

STRENGTH IN BEAUTY

HIGHLAND
FORGE

Custom Drapery Hardware

Highland Forge products are made of steel, to last, with the attention to detail that leads to strong, non-sagging hardware and smooth installations.

Our authenticity of material, design sensitivity, and understanding of aesthetic and functional demands of customers is what makes Highland Forge the choice for custom rods, finials, brackets, rings, and other drapery hardware.

Rods

**Straight
Ends with
Finials**

**French
Curved
Return**

**French
Mitered
Return**

- Our high-strength, non-telescoping rods can achieve long spans with minimal brackets and are customizable to include straight ends (for use with finials), French curved returns, or French mitered returns
- Available in steel and stainless steel
- Our French return rods fit flush against your wall and have flawless bends with zero deformity. Our mounting brackets allow for easy installation. Double rods with returns are available upon request

See *additional rod information on page 21*
