

## Volatile Organic Compounds – PCP (pentachlorophenol)

QUALITÄTSGEMEINSCHAFT HOLZWERKSTOFFE E.V.

### CERTIFICATE

The Manufacturer: **wodego GmbH**

**92318 Neumarkt / Germany**

is under external supervision of particleboard regarding Pentachlorophenol (PCP). According to our statutes of supervision this PCP-value is examined twice a year by an independent and certified institute.

Date of sampling: **24 October 2007**

Standard / Product type: **wodego – P3**  
P3 according EN 312: Non load-bearing boards for use in humid conditions

The test results attest the requirements. \*)

Secretary  
  
Dr. Peter Sauerwein

Gießen, 28 February 2008

\*) According to the German Regulation of the Prohibition of Pentachlorophenol (Pentachlorophenol-Verbotsverordnung (PCP-V)) dated 1989 resp. the German Regulation on the Prohibition of Chemicals (ChemVerbotsV), article 1, chapter 15, dated 2003 products which are prepared with a mixture containing PCP or PCP based compounds are not allowed to be offered for sale if the treated parts contain more than 3 mg/kg (ppm) of these chemical substances.

During their General Assembly on 18.09.1997 and the confirmation by the quality committee on 11.02.1998, the former "Gütegemeinschaft Spanplatten e. V." fixed for their own members a limit value of 3 mg/kg PCP and for Lindane of 1 mg/kg. These values were accepted by the new "Qualitätsgemeinschaft Holzwerkstoffe e. V." on June 2005
