- Pro Arena is 2x more rewarding than Draft Arena, while Extreme Arena is 3.5x more rewarding than Pro Arena.
- In any arena, a player can expect the next rank above to be 30% to 60% more rewarding.
- Overall, the **higher the Player Rank and Voxel Team Rarity, the more Direct VOXEL Rewards, VOXEL Bonus Bags, and Voxel Items** can be won.

### Mobile Version Update

- The team plans to roll the Mobile version out in test phases very soon to the Voxies community as a Closed Beta through special invitation. The team is working to bring the game to the App Store and Google Play as soon as possible.

## Discord AMA with AlwaysGeeky Games Team

The AlwaysGeeky Games team held a Discord AMA with the community on December 18<sup>th</sup>, covering the Champions Tournament, Winter Forge, Mobile Version release and the updated VOXEL rewards.

**Listen to the  
AMA Recording**  
(Voxies Discord)

### Champions Tournament

- The team discussed the Champions Tournament Wrap-Up covered in [A Letter From Steve](#).
- The team pointed out the points they have learned during the tournament, such as the owners and players sharing the leaderboard, the grinding aspect, and delayed rewards. They also appreciate the community engagement and feedback which helped them learn from the event.
- The tech used in the tournament and the new reward methodology were noted to be reusable in future events. The event was a great opportunity to test the new tech and try out different ideas and game modes to lay down the foundations for the future. The team also highlighted the release of new products and services such as the live leaderboards of the different arenas (tournament arena points and rank) available in the Marketplace launched at the start of the tournament.
- Leftover VOXEL rewards from disqualified players who were not playing fair during the tournament will be rolled up proportionally to the qualifying players when the rewards are sent out in the week of January 20<sup>th</sup>.

### Winter Forge

- The team discussed the [Winter Forge update](#) which introduced new winter-themed items and new set bonuses.
- Brad noted the bonus ability from completing the new sets, the Black Mage's Glacier ability, which can be utilized by classes such as Priest and White Mage who don't deal much damage. The set bonus ability can also be stacked with other items with abilities such as The Voxie Torch to provide a Voxie with a variety of useful abilities.
- Brad pointed out that the new Snow Man pet is really good and hinted that it might be valuable in the upcoming Pet Ranch system.
- Existing items such as the Reindeer pet and the Snowball Launcher gun are also included in the new sets, which also return as rewards in the Ice Cube loot box. Hippolyte pointed out that forge updates might get released more regularly like every 1.5 to 2 months and pre-existing exclusive items can return along with new items as forge rewards but with a lower chance to be dropped.
- The new Snow Strider boots is useful for the Pro Arena as it is the only rare rarity item which gives +1 movement stat.
- New gameplay elements that will be introduced in the future will add value and utility to old items that have fallen out of popularity because of better items being released. The set bonus mechanic is a great way for the team to rebalance these items without changing their stats.

## Discord AMA with AlwaysGeeky Games Team (Continued)

### Mobile Release

**Apply for Voxie Tactics Mobile Closed Beta!**

- The community can now fill out the form to join the Voxie Tactics Mobile Closed Beta! Initially it will be invite-only then will continue all the way through the full app store release of the mobile version. Players that will play the Closed Beta will help the team test the first release of the mobile version.
- The mobile version has been worked on by the team for a long time and has been played by the team internally.
- The mobile version will be the same as the PC version of the game, with some nuances on the interface and UI but having the goal of one-to-one comparison with the PC version. Both versions will share the game modes and arenas (i.e., cross-platform) and updates to the game will apply for all available platforms.
- A new in-game currency will be introduced in the mobile version in order to have monetization for web2 players. This currency can eventually be converted into VOXEL. This will allow the game to cater to web3 and web2 players.

### VOXEL Rewards

- The new VOXEL reward system after the Champions Tournament is a mix of the VOXEL Bonus Bag and the pre-tournament Direct VOXEL rewards, having the goal of getting a more balanced ecosystem and to ensure long-term sustainability. The revamped rewards are detailed in [A Letter From Steve](#).
- The team is always looking to improve the reward system for the longevity of the game and for the benefit of everybody involved in the ecosystem. This effort includes the Voxie Bounty system from the Unity launch to reward game participation and the change in rewards during the Champions Tournament.
- The focus is on rewarding competitive play and aiming for the top of the leaderboards. Measures have been and will continue to be taken to discourage only farming/grinding the game and not actively competing, multi-accounting and win-trading. One such measure is that Trainee ranks are not eligible anymore for Direct VOXEL rewards. The team is actively banning/removing bad actors and abusers.
- The team is aiming for a new way to get rewarded in the game in Q1 2025.

### Leaks for 2025!

- PvE, new lore characters, Titan Arena, Shadow Sword, Boombox, Pocket, Grumblers
- New ways to utilize classes and new abilities
- Mac version launch
- Pet ranch, custodial wallets, guild services
- New game modes and new lore-based gameplay

### About The Author

**Moonscaper** here! I'm a Voxies and Voxel Tactics Items NFT holder and I've been a part of the Voxies community since June 2021.

While I was drawing the hilarious-looking bards for the art contest, I remembered wondering why a lot of the Voxies in the Class library are wearing different armor than the ones that we're used to. Like the library Bard wearing the yellow-purple costume vs the existing green-black Jester armor set. Are they new armor items/slots to be released, or are those Voxies actually lore characters to be introduced in 2025?
