## Celebrates 2025 Economic Development Week

Laredo, Texas – The Laredo Economic Development Corporation was proud to announce its participation in the 2025 Economic Development Week, which took place from May 12th–16th. This global initiative, led by the International Economic Development Council (IEDC), recognizes and honors the essential work of economic developers and their contributions to fostering vibrant, resilient communities worldwide.

"The future of economic development is centered around collaboration and partnerships," said IEDC president and CEO Nathan Ohle. "Economic Development Week is an opportunity to celebrate and lift up the stories of economic development happening throughout the world. At the heart of this year's Economic Development Week are stories of collaboration and partnership, and how the field of economic development works together to support, cultivate, and drive economic prosperity for place of all sizes, in every region in the world."

The IEDC created Economic Development Week in 2016 to recognize the work that EDOs and professionals do in their communities. IEDC celebrates Economic Development Week every year, highlighting the programs, best practices, and exceptional individuals that positively impact life in their communities. In just a few years the event has become one of the most widely recognized awareness weeks of its kind, validating the—often unheralded—work of the economic development profession.

IEDC President & CEO David A. Stedman emphasizes "for the Laredo Economic Development Corporation (LEDC) and MileOne – International Business Assistance Center (M1-IBAC), #EconDevWeek has transformed into a meaningful celebration that showcases our economic development efforts. These initiatives involve broadening the tax base through capital investments, along with generating and preserving jobs by fostering new or expanded businesses and encouraging vibrant entrepreneurship. Additionally, this event provides an opportunity to express appreciation for the continuous support from our members and partners, highlighting the valuable collaborations that have fostered positive change!"

These partnerships include the City of Laredo, Webb County, Workforce Solutions for South Texas and other vital organizations that are committed to fostering innovation, growth, and sustainable change in our community. As the Laredo region progresses, the Power of Partnerships illustrates the necessity of uniting efforts to create a brighter future for everyone.

As the community gathers to celebrate #EconDevWeek, the spirit of collaboration and shared vision for the future will undoubtedly resonate, reinforcing the importance of working together to build a thriving and resilient economy. This celebration is not only a reflection of past success but also a beacon of hope and inspiration for what lies ahead.

Its vision statement, the LEDC is an organization defined by its visionary leadership, recognized for its integrity and contributions towards the economic development and vitality of Los Dos Laredos.

The LEDC was first certified as the 17th Accredited Economic Development Organization (AEDO) in the nation, [first in Texas](#), by the International Economic Development Council (IEDC) in 2000. The LEDC has maintained its international standing with its most recent re-certifications in 2014, 2018 and 2022, and is 1 of only 74 in the nation as an accredited economic development organization out of more than 9,800 in the country.

In addition, the LEDC and MileOne were nationally recognized in 2023 with 2 Silver Awards at IEDC's Excellence in Economic Development Award ceremony in Dallas, Texas for its annual "Innovation in Economic Development Week" and "Entrepreneurship" (MileOne) programs, respectively. It is to say that these awards are not easy to obtain, the LEDC and MileOne staff have worked diligently to stand out at the national level.

Since 2011, the LEDC has played a crucial role in enhancing the community's economic landscape. It has successfully facilitated close to \$1.5 billion in capital investments, leading to the creation of more than 6,600 new jobs, the retention of over 500 positions, and an increase of over \$239 million in new expansions.

These achievements highlight the LEDC's commitment to fostering economic growth and sustainability within the Laredo and Webb County region. The organization's strategic initiatives have not only attracted new businesses but have also supported existing enterprises, ensuring a resilient economic infrastructure.

Since opening in December 2017, MileOne has made a significant impact by assisting over 7,000 entrepreneurs and small businesses. We have proudly served more than 525 members, contributed to the creation of 700 jobs, and incubated over 170 new businesses.

Through our various programs and memberships, including the Launchpad Incubator, Business Incubator, International Incubator, and Co-working spaces, MileOne is committed to supporting the growth and success of the small business community.

There's no doubt the community's transformation over the past decade is a testament to the power of strategic planning and collaborative effort, showcasing how targeted investments can lead to substantial economic benefits. Through these efforts, the LEDC has helped position Laredo as a vibrant hub for commerce and industry, drawing attention from national and international investors.
