A CURATED SELECTION OF STAYS

Crafted by ASEV Travel

At ASEV Travel, accommodation is more than a service — it's an essential part of the traveller's journey. Each property featured in this collection has been carefully selected by our in-country teams for its character, comfort, and alignment with our values: **sustainability, authenticity, and adaptability.**

From eco-retreats rooted in local communities to charming mid-range hotels and premium luxury options, our selection is designed to meet the needs of both individual travellers (FIT) and group tours (GIT). Sustainability is at the core of our approach: we prioritize partners who contribute positively to their environment and community.

Our mission is to provide places that enhance the travel experience — places that are not just where the journey pauses, but where it deepens. This catalogue is your guide to our trusted hotel partners across Laos, Cambodia, and Vietnam — organized by type and service level to help you plan with confidence.

Sustainability Labels

Some of the accommodations in this catalogue carry recognized certifications such as

TRAVELIFE

An international certification for hotels committed to sustainability in environmental, social, and economic practices.

ASEAN GREEN HOTEL

A regional label recognizing properties that meet high environmental standards and contribute positively to local communities.

ASEV SUSTAINABLE PARTNER

Our in-house badge that highlights hotels and partners aligned with ASEV Travel's core values of **environmental responsibility, cultural respect, and community engagement.**

These labels help you identify hotels that go beyond comfort — and actively protect the destinations we operate in.

VIETNAM COLLECTION

HANOI

Silk Path Luxury Hanoi

Number of Rooms **106**

Suitable for **FIT**

Why Sustainable?

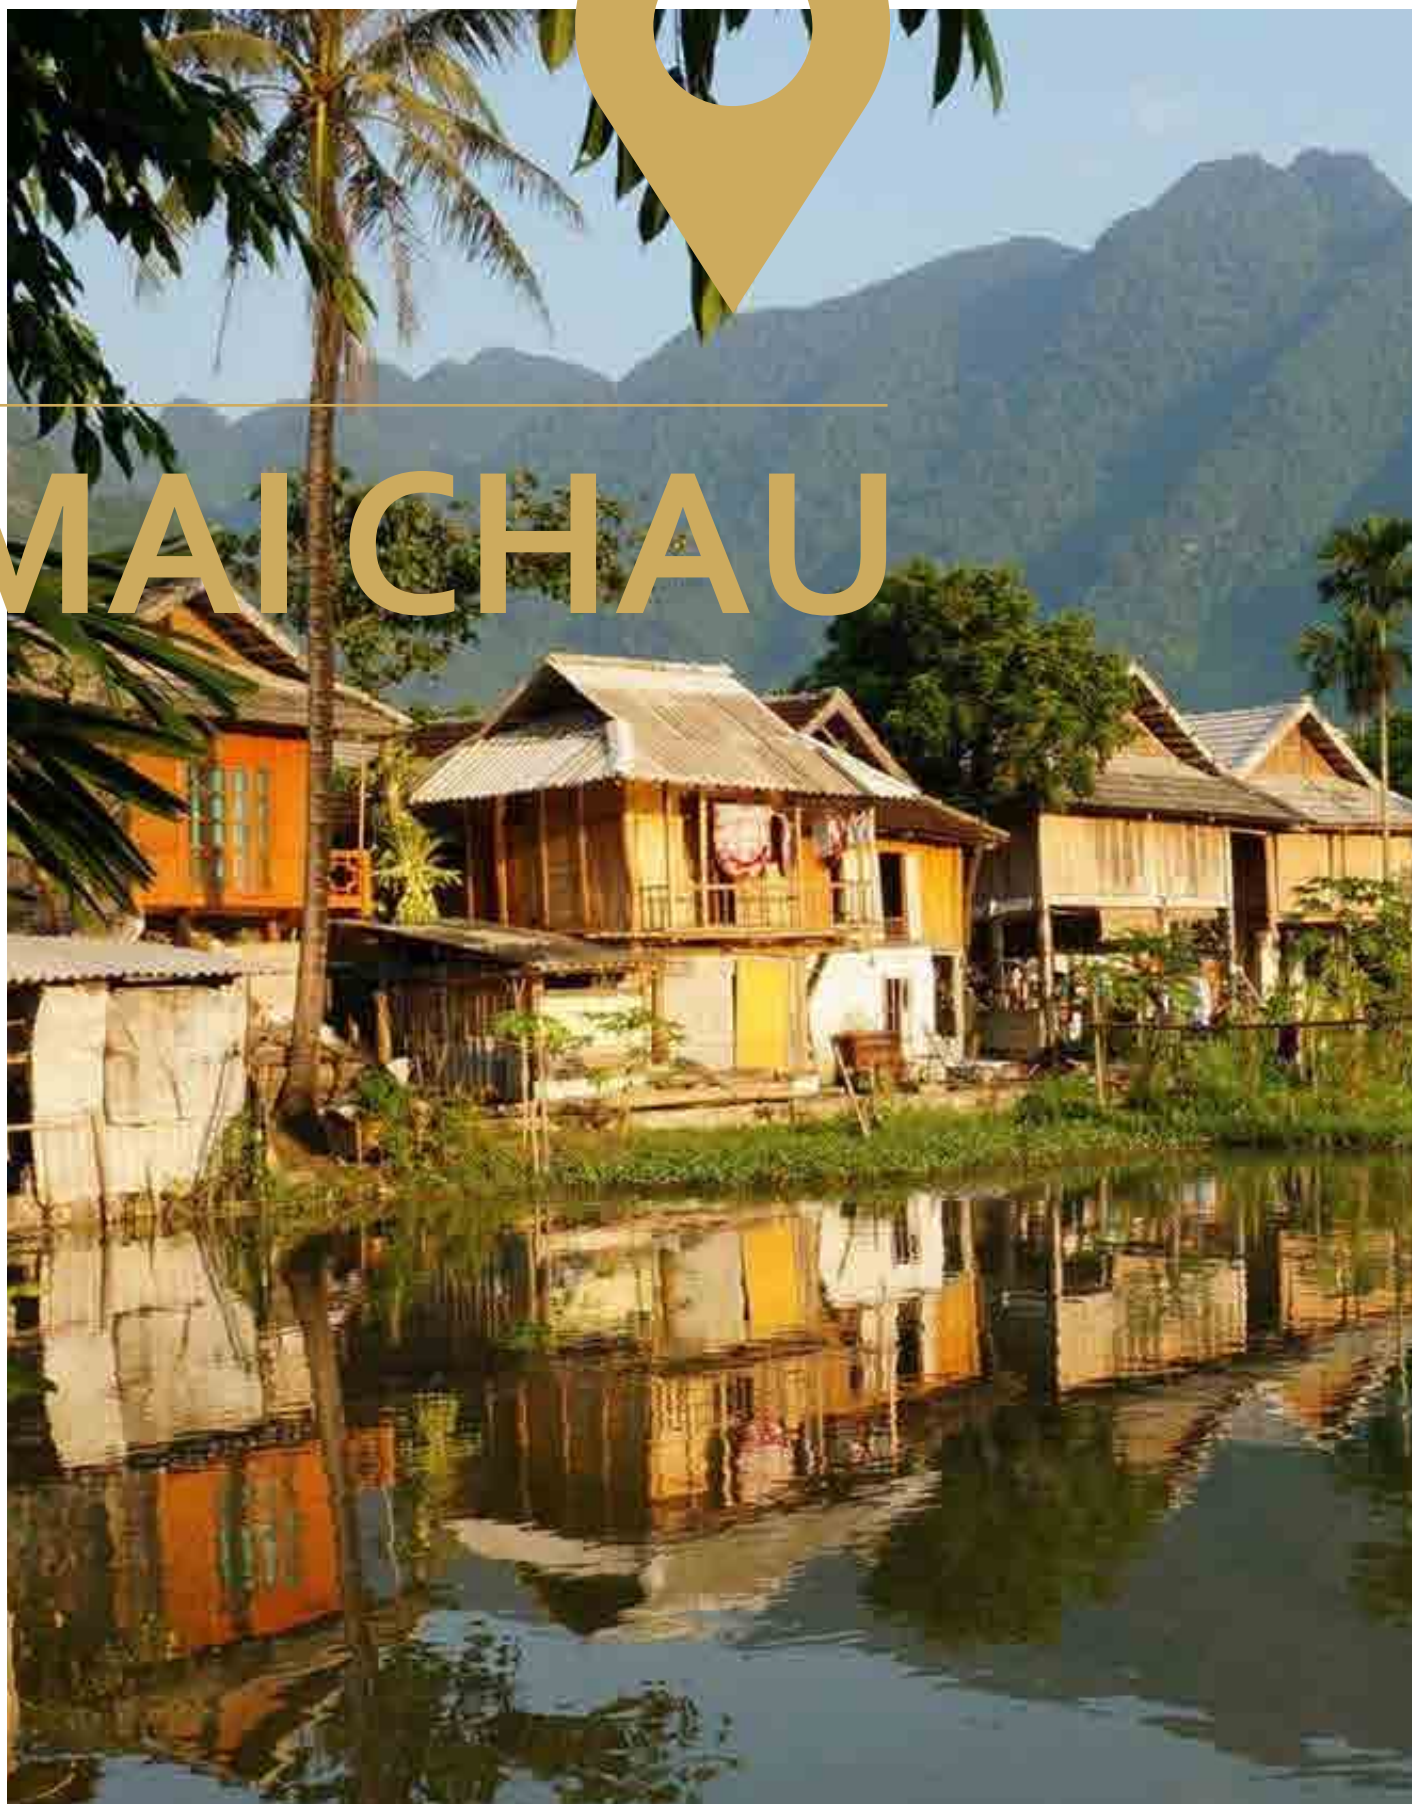

Energy efficient lighting
Recycling and foodwaste
reduction program

Towel and linen reuse
Sustainable sourcing

MAI CHAU
