BRAND HISTORY

Top Trumps USA was incorporated in 2008 but the history of our brands stretches back over 100 years.

Waddingtons first produced playing cards and games in 1922, going on to publish Monopoly and create games such as Cluedo, Risk, Lexicon, and many more.

In the 1970s, Top Trumps was launched by Dubreq, the makers of the Stylophone, and later acquired by Waddingtons where it became the most popular card game in the United Kingdom.

Top Trumps USA are proud to share this range of games which have been played and loved by people across the world for decades.

In 2020, Cities MONOPOLY, Puzzles and Playing Cards were introduced into the USA.

RATING
The Millennium Falcon has played a role in some of the greatest victories of the Rebel Alliance and the New Republic. The Falcon may look like a worn-out junker, but she's a true star. A series of modifications have made special modifications that boost the freighter's speed, shielding and firepower to impressive levels. The Falcon can be unpredictable but despite her flaws, she's beloved by her owners.

Northern Lights
The Northern Lights are naturally occurring light displays in the sky. The colors range from a combination of red and green light, or red and blue light. The red light is nitrogen in the atmosphere being hit by the red and blue and the oxygen that causes the light. Tromsø is one of the most popular places to see the Lights in Northern Norway.
