7 MM PORCELAIN STONEWARE

Porcelain tile solutions with a thickness of 7 mm are an expression of the most innovative production technologies applied to the sector of ceramic tiling. Its reduced thickness maintains its extraordinary resistance, hygiene and maintenance of the material intact, with products that weigh less and are easier to handle and laying in making walls and floors, both in new builds and renovations.

GRES PORCELLANATO 7 MM

Le soluzioni in gres porcellanato con uno spessore di 7 mm sono espressione delle più innovative tecnologie produttive applicate al settore dei rivestimenti ceramici. Lo spessore contenuto mantiene intatte le straordinarie caratteristiche di resistenza, igiene e manutenzione del materiale a fronte di prodotti dal peso ridotto, più facili da posare, per realizzare pareti e pavimenti in nuovi interventi e ristrutturazioni.

POLISHED SURFACE SUPERFICIE LEVIGATA

Porcelain stoneware with a polished surface created in Fincibec's workshop has a mirror sheen, emphasising the colours and veins of the marble effect materials inspiring it. The glossy of polished porcelain stoneware suggest use as a wallcovering, for indoor flooring in the home and, after determining the expected levels of stress, in commercial space not subject to heavy traffic.

Il gres porcellanato con superficie levigata, studiato dai laboratori Fincibec, assume la lucentezza di uno specchio, esaltando le colorazioni e le venature dei materiali d'ispirazione, ad effetto marmo. La brillantezza dei prodotti levigati ne suggerisce l'impiego per il rivestimento delle pareti, per la creazione di pavimenti negli spazi interni in ambito residenziale e, con opportune verifiche sulle sollecitazioni previste, in ambito commerciale leggero.
