OLD SCHOOL LED DRIVING LIGHT 9"

✓ TIMELESS RETRO DESIGN

This timeless design will never go out of style. Every part of it is designed with the utmost attention to detail. The reflector's design boosts the white and amber position light and spreads a diffused, indirect glow. The position light also draws attention to the illuminated Strands logo in the lens. When not used, the position light is invisible in the lens.

NUUK D-LINE LED BAR

Part No. 5809451 - 5809454

✓ BENEFITS OF XPERIENCE MODE

The Nuuk D-Line was developed with design and ease-of-use foremost in mind. We wanted to achieve a single-row LED bar with flawless contemporary lines and design that is lightweight and easy to install. The beam pattern should be superb and perfectly tailored to boost the high beam, adding range and brightness. We added the Xperience mode, a powerful feature, so you can adapt quickly to changing weather conditions. The E-mode dramatically improves the range of the built-in high beam and is E-approved R148/149, suitable for European roads or driving in rainy or snowy weather, lessening the glare from water particles.

19 600 LUMEN

NEW

✓ CONTEMPORARY DESIGN

The duo-color position light in white and amber adds an attention-grabbing touch, underlining the dark look of the housing and lens. The glowing line is a stylish statement. Any driver can achieve increased safety and visibility with 10" - 40" LED bar models, Xperience mode, and optimized or extended beam patterns. The increased sight ahead will improve your reaction time when encountering animals or other difficulties on the road.

DARK KNIGHT ✓ SM6

INCREDIBLY SLIM

Now, you can achieve the most streamlined look you've ever seen. A depth of only 8 mm makes the SM6 position light perfect for achieving a smooth look. As it's available as a side marker and red and white position light, you can get an undeniable style around your vehicle. It measures 120x8x28 mm with 110 mm CC, and a 600 mm cable makes it easy to install anywhere.

✓ GLOW AND DARKNESS

The 6 LEDs produce a powerful glow, guaranteeing high visibility and eye-catching style. Thanks to the incredibly low power consumption, 0,9-3,3 W, you can install as many as you like without draining too much power. The SM6 is E-approved ECE R148 and EMC-certified ECE R10.

✓ DARK KNIGHT

Release your dark side with the Dark Knight range—defined by its power, dark style, and design. The dark lens of the SM6 blends perfectly with the look of any truck and creates an exclusive style from every angle. The Dark Knight's darkness makes an eye-catching contrast to the brightness of its lights. But the SM6 is more than just stylish. The durable materials ensure high corrosion resistance, and the IP69K rating guarantees its longevity even when installed in exposed positions on the truck.

DARK KNIGHT STROBE LIGHT DUO

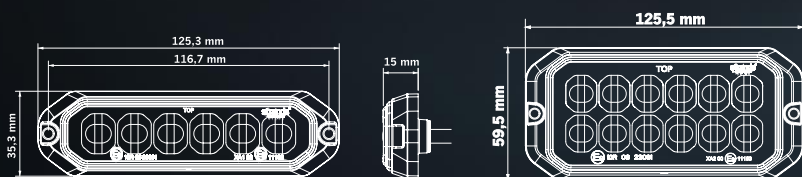

Use the QR code to
check out the products.

✓ THREE E-APPROVED OPTIONS

Choose between a single (6 LEDs), double (12 LEDs), or a triple row (18 LEDs) light. The optics are designed to emit the most powerful and efficient light output, giving you an intense and precise beam.

✓ DUO COLOR AND SUPER-DARK LENS

The Dark Knight strobe light has two flashlight options: amber and white. While the flashes are incredibly strong, the super-dark lens gives it a smooth and stylish look when not in use.

FOR9T SCALE

SIDE MARKER & POSITION LIGHT

The FOR9T series embodies everything Strands: passion, functionality, cutting-edge design, and our commitment to providing the best product for every driver every day. Our drive for innovation is mirrored in the unexpected design of the FOR9T position lights. With a diverse range of FOR9T products, you can achieve a comprehensive and stylish look for any vehicle.

EYE-CATCHING DETAILS

This new way to use position lights will surprise you with a look you've never seen before. The spreading lines of the position lights pull you in and through a portal to the future. Enhance your truck with the mesmerizing look of a white, amber, or red position light.

VOLTAGE 10-40V DC

In addition to a size that makes the FOR9T scale a good fit for any vehicle, it operates at 10-40 V DC. The wide range and the 116,5 x 54 x 22 mm size and CC 90mm ensure a good fit anywhere.

FOR9T NO-GLARE

The lens's groundbreaking configuration gives the FOR9T No-Glare work light an exceptional, user-friendly light output that prevents tired eyes. Thanks to the textured upper part of the lens, the upper part of the beam is softened while the lower maintains its brilliance. The result is a strong illumination that doesn't dazzle your eyes and focuses on the task ahead. FOR9T No-Glare is available in 31 or 78 W models.

UNITY EDGE

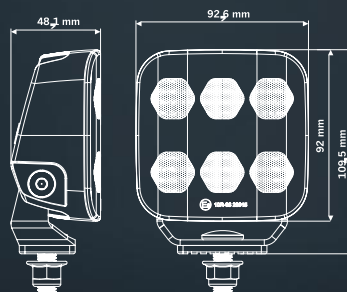

Part No. 5809276

€ 49,00 excl. VAT / € 59,78 incl. VAT

✓ ZERO WASTE LIGHT AND NO-EDGE LENS

The wide and even output is optimized using Zero Waste Light technology, minimizing shadows and eye strain. Unity Edge is updated with a No-Edge lens design, which helps to widen the beam and direct water away from the front of the lens.

✓ HIGH POWER, LOW CONSUMPTION

With a powerful flood beam, the Unity Edge will illuminate your workspace with a force of 3940 actual lumens and a color temperature of 5700 K. It uses only 37 W, so there is no need to worry about power consumption. The range of 67 meters is an incredible feat for such a small light. It's EMC certified ECE R10, CISPR25 Class 3.

Use the QR code to check out the products

✓ UPDATED EVERYDAY WORK LIGHT

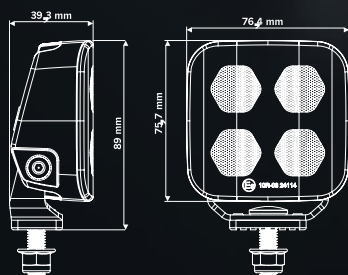

Its small size and big power make it a perfect companion for everyday use. It will fit any vehicle thanks to the 150 mm cable with DT-2 connector and can easily replace old or worn-out lights.

Part No. 5809275

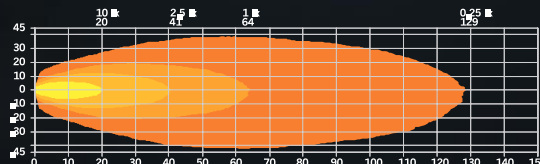

€ 39,00 excl. VAT / € 47,58 incl. VAT

✓ SMALL AND STURDY

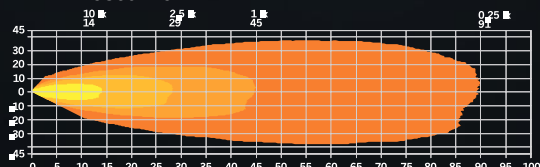

The Unity Edge is small enough to fit in your hand. But don't let the small size fool you. It's IP-rated IP68/IP69K and made from sturdy materials, guaranteeing a long-lived product in any weather.

SIDE WINDOW DEFLECTORS

Veopro OY side window deflectors are produced out of high quality 3mm cast acrylic.

They eliminate fog and ventilate smoke while keeping rain out of the cabin.

3 mounting methods, best mounting option is available for every truck :

- 1 - Mounting between the window and window's rubber gasket
- 2 - Mounting with double sided adhesive tape
- 3 - Mounting with stainless steel clips

SUNVISORS

SUNVISORS FOR LIGHT COMMERCIAL VEHICLES

Our sunvisors are produced from high cast acrylic and the brackets are made from black steel which are first zink-coated and then powder painted. Made with new rigid mounting system to prevent vibration. Easy to fit with no holes to the roof. Side brackets are mounted with self tapping screws and glue on the A-pillar.
