About us

Pittaraa is a handcrafted brand founded in 2019, specializing in hand-painted terracotta products such as mugs, planters, and decor items. Each piece is made with care, reflecting traditional Indian craftsmanship blended with modern aesthetics and contemporary designs. Each product is a testament to the skill and passion of Indian artisans who have preserved the tradition of terracotta craftsmanship for generations. From the initial molding of clay to the final brushstroke of paint, every piece undergoes a meticulous handcrafting process that ensures uniqueness and quality.

Unlike mass-produced items, Pittaraa's creations are made in small batches, making each item one-of-a-kind. This deliberate and mindful approach not only supports the slow-living movement but also promotes sustainable consumption and local employment.

What sets Pittaraa apart is its distinctive fusion of traditional art forms with contemporary aesthetics. The brand draws inspiration from classic Indian motifs such as Madhubani, Warli, and tribal patterns, reimagining them in fresh, modern contexts that appeal to today's urban sensibilities. Whether it's quirky hand-painted mugs, nature-inspired planters, or minimalist decor accents, Pittaraa brings an element of charm and individuality to any living space. The colors used are vibrant yet balanced, reflecting both cultural richness and modern elegance.
