I've had a lot of roles in my life but one of the best is being April's Grammy. And now we get to experience it again! So excited for our family's new addition in February 2018. Anna Wasserman Dan Wasserman

Pregnancy Q&A

Q: Should I have a baby after 30?

A: No, 30 children is enough.

Q: I'm two months pregnant now. When will my baby move?

A: With any luck, right after he finishes college.

Q: What is the most reliable method to determine a baby's sex?

A: Childbirth.

Q: My wife is five months pregnant and so moody that sometimes she's borderline irrational.

A: So, what's your question?

Q: My childbirth instructor says it's not pain I'll feel during labor, but pressure. Is she right?

A: Yes, in the same way that a tornado might be called an air current.

Q: When is the best time to get an epidural?

A: Right after you find out you're pregnant.

Q: Is there any reason I have to be in the delivery room while my wife is in labor?

A: Not unless the word "alimony" means anything to you.

Q: Is there anything I should avoid while recovering from childbirth?

A: Yes, pregnancy.

Q: Do I have to have a baby shower?

A: Not if you change the baby's diaper very quickly.

Q: Our baby was born last week. When will my wife begin to feel and act normal again?

A: When the kids are in college.

Bundle up: Looks like we're headed for a cold and extra snowy winter.

Experts say this winter is going to be pretty brutal

Meteorologists are predicting an above-average snowfall will bury the Northeast, with subzero temperatures chilling the Plains.
