公司优势 | Company advantages

● 工艺成熟

我们的生产工艺经过多年优化改进，产品品质、上机充填率行业领先。

The process is mature, our production process has been optimized and improved over the years, and the product quality and filling rate are leading in the industry.

● 设备先进

我们车间的净化温控系统、溶胶系统、制囊系统均为自研改进设备，更适宜植物胶囊、可确保持续稳定生产。

Advanced equipment, purification temperature control system, sol system and sac system in our factory are all self-developing and improving equipment, more suitable for plant capsules, ensuring continuous and stable production.

● 坚持高起点、规模化

使我们的产品品质、生产成本、供货能力同时达到行业领先。

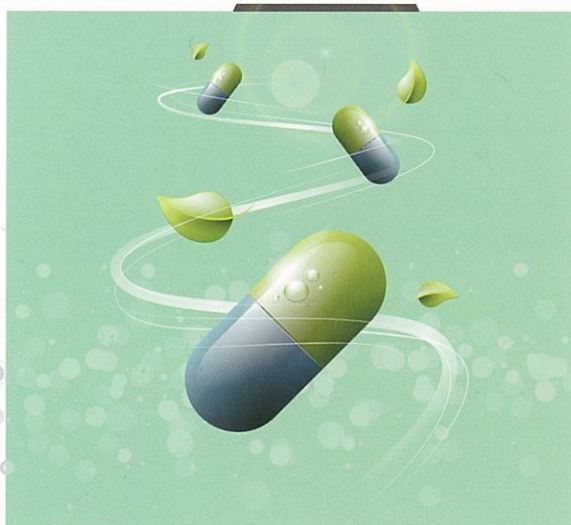

Adhere to a high starting point and scale, so that our product quality, production cost and supply capacity can simultaneously lead the industry.

产品外观优秀；充填平稳、上机充填率达99.9%；
供货质量批间一致性好。

The appearance of the product is excellent; the filling is
stable, and the filling rate of the machine is 99.9%;
The quality of the supply is consistent.

同类产品，行业内价格竞争力强。

Similar products, the price competitiveness in the
industry is strong.

满足各类宗教文化诉求，
我们的产品已通过犹太（KOSHER）、清真（HALAL）认证。

Meet the needs of various religious cultures,
Our products have been certified by KOSHER and HALAL.

产品优势 | Product advantages

植物来源，更安全，更符合现代健康理念。

Plant resource, much more safe and more in line with modern health concepts.

精选原料，无农药残留，无转基因成分，不含防腐剂，不用环氧乙烷消毒无致癌物质残留。

Selected premium raw materials, no pesticide residues, Non-GMO ingredients, no preservatives, no ethylene oxide disinfection, no carcinogen residues.

原料选材 Raw material

水分含量低，水分敏感药物适用；不会因外界因素或内填药物影响出现脆碎、黏连、软化变形等问题。

Low moisture content, suitable for moisture sensitive drugs; no problems such as friability, adhesion, softening and deformation due to external factors or internal filling drugs.

材质稳定，不会与内容物发生交联反应，崩解性能不因存放时间改变。

Stable material, no cross-linking reaction with content, disintegration performance is not changed due to storage time.
