**SILICONE DAB RIGS WITH BANGER AND DABBER TOOL**

B003

Heat resistant Silicone Dab Rig With Banger Dabber Tool & Storage Container  
 Silicone pipes go the extra mile when it comes to design, color, and functionality. Even though these pieces are made with silicone, they are still modelled after their glass counterpart in every way. Each pipe has reinforced walls, bump protection and a spot to keep the stainless steel tool that's included.  
 This Dab Rig has a bent neck that is easy to hit and the included titanium nail may be old-school, but it's impossible to break. These rigs come apart for easy storage and cleaning. The color pallets on these rigs are outrageous. Each swirl of detail is bright and explodes with colors.  
 Material: Silicone+ Borosilicate glass

**SILICONE DAB RIG**

## BURST BEAD PUSHER

SHK-M233D

### SPECIFICATION

Product Name: Cigarette Burst Bead Pusher

Colour: Black

Size: 34 \* 80 \* 13mm

Material: Plastic accessories

Bead Diameter: 2.6-3.8mm

Features: UV matte environmental protection spray, wear-resistant and never fade

### INSTRUCTIONS

1. Slowly pour the fragrant beads into the top of the bead box and place it in the entrance.
2. Take out the ordinary cigarette without pre-embedded scented beads, put it in the bottom hole, and push it into the filling channel slightly.
3. Insert the ordinary cigarettes that have completed the filling channel into the bottom left hole, and the filling rod pushes the fragrant beads into the filling channel smoothly.
4. Hold the cigarette in one hand and push the bead stick with the other hand to implant the fragrant beads into the mouthpiece. Squeeze the explosive incense beads. The ignition is completed, and the scented bead becomes smoke in seconds.

### NOTES

1. Due to the light and screen setting difference, the item's color may be slightly different from the pictures.
2. Please allow slight dimension difference due to different manual measurements.

## ASIAN COCONUT

100% Natural

Savor the smooth, flavorful draw from a premium shisha using WeeWorld's Coconut Shell Charcoal Cubes made from 100% coconut shells with no chemicals or additives. To get started, prepare your hookah and place your shisha in the bowl with the charcoal screen over it. Pick up one or two coals with metal tongs and light them on a stovetop or an electric coil burner for approximately 8-10 minutes in a ventilated area, then place the lit coal(s) on the screen and enjoy. Chemical free and 100% natural, these premium charcoal cubes are odorless, produce very little ash and don't deliver a foul taste.

## COCONUT CHARCOAL

CH-2026

**Coconut Shell Charcoal - Hookah Coals - Natural Coconut Shisha Briquettes Lights Quickly Longer Lasting Clean Burn Odor and Spark Free No Foul Aftertaste for Smooth Smoking Experience**

**High-quality material:** The smooth, flavorful draw from a premium shisha is like no other experience. Don't ruin the moment with inferior charcoals – use premium coal from Weeworld for a pure draw every time.

**Instant light:** You don't need to bring an oven or burner to light these coals. These tablets light quickly using either a lighter or a torch, making them ideal for home use and when you're on the go.

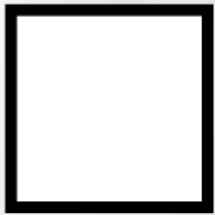

**Relaxed smoke:** Groups of family and friends have sat together to enjoy a relaxed and sociable smoke around a hookah pipe for hundreds of years. Be free to draw your life in elegance and style with these high-quality, instant-coal tablets.

**Easy to use:** Prepare your hookah and place shisha in the bowl with the charcoal screen over it. Pick up one or two coals with metal tongs and light them with a lighter or a torch. After the coal turns a light gray color, place the lit coal on the screen.

**Sufficient amount:** Furnished, each package contains 10 tablets per roll and 10 rolls per box, providing you with a sufficient amount for your smoking pleasure.

# A platform that connects you with factories in China!

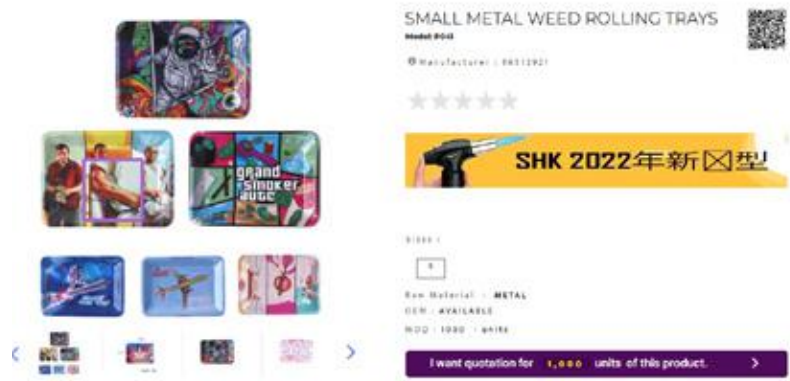

www.oemheadshop.com

All products in this catalog and many more items are available on our platform, where you can manage everything from cargo inspection to real-time shipping tracking.

1

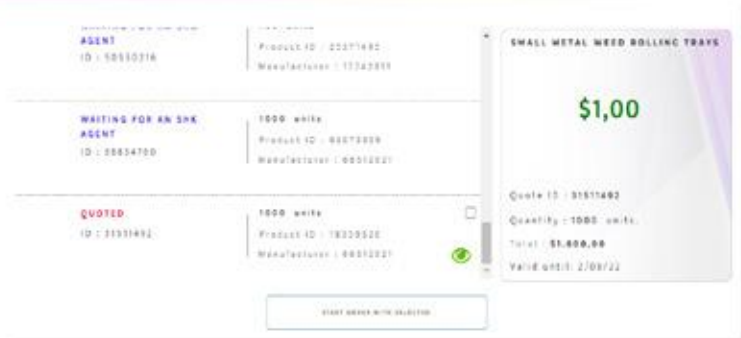

On the product display page, you will enter the desired quantity to request a quote. This request will be considered by one of our analysts and a survey will be carried out to select the appropriate supplier.

2

As soon as we receive the quotes from the factories, we will present the lowest value found in the "Quotes" menu. You can select different quotes with different types of products and assemble your order (fill your container).
