INTRODUCTION

DaltronX is a leading global manufacturing company that specialises in the production of carbide conical picks, roof bits, drill steels, drill tubes, and spinning adaptors for the underground mining sector.

Our comprehensive supply chain and strong focus on innovation ensure that our products deliver superior performance, durability, and cost-effectiveness. Our drilling products are the preferred choice, designed for efficient operations and extended tool life.

Our key capabilities include a patented electric upsetting process and a unique 'bulb/washer' design. This innovative approach enables our 19mm Hex Drill Steel's ferrule to withstand over 100% more force compared to local competitors.

PRODUCT OVERVIEW

SEMI-SPADE, FULL SPADE, 2-PRONG AND P-SHANK ROOF BITS

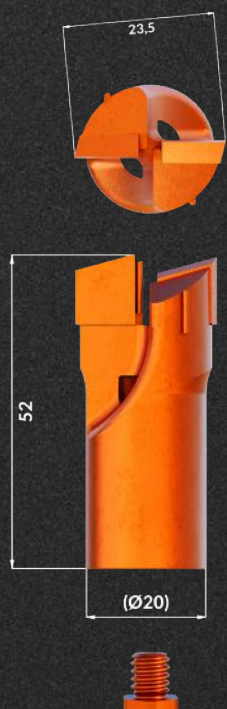

DRILL STEELS, DRILL TUBES, EXTENSION RODS AND SPINNING ADAPTORS

PATENTED ELECTRIC UPSETTING PROCESS AND BULB/WASHER FERRULE DESIGN

COMPATIBLE ACCESSORIES AVAILABLE
