MLA EXPO

25

TELFORD INTERNATIONAL CENTRE

17 - 19 OCTOBER

THANK YOU!

To everyone who visited the **JMA** stand at the **MLA**.

Another fantastic **MLAEXPO25** at the **Telford International Centre**. A busy show, running over three days, **JMA** welcomed many familiar and new faces to the stand. It was brilliant chatting with so many locksmiths, hardware professionals, and key cutters, the passion in this industry never changes.

Our prize wheel was a huge hit, with visitors winning many great prizes. Plus, seeing the buzz around the **Maxus** range featured on its own section of the stand has made all the hard work worth it!

A huge thank you to everyone who visited the stand, took part in the prize wheel, and came to see the new products in action.

The response to **Maxus** and our latest **JMA** machines has been incredible — a real credit to the whole team who worked tirelessly to make this happen.

NEW

A. LT780 - Composite Door Hinge Reset Kit - £62.00

This kit enables quick and easy composite door hinge resetting by a single person in about 5 minutes.

B. LT783 - Composite Door Outside System - £85.00

A system for opening failed multipoint locks on composite doors. This kit is for release on the inside of inward opening doors. Correspondingly, it could also work from the outside for outward opening doors.

C. LT785 - UPVC Slotting Kit - £72.45

For failed multipoint lock mechanisms which cannot be released by the usual methods.

D. LT782 - Advanced Composite Door Inside System Kit - £90.50

The system is an upgrade for opening failed multipoint locks on composite doors. It is only for doors where the wall reveal is less than 30mm from the edge of the door.

E. LT781 - Composite Door Inside System Basic Kit - £67.25

A system for opening failed multipoint locks on composite doors. This kit is for release on the inside of inward opening doors. Correspondingly, it could also work from the outside for outward opening doors.

F. LT784 - UPVC "No Cam" Door Kit - £99.95

This kit is for failed UPVC doors without any rollers or cams. It enables the user to either release or cut the hooks or dead bolts with no to minimal damage to the door or frame.

\ REBADGE

JMA Rebadge, a new electronic device for copying contactless keys. Digital innovation for easy, fast and intuitive copying guided by the JMAREbadgePro app.

\ EIDOS

A digital profile reader for cylinder and security keys that uses AI technology to recognise the most suitable key blanks and ensure professional duplication. After reading the profile of the original key, EIDOS cross-checks it against more than 5,000 keys in the JMA catalogue to suggest key blanks with similar profiles, enabling full size image based comparison.
