for KITCHENAID

With more classes using these bowls for our mixers, we need another bowl for each machine.

Cost for 1 - \$28.67

Total Cost for 10 - \$286.70

Growth - Marketing and Recruiting

10. Canon EOS R7 Mirrorless Camera, lense adaptor, battery pack

In the fall of 2018, the Committee of 100 funded a camera for my department, and I have used it extensively since that time. I have probably taken close to 800,000+ pictures since 2018, and after a while, the light sensor gives out, which it did last spring.

A camera is imperative to my department. I would continue using the current lenses I have, but I would need the mount adapter, so that is included. I use the camera for everything that AAA is involved with. I take pictures to highlight classes such as science classes and labs, and industrial arts and other elective classes. Also, music performances, ASB activities, musicals, talent shows, J2B, sports, etc. I document as much as possible and then organize each event into galleries that are used by me for promo materials (brochures and other marketing items), social media, promotional articles, etc. I make the galleries available to yearbook, ASB, classes, and anyone who needs pictures for a variety of reasons.

Total Cost - \$1856.34

Mathematics

11. Samsung - 75" Class DU6950 Series Crystal UHD 4K Smart Tizen TV (2024) and Wall Mount

I am requesting a Samsung 75" 4k TV to use as the display screen in my classroom so I can use both the Dry Erase Board and the Display at the same time. The current screen in my classroom is about 42" and is difficult to see from the further tables, which can be about 20' away, especially when we are looking at graphs.

Total Cost - \$617.66

Music

12. Cymbal Mallets and Marimba Mallets (Set)

A pair of Vic Firth Becken cymbal mallets. Vic Firth is the gold standard for auxiliary percussion. A pair of Balter Basics series Birch BB1 hard Marimba mallets with yellow yarn. Balter is great for pitched percussion. Both of these brands are known for their durability and sound great..

Total Cost - \$89.43

13. Timpani and Bass Drum Mallet (Set)

1. Innovative CB1 extra-large concert bass drum mallet; 2. Innovative concert series CT4 medium-hard Timpani mallets.

Total Cost - \$111.44

14. Gibraltar Concert Snare Drum Stand

Gibraltar concert snare drum stand.

Total Cost - \$113.79

15. Snare Drum - 14" Yamaha

14" Snare drum - Yamaha CSMAII concert snare drum natural vintage finish - 14X5

Total Cost - \$635.31

16. Set of 4 Toms with Stands

Set of 4 Toms with stands (13", 14", 15", 16" Yamaha CT-8000 single-headed concert Tom set with 2 XWS865A stands. There are eight pictured, but only asking for four.

Total Cost - \$1808.77

17. Upper 5th Octave Bells

We have been maintaining a 5 octave bell choir for a few years now using borrowed bells. We would like to own this upper 5th octave set so that we can return the borrowed bells to their owner and continue with the advanced level ringing our students are capable of.

Total Cost - \$1913.32

18. Handbell Mallets (set)

Several of our mallets are either worn or damaged and need replacing. These new mallets will allow the players to continue to perform special effects on the bells.

Total Cost - \$235

19. Choral Folders

We need to refresh broken and worn-out Sylvan folders with new folders that will adequately serve the needs of our singers in Sylvan Chorale.

Cost for 1 - \$41.96

Total Cost for 10 - \$316.01

Rainier Echoes

20. Nikon Z6 III w/24-70 f/4 Lens/Full Frame mirrorless Camera and Lens

I am requesting a new Nikon Z6 III camera with a 24-70mm lens to replace some of my failing cameras. All of our cameras were bought at a surplus store and were refurbished. Over the last few years, 6 of our 10 cameras have become non-functional and are no longer able to be fixed. This camera would start the process of replacing these cameras before we lose all of our cameras.

Total Cost - \$3636.54

Science

21. Pasco Smart Car - Blue

The Smart Car is an amazing tool for the physics lab. It's very useful in teaching all the basics for measuring force, position, velocity, acceleration, and rotational velocity.

Cost of 1 - \$208.95

Total Cost of 3 - \$626.85

22. Pasco Smart Car - Red

The Smart Car is an amazing tool for the physics lab. It is beneficial in teaching all the basics for measuring force, position, velocity, acceleration, and rotational velocity

Cost of 1 - \$208.95

Total Cost of 3 - \$626.85

23. Crooke's Radiometer

This product consists of a set of vanes, each with one shiny side and one black side, mounted on a spindle in a partially evacuated glass bulb. When exposed to the sun or other intense light, the vanes begin to rotate with the black side trailing. The black side heats the air next to it more than the shiny side, so the air pushes harder on the black side. The purpose is to support science demonstrations in the classroom.

Cost of 1 - \$18.80

Total Cost of 2 - \$38.60

24. Wireless Smart Gate

The Wireless Smart Gate is a multi-purpose photogate. It has dual photogate beams spaced at 1.5 cm to accurately measure speed and velocity. The built-in laser switch (when used with any laser) allows you to time objects too large to fit through the arms of the photogate. The integrated slot on the arm receives photogate tape that also helps measure the movement of larger and faster objects, like model rockets. To use along with the smart cars.

Total Cost - \$120.45

Sewing Class

25. Singer Sewing Machine

I love the simplicity of this heavy-duty singer. At this moment, we have 3 brands of sewing machines in my class. The original sewing machines are experiencing a lot of issues, and we also did not have enough for each student to have one. For the last couple of years, we have been blessed to receive funds from you to purchase more sewing machines. All my students love using the new singers. My goal is to eventually have uniform machines for each student, which will help with the instructions. Thank you so much!

Cost of 1 - \$220.59

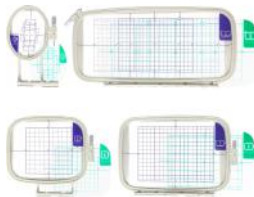

Total Cost of 2 - \$441.18

26. Embroidery Machine Hoop set

Last year, my sewing class was blessed by your generous donation of an embroidery machine. I would like to request a set of hoop attachments that will enable us to complete more projects with this amazing machine. Thank you so much!

Total Cost - \$31.87

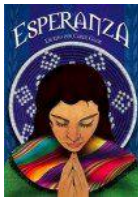

Spanish Class

27. Books to Grow the Spanish Class Library - Esperanza

This book uses high-frequency vocabulary in order to help students read with confidence, increasing comprehension skills. It is about a young mother escaping a civil war in order to find a better life for her family. This may also be a book that I can use in the future with Spanish I at the end of the year

Cost of 1 - \$13.47

Total Cost of 25 - \$336.87

28. Books to Grow the Spanish Class Library - La hija del sastre (The Tailor's Daughter)

This book is about a young lady's journey during the Spanish Civil War. It is at an Intermediate Low-High and will work for more advanced students at the end of Sp. II, as well as my Sp. III/IV students. It goes along well with our unit on Spain. It employs high-frequency language that encourages reading comprehension skills

Cost of 1 - \$13.47

Total Cost of 25 - \$336.87

29. **Books to Grow the Spanish Class Library - Robo en la noche (Thief in the Night)**

This book is at a Spanish I level, and goes along very well with our unit on Costa Rica. It is "Novice Mid" and would be perfect to use about halfway through the year. It uses high-frequency vocabulary and encourages emerging reading abilities for beginner students.

Cost of 1 - \$13.47

Total Cost of 25 - \$336.87
