Le shopper in cotone sono una valida alternativa al monouso e riducono quindi la quantità di rifiuti prodotti. Per ridurre al minimo l'impatto ambientale abbiamo voluto darti la possibilità di scegliere tra materiali con diverse caratteristiche di sostenibilità.

Cotton shoppers are a valid alternative to disposable items and therefore reduce the amount of waste produced. To minimize the environmental impact we are allowing you to choose between materials with different sustainable characteristics.

Les tote-bags en coton sont une alternative valable au sacs jetables et réduisent donc la quantité des déchets produits. Pour réduire au minimum l'impact environnemental nous voulions vous proposer également la possibilité de choisir entre les matières, présentant des caractéristiques durables différentes.

Las bolsas de algodón son una alternativa válida a las bolsa desechables y por tanto reducen la cantidad de residuos producidos. Para minimizar el impacto ambiental, hemos querido ofrecerle una selección de materiales con diferentes características sostenibles.

RECYCLED COTTON

Il cotone riciclato è realizzato con cotone di scarto che viene trasformato in nuova fibra. Le fasi di coltivazione e produzione della materia prima sono tra le più impattanti nel settore moda e abbigliamento, rappresentando in generale il 38% delle emissioni; utilizzare cotone riciclato, quindi, permette di minimizzare tali emissioni e promuove l'economia circolare.

Recycled cotton is made from waste cotton which is transformed into new fibre. In 2018, cultivation and production of raw materials including cotton represented 38% * of total greenhouse gas emissions of the entire fashion industry: using recycled cotton.

Le coton recyclé est réalisé avec du coton usagé qui vient à être transformé en nouvelle fibre. En 2018, les seules étapes de cultivation et de production de la matière première nécessaire à la création des tissus ont représenté 38% des émissions totales de gaz à effet de serre de l'ensemble de l'industrie de la mode: utilisez le coton recyclé, permet, donc, d'éliminer de telles émissions et de promouvoir l'économie circulaire.

El algodón reciclado está hecho de algodón de desecho que se convierte en fibra nueva. Las fases de cultivo y producción de la materia prima se encuentran entre las de mayor impacto en el sector de la moda y la confección, representando en general el 38% de las emisiones; utilizar algodón reciclado, por tanto, permite minimizar estas emisiones y promueve la economía circular.

I PRODOTTI CARBON NEUTRAL NON CONTRIBUISCONO AL RISCALDAMENTO GLOBALE: LE EMISSIONI COMPLESSIVE DI CO₂ E GAS SERRA SONO PARI A ZERO!

Per rendere i nostri prodotti carbon neutral abbiamo investito in progetti di riforestazione e di produzione di energia rinnovabile (offsetting projects), in modo da rimuovere la stessa quantità di anidride carbonica che è stata emessa durante la produzione.

CARBON NEUTRAL PRODUCTS DO NOT CONTRIBUTE TO GLOBAL WARMING: THE OVERALL EMISSIONS OF CO₂ AND GREENHOUSE GASES ARE ZERO!

To make our products carbon neutral, we have invested in reforestation and renewable energy production projects, in order to remove the same amount of carbon dioxide that was emitted during production.

LES PRODUITS À EMPREINTE CARBONE NEUTRE NE CONTRIBUENT PAS AU RÉCHAUFFEMENT GLOBAL: LES ÉMISSIONS GLOBALES DE CO₂ ET DE GAZ À EFFET DE SERRE SONT ÉGALES À ZÉRO!

Afin de rendre nos produits à empreinte carbone neutre, nous avons investi dans des projets de reforestation et de production d'énergie renouvelable, afin de supprimer la même quantité de dioxyde de carbone qui a été émise durant la production.

LOS PRODUCTOS NEUTROS EN CARBONO NO CONTRIBUYEN AL CALENTAMIENTO GLOBAL: LAS EMISIONES TOTALES DE CO₂ Y GASES DE EFECTO INVERNADERO SON IGUAL A CERO!

Para que nuestros productos sean neutros en cuanto a emisiones de carbono, hemos invertido en proyectos de reforestación y producción de energía renovable, de modo que eliminamos la misma cantidad de dióxido de carbono que se emitió durante la producción.

ORGANIC COTTON

IL COTONE ORGANICO O COTONE BIOLOGICO È OTTENUTO DA UN TIPO DI COLTIVAZIONE CHE NON PREVEDE L'USO DI FERTILIZZANTI ARTIFICIALI E PESTICIDI CHIMICI.

Il tessuto ha quindi la stessa qualità del cotone convenzionale ma l'impatto sull'ambiente è molto più basso.

ORGANIC COTTON IS OBTAINED FROM A TYPE OF CULTIVATION THAT DOES NOT INVOLVE ARTIFICIAL FERTILIZERS AND CHEMICAL PESTICIDES.

Therefore, the fabric has the same quality as conventional cotton, but the impact on the environment is much lower.

LE COTON BIOLOGIQUE EST OBTENU PAR LE BIAIS D'UNE CULTIVATION QUI NE PRÉVOIT PAS L'USAGE DE FERTILISANT ARTIFICIELS ET DE PESTICIDES CHIMIQUES.

Le tissu a donc la même qualité que le coton conventionnel mais l'impact sur l'environnement est beaucoup plus bas.

EL ALGODÓN ORGÁNICO O ALGODÓN BIOLÓGICO SE OBTIENE DE UN TIPO DE CULTIVO QUE NO IMPLICA EL USO DE FERTILIZANTES ARTIFICIALES Y PESTICIDAS QUÍMICOS.

Por lo tanto, el tejido tiene la misma calidad que el algodón convencional pero el impacto sobre el medio ambiente es mucho menor.

FAIRTRADE® COTTON

COTONE COLTIVATO SECONDO RIGOROSI STANDARD

Acquistando i prodotti in questa sezione, contribuisce agli sforzi di Fairtrade per consentire ai produttori di cotone Fairtrade di accedere a significative nuove opportunità di mercato, con la potenzialità di fornire maggiore impatto sociale e ambientale nei loro campi e comunità.

COTTON CULTIVATED UNDER STRICT STANDARDS

By purchasing products in this section, you contribute to Fairtrade's efforts to empower Fairtrade cotton producers to gain access to significant new market opportunities with the potential to deliver major social and environmental impact in their farms and communities.

COTON CULTIVÉ SELON DES NORMES STRICTES

Nos tote-bags avec la marque Fairtrade sont produits en évitant l'exploitation des personnes et de l'environnement: Fairtrade est, en effet, une organisation internationale qui a comme objectif celui d'améliorer les conditions des producteurs agricoles des pays en voie de développement.

ALGODÓN CULTIVADO SIGUIENDO ESTRICOTOS ESTÁNDARES

Al comprar productos en esta sección está contribuyendo a los esfuerzos de Comercio Justo Fairtrade, para permitir a los productores de algodón de Comercio Justo Fairtrade acceder a nuevas e importantes oportunidades de mercado, con el potencial de generar un mayor impacto social y medioambiental en sus campos de cultivo y comunidades.

CORCHO

Il sughero è la corteccia della quercia del sughero. L'albero non viene tagliato, ma viene spogliato della corteccia che, poi, si rigenera sul tronco autonomamente.

Cork is the bark of the cork oak. The tree is not cut but only decorticated and the bark independently regenerates itself. Cork is biodegradable and recyclable.

Le liège est l'écorce du chêne-liège? L'arbre n'est pas coupé mais vient à être dénudé de l'écorce, qui se régénère automatiquement sur le tronc. Le liège est biodégradable et recyclable.

El corcho es la corteza del alcornoque. El árbol no se corta, sino que se le quita la corteza, que, luego el propio árbol regenera por sus propios medios.
