BEAVERSWOOD®

making the workplace work smarter

Visual Management Solutions

About Us

We are Beaverswood®

We make the workplace work smarter with our range of visual management products, suitable for lean manufacturing and 5S - or any workplace that needs to be safe, productive, and in order.

Simple Products, Big Results

The beauty of our products is their quality and simplicity - simple to install and simple to use - ensuring you get the best performance from day one.

Our Story

Since 1984 Beaverswood® has been involved in the design, manufacture and development of alpha-numeric labelling systems for quick and easy identification of products and locations. Beginning humbly in a small bedroom - with just one product - our self-adhesive numbers and letters.

Quality Assurance Policy

Meeting and exceeding the high standards expected of our customers calls for a systematic and disciplined approach by all employees to the principles of Quality Assurance. That's why we have an established Quality Management System based on the requirements of BS EN ISO 9001:2015.

UKWA Membership

We are a member of the UKWA - the leading trade organisation for the warehousing sector.

We are part of IWS Group

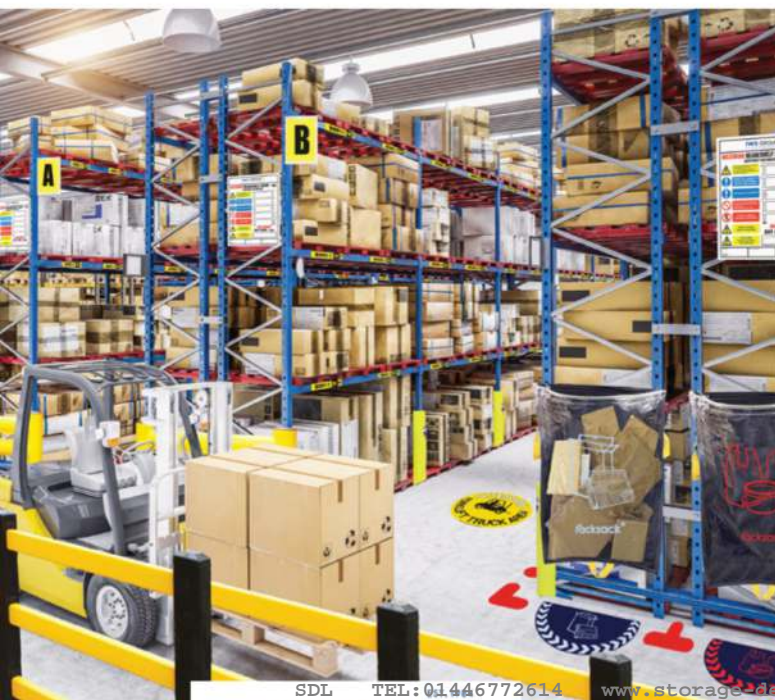

A family of specialist industrial product owners, manufacturers and service companies, each of which are market-leaders in their niche.

Collectively, the group's range of products and solutions cover workplace safety; impact protection; racking safety solutions and protection; storage; recycling; 5S and visual communications.

Installation Service

Our fully trained in-house team of labelling installers offer a professional, high-quality service throughout the UK. [See more info on page 28.](#)

Our Brands

Each of our product brands has its own history and personality, but they all have one thing in common – making the workplace work smarter!

racksack® is the original waste segregation solution. Instead of a standard industrial floor bin, racksack® hangs from end-of-aisle racking. The clever design ensures it doesn't encroach on valuable floor space even when full, helping you utilise your warehouse space more effectively.

frames4docs® are a unique range of colour-coded frames designed for easy and prominent document display. Perfect for use in offices, shops, libraries and throughout the workplace to display all types of literature, certificates and information.

Modulean® has taken away the need (and the headache) for custom shadow boards, by creating a genius range of standard boards that are widely used across the workplace, removing a great deal of expense and time that's associated with purchasing shadow boards.

A range of coloured document pockets, perfect for 5S and lean management systems. They're available in 5 colours to transform plain notices into eye-catching displays.

Hold-All® ring binders for walls are ideal for keeping those important documents not just clean and tidy but also all in one place, helping to create a central information point.

Rack Armour®'s innovative design and functionality has revolutionised racking protection and provides a proven 80% reduction in damage levels – saving time, money and hassle.

Bespoke Solutions

As a manufacturer, we excel at bespoke solutions. In fact, 40 – 60% of all products we supply are bespoke requests, tailored to meet the unique needs of customers.

Whether we're designing and producing products from scratch or modifying existing products to suit specific requirements – we're ready to tackle the challenge!

Become a Reseller

We're dedicated to helping our resellers succeed by providing superior products, specialist support, and best-in-class service.

Many of our resellers have been in business with us for over 20 years. We're proud of that. When we ask them why, they tell us it's because we're responsive, knowledgeable, and our service levels are outstanding.

Beaverswood® has been making the workplace work smarter since 1984. We manufacture innovative products that improve the efficiency, safety, and sustainability of the physical workplace. The beauty of our products is their quality and simplicity – simple to install and simple to use. This makes their features easy for your sales team to understand and demonstrate, while your customers can easily see the benefits they'll bring to their workplace.

Now, with over 35 years' experience and over 2,000 SKUs across 30 product groups, we continually strive to innovate simplified solutions.

Our product range includes: warehouse ID, tickets and labelling, magnetic tapes, floor marking, document display, shadow boards, racksack® waste segregation, storage and impact protection.

Tickets & Labelling

Organise your racking, shelving, and storage locations with Beaverswood® premium quality tickets and labelling solutions. These products are simple to install (thanks to self-adhesive and magnetic fixings) and deliver reusability and scannability to keep your operations running smoothly.

Although perfect for warehousing, our labels suit many other workplaces that require clear identification systems, such as offices, shops, schools, retail, packaging, factories, and 5S and lean manufacturing environments.

Angled Ticket Holders

- ➔ Provides the perfect angle to read information and scan barcodes, even on the lowest shelves
- ➔ Strong adhesive tape strip, perfect for fixed locations
- ➔ Ideal for warehouses, retail, supermarkets, etc.
- ➔ Available in two angled options: 106° and 126°

Self-adhesive

This ticket holder hangs at an angle from the shelf to ensure optimum visibility, allowing operatives or customers to get a clear view of the information within.

Manufactured from clear PVC, barcodes are easy to scan through this holder without removing the insert. Additionally, the strong adhesive backing is perfect for permanent locations.

Supplied with blank white card inserts (pre-printed inserts can also be supplied – please get in touch!)

ATHS310	126°	39mm x 100mm	100
ATHS320	126°	39mm x 200mm	50

➔ For non-standard lengths please contact our sales office.

Self-adhesive Ticket Holders

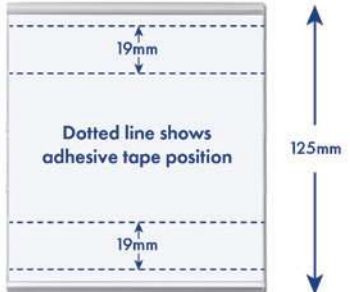

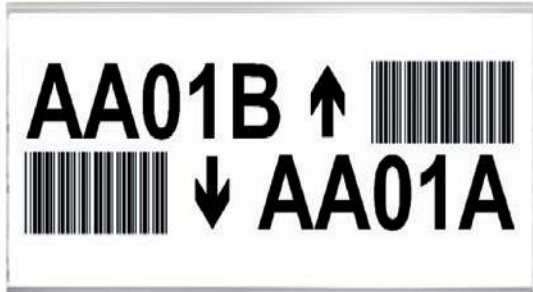

- ➔ Ideal for fixed locations but inserts offer the ability to change data
- ➔ Pull forward front allows easy loading and updates of information
- ➔ Industrial, heavy duty strength
- ➔ Barcodes can be scanned without removing the insert
- ➔ Pre-cut sizes from stock

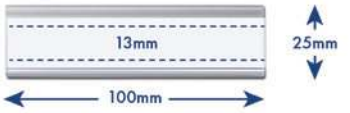

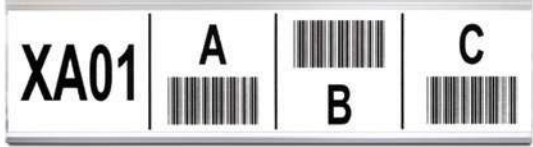

With a choice of 5 heights and up to 3M lengths, this clear PVC strip is supplied with an aggressive adhesive backing for permanent locations. Simply remove the yellow strip and stick into position.

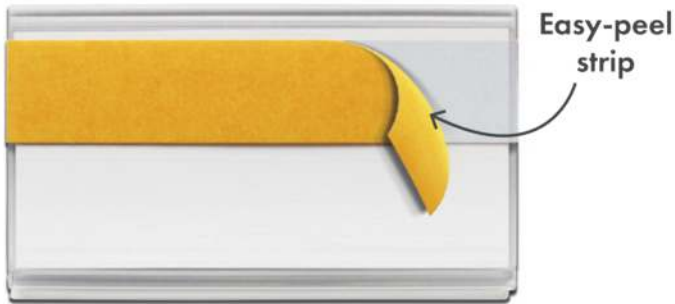

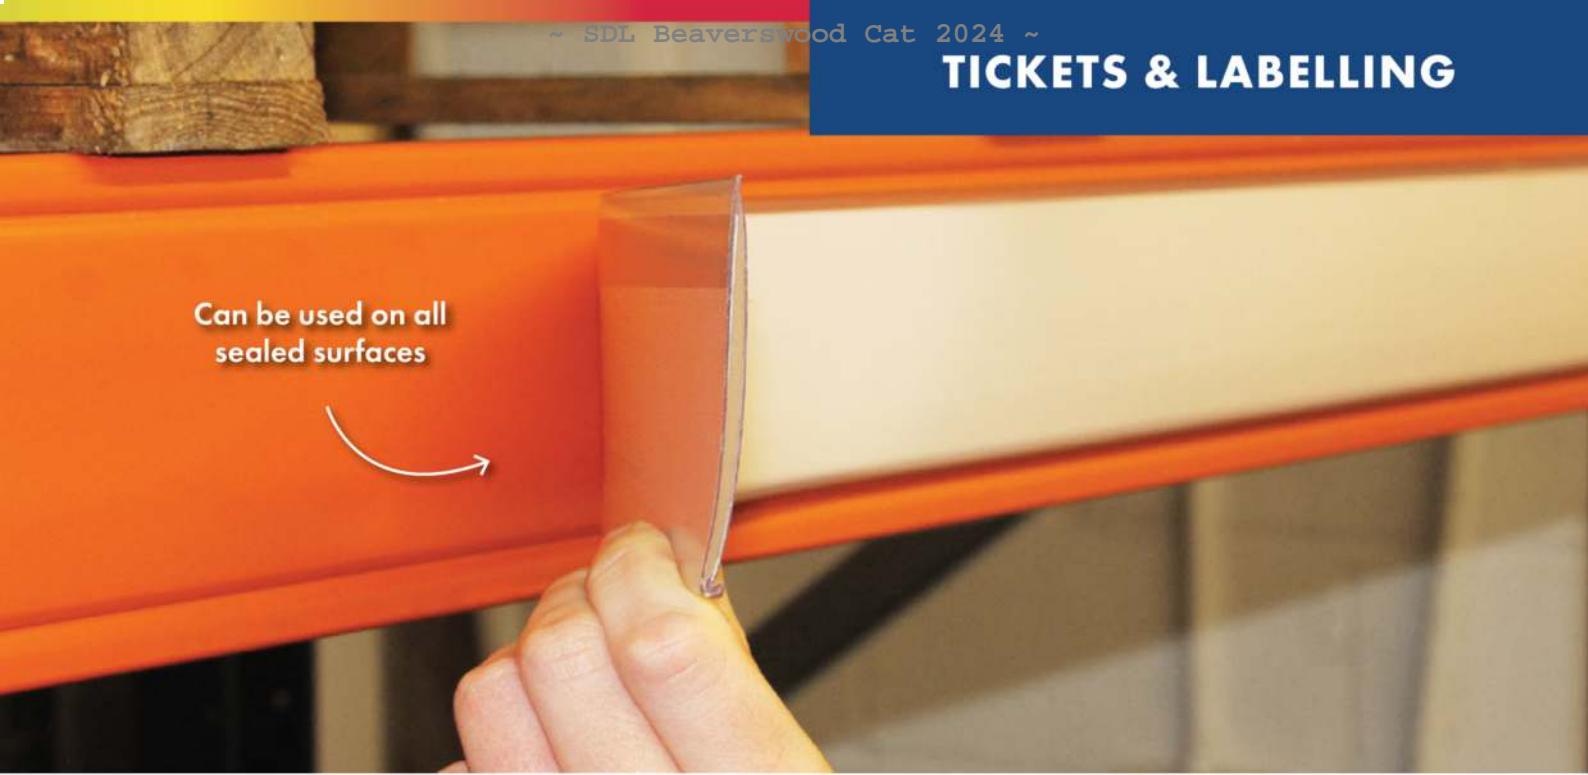

Special sizes are available upon request, with lengths up to 3M. If you need any help choosing a size, please contact the sales office for more information.

Self-adhesive Label Holders

Self-adhesive

- ➔ Instant and highly visible identification
- ➔ Long term fixing
- ➔ Standard sizes supplied from stock
- ➔ Ideal for pigeon holes and shelving

Our self-adhesive label holders are supplied with a strong adhesive to offer a long-term fixing option, providing extra stability in environments where the inserts need to be changed frequently.

The smaller holders are ideal for the identification of pigeon holes and also suit narrow edge shelving used in schools, libraries, and offices.

Magnetic Easy-wipe Racking Strip

- ➔ Cost effective labelling system
- ➔ Gloss coloured surface (except matt black)
- ➔ Ideal for use as colour coding
- ➔ Write on – wipe off using a wet wipe marker pen
- ➔ Ideal for 5S and Lean environments

Available in 12 widths - 10mm to 100mm

The magnetic easy-wipe racking strip lets you quickly create labels and identification that's completely reusable and movable. The colour versions have the added benefit of allowing you to create colour-coded areas or highlight a particular message.

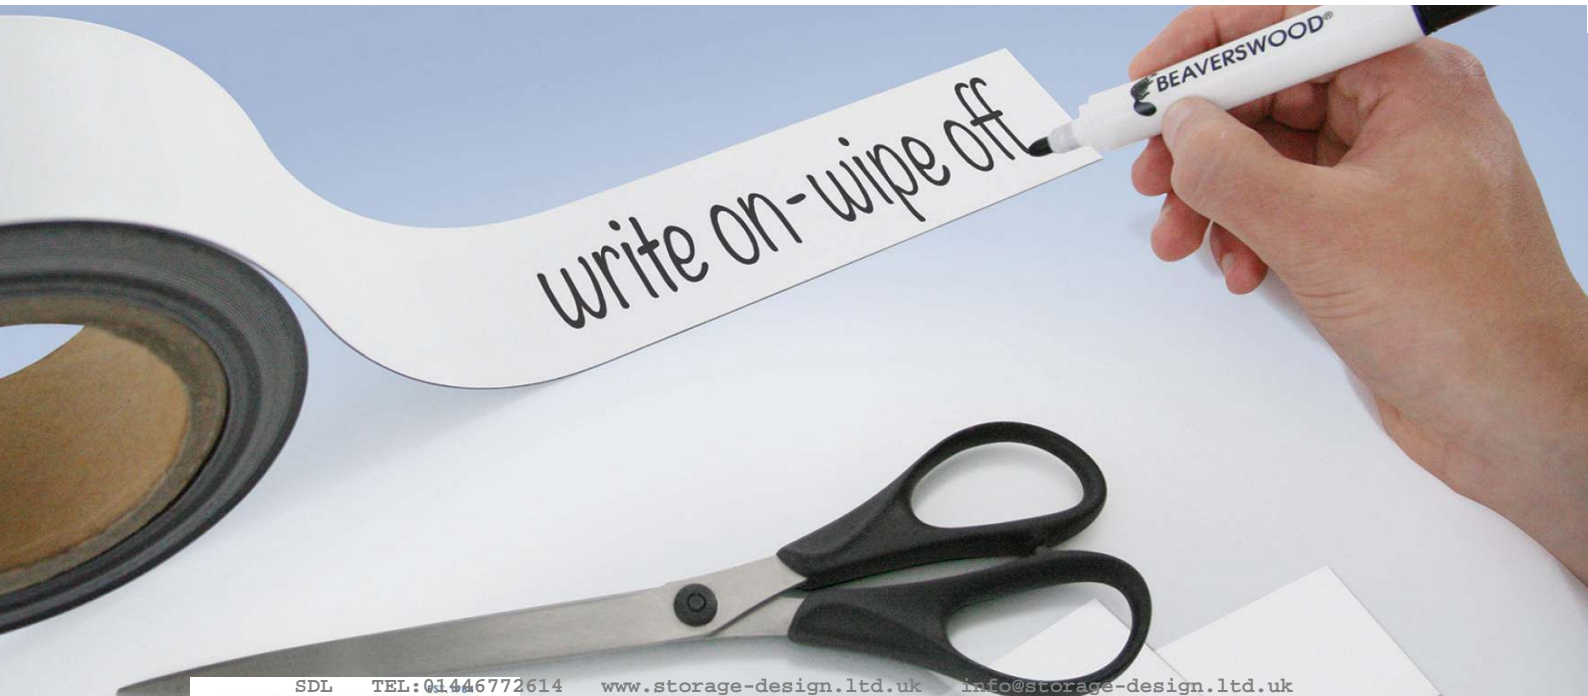

This product is extremely versatile and offers many other uses. For example, the narrow versions can be used as gridding tape on steel notice boards, and the wider rolls offer the ability to cut out or punch out different shapes.

All rolls are supplied in 10M lengths. Simply cut to the desired length, write on with a wet wipe marker pen and, if required, remove text with a damp cloth.

Magnetic Self-adhesive Strip

- ➔ Makes anything magnetic
- ➔ Mounts items onto any steel surface
- ➔ 6 widths available
- ➔ No drilling required
- ➔ Industrial quality - 1.5mm thickness

Our magnetic strip is supplied in 6 widths, each backed with a strong permanent self-adhesive for mounting items onto steel surfaces.

This magnetic strip is ideal for many jobs in the office, factory or warehouse, eliminating the need for drilling, or other methods of fixing.

Wire Shelving Clip Holders

- ➔ Easily identify locations on wire shelving
- ➔ Pull forward front for loading
- ➔ Scan barcodes without removing insert
- ➔ Positioned flat or at an angled setting
- ➔ Holder can be reversed so higher levels are easier to read

↑ Flip vertically for high level view

High level view

Straight on view

Identifying locations on wire mesh shelving is difficult as traditional magnetic or self-adhesive holders don't suit wire mesh shelving. This clever holder solves the problem by using a quick and easy-to-use "clip-on" system.

This versatile holder can be used in three different formats: straight for shelves that are eye level, approx 33° for lower shelves, and approx 45° for the very bottom shelf, enabling easy reading. The holder is reversed for high level viewing.

Ticket Pouches

Self-adhesive and Magnetic

- ➔ Cost effective ticket pouches
- ➔ Clear front enables barcodes to be scanned
- ➔ Available in 4 sizes and 5 colours
- ➔ Self-adhesive or magnetic fixing
- ➔ Supplied with white card inserts
- ➔ Ideal for 5S and Lean manufacturing

Highlight information using this economical range of coloured PVC ticket pouches. They feature a flexible pull forward clear front and coloured back.

There are 4 size options and 5 colours to choose from, designed for use on all types of shelving and racking. The colourful backing can be used for identifying picking areas, while the clear front allows a barcode insert to be scanned without removing the ticket.

The self-adhesive pouch is permanent, whereas the magnetic version can be easily relocated.

Magnetic versions of our ticket pouches are ideal for locations that change frequently, as well as being perfect for use on most steel surfaces including shelving, racking, and steel office cupboards, etc.

Mag-Grip Self-adhesive Magnetic Clip

Self-adhesive

- ➔ A document clip featuring strong magnets to secure materials within its grip
- ➔ Easily display documents within the magnetic clip and attach it to a wide range of surfaces using the self-adhesive backing
- ➔ Available in two sizes to fit both A4 and A5 documents
- ➔ Suitable for both landscape and portrait orientations
- ➔ Comes in packs of 10 or 50

This easy-to-use magnetic clip is the perfect solution to securely grip notes and documents.

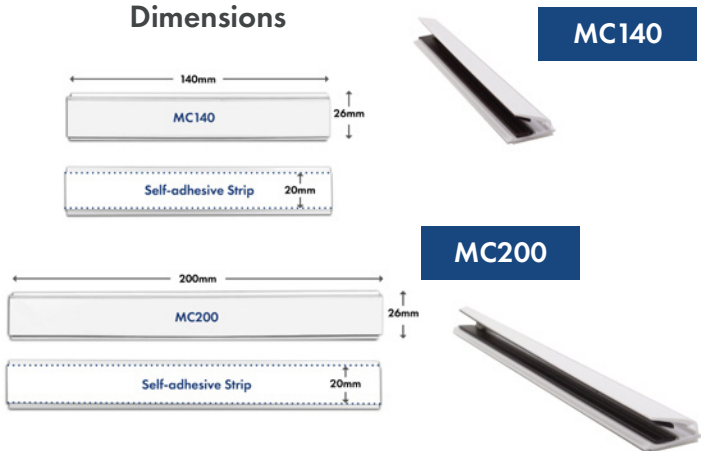

Featuring a self-adhesive backing for attachment to any smooth, flat, sealed surface, such as cabinets, steel shelving, racking, refrigerators, whiteboards, doors, etc.

Simply peel off the back of the adhesive strip, attach to your chosen surface, and it's ready to go. Just open the clip, insert a document, and close again. **Easy!**

Perfect for holding documents, posters, information materials, order tickets, or notices, making it ideal for offices, retail, warehouses, kitchens, education, or homes.

Your Complete Labelling Solution

From consultation to design, to print and install – Beaverswood® cover it all!

Let's be honest, planning and project managing the install of new warehouse racking and location labels can be mind-boggling.

There are so many aspects to factor in, from whether you need self-adhesive or magnetic fixings, to alpha or numeric systems (or a bit of both), to which type of barcoding is required, to the differences between split beam, summary, and upright labels – the list goes on!

We can take a load off your mind by being **your trusted partner** through the entire process from start to finish.

With **100+ years combined experience** in the label industry, you can rely on our specialist knowledge to ensure delivery of an effective labelling system for your warehouse.

Can't I just get my in-house team to label everything?

We might sound biased, but we highly recommend using an experienced labelling manufacturer to install your location labelling system.

At first glance, label installs might seem like an easy job (how hard can it be to slap some stickers around the place, right?). Yet we guarantee a DIY installation project will rarely go smoothly.

This is because of:

- ➔ **Loss of productivity** – using internal warehouse workers will create its own set of labour challenges, especially when factored with our second point...
- ➔ **Overruns** – DIY installations often take far longer to complete than those carried out by specialists, due to the level of expertise required to install signs, aisle and bay markers, dock signs, hanging zone markers, and more.
- ➔ **Mistakes** – out of sequence labels means costly re-prints and re-installations – eating up more valuable time and labour resources.
- ➔ **Poor end results** – in-house workers rarely have the experience required to ensure the labels effectively adhere to the surface, leading to labels that curl, peel, and eventually fall to the floor.

Let the experts handle it...

Save yourself the time, cost, and headache of a DIY install by contacting us today.

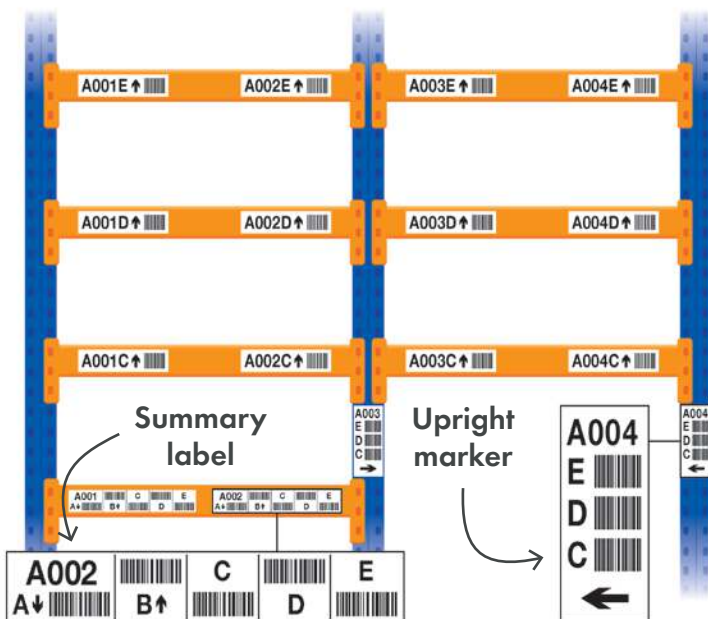

We can design and manufacture labels to suit your needs, including the incorporation of barcodes, directional arrows, and check digits as required. We can also provide full colour lamination on our labels, which not only enhances the look and feel of them but also protects them from spills and abrasions – not to mention dirt, grease, and smudges can be cleaned off more easily.

Additionally, we can carry out label installations in either new or occupied warehouses, working around your operations. Our service includes advice and consultation in the planning stage, hire of equipment, and installation fulfilled by trained and qualified personnel.

So, whether you're just after label printing or the full works including installation, we're here to help you every step of the way.

Get in touch to discuss your printing or installation requirements on 0118 979 6096.

Already know what labels you need?

If this isn't your first warehouse labelling rodeo, simply contact us for a quotation with the following information:

- ➔ Quantity of labels and/or number of locations
- ➔ Typical code
- ➔ Colour requirement (full colour laminated available)
- ➔ Approximate label size
- ➔ Base material (paper based, vinyl, polyester, magnetic, block out, etc.)
- ➔ Height to top beam (for install purposes)
- ➔ Whether you require print, install, or both

A Label For Every Occasion

Self-adhesive

Magnetic

Not sure what type of label you need? Here's a handy guide...

Single Location Labels

A location label for each pallet location. This can incorporate location code, directional arrows, barcode, and check digits.

We recommend including barcodes on all locations for stock-taking purposes, even if you don't have man-up trucks.

Split Beam Labels

Ideal for locations on the floor and first beam level. The double text at eye level reduces the number of labels required for manufacture and installation.

These labels can include location code, directional arrows, barcodes, and check digits.

Summary Labels

Labels positioned on the first beam level detailing the locations and barcodes for all upper levels.

Suitable for use where man-up trucks aren't available, the user can scan the location from the ground without the need to leave the truck.

Upright Labels

Manufactured on a rigid plate, the upright markers are ideal for use in walkways, fire exits, or tunnel bays.

The plates act like the summary label and offer the user the ability to scan upper-level locations from the ground.

Wipe clean

Types of fixings and materials

Self-adhesive

These come in a variety of materials, be it polyester, paper, or vinyl. They provide a cost-effective, permanent solution for ambient room temperature warehousing.

Block-out

If you already have self-adhesive labels affixed to your racking but need to replace them, we're sorry to say they can prove tricky to remove! If you use thin paper to cover over the old label, barcode scanners may pick up the code on the label behind.

For this reason, block-out labels are a wise choice as the material is thicker to ensure the old code can't be accidentally scanned. They can be supplied plain or with the new code already printed on.

Magnetic

These are perfect for when you need a rack label that can be easily removed and switched to a different location. They're also great for cold store environments as they don't fall off or become illegible.

Don't forget Label Holders!

A labelling system only works for as long as the labels remain readable. As such, we highly recommend investing in label holders to protect them from scratches and general wear and tear (from forklifts, for example).

We offer a range of label holders which come with clear PVC covers to protect the label from dirt and abrasion, while still allowing barcode scanning. They're also durable and reusable, meaning if you buy from Beaverswood®, you only buy once!

Pallet Marker

- ➔ Enables quick and easy pallet identification
- ➔ Water, grease and oil resistant
- ➔ Adjustable fit

Identifying stock on pallets has always been a problem. Our Pallet Marker is designed to fit securely around the corner of a Euro pallet, yet is adjustable to fit most other pallets. Manufactured in flexible white PVC, this unique Pallet Marker can be written on with a marker pen, or labels can be adhered to its smooth surface.

- ➔ Slider is 30mm high x 100mm wide
- ➔ Ideal for use on racking and shelving

Our 2 colour stock indicator slider has a permanent aggressive adhesive fixing and is simple to use.

Helps to instantly show where products are running low without the need to view inside boxes. The white slider can be written on (or affix a label) with the product code or stock locations to help identify the stored product.

Available in packs of 50 or 100.

We Recommend!

See pages 28-31 for code labelling and printing

Signs

We offer an extensive range of warehouse signs and markers to clearly identify racking and pallet locations, highlight hazards or dangers, and provide crucial rack-loading information to keep operations running smoothly and safely.

We can also design and manufacture bespoke signs and markers – simply get in touch with your requirements.

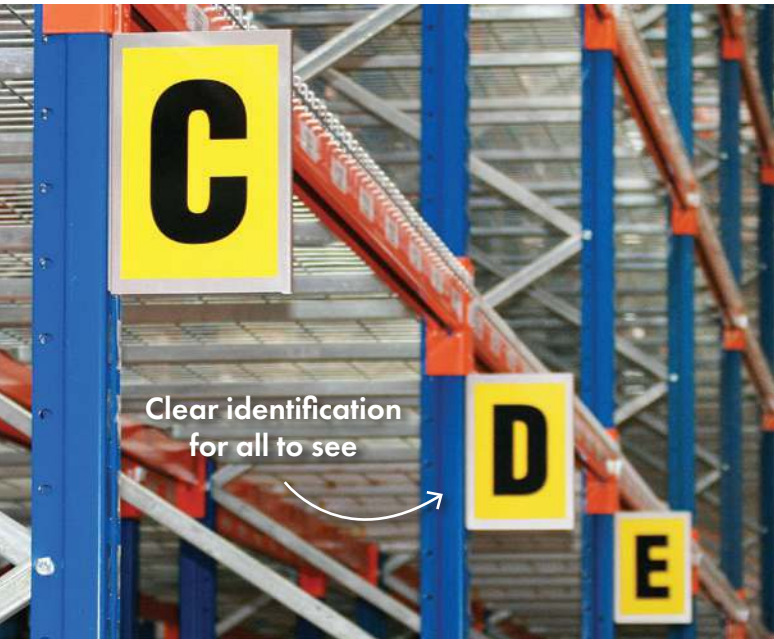

SIGNS

Bay Markers

Self-adhesive

Magnetic

- ➔ Clear Identification
- ➔ Fixed or relocated in seconds
- ➔ Available in single or double digit markers
- ➔ No drilling required
- ➔ Magnetic or self-adhesive fixing
- ➔ Suitable for large installations

BA1 - Front view

BA1 - Rear view

Our high visibility Bay Markers offer clear identification throughout the warehouse.

A formed aluminium section with either a magnetic or self-adhesive edge, enables the marker to be easily mounted onto steel racking without drilling.

When locations need to be changed the magnetic marker can simply be lifted and relocated.

Please note adhesive characters are supplied separately and can be applied to both the front and back.

Bay Markers

Ref	Fixing	Size (h x w)	Accommodates
BM1	Magnetic	260mm x 167mm	1 character
BA1	Self-adhesive	260mm x 167mm	1 character
BM2	Magnetic	260mm x 310mm	2 characters
BA2	Self-adhesive	260mm x 310mm	2 characters
Character - Numbers and Letters			
F8	Self-adhesive	230mm x 140mm	

➔ When ordering, please specify characters and quantities required. Character not applied.

High Visibility Characters

High visibility black on yellow vinyl character - A to Z and 0 to 9 characters available.

The characters can be applied to the front and back of the marker allowing the location to be viewed from both sides.

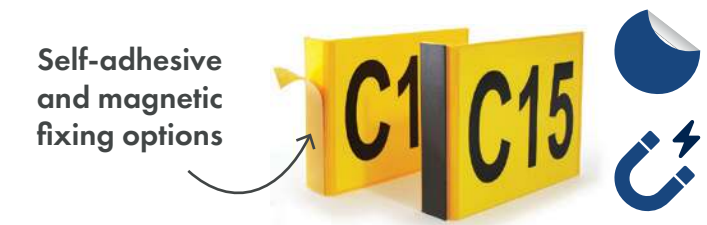

Angled Aisle Markers

- ➔ Angled aisle markers for prominent visibility
- ➔ Available in a choice of fixings - magnetic or self-adhesive
- ➔ Price includes printing of characters

Our range of highly visible angled aisle markers are available with either magnetic or self-adhesive fixings and come in a choice of white or yellow.

Included in the price, the AM1F is supplied with one self-adhesive printed label for the user to apply. The label can be applied to the front or back depending on whether the marker is to be used right or left handed.

The AM1T is supplied with two printed labels.

Angled Aisle Markers

Ref	Size (h x w)	Characters	Fixing	Colour
AM1F	95mm x 130mm	Up to 3 characters	Self-adhesive	White/Yellow
AM1FM	95mm x 130mm	Up to 3 characters	Magnetic	White/Yellow
AM1T	95mm x 130mm x 130mm	Up to 3 characters on each side	Self-adhesive	White/Yellow
AM1TM	95mm x 130mm x 130mm	Up to 3 characters on each side	Magnetic	White/Yellow

- ➔ When ordering, please specify sequencing.
- ➔ Please state colour required when ordering - (/Y) Yellow and (/W) White.

Projection Markers

- ➔ Larger angled markers for enhanced visibility
- ➔ Manufactured to order in various sizes to suit your requirements
- ➔ Available in styrene or foamex

➔ Please contact us for details on this bespoke product.

Our larger angled aisle markers are manufactured in various sizes and materials to suit your requirements. Generally manufactured in 1.5mm yellow or white styrene or 3mm foamex. These markers can be printed on two faces for multi angled enhanced visibility with digits or just about any other information of your choice.

They can be supplied either pre-drilled or with self-adhesive fixing tape for ease of application.

Aisle Markers

- ➔ Markers to identify aisles or bays
- ➔ Prominent identification
- ➔ Prices include printing of required characters up to the maximum allowed

Our range of robust end of aisle identification markers are available in various sizes, colours and designs for instant aisle locating.

These aisle markers are suitable for use in factory, warehouse or office environments.

Each aisle marker is supplied pre-drilled unless stated.

Bespoke markers can be manufactured incorporating directional arrows, logos, and entry/no entry symbols etc. Contact our sales office for further details.

Quickly and easily locate the right aisle

Aisle Markers

Ref	Size (h x w)	Characters	Colour
AM2/1	220mm x 270mm	1 x 180mm	Yellow
AM2/2	220mm x 270mm	2 x 180mm	Yellow

GOODS IN BAY

Floor Marking

We offer a wide range of floor markers and signs to meet your business needs. Floor markings have multiple purposes, from highlighting warnings or special requirements to identifying aisles and bays – plus much more. Though originally designed for warehouse use, our floor markers have rocketed in popularity in other work environments such as offices, schools, shops, hotels, or any other location where you might need to direct footfall or highlight hazards.

We can also design and manufacture bespoke floor signs and markers – simply get in touch!

Bespoke Floor Markers

Self-adhesive

- ➔ High visibility floor location labels
- ➔ Floor markers that are designed totally to your specification
- ➔ Tough and durable - made to withstand traffic in the workplace

Our high visibility floor location labels are suitable to identify specific areas of the warehouse or factory floor. The labels can be totally customised for identification of pallet positions, item numbers or packing and quarantine areas, etc.

Printed to your design, the labels have an aggressive self-adhesive backing to withstand the everyday traffic in the workplace.

Certain bespoke markers may be supplied with an additional clear non-slip overlamine to be applied over the graphic, for added print protection

Label specific areas in the workplace

To obtain a price, simply provide us with the following information:

- ➔ Size
- ➔ Text
- ➔ Colour
- ➔ Quantity
- ➔ Barcodes or Graphic Details

Floor Signals

- ➔ A simple and effective solution for marking areas on the floor
- ➔ Tough PVC with an aggressive adhesive
- ➔ Capable of withstanding everyday traffic of a fully operational warehouse
- ➔ 6 colours and 6 shape options
- ➔ Apply to a clean, flat, sealed surface

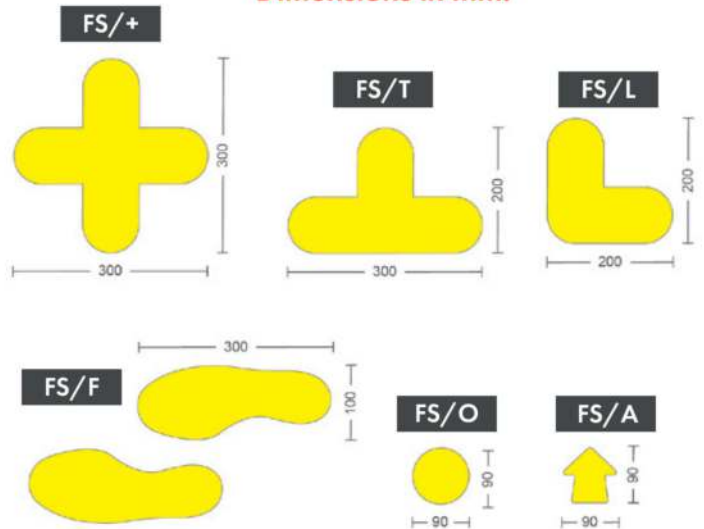

An effective solution for marking floor areas, these markers highlight walkways, traffic flow, pallet positions, and more.

Manufactured using a thin plastic membrane and laminated with an aggressive adhesive, these floor signals bond strongly to the floor and are designed to withstand everyday abrasion from forklifts to footfall and pallets. They are suitable for application onto clean, flat, sealed surfaces.

The use of different shapes and colours helps to designate different areas within the workplace and organise floor materials and flow of traffic. Clear delineation will improve product flow, ensuring everything is in the right place at the right time.

Ideal for use in 5S and Lean manufacturing areas.

- ➔ Flat, colour coded floor identification frames
- ➔ Available in 2 insert sizes: A4 and DL
- ➔ Choice of 6 stand out colours
- ➔ Permanent industrial strength adhesive to withstand warehouse traffic
- ➔ Ideal for identifying bulk stack locations or to highlight important information

frames4floors® are tough, colour edged PVC frames with a permanent self-adhesive backing. They enable a printed message or code to be placed and protected onto the floor.

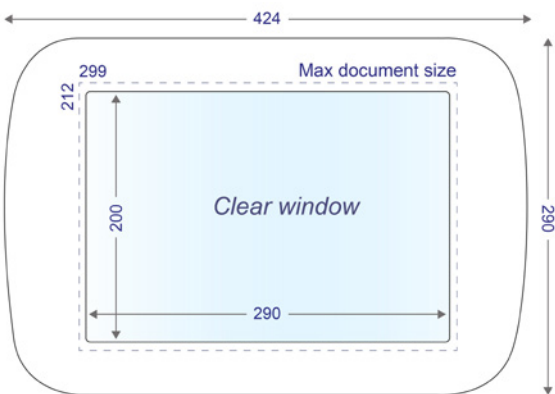

Manufactured using a thin plastic membrane, the frames bond onto the floor surface and are therefore resistant to the rigours of a busy workplace.

The frames are available with two window sizes: A4 (up to 200 x 290mm) or DL (up to 89 x 199mm).

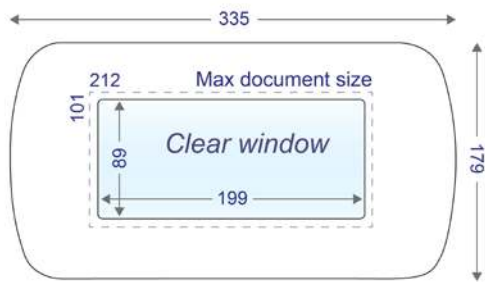

Frames are available with six colour options, making them ideal for 5S and Lean environments.

To fit an A4 size message:

- ➔ High visibility floor signs with text and symbol only designs
- ➔ Large 430mm diameter
- ➔ Choose from a range of 36 designs
- ➔ Highlights warnings or special requirements
- ➔ Slip-resistance tested to R10 standard
- ➔ Bespoke prints are available

Aggressive adhesive fixing withstands the busiest of environments

Safety signs for the floor or wall

Need to get that important safety message across without going to the extreme of painting your warehouse floor? Look no further than the Beaverswood® range of eye-catching, highly visible floor markers!

Printed on the underside of a tough, clear plastic film and laminated with an aggressive adhesive, these signs can withstand the wear and tear of busy industrial environments.

Available from stock with 36 standard designs, including symbol-only designs which can be easily and instantly recognised worldwide.

Although originally designed for use on the floor, these markers can also be used on walls or other surfaces provided they're dry, clean, flat, and sealed.

Clear visual signage helps improve safety

FM01 - FM39	430mm

➔ When ordering please specify design code listed under each image.

Floor Graphic Markers Half Circles

- ➔ Large 750mm wide x 375mm deep floor markers
- ➔ Ultra-low, 0.45mm thickness helps prevent pallets from catching the edge
- ➔ Super strong adhesive quality - suitable for use in busy workplace environments
- ➔ Slip-resistance tested to R9 standard
- ➔ Highlights the area to keep clear in front of fire doors to ensure safety
- ➔ Bespoke prints are available

These large anti-slip floor markers can be used on any flat, sealed surface. Ideal for use in front of fire exit doors, to highlight fire extinguisher areas or to warn/highlight any important messaging.

The slimline markers feature an aggressive, permanent adhesive suitable for busy industrial environments - offering quick and easy installation compared to traditional marking methods - whilst remaining extremely wear resistant.

These markers can also be used underneath our racksack® range or other bins, to highlight waste recycling areas. Being 750mm wide, they will fit between most commercial pedestrian doors, and inbetween end frames at the end of each aisle.

Available in 12 text designs and 8 non-text designs, all in an anti-slip laminate tested to R9 standard.

Anti-slip Tapes

Our anti-slip flooring products are impregnated with diamond hard aluminium oxide, making them tough, durable and long lasting

Available in 4 widths and 3 colours

► Please state colour required when ordering.

- Quick and easy to apply anti-slip tape
- Tough, durable and long lasting
- Available in various widths and colours to suit your needs
- Supplied in 18.3M rolls

Our anti-slip tapes are manufactured through a unique process ensuring it's one of the most effective anti-slip surfaces available.

Our tapes are impregnated with diamond hard aluminium oxide making it hardy, tough, durable and long lasting.

The backing has a heavy coating of permanent pressure sensitive adhesive which is water resistant and ensures once it's down, it stays down.

Ref	Size (h x w)	Colour
AST25	25mm x 18.3M	Black, Yellow, Black/Yellow
AST50	50mm x 18.3M	Black, Yellow, Black/Yellow
AST100	100mm x 18.3M	Black, Yellow, Black/Yellow
AST150	150mm x 18.3M	Black, Yellow, Black/Yellow

Special Tapes and Plates

As well as our standard anti-slip tapes, we produce bolt down plates, conformable tapes, glow in the dark tapes, reflective tapes and many more.

Bolt Down Plates - Great for wet environments and wooden steps or decking. These weatherproof plates are available in different plate sizes.

Conformable - Ideal to cover chequer plate/diamond tread/durbar plate surfaces.

Glow in the Dark Tapes - Ensure walkways, stairways, entrances and exits are illuminated well enough for you to find an exit in the event of a power cut or emergency.

Reflective Tapes - Simple, self-adhesive, high visibility safety tape, suitable for marking hazardous or dangerous areas, such as: vital routes, staircases, ledges, and low hanging objects like racking beams.

Anti-slip Feet

Self-adhesive

- ➔ Anti-slip footprints for marking out safe pedestrian routes
- ➔ Industrial strength adhesive and anti-slip properties
- ➔ Supplied in packs of 10: 5 right and 5 left
- ➔ 2 different designs to choose from

Our anti-slip feet are ideal for creating marked pedestrian routes and also have the advantage of making a terrific anti-slip surface.

Available in 2 designs: standard footprint and large footprint with toes. These are ideal for environments such as schools, hospitals, shops, and warehouses.

Ref	Description	Size (h x w)	Colour
ASF/BK	Standard Foot 	240mm x 90mm	Black
ASF/CL		240mm x 90mm	Clear

ASFTL/YE		210mm x 120mm	Yellow

Anti-slip Stair Treads

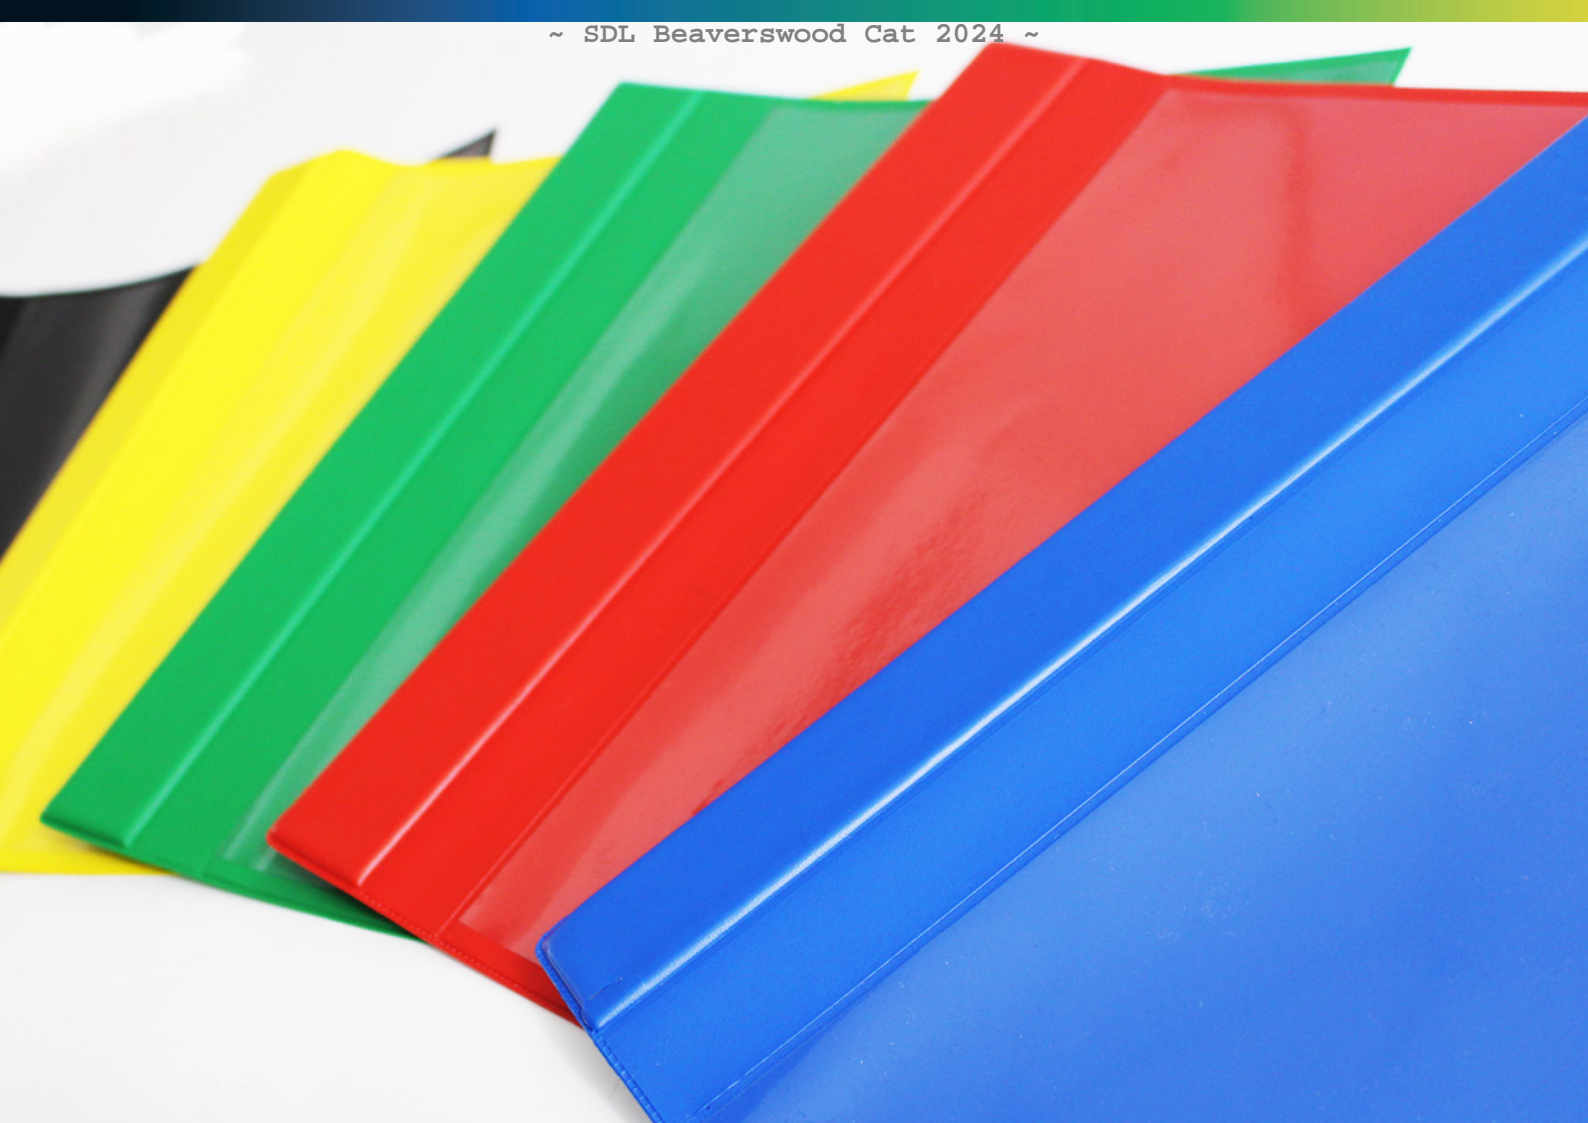

- ➔ Available in plain black
- ➔ Supplied in packs of 5
- ➔ Ideally suited for use on stair treads
- ➔ Bespoke options also available

Our anti-slip treads are manufactured using the same high standard as our anti-slip tape and are ideally suited for use on stair treads.

Available in plain black, however, we can offer your own message to be printed, please enquire for further details.

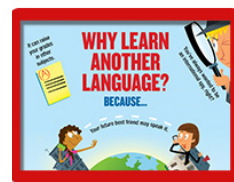

Ref	Size (h x w)	Colour	Pack
AST	150mm x 610mm	Black	5

Document Display

Our document display solutions are ideal for displaying prominent information due to their colourful frames, different sizes, and ability to adhere to most sealed surfaces with their strong self-adhesive backing.

For added flexibility, our range also includes magnetic document pockets which can be lifted and relocated when needed.

Clear Document Pockets Industrial Strength

- ➔ Industrial quality document pockets with strong welded edges
- ➔ Keeps documentation neat and clean
- ➔ Available in 4 fixings - magnetic, self-adhesive, clip-on and tie-on
- ➔ Vertical and horizontal formats

A range of document pockets to suit most environments, with magnetic or self-adhesive fixings. Also available as clip-on and tie-on to suit wire bins and cages.

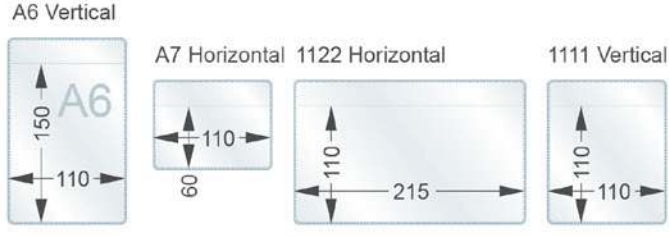

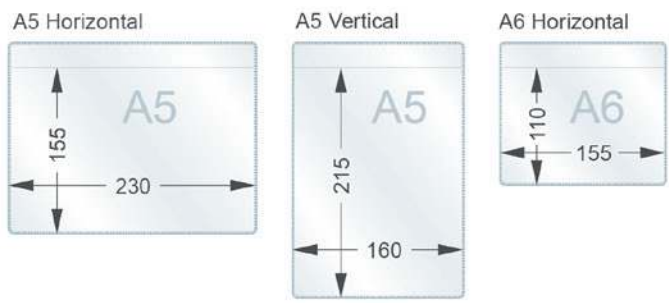

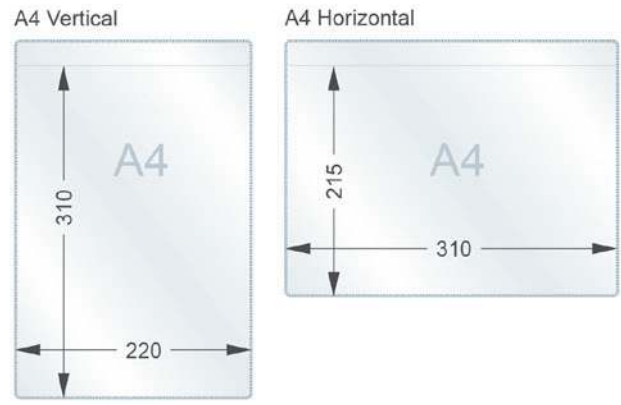

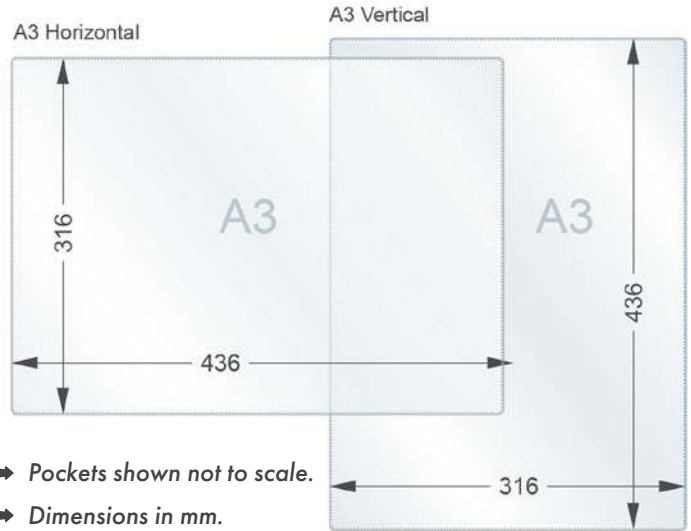

The adhesive pockets are supplied with an aggressive adhesive tape along the top and bottom edge (A7 pocket has tape along the top edge only) for a permanent fixing.

The magnetic pockets are supplied with a magnetic strip along the top, so they can be simply lifted and relocated when necessary.

Tie-on pockets can secure around a maximum diameter of 60mm, whilst clip-on pockets are ideal for use on wire bins and cages.

It's the fine details that make a difference, which is why our pockets have industrial strength welded edges and rounded corners to improve their durability

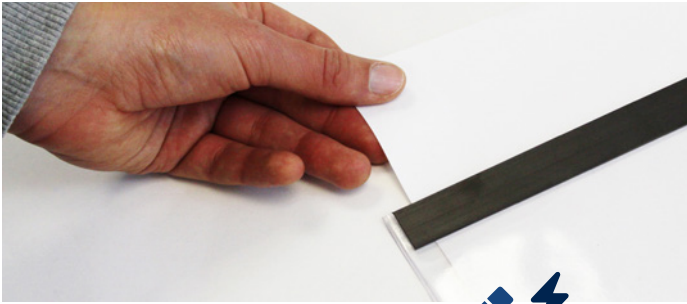

The A7 size can also be used as visitor badge pockets

Magnetic fixing - Ideal for relocating on steel surfaces

Rainbow Pockets

- ➔ Industrial strength coloured document pockets
- ➔ Turn your noticeboard into a colourful information centre
- ➔ Available in 2 sizes, 3 fixings and 5 stand out colours
- ➔ A4 and A5 pockets are available in vertical and horizontal formats
- ➔ Supplied in packs of 10

Make your important documentation stand out with these coloured document pockets. The pockets, which are available in 5 colours, will help to transform plain noticeboards into a bright and bold information centre perfect for 5S and Lean management systems.

These coloured document pockets are ideal in the office, warehouse or anywhere in the workplace.

Magnetic Coloured Pockets

Suits steel surfaces

- ➔ Ideal for steel cupboards, magnetic boards and other steel surfaces
- ➔ Quick and easy to move
- ➔ Magnetic fixings are also suitable for cold stores

Ref	Size (h x w)	Pack
CMP4H	215mm x 310mm (A4 horizontal)	10
CMP4V	310mm x 220mm (A4 vertical)	10
CMP5H	155mm x 230mm (A5 horizontal)	10
CMP5V	215mm x 160mm (A5 vertical)	10

Self-adhesive Coloured Pockets

Permanent fixing

- ➔ Aggressive adhesive offers a permanent fixing solution
- ➔ Adhesive tape at top and bottom edge
- ➔ Will adhere to most non-porous surfaces such as plastic and metal

Ref	Size (h x w)	Pack
CAP4H	215mm x 310mm (A4 horizontal)	10
CAP4V	310mm x 220mm (A4 vertical)	10
CAP5H	155mm x 230mm (A5 horizontal)	10
CAP5V	215mm x 160mm (A5 vertical)	10

Magnetic pockets are ideal for steel office cabinets

Tie-on Coloured Pockets

Ideal for roll cages

- ➔ Tie-on straps can secure around a maximum diameter of 60mm
- ➔ Ideal for use on picking trolley handles and roll containers
- ➔ Can be used in 2 or 4 ring binders

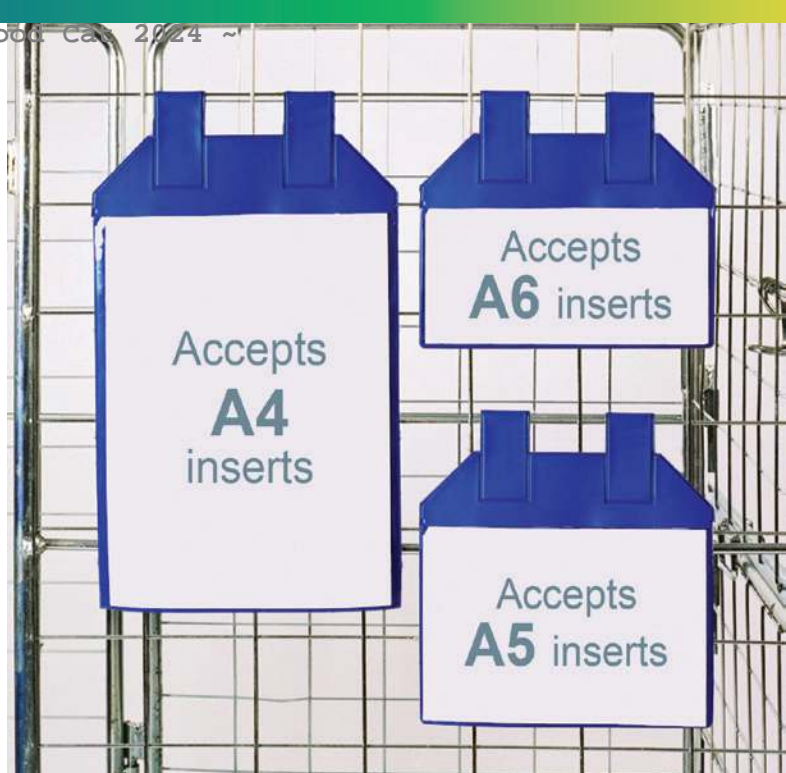

Ref	Size (h x w)	Pack
CTP4H	215mm x 310mm (A4 horizontal)	10
CTP4V	310mm x 220mm (A4 vertical)	10
CTP5H	155mm x 230mm (A5 horizontal)	10
CTP5V	215mm x 160mm (A5 vertical)	10

➔ Please state colour required when ordering - (/B) Blue, (/BK) Black, (/G) Green, (/R) Red, (/Y) Yellow and (/X) Mix.

Magnetic Wrap-around Pockets

- ➔ Designed for industrial roll cages or mesh containers
- ➔ Available in sizes - A4, A5 and A6
- ➔ Manufactured from tough plastic
- ➔ Front flap to protect contents
- ➔ Longer headers suit trolley handles
- ➔ Available in packs of 10 or 50

Three hard wearing information pockets in sizes A4, A5 and A6. Each pocket has a unique looped magnetic header that is designed to wrap around the mesh of a cage.

A special flap shields the opening of each pocket providing your document with protection.

The clear PVC face enables the message to be clearly seen without the need to remove the document.

Magnetic Wrap-around Pockets

WRP5H/50	148mm x 210mm	50
WRP6H/50	105mm x 210mm	50

Hanging Pockets

- ➔ Information pockets manufactured in tough plastic
- ➔ Unique hooked header design
- ➔ Hang onto crates, trolleys and more
- ➔ Two sizes available - A4 or A5
- ➔ Available from stock
- ➔ Available in packs of 10 or 100

Our premium hanging pockets feature a unique hooked header, designed to hang and grip onto the edge of an industrial wooden case or plastic crate.

This pocket offers a dual function, to either store documents linked to the case or to provide identification where a conventional label will not adhere to a wooden or textured surface.

The hanging pocket is also suitable for trolleys, stillages, pallet converters and many more items that have a hanging rail of up to 25mm maximum thickness.

Ideal for non-metallic situations

Ring Binders

Self-adhesive

Magnetic

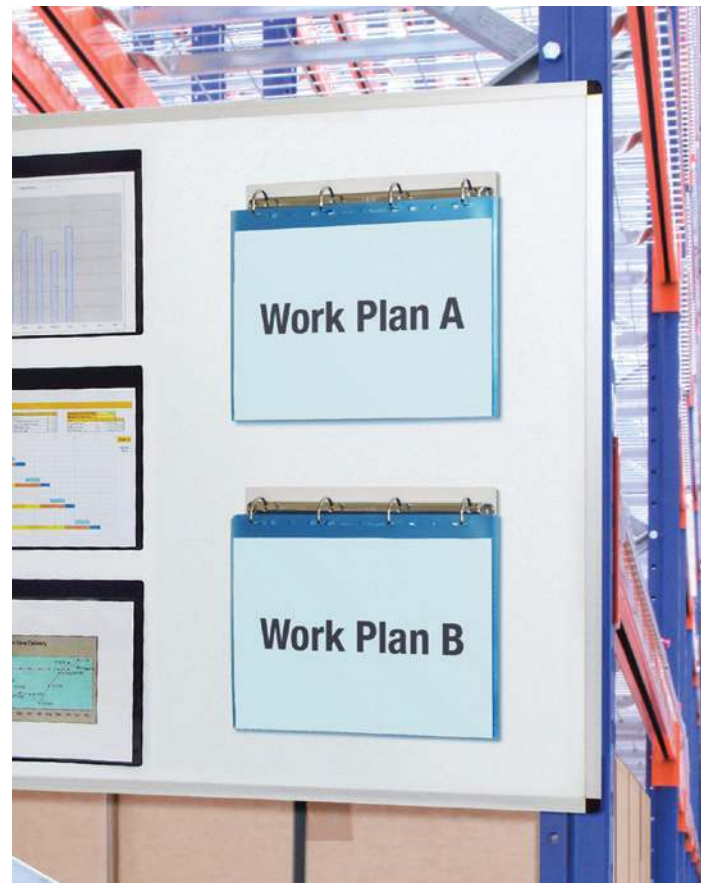

- ➔ Create quick and flexible information centres
- ➔ 2 or 4 hole ring binders
- ➔ Magnetic or self-adhesive backed, offering a flexible fixing system

Keeping multiple pages of information readily available in a prominent visual position can be difficult. Fortunately, Hold-All® Ring Binders provide the solution!

These binders are ideal for storing health and safety, fire action, production planning, or any other important information.

Magnetic or self-adhesive backed, the binder offers documents a versatile fixing system for either magnetic receptive boards, steel surfaces or sealed surfaces. Use self-adhesive where heavier folders are involved.

Available with 2 or 4 ring options

Ring Binder PVC Covers

- ➔ Colour coded PVC Covers for Hold-All® ring binders
- ➔ Covers and protects A4 horizontal files
- ➔ Covers can be retrofitted to the ring binders

These colour coded covers work with our Hold-All® ring binders to give an attractive and highly visual finish.

The cover features a front pocket that will accommodate an A4 sheet, so you can add a title panel to the cover.

Suitable for use with Hold-All® 2 or 4 ring binders in A4 horizontal format. Available in 5 colour options and supplied in packs of 5.

Tough Weather Resistant Pockets

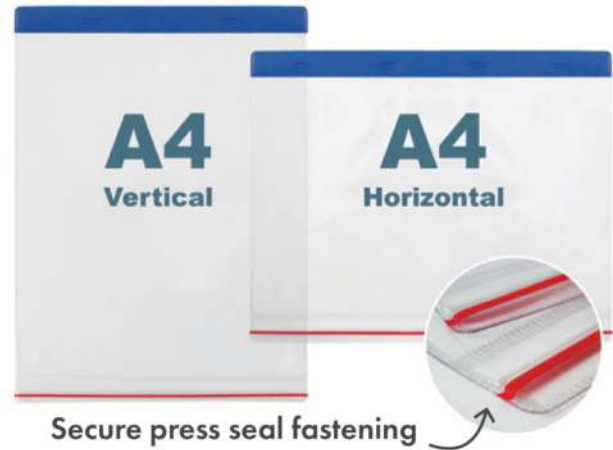

- ➔ Protect your documents outdoors with these industrial quality clear pockets
- ➔ Secure press seal fastening
- ➔ Multiple fixing options - magnetic, self-adhesive or tie-on

Industrial strength pockets designed for external use with a press seal weather resistant fastening.

The pockets have sufficient room for numerous A4 size documents, plus pens and other stationery etc.

Available in horizontal or vertical formats, these pockets have 3 fixing options. A strong magnetic fixing, allowing the pocket to be located to a ferrous steel surface, yet easily lifted off. A self-adhesive fixing for permanent locations, and a tie-on fixing that allows the pocket to be secured around a picking trolley handle or the mesh of a roll cage. This fixing allows for a maximum diameter of 60mm.

Health & Safety Info & Product Data Sheets

Fully Adhesive Backed Pockets

Self-adhesive

- ➔ Accepts A4, A5, A6 and A7 inserts
- ➔ Adheres to any dry smooth surface
- ➔ Clear front allows barcodes to be easily scanned
- ➔ Ideal for plastic containers, metal stillages and many other locations

A4, A5, A6 and A7 sized document pockets designed for keeping information visible in office, factory and warehouse environments.

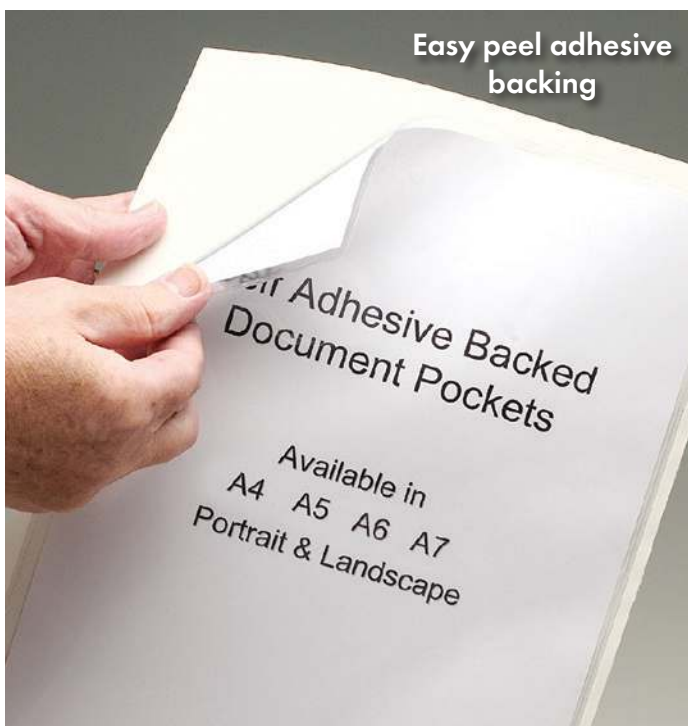

These clear pockets also protect documents from dirt and grime. Simply peel off the backing sheet and adhere the fully adhesive pocket to any smooth, sealed surface.

Easily insert document into adhesive pocket

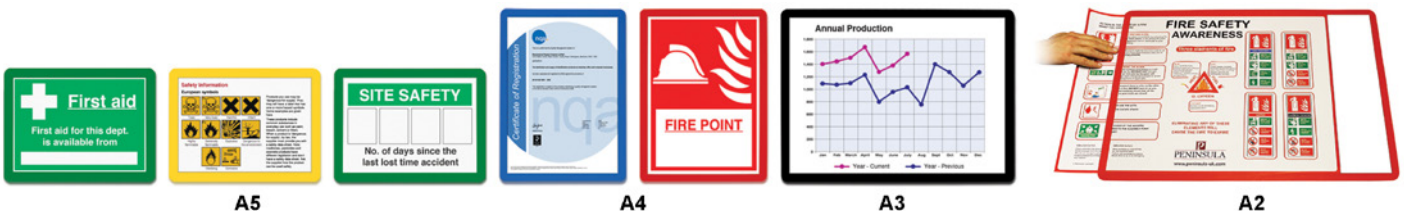

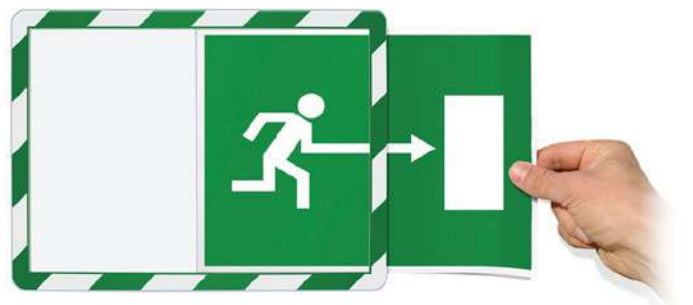

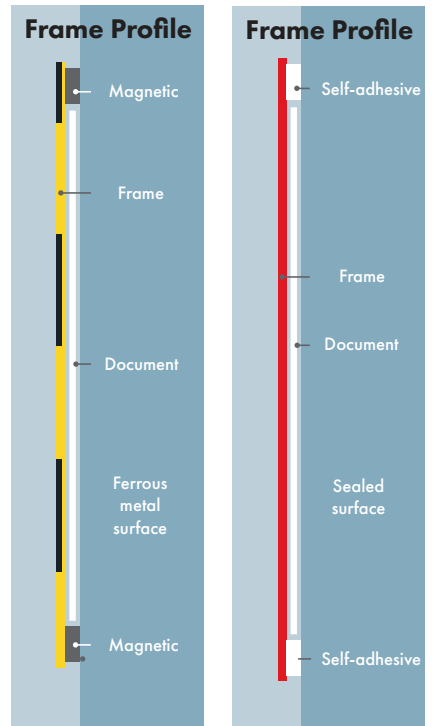

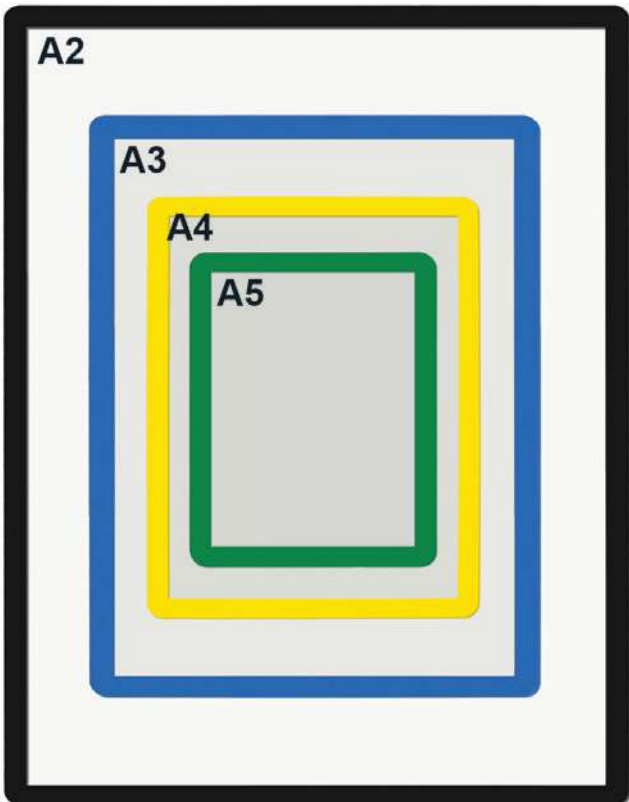

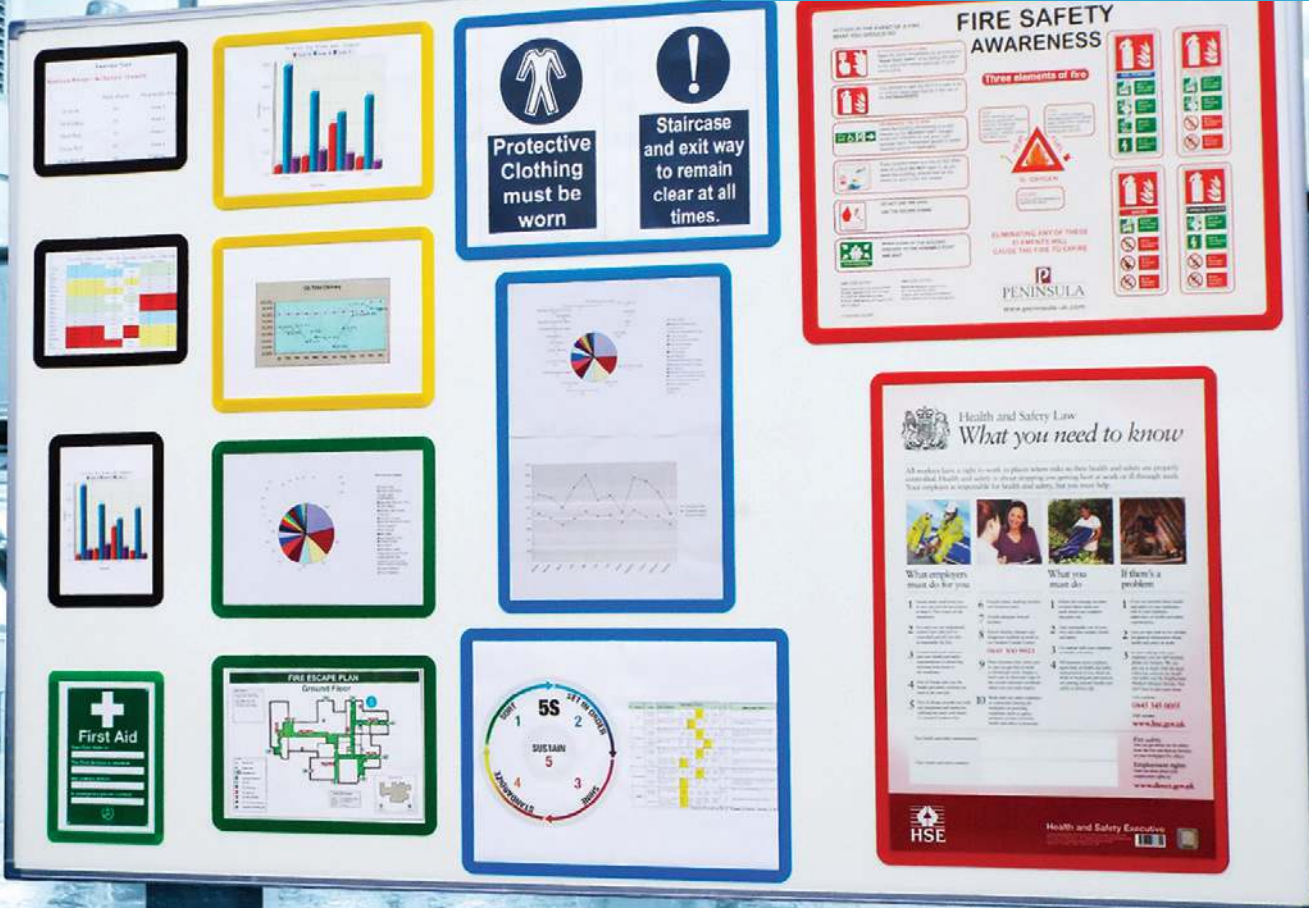

- ➔ Enables documents to be framed and displayed
- ➔ Available in sizes to fit A2, A3, A4 and A5
- ➔ Magnetic and self-adhesive fixing
- ➔ Ideal for Lean and 5S environments
- ➔ Frames can be used horizontally or vertically

frames4docs® are a range of colour coded frames designed for easy and prominent document display. They are ideal for creating information centres and to help portray important information in 5S and Lean environments. Available in a magnetic and self-adhesive fixing.

DOCUMENT DISPLAY

Magnetic Fixing

The magnetic frames4docs® have a very strong pull force and can be applied to almost any flat steel surface. The clever design allows for easy insertion and removal of documents without the necessity of moving the frame. However, if required, simply lift and relocate the frame with ease. The magnetic frames are suitable for use on magnetic notice boards, steel cupboards, solid racking and shelving ends, and most other metallic surfaces.

Shadow Boards

Modulean® takes away the need (and the headache) for custom shadow boards by delivering a range of modular standard boards that are widely used across the workplace, removing a great deal of expense and time associated with custom shadow boards. They also aid in compliance with the 5S Lean system.

Modulean® Rack End Boards can be used in conjunction with many of our other products, transforming dead-space into working space!

SHADOW BOARDS

MODULEAN® LITE

Available in 4 colours

- ➔ Smaller and lighter Shadow Boards
- ➔ Keep your workplace organised on the go
- ➔ Choose from a range of standard 500mm x 500mm 5S boards
- ➔ Various colour options to keep track of tools
- ➔ Supplied with the products on display

Mix and match 500mm x 500mm Modulean® boards to create your own mobile system which is simple to move and relocate around the industrial workplace when used with the mobile frame.

The mobile framework has wheel castors with brakes and can hold two 500mm x 500mm Modulean® boards on each side, fixed with screws for a secure finish.

These smaller sized Modulean® boards can also be used on their own by being screwed onto a wall.

Our racksack® trolley can also be used as an accessory to the mobile system to help recycle and segregate waste on the go.

Use on a mobile stand or a wall

MODULEAN® RACK END BOARDS

Transform dead-space
into working-space!

- ➔ Keep your warehouse organised with Modulean® Rack End Boards
- ➔ 2000mm high x 900mm wide, suitable for warehouse racking
- ➔ Make use of otherwise redundant end of aisle racking space
- ➔ A range of standard boards available
- ➔ Supplied with the products on display
- ➔ Each board is available with either single or double aisle markers

Being 2000mm high x 900mm wide, these Rack End Boards have been designed to fit warehouse end of aisle racking systems. 1100mm wide boards are also available to order to suit both sizes of pallet racking – please contact the sales office for details.

Available in 7 shadow board designs, each in 4 different colour options - blue, green, red and yellow. Each board is available with either single or double aisle markers in the form of our best seller frames4docs®, making the inserts easy to change and replace as frequently as required.

Aisle markers can be printed with inserts to suit your warehouse needs - please let us know what aisle information you need.

Impact Protection

We're delighted to offer an innovative range of impact protection and high-visibility safety products from market leaders Brandsafe® and Rack Armour®.

These products are designed to reduce the chance of collisions and accidents on site, saving you money on otherwise costly repairs.

They can be used internally and externally to prevent damage and protect people from harm.

From heavy-duty safety bollards (ideal for corners, entrances, and structures) to low-level bumper barriers (perfect for identifying working boundaries) – we have it all!

Armco Accessories

Fitted with diamond grade reflectors for added visibility

Protect your assets and personnel in the workplace

- ➔ Polymer moulded Armco accessories
- ➔ Provides a safe and visual termination to sharp Armco rails
- ➔ Retrofit compatibility with all Armco terminals
- ➔ Flexible under impact

Improve safety in the workplace with the Armco safety range. Available for steel corners and ends - with three different end designs (standard, pedestrian and fishtail).

Made from polymer, these Armco accessories are highly visible, simple and quick to install. Designed with retrofit compatibility with all steel armco rails, to save costs and install time.

The range is available in Yellow or Black, which contrasts against the steel of the barriers. Together, with diamond grade reflectors, they not only offer an aesthetic look but also contribute towards safety. All fixings included.

All fixings included

Each Armco end is available in Yellow or Black

PolyWRAP SpaceSaver Column Protectors

Ideal for mezzanine columns

Suitable for external and internal use

- ➔ Designed to save valuable space and protect columns
- ➔ 5 size options moulded to fit snug to your specific column size
- ➔ Recess feature to cover base plates and studs 320mm x 320mm
- ➔ Ratchet security strapping
- ➔ Simple and quick to install - no mechanical fixing needed

These column protectors are quick and easy to install and are made from 100% recyclable polyethylene. They are ideal for protecting mezzanine columns without taking up valuable floor space.

Foam Inserts

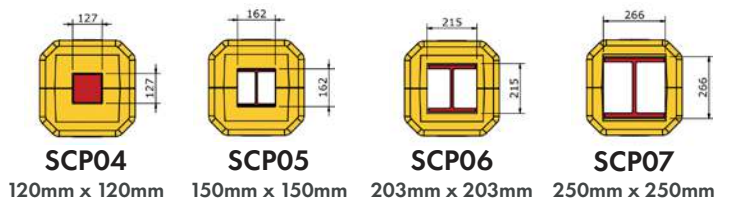

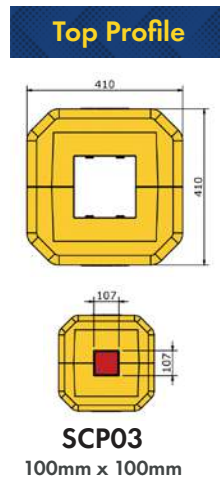

When the actual column is approximately 20mm smaller than the standard PolyWRAP column sizes – then a foam insert is required (2 per column). These are cut to order to ensure it fits perfectly to your column. If you're unsure, please contact the sales office.

Flexi Delineators

Suitable for tarmac or concrete

- ➔ Polyurethane posts that will flex, bend and crush, then return to shape
- ➔ 80mm diameter posts supplied with 3 floor anchor bolts
- ➔ 1000mm high
- ➔ Choice of 3 high visibility colours

These flexi posts are ideal where demarcation of traffic routes are paramount for safety. The posts can be used on their own or combined with plastic chains to help segregate traffic and pedestrian routes.

Ref	Description
FDP/Y	Yellow Post with Silver Reflectors
FDP/W	White Post with Red Reflectors
FDP/B	Black Post with Yellow Reflectors
FDK/FK	Chain Fixing Kit
PCH/BY	Black and Yellow 8mm Plastic Chain x 25M
PCH/RW	Red and White 8mm Plastic Chain x 25M

Chain Fixing Kit comprises of 1x Top Cap and 2x S-Clips. 1x Chain Fixing Kit is needed per post. (please order separately)

Speed Bumps

- ➔ Available in 2 heights
- ➔ Suitable for domestic and commercial vehicles
- ➔ Individual Yellow and Black speed bumps

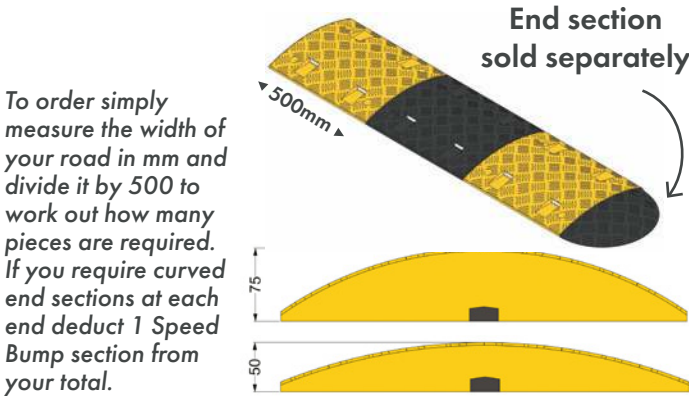

These compression moulded speed bumps help calm the speed of vehicles, with a choice of 2 sizes: 50mm high suited to domestic vehicles, and 75mm high suited to commercial applications.

Sold in individual units, each Speed Bump section is 500mm long. End sections are 210mm long.

Ref	Description
SB50	50mm High Speed Bump Section
SBE50	50mm End Section
SB75	75mm High Speed Bump Section

Rack End Barriers

- ➔ Manufactured from a flexible HDPE polymer with a foam diffuser
- ➔ Deflects under impact
- ➔ Single or double barrier options
- ➔ Available in 2 sizes
- ➔ Quick and easy installation

The flexible barrier design, absorbs the load of impact, away from a vehicle and ground fixings to minimise damage and repair time.

Available in single or double barrier options - single barriers stand at 320mm high and double barriers at 620mm high.

Fully recyclable, non-toxic and suitable for use in food production and freezer environments. All fixings provided.

The barriers are available in three colours, making them highly visible to personnel and vehicles. These low maintenance polymer barriers, don't rust, corrode, fade or require re-painting.

Low Level Bumper Barriers

- ➔ Manufactured from a flexible HDPE polymer with a foam diffuser
- ➔ Deflects under impact
- ➔ Single or double barrier options
- ➔ Available in 3 sizes
- ➔ Quick and easy installation

These low level bumper barriers offer complete warehouse protection by creating safe zones of highly visible barrier systems. They provide the right amount of visibility and strength, whilst maximising space.

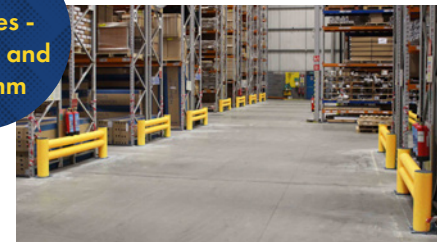

Available in single or double bumpers, depending on the level of protection required - single barriers stand at 310mm high and double barriers at 600mm high.

Fully recyclable, non-toxic and suitable for use in food production and freezer environments. All fixings provided.

The barriers are available in three colours, making them highly visible to personnel and vehicles. These low maintenance polymer barriers, don't rust, corrode, fade or require re-painting.

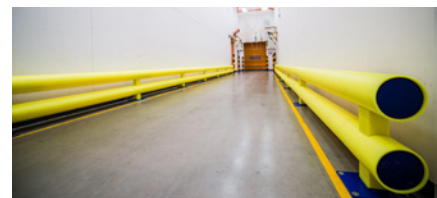

Available in 2 sizes - 1200mm and 2400mm

➔ Please state colour required when ordering - (/CYG) Colourfast Yellow & Grey, (/HVB) Hi Vis Yellow & Blue and (/SYG) Safety Yellow & Grey.

Pedestrian Barriers

- ➔ Manufactured from HDPE polymer
- ➔ Designed with safety and segregation in mind
- ➔ High visibility colours highlight safe pedestrian areas
- ➔ Available in 3 sizes

These highly durable pedestrian barriers are ideal for highlighting safe pedestrian areas and guiding people in the right direction, internally or externally.

The barriers are available in three colours, making them highly visible to personnel and vehicles. These low maintenance polymer barriers, don't rust, corrode, fade or require re-painting.

Available in 3 size widths - 1500mm, 3000mm or 4500mm, all with 3 rails. Other sizes are available upon request, subject to minimum quantity. Please note, these barriers do not act as impact protection alone.

Add bumpers for impact protection

Pedestrian Bumper Barriers

- ➔ Manufactured from HDPE polymer
- ➔ The bumpers add extra deflection and strength to the pedestrian barriers
- ➔ Single or double bumper options
- ➔ Available in 3 sizes
- ➔ High visibility colours for pedestrians

Where pedestrians and MHE frequently pass each other, there is no better protection than the pedestrian bumper barriers.

Easy to see and durable, they are ideal for warehouse and pedestrian segregation. Fully recyclable, non-toxic and suitable for use in food production and freezer environments. All fixings provided.

Available in single or double barrier bumper options depending on the busyness of your warehouse.

The barriers are available in three colours, making them highly visible to personnel and vehicles. These low maintenance polymer barriers, don't rust, corrode, fade or require re-painting.

Heavy Duty Bollards

- ➔ Manufactured from ballistics grade materials
- ➔ Ideal for corners, entrances and structures
- ➔ Deflects under impact without damage
- ➔ Available in 4 size heights

These heavy duty safety bollards are a cost effective solution to protect corners, entrances and structures.

Manufactured from HDPE, these bollards are able to take the impact of multiple hits and simply reform afterwards with little or no damage.

Available in 4 heights - 600mm, 900mm, 1200mm or 1600mm. Standard 200mm tube width. Other sizes are available upon request, subject to minimum quantity.

The bollards are available in three colours, making them highly visible to personnel and vehicles. These low maintenance polymer bollards, don't rust, corrode, fade or require re-painting.

Floor Level Barriers

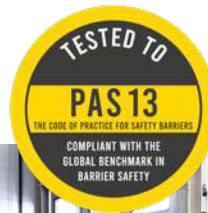

- ➔ Manufactured from ballistics grade materials
- ➔ Provides subtle protection at low levels
- ➔ Ideal for placing behind bays
- ➔ Available in 2 sizes
- ➔ High visibility colours

These floor level barriers are ideal for providing subtle protection at low levels from order pickers, with minimal space intrusion in the warehouse.

Available in 2 size lengths - 800mm or 1200mm.

Manufactured from ballistics grade materials and fixed to the floor, these barriers are strong and durable enough to take knocks and bumps. They are ideal to prevent pallets being hit against walls.

The barriers are available in three colours, making them highly visible to personnel and vehicles. These low maintenance polymer barriers, don't rust, corrode, fade or require re-painting.

Rack Armour® Upright Protection

- ➔ Manufactured from ballistics grade plastic which deflects under impact
- ➔ 2 patented designs
- ➔ Proven to reduce racking damage
- ➔ Lifespan of 15 years +
- ➔ Zero maintenance and no floor damage from impact
- ➔ Easy installation - no fixings required

Rack Armour® has been a global success for over a decade. Its innovative design and functionality has revolutionised racking protection and provides a proven reduction in damage levels - saving time, money and hassle.

Its tight fit ensures that Rack Armour® can't be knocked off whilst pallets are retrieved. When a direct impact occurs and cannot be deflected by the outer shell, the interior foam absorbs the impact energy until it's diffused. These upright protectors fit all makes of pallet racking and are transferable. Made from ballistics grade plastic which is non toxic and fully recyclable.

Rack Armour® has been tested to meet and exceed European and Australian safety standards, including EN 15512 and AS4100.

Available from stock in two highly visible colours that clearly gives safe working boundaries for MHE drivers. Other colour options are available - please contact the sales office for further details.

Shelving and Storage

A well-organised warehouse, workshop, or storage space is essential to any business, which is why we're proud to offer a wide selection of high-quality storage and shelving products from Anco®.

Whether you need rivet racking for storing long or bulky items, or bin shelving for small parts and tools, we've got you covered!

Shelf Trays on Racks

- ➔ Designed for strength and ease
- ➔ Trays are available in 3 depths, 2 widths and 2 heights
- ➔ All bays are complete with white shelves and fixings
- ➔ Labels included with every plastic tray

The shelf trays feature a spring loaded shelf stop at the back of the tray. This means the tray can be withdrawn from the shelf and suspended offering around 90% clear picking. This stop also acts as a handle to make it easier to carry.

With shelf trays available in 3 depths, 2 widths and 2 heights any configuration can be designed to offer the maximum high density storage solution. Trays can be sub divided from left to right and all trays and dividers come with labels.

Ideal for the warehouse, workshop and storeroom

**Includes:
9 x ACO BIN Bins and
30 x ACO DS Drawers**

Component organisers are the ideal small parts organiser for your item storage needs. The body and frame are made from durable high impact polypropylene and the drawers and partitions are made from transparent polypropylene.

Each drawer comes with its own removable horizontal partition, effectively doubling the number of compartments which can be used in the component organiser.

The component organisers can be screwed directly on a wall with the pre-configured holes or mounted on a wall with specially designed frames.

The component organisers can be mounted on metal louvre panels with the help of four clips for better mounting which can be fitted on the back wall of the cabinet.

Long Rivet Packing Workstation

Capacity
Up to 300kg
Bench Load

ANCO STORAGE

- ➔ Long packing bench with lower bubble wrap dispenser and upper paper roll dispenser
- ➔ Cost-effective and easy to use
- ➔ Two width options available
- ➔ Includes upper and lower shelves for additional storage

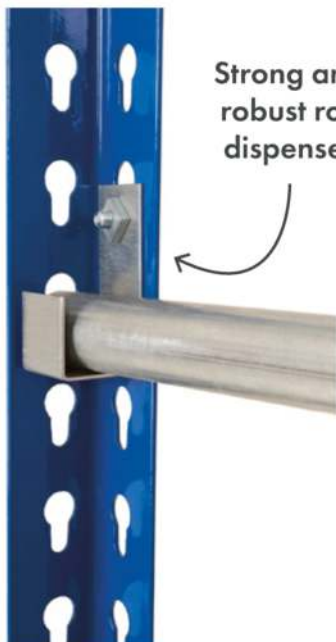

Our Long Rivet Packing Workstations come with an upper storage level for additional storage and, depending on the bench configuration, you get a lower storage level as well. Ideal for order processing, packing and manufacturing.

Each order includes uprights, plastic feet, all necessary beams, chipboard tops and 2 roll dispensers. All dispensers are simply and quickly lifted out to change the rolls.

Two width options available - 915mm and 1220mm.

Plastic Storage Bins

- ➔ Strong and robust plastic bins manufactured from shock proof plastic
- ➔ Easily identify contents
- ➔ Ideal for heavy duty industrial applications
- ➔ Available in 9 sizes and 3 colours
- ➔ Stack or hang on louvre panel
- ➔ Labels included with each bin

Plastic Storage Bins that can be used in any environment time and time again.

The quality and ergonomic design means all our plastic bin can be stacked securely or hung on louvre panels.

[Please see page 105 for Wall Louvre Kits.](#)

These bins are efficient in any small part picking environment. They have a large identification area as well as a large open picking face, meaning the contents can be easily identified and picked efficiently.

Available in 3 colour options, making them ideal for 5S and Lean environments.

racksack® is the original waste segregation solution, simplifying what can sometimes be a complicated and laborious process to separate waste. This enables users to create a sustainable, tidier, safer, and more productive workplace. Not only this, but these clever recycling sacks don't encroach on valuable floor space which is often at a premium (especially in warehouses). With quality that's impossible to miss, you know when it's racksack®!

racksack®

- ➔ Easy collection of waste
- ➔ Easy to fix and easy to remove
- ➔ Helps improve waste segregation
- ➔ Hard-wearing and re-usable
- ➔ Made from strong, durable polyester
- ➔ Available in 8 standard text and symbol designs
- ➔ Other designs and special prints such as logos are available upon request

racksack® is the market-leading solution for waste segregation in the industrial work setting, providing a simple and cost-effective system that's easy to implement.

This innovative family of products will help you to be compliant with the current EU and UK waste segregation legislation.

Designed for most racking and shelving systems between 900mm and 1100mm, the racksack® saves valuable floor space and simplifies what can sometimes be a complicated and laborious recycling process, enabling you to create a tidier, safer and more productive workplace.

Made from strong, durable polyester that withstands the rigours of a busy industrial environment. The flexible method of 'S' hook fixings means the racksack® can be hung over or hooked onto any substrate.

Three strong handles are woven into the edge of the sack - one on each side for carrying and one on the base - so that the sack can be easily tilted from the base and emptied.

Available in 8 standard text and symbol designs, including a completely blank sack.

The racksack® family includes products that can be attached to warehouse racking, shelving, trolleys, roll cages, stillages, mobile steps and more.

racksack®

Designed to be recognised worldwide

- ➔ Symbol-only racksack® designs for worldwide use
- ➔ Choose from 5 popular designs
- ➔ Available in standard blue or premium clear
- ➔ Made from strong, durable polyester
- ➔ Other designs and special prints such as logos are available on request

By popular demand, we've created a symbol-only range of the racksack® that has been carefully designed with international recognition in mind. Visually communicative symbol-only designs, for worldwide use. These 5 waste segregation designs are also available in racksack® clear.

Choose from: Mixed Paper and Card, Cardboard Only, General Waste, Shrink Wrap and Plastic Only.

Customise your racksack® with your company name or logo, any waste product symbol or text you require, and in any one colour print. (Subject to minimum quantity).

- ➔ Clearly see what materials are inside the racksack®
- ➔ Enhance security measures to prevent theft
- ➔ 10 standard waste designs available
- ➔ Premium clear front with blue backing
- ➔ Other designs and special prints such as logos are available upon request

The clear racksack® range gives warehouses the transparency they need when segregating waste and recycling. The premium clear material helps identify when incorrect waste has been placed into the wrong segregation sack.

The transparent design enhances security measures to help prevent theft.

Available in 10 of our popular standard designs - 5 text prints and 5 symbol-only prints.

racksack® mini

- ➔ Smaller racksack® designed for workstations and workbenches
- ➔ Ideal for packing benches; picking stations; assembly stations; desks; shelving and smaller racking areas
- ➔ Thanks to the new fastening options, you can also attach the racksack® to many different fixtures, such as pedestrian barriers and walls

Made from tough waterproof polyester, the racksack® mini can adequately withstand the rigours of an industrial environment. Three strong handles are woven into the edge of the sack, one on each side for carrying and one on the base, so the sack can be easily emptied.

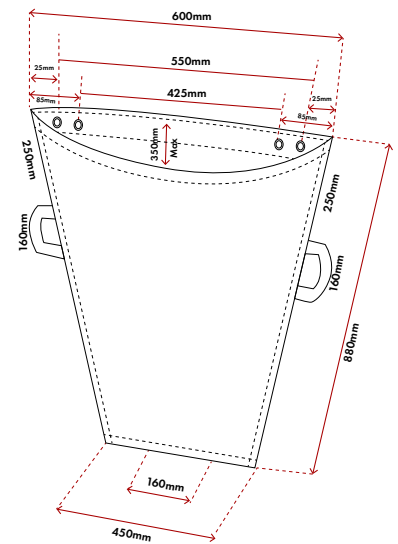

Available in 4 text or 3 symbol only design options, including a blank option. Sold individually or in packs of 5 and 10. Fasten with the 'S' hook; the bungee loop or wall mounted hook.

Wall Mounted Hook

racksack® nano

- ➔ Designed for use with forklift and pallet trucks
- ➔ Thanks to the new velcro fastening, any chance of snagging is eliminated
- ➔ Available in 3 text or 3 symbol-only design options, including a blank option
- ➔ Supplied with bungee loop fixing
- ➔ 600mm high x 450mm wide
- ➔ Other designs and special prints including logos are available on request

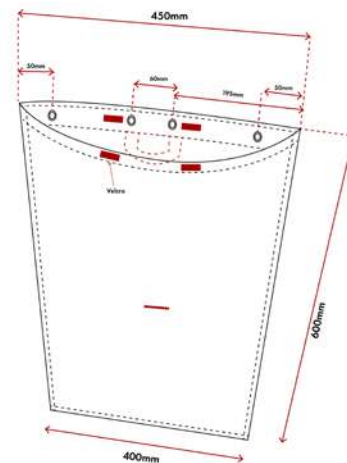

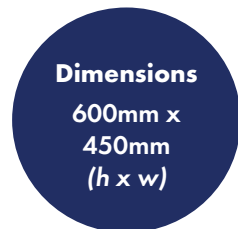

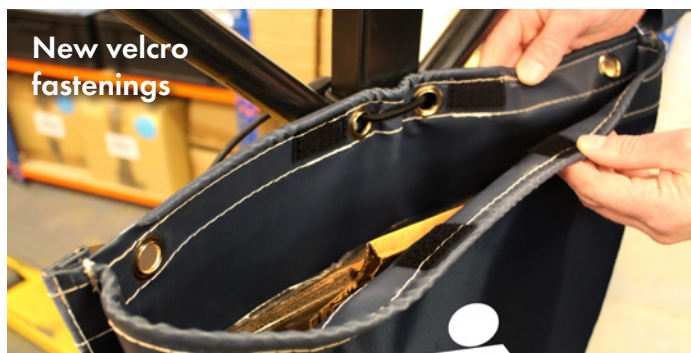

Introducing racksack® nano, based off direct customer feedback for an even more compact solution than racksack® mini!

This small and sturdy waste segregation sack is 600mm x 450mm, the perfect size to attach to forklift trucks and pallet truck handles, making it easy and convenient to collate waste materials on the move. Once full, racksack® nano can be emptied into a standard size racksack® or straight into the main waste collection point on site.

Featuring ties at the back and coming with bungee loop fixings as standard, racksack® nano is quick and easy to secure in place. Plus, to eliminate the possibility of snagging as the forklift or pallet truck moves around the warehouse, racksack® nano features a velcro fastening on the mouth, allowing it to be firmly closed.

Like the rest of the racksack® range, racksack® nano is available with various eye-catching designs on the front, making separation of waste materials a breeze.

racksack® nano promotes a cleaner and more organised workplace as it provides a place to deposit waste packaging while on the move – no more laborious to-ing and fro-ing from a standard floor bin!

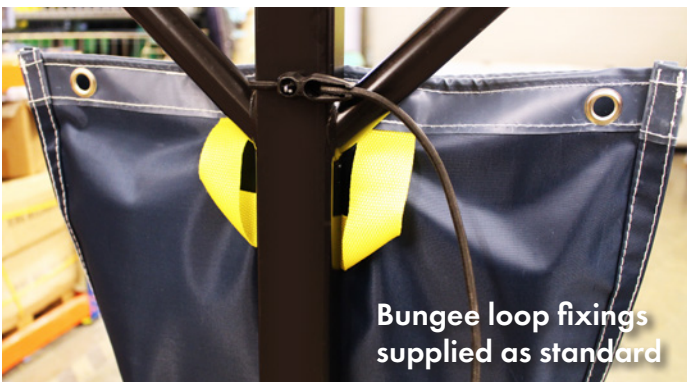

Capacity 32.8 litres

Available in a range of standard text and symbol-only designs

racksack® rollcage

- ➔ Organise waste packaging materials as you go
- ➔ Easy collection and segregation of waste
- ➔ Ideal for 800mm wide roll containers
- ➔ Hard-wearing and re-usable
- ➔ Can be overprinted for volume orders

Keep your workplace neat and tidy by fitting the racksack® rollcage, ideal for use on 800mm wide roll containers. Made from tough waterproof polyester, the large capacity twin pocket sacks can adequately withstand the rigours of an industrial environment.

Fits easily by hooking over the sides or can also be secured via eyelets in the top corners. Straps help secure the middle of the sack.

Overall Dimensions 1300mm x 880mm (h x w)
Capacity 200 litres

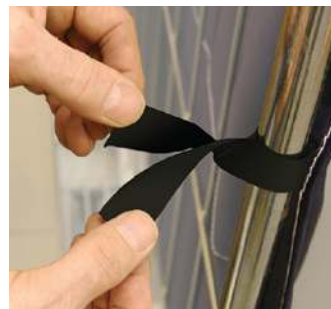

These recycling sacks are simple to hang and secure

1. These terms

1.1 What these terms cover. These are the terms and conditions on which we supply goods and services.

1.2 Why you should read them. Please read these terms carefully before you submit your order to us. These terms tell you who we are, how we will provide products to you, how you and we may change or end the contract, what to do if there is a problem and other important information.

1.3 Are you a business customer or a consumer? We have assumed that this catalogue will be used by business customers only and these terms apply to business customers only. If you are a consumer (i.e. an individual buying products for personal use and not in the course of your business, trade or profession) then please view our terms and conditions for consumers online at <https://www.beaverswood.co.uk/terms-conditions>.

1.4 This is our entire agreement with you. These terms constitute the entire agreement between us in relation to your purchase. You acknowledge that you have not relied on any statement, promise, representation, assurance or warranty made or given by or on behalf of us which is not set out in these terms and that you shall have no claim for innocent or negligent misrepresentation or negligent misstatement based on any statement in this agreement.

2. Information about us and how to contact us

2.1 Who we are. We are Beaverswood Supply Co. Limited a company registered in England and Wales. Our company registration number is 01784234 and our registered office is at Units 8-10 Metro Centre, Toutley Road, Wokingham, Berkshire, RG41 1QW. Our registered VAT number is 303311075.

2.2 How to contact us. You can contact us by telephoning our customer service team at 0118 979 6096 or by writing to us at sales@beaverswood.co.uk or Units 8-10 Metro Centre, Toutley Road, Wokingham, Berkshire RG41 1QW.

2.3 How we may contact you. If we have to contact you we will do so by telephone or by writing to you at the email address or postal address you provided to us in your order.

2.4 "Writing" includes emails. When we use the words "writing" or "written" in these terms, this includes emails.

3. Our contract with you

3.1 How we will accept your order. Our acceptance of your order will take place when we confirm acceptance of it by phone or in writing, at which point a contract will come into existence between you and us.

3.2 If we cannot accept your order. If we are unable to accept your order, we will inform you of this and will not charge you for the product. This might be because the product is out of stock, because of unexpected limits on our resources which we could not reasonably plan for, because a credit reference we have obtained for you does not meet our minimum requirements, because we have identified an error in the price or description of the product or because we are unable to meet a delivery deadline you have specified. Furthermore, if you have requested installation services, we reserve the right to refuse your order if a site inspection or other factors reveal unexpected conditions.

3.3 Your order number. We will assign an order number to your order and tell you what it is when we accept your order. It will help us if you can tell us the order number whenever you contact us about your order.

4. Our products

4.1 Products may vary slightly from their pictures. The images of the products on our website and in our catalogue are for illustrative purposes only. Although we have made every effort to display the colours accurately, we cannot guarantee that a device's display of the colours or a picture in our catalogue accurately reflects the colour of the products. Your product may vary slightly from those images.

4.2 Product packaging may vary. The packaging of the product may vary from that shown in images on our website.

4.3 Making sure your measurements are accurate. If we are making the product to measurements you have given us you are responsible for ensuring that these measurements are correct.

5. Your rights to make changes

If you wish to make a change to the product you have ordered please contact us. We will let you know if the change is possible. If it is possible we will let you know about any changes to the price of the product, the timing of supply or anything else which would be necessary as a result of your requested change and ask you to confirm whether you wish to go ahead with the change. Please note, however, that we are unable to make any changes to non-standard products which are being made to your specification once you have ordered them.

6. Our rights to make changes

6.1 Minor changes to the products. We may change the product:

- to reflect changes in relevant laws and regulatory requirements; and
- to implement minor technical adjustments and improvements. These changes will not affect your use of the product.

7. Providing the products

7.1 Delivery costs. Delivery costs are variable depending on weight and location. Delivery costs will be as set out in our catalogue or as otherwise told to you during the ordering process.

7.2 When we will provide the products.

- If you have not requested installation services from us, we will deliver the products to you as soon as reasonably possible. We offer a next day delivery service on certain standard 'off-the-shelf' products. If you place your order before 3pm on a working day, we will use our reasonable efforts to deliver the products the next working day, however, delivery times are estimates only.
- If you have requested installation services from us, we will deliver the products and begin the installation services on the date agreed with you during the order process.

7.3 We are not responsible for delays outside our control. If our supply of the products is delayed by an event outside our control then we will contact you as soon as possible to let you know and we will take steps to minimise the effect of the delay. Provided we do this we will not be liable for delays caused by the event, but if there is a risk of substantial delay you may contact us to end the contract and receive a refund for any products you have paid for but not received.

7.4 If you are not at the delivery location when the product is delivered. If no one is available at your address to take delivery and the products cannot be posted through a letterbox, we will leave you a note informing you of how to rearrange delivery or collect the products from a local depot.

7.5 If you do not re-arrange delivery. If you do not collect the products from us as arranged or if, after a failed delivery to you, you do not re-arrange delivery or collect them from a delivery depot we will contact you for further instructions and may charge you for storage costs and any further delivery costs. If, despite our reasonable efforts, we are unable to contact you or re-arrange delivery or collection we may end the contract and clause 10.2 will apply.

7.6 If you do not allow us access to provide services. We require unobstructed access to the installation site between 8.00 a.m. to 6.00 p.m. each working day of installation. If you do not allow us access to the site to perform the services as arranged (and you do not have a good reason for this) we may charge you additional costs incurred by us as a result. If, despite our reasonable efforts, we are unable to contact you or re-arrange access to the site we may end the contract and clause 10.2 will apply.

7.7 We require a project manager for installation services. If you have paid for installation services, we require a named project manager available to resolve any problems that may arise during the entire installation period.

7.8 Health and safety requirements for installation services. We need to be advised of all health and safety requirements at your premises two weeks prior to the installation date.

7.9 Cold store conditions. In cold store installations, you must provide suitable clothing for the installers, failing which we may refuse to carry out the installation.

7.10 When you become responsible for the goods. The products will be your responsibility from the time we deliver them to the address you gave us.

7.11 When you own goods. You own a product once we have received payment in full (in cash or cleared funds) for all products and services ordered by you from us.

7.12 What will happen if you do not give required information to us. We may need certain information from you so that we can supply the products to you, for example, a specification of the products required. If so, this will have been stated in the description of the products on our website. We will contact you to ask for this information. If you do not give us this information within a reasonable time of us asking for it, or if you give us incomplete or incorrect information, we may either end the contract (and clause 10.2 will apply) or make an additional charge of a reasonable sum to compensate us for any extra work that is required as a result. We will not be responsible for supplying the products late or not supplying any part of them if this is caused by you not giving us the information we need within a reasonable time of us asking for it.

7.13 Reasons we may suspend the supply of products to you. We may have to suspend the supply of a product to:

- deal with technical problems or make minor technical changes;
- update the product to reflect changes in relevant laws and regulatory requirements;
- make changes to the product as requested by you or notified by us to you (see clauses 5 and 6).

7.14 Your rights if we suspend the supply of products. We will contact you in advance to tell you we will be suspending supply of the product, unless the problem is urgent or an emergency. You may contact us to end the contract for a product if we suspend it, or tell you we are going to suspend it, in each case for a period of more than 30 days and we will refund any sums you have paid in advance for the product in respect of the period after you end the contract.

7.15 We may also suspend supply of the products if you do not pay. If you do not pay us for the products when you are supposed to (see clause 12.3) and you still do not make payment within 14 days of us reminding you that payment is due, we may suspend supply of all products until you have paid us the outstanding amounts. We will contact you to tell you we are suspending supply of products. We will not suspend the products where you dispute the unpaid invoice (see clause 12.6). As well as suspending the products we can also charge you interest on your overdue payments (see clause 12.5).

8. Your rights to end the contract

8.1 Exercising your right to change your mind. For most products bought via our catalogue we will allow you to return the goods and receive a refund if you have ordered the wrong product or you have changed your mind within 14 days after you receive the product, provided that the product is still, in our reasonable opinion, in a resalable condition.

8.2 When you do not have a right to a refund. Your right to a refund does not apply in respect of:

- non-standard products which have been made to your specification;
- services, once these have been completed, even if the cancellation period is still running; and
- any products which become mixed inseparably with other items after their delivery.

9. How to end the contract with us

9.1 Returning products. If you want to return any products after they have been dispatched to you or you have received them, you must return them to us. You must either return the goods in person to where you bought them or post

them back to us at Units 8-10 Metro Centre, Toutley Road, Wokingham, Berkshire, RG41 1QW.

9.2 When we will pay the costs of return. We will pay the costs of return:

- if the products are faulty or misdescribed;
- if we have told you about an error in pricing or description, or because you have a legal right to do so as a result of something we have done wrong.

In all other circumstances you must pay the costs of return.

9.3 How we will refund you. If you are entitled to a refund under these terms we will refund you the price you paid for the products including delivery costs, by the method you used for payment. However, we may make deductions from the price, as described below.

9.4 When we may make deduction from refunds. If you are exercising your right to change your mind:

- We will charge a handling fee of 12.5% of the price of the returned product and deduct this from your refund. If we refund you the price paid before we are able to inspect the goods and later discover you have handled them in an unacceptable way, you must pay us an appropriate amount.
- The maximum refund for delivery costs will be the costs of delivery by the least expensive delivery method we offer. For example, if we offer delivery of a product within 3-5 days at one cost but you choose to have the product delivered within 24 hours at a higher cost, then we will only refund what you would have paid for the cheaper delivery option.
- Where the product is a service, we may deduct from any refund an amount for the supply of the service for the period for which it was supplied, ending with the time when you told us you had changed your mind.

The amount will be in proportion to what has been supplied, in comparison with the full coverage of the contract.

10. Our rights to end the contract

10.1 We may end the contract if you break it. We may end the contract for a product at any time by writing to you if:

- you do not make any payment to us when it is due and you still do not make payment within 14 days of us reminding you that payment is due;
- you do not, within a reasonable time of us asking for it, provide us with information that is necessary for us to provide the products;
- you do not, within a reasonable time, allow us to deliver the products to you or collect them from us;
- you do not, within a reasonable time, allow us access to your premises to supply the services;
- in the case of installation services, if a site inspection or other factors relating to your premises reveal unexpected conditions which would not be suitable for us to work in.

10.2 You must compensate us if you break the contract. If we end the contract in the situations set out in clause 10.1 we will refund any money you have paid in advance for products we have not provided but we may deduct or charge you reasonable compensation for the net costs we will incur as a result of your breaking the contract.

11. Your rights in respect of defective products

11.1 We warrant that, on delivery, any products which are goods will conform in all material respects with their description and any relevant specification, and for a period of 12 months from the date of delivery (warranty period), shall:

- be free from material defects in design, material and workmanship;
- be of satisfactory quality (within the meaning of the Sale of Goods Act 1979); and
- be fit for any purpose held out by us.

11.2 Subject to clause 11.3, if:

- you give us notice in writing on delivery that the products do not conform in all material respects with their description and any relevant specification or during the warranty period within a reasonable time of discovery that a product does not comply with the other warranties set out in clause 11.1 (a) – (c);
- we are given a reasonable opportunity of examining such product; and
- you return such product to us at your cost,

we shall, at our option, repair or replace the defective product, or refund the price of the defective product in full.

11.3 We will not be liable for a product's failure to comply with the warranty in clause 11.1 if:

- you make any further use of such product after giving a notice in accordance with clause 11.2(a);
- the defect arises because you failed to follow our oral or written instructions as to the storage, installation, commissioning, use or maintenance of the product or (if there are none) good trade practice;
- the defect arises as a result of us following any drawing, design or specification supplied by you;
- you alter or repair the product without our written consent; or
- the defect arises as a result of fair wear and tear, wilful damage, negligence, or abnormal working conditions.

11.4 Except as provided in this clause 11, we shall have no liability to you in respect of a product's failure to comply with the warranty set out in clause 11.1.

11.5 These terms shall apply to any repaired or replacement products supplied by us under clause 11.2.

12. Price and payment

12.1 Where to find the price for the product. The price of the product (which excludes VAT) will be the price set out in our catalogue, as indicated on the order pages of our website when you placed your order, or as otherwise told to you during the ordering process.

12.2 We will pass on changes in the rate of VAT. If the rate of VAT changes between your order date and the date we supply the product, we will adjust the rate of VAT that you pay, unless you have already paid for the product in full before the change in the rate of VAT takes effect.

12.3 When you must pay and how you must pay. We accept payment with most major credit cards. When you must pay depends on what product you are buying and whether or not you are a credit customer:

- For goods, you must pay for the products before we dispatch them (unless you are a credit customer, in which case see clause 12.3(c) below).
- For services, we will invoice you for the price of the services when we have completed them. You must pay each invoice within 30 calendar days after the date of the invoice.
- If you are a credit customer. If you are a regular credit customer and we have offered for you to open up an account with us then we will invoice you for the goods when we have dispatched them. You must pay each invoice within 30 calendar days after the date of the invoice.

12.4 Our right of set-off. You must pay all amounts due to us under these terms in full without any set-off, counterclaim, deduction or withholding (other than any deduction or withholding of tax as required by law).

12.5 We can charge interest if you pay late. If you do not make any payment to us by the due date we may charge interest to you on the overdue amount at the rate of 4% a year above the base lending rate of the Bank of England from time to time. This interest shall accrue on a daily basis from the due date until the date of actual payment of the overdue amount, whether before or after judgment. You must pay us interest together with any overdue amount.

12.6 What to do if you think an invoice is wrong. If you think an invoice is wrong please contact us promptly to let us know. You will not have to pay any interest until the dispute is resolved. Once the dispute is resolved we will charge you interest on correctly invoiced sums from the original due date.

13. Our responsibility for loss or damage suffered by you

13.1 Nothing in these terms shall limit or exclude our liability for:

- death or personal injury caused by our negligence, or the negligence of our employees, agents or subcontractors (as applicable);
- fraud or fraudulent misrepresentation;
- breach of the terms implied by section 12 of the Sale of Goods Act 1979 or section 2 of the Supply of Goods and Services Act 1982; or
- defective products under the Consumer Protection Act 1987; or
- any matter in respect of which it would be unlawful for us to exclude or restrict liability.

13.2 Except to the extent expressly stated in clause 11.1 all terms implied by sections 13 to 15 of the Sale of Goods Act 1979 and sections 3 to 5 of the Supply of Goods and Services Act 1982 are excluded.

13.3 Subject to clause 13.1:

- we shall not be liable to you, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, for any loss of profit, or any indirect or consequential loss arising under or in connection with any contract between us; and
- our total liability to you for all other losses arising under or in connection with any contract between us, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, shall be limited to the total sums paid by you for products under such contract.

13.4 How we may use your personal information. We will only use your personal information as set out in our Privacy Policy. You can find our Privacy Policy on our website.

14. Other important terms

14.1 Nobody else has any rights under this contract (except someone you pass your guarantee on to). This contract is between you and us. No other person shall have any rights to enforce any of its terms.

14.2 If a court finds part of this contract illegal, the rest will continue in force. Each of the paragraphs of these terms operates separately. If any court or relevant authority decides that any of them are unlawful, the remaining paragraphs will remain in full force and effect.

14.3 Even if we delay in enforcing this contract, we can still enforce it later. If we do not insist immediately that you do anything you are required to do under these terms, or if we delay in taking steps against you in respect of your breaking this contract, that will not mean that you do not have to do those things and it will not prevent us taking steps against you at a later date. For example, if you miss a payment and we do not chase you but we continue to provide the products, we can still require you to make the payment at a later date.

14.4 Which laws apply to this contract and where you may bring legal proceedings if you are a business. If you are a business, any dispute or claim arising out of or in connection with a contract between us or its subject matter or formation (including non-contractual disputes or claims) shall be governed by and construed in accordance with the law of England and Wales and the courts of England and Wales shall have exclusive jurisdiction to settle any such dispute or claim.
