Country Charme

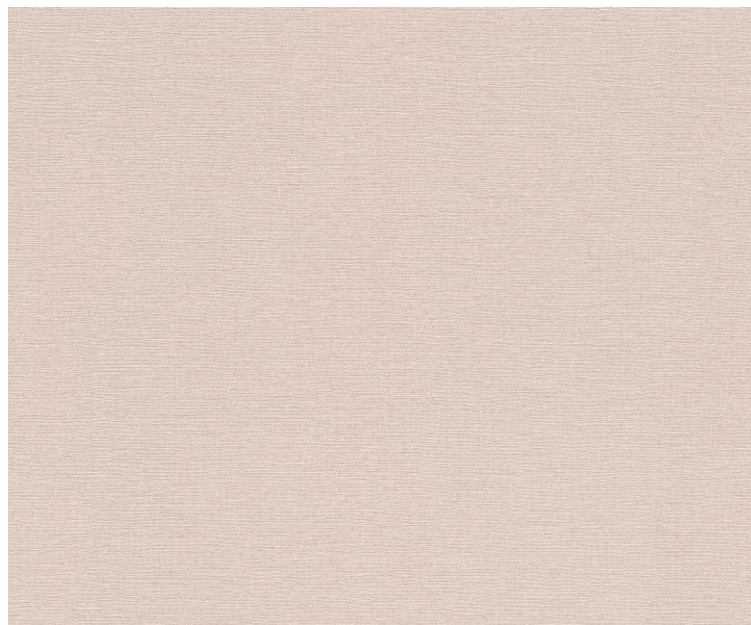

Welcome to the countryside! Here, it's all about slowing down - and a dose of **country charm** helps us to do this. With harmoniously coordinated colours, floral patterns and individual textures, the wallpaper collection invites us to take a walk in **nature**.

Sometimes **hand-drawn** flower tendrils stretch across the entire wall; sometimes lush plants surprise us with iridescent colour effects. A sandy striped pattern is also a must for bringing the **natural feeling** of home into your four walls.

Uni-wallpapers such as moss, sage and olive provide a **view of the greenery**. But stronger colours such as curry yellow and terracotta are also welcome. Thanks to their natural feel, the designs look perfectly imperfect - just like **nature** itself.

All wallpapers in the collection are colour-coordinated. So you can quickly find a charming match for any country pattern. That's what we love about **country life**.
