ARMCHAIRS

SOURCEBYNET

Furniture that builds brands

INSPIRATION & TREND

This collection of armchairs takes its **inspiration from** MC & Co trend briefs, Milan trend reports as well as the Trend Bible A/W 26/27 brief.

We are inspired by the direction of contemporary Bauhaus with calm foundations and bold, refined accents as well as the mood which speaks to those who seek calm, enduring spaces that reflect an air of assured elegance.

Consumer trend reports (Intel, Euromonitor international) all report the growing need for **places that allow calm and clarity**. We are turning to interiors as a form of retreat from an overstimulated world. This new wave of minimalism isn't about strict coldness; it's about **soft, liveable simplicity**.

MATERIALS

We see **tan leather** being dominant in trend briefs and Milan. And leather is the perfect combination with chrome as you will notice with several of the armchairs. In general, the **combination of matte and shiny** was a look spotted many times at Milan.

Another strong tendency with upholstery is **velvet** and velvet applies to both sofas and chairs in deep hues like forest green, coffee brown and burgundy or for the more subtle earthy colours.

We continue to see **darker woods** like smoked oak or walnut across all design trends.

FEATURES

- Bauhaus modernism trend
- Masculine design with the heavy and structured cushions and folded armrest details in tan leather
- Continuous tubular steel structure gives the chair a floating presence
- Classic tan leather adds warmth to any setting
- It's easy to style with both modern and classic interiors
