

Worker societal organisations in the coming age of AI and Alt-right politico-capitalism.

Y Clochydd presents:

Summary

Y Clochydd presents: an AI audio podcast exploring the historical and potential future forms of worker organisation, contrasting medieval guilds and modern unions with the influence of organised crime syndicates and the diminishing role of political parties. The overall argument suggests that unions, guilds, and even criminal organisations may offer more tangible benefits to workers than political parties in the coming age and questions the future viability of political parties in the face of powerful corporations and alternative forms of worker organisation.
