“Compass is such a great resource for solid truth and Biblical foundations that my kids will be well equipped to face any challenges that question their beliefs!”

— HOLLY

ABOUT OUR APPROACH

For the past 15 years, Compass Classroom has developed video materials to help students think Biblically about the world around them. As a father of three kids myself, I'm well aware of the ideas spreading like a darkening fog through our culture. But I'm also aware of the power of a Biblical worldview to dispel that darkness.

Our approach to making curriculum is like that of an artisan craftsman: we value quality over quantity. Each of our products has been carefully designed to accomplish its educational goals. We believe education should be interesting, engaging, and fun for students.

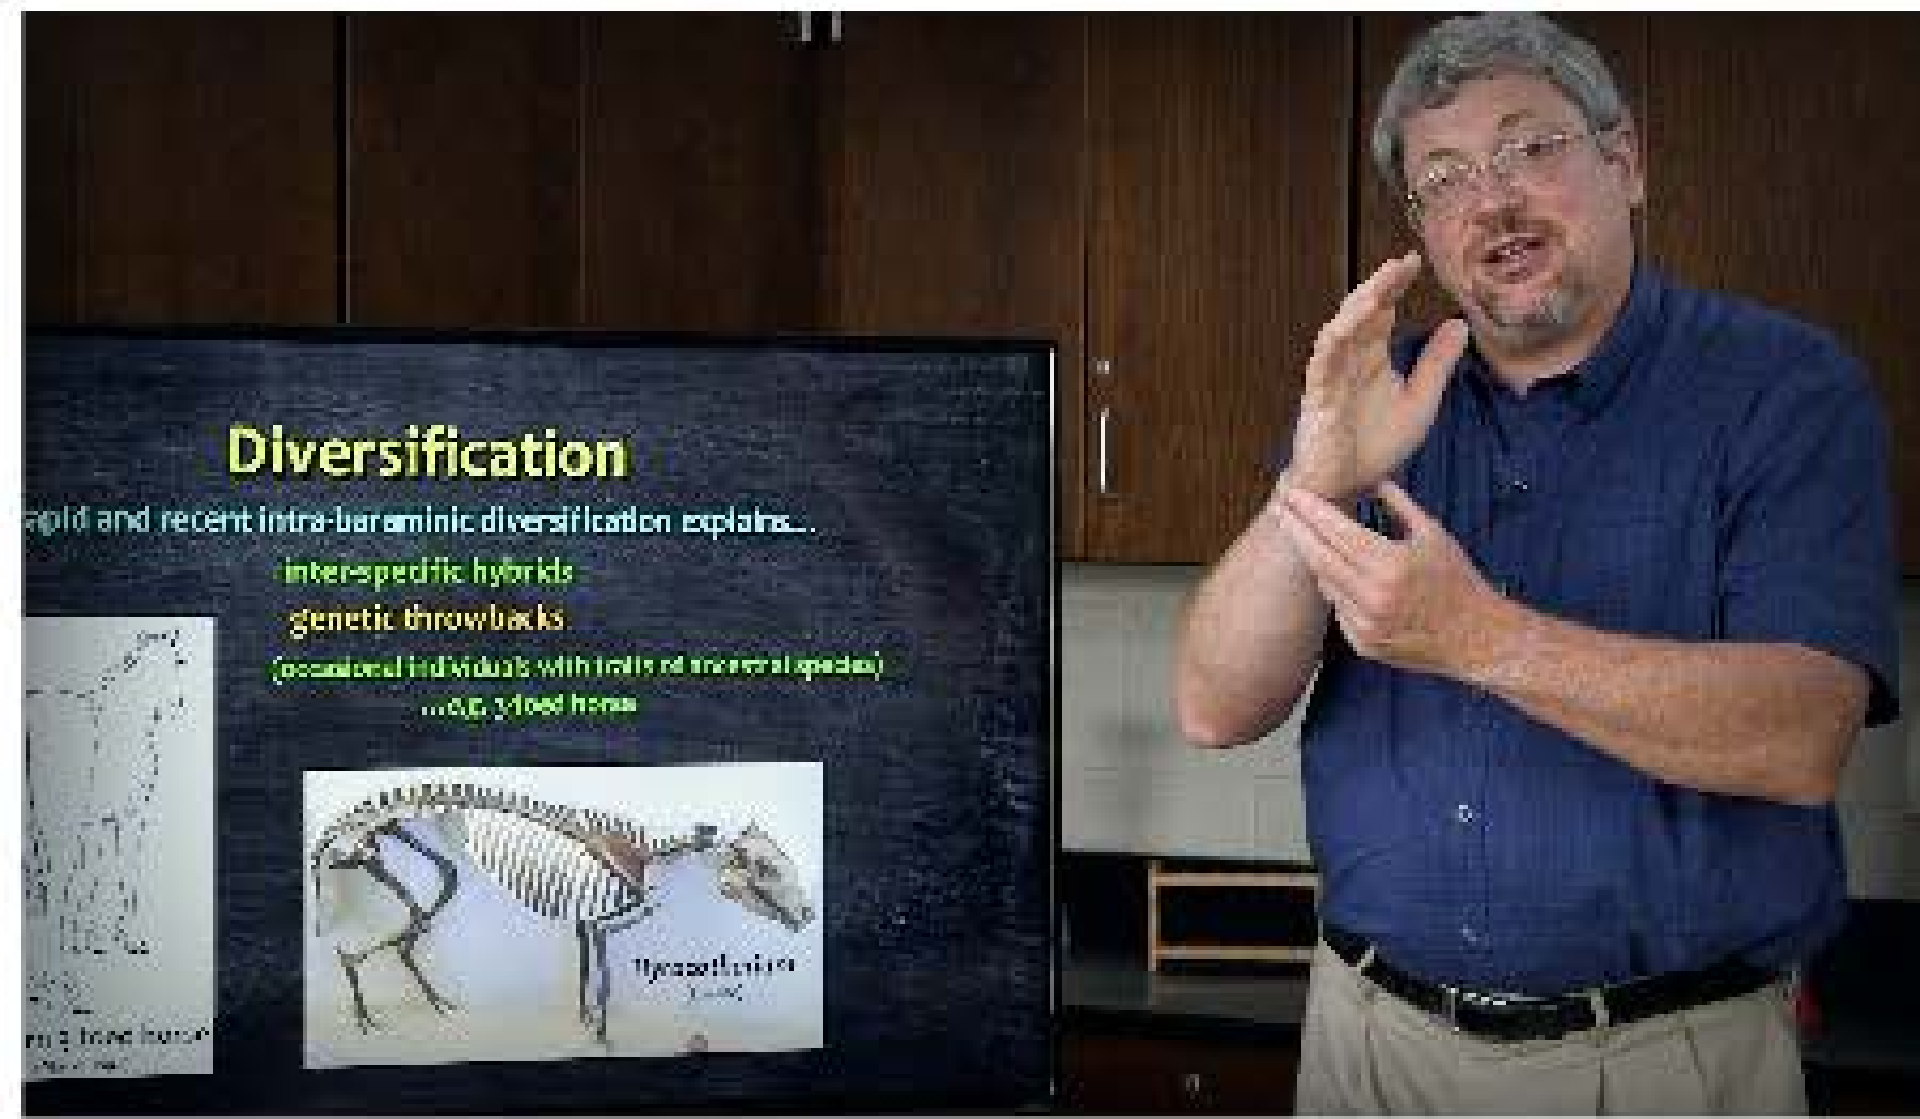

Thousands of homeschool families and Christian schools already use our curriculum each year, but we're constantly hearing people say they've just discovered us. If you are new to our products, I would encourage you to go to MyCompassClassroom.com and try out everything for free for two weeks. We have a lot of interesting products; I feel sure we have something that will help you on your homeschool journey.

We are pleased to be able to serve you and your family.

Most sincerely,

A handwritten signature in black ink, appearing to read "Thomas Purifoy, Jr." with a stylized flourish at the end.

DAVE RAYMOND'S

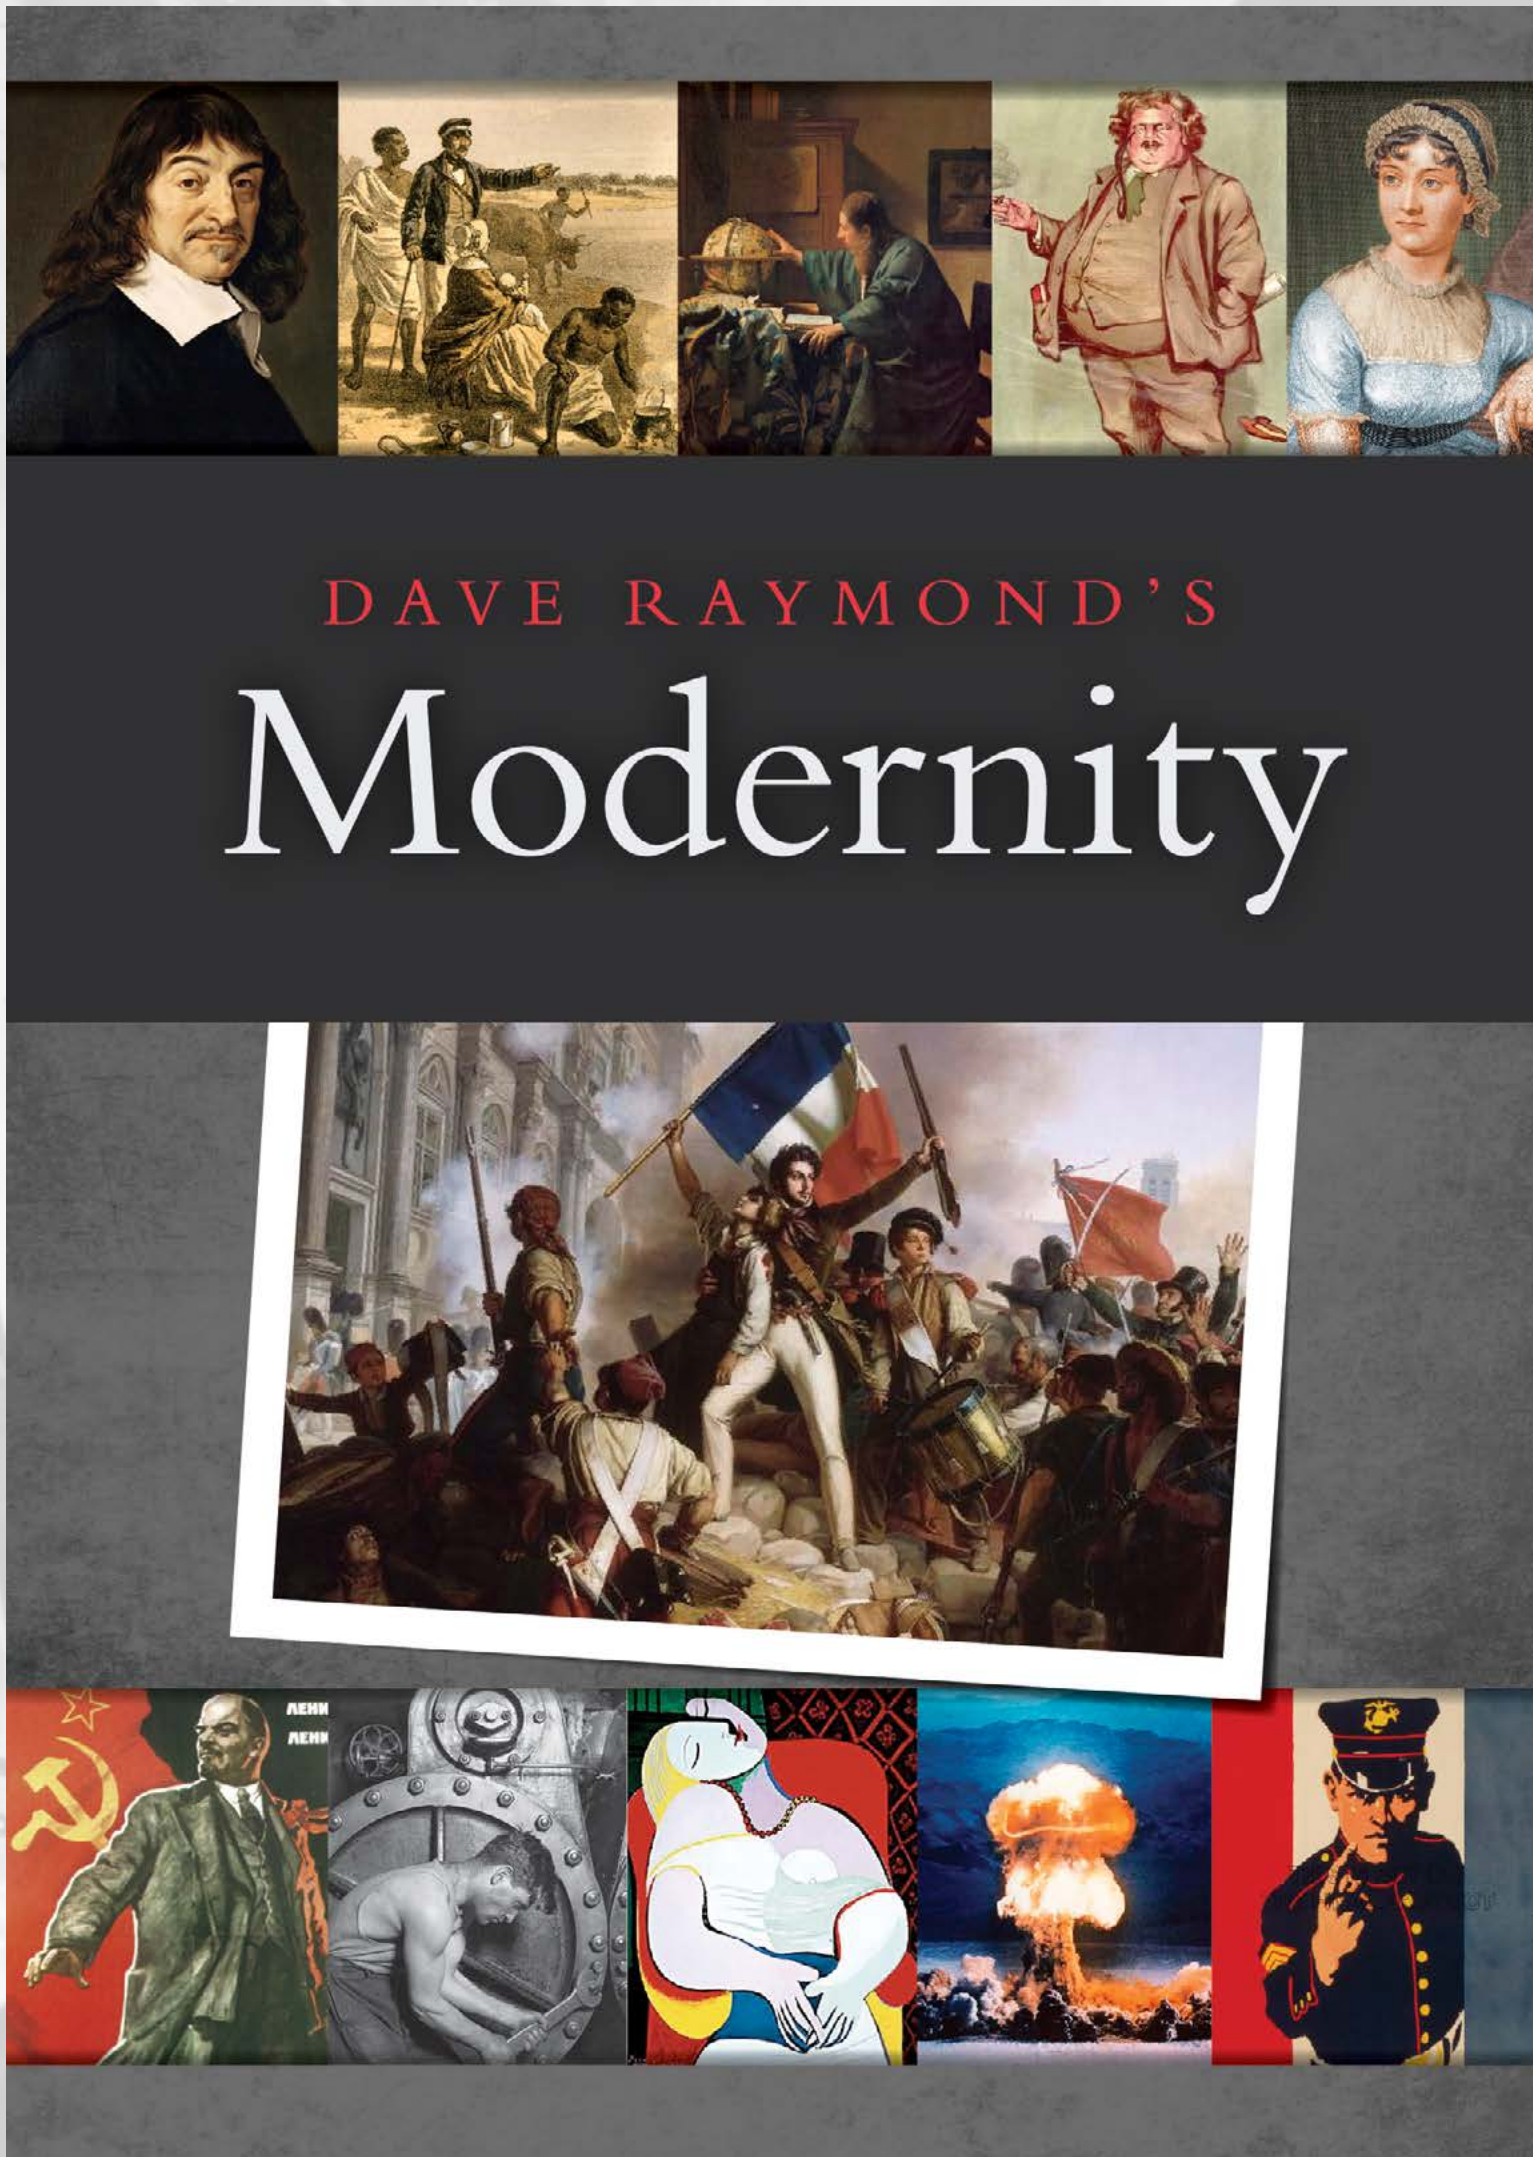

Modernity

If you've traveled across the New World in Dave Raymond's American History course, you'll want to continue the journey in this exciting addition to his history cycle. Under Dave's instruction, students will learn how to apply a Christian worldview to the major ideas, people and movements of our current age. Modernity covers world history from 1600 to the early 21st-century.

"I just asked my daughter taking Modernity to review it. Her reaction, 'I love it! It doesn't describe history as just dates and events. It gives context as to why events took place, and the people behind them. Before this, I thought history was boring. I look forward to working on Modernity. It's my favorite class.'"

A must-have series for those wanting their children to have a Biblical worldview of history.

Dave Raymond completes his four-year history cycle in a new series spanning the resurrection of Christ to the 1600s. He traces the growth of the church through periods of tremendous persecution, flowering, and reformation. Along the way, he relates the compelling stories of the emperors, monks, barbarians and battles of the medieval age.

“My daughter loves how what she is learning in her class directly relates to what we are learning in our Bible studies. She also loves discussing how the class lectures presents the Bible as history and not a story. It has led to many interesting discussions.”

Grammar of POETRY

Matt Whitling instructs students in the building blocks of poetry and literature in a fun and engaging way. Principal at the renowned Logos School, Matt has spent many years helping students understand poetic, literary, and non-literal language.

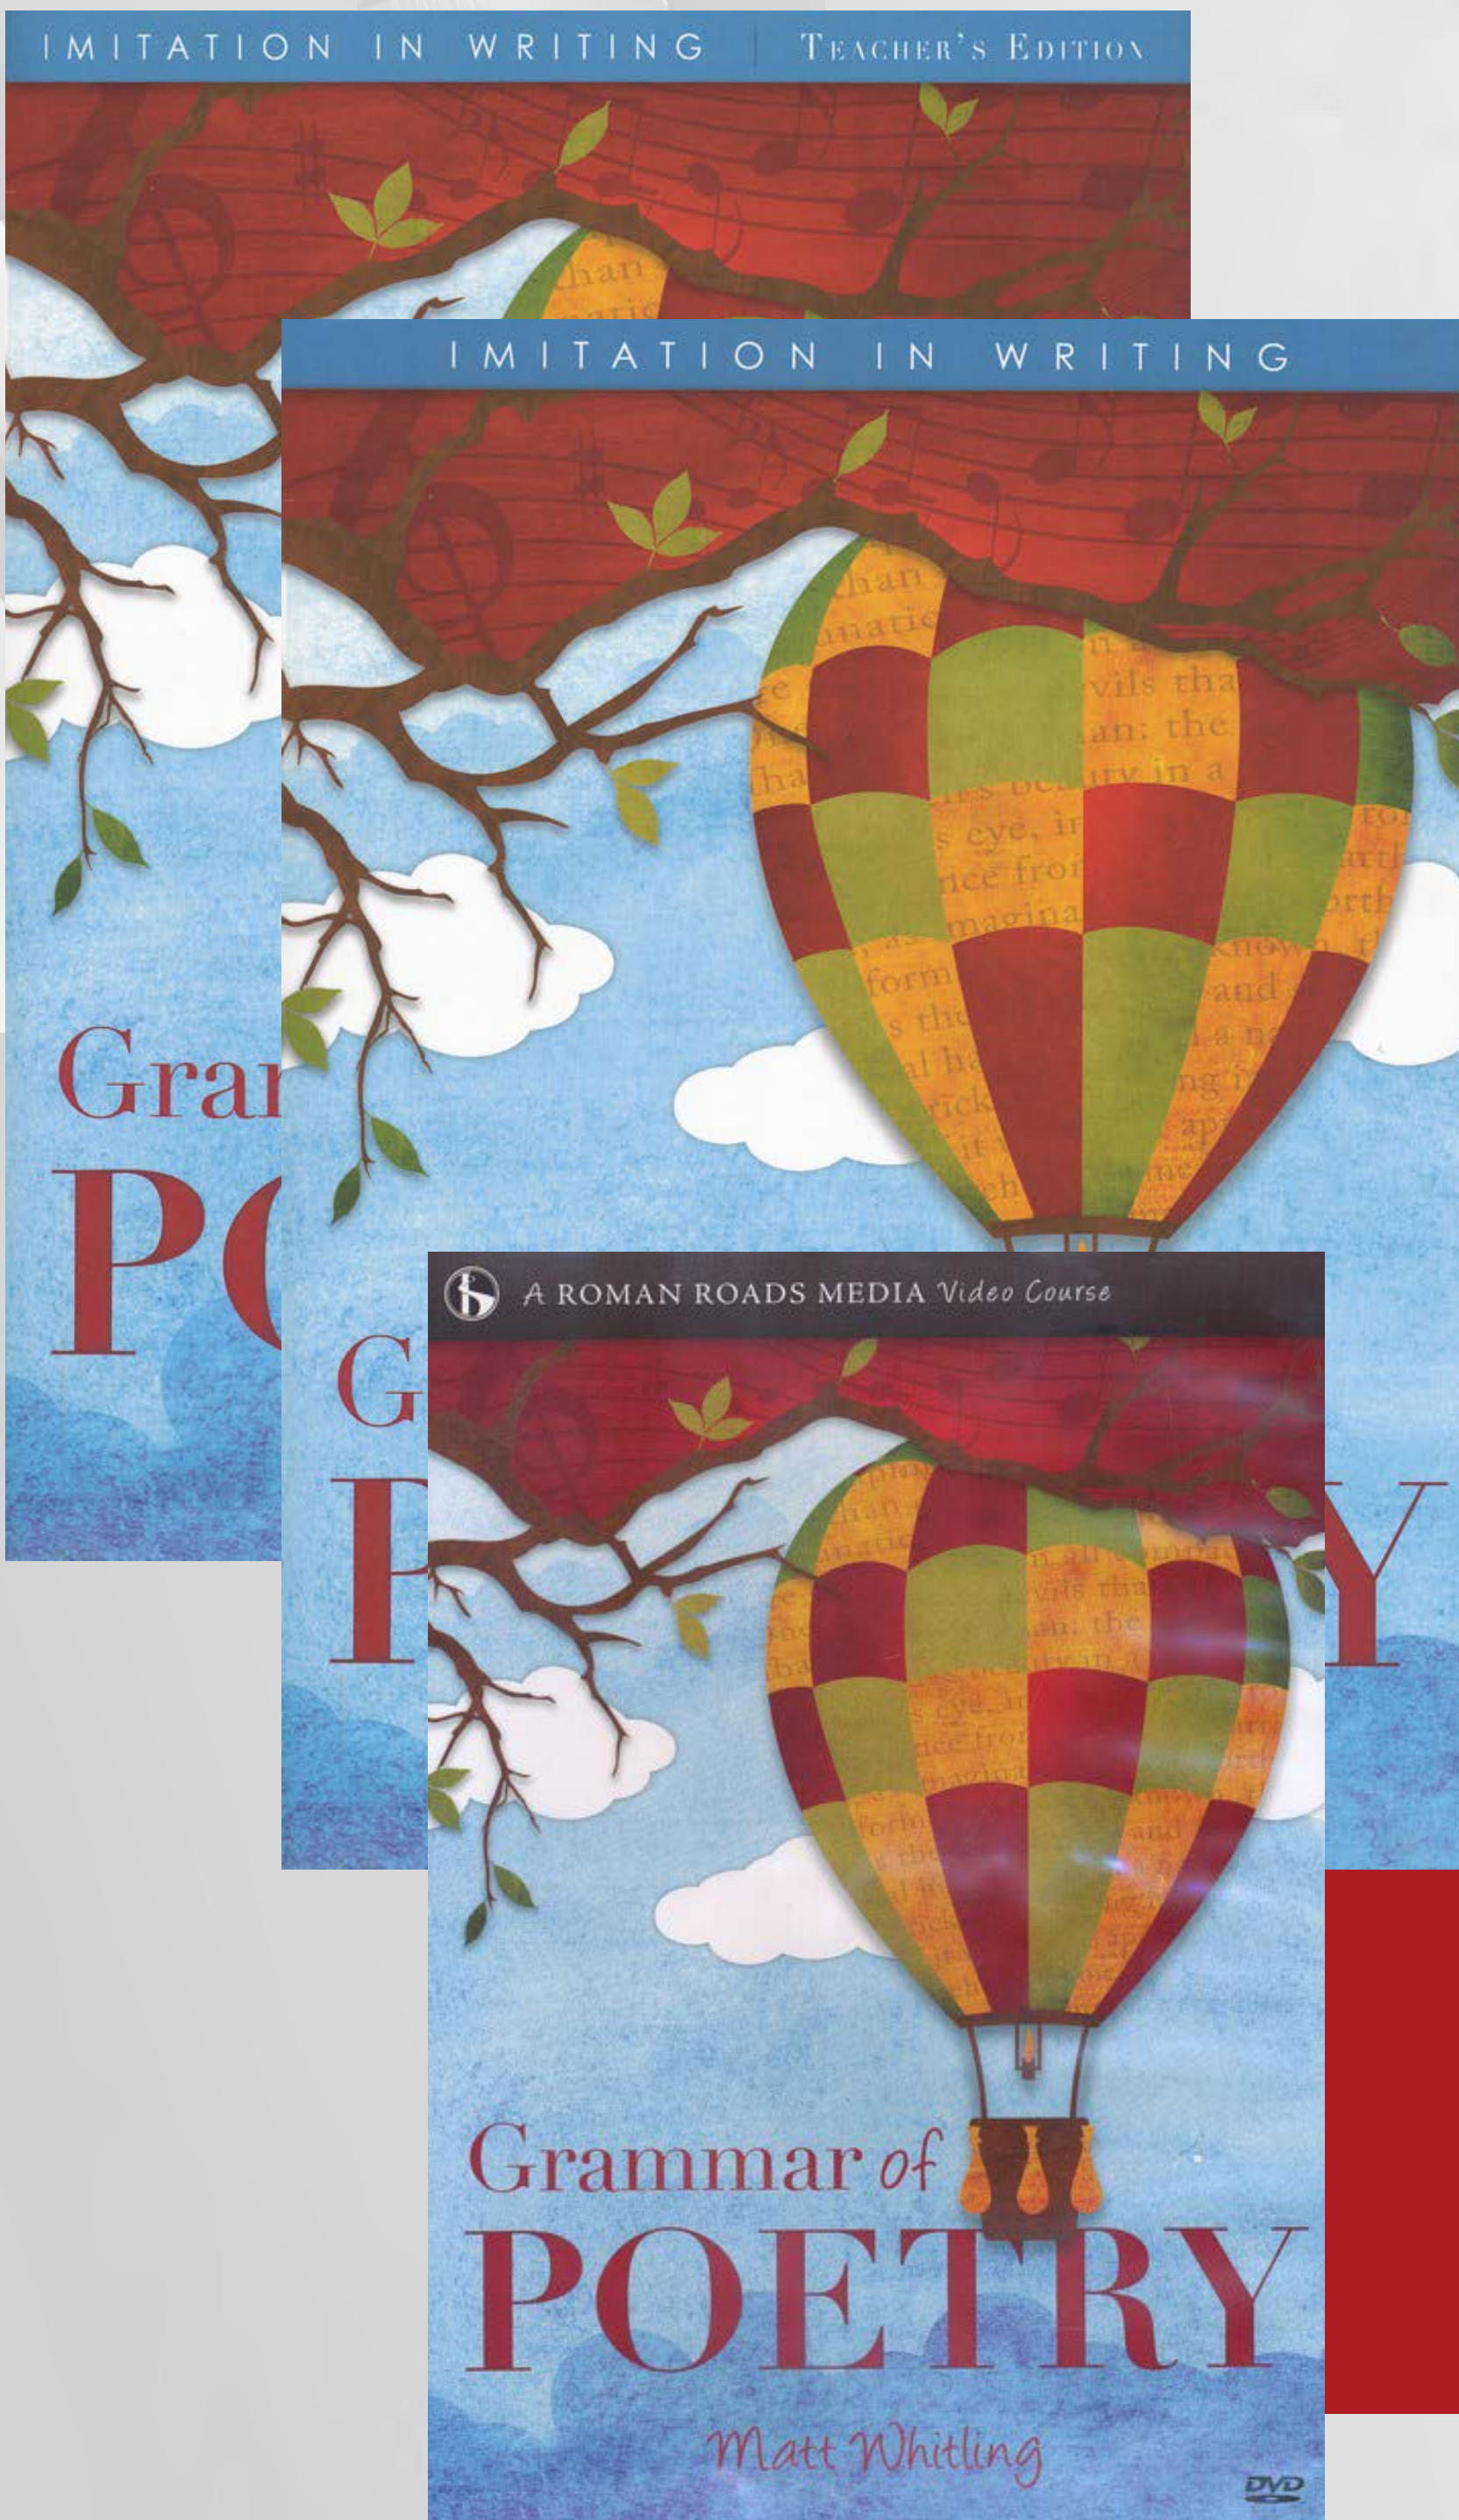

Grammar of Poetry teaches the mechanics of poetry by using the classical approach of imitation. This method teaches students how to interact not only with poems, but also with language in any situation. Lectures cover the fundamentals of poetry from scansion and rhyme to more advanced concepts like spatial poetry and synecdoche.

It is designed for the 6th through 9th grade level, but is also appropriate for older children and adults seeking to achieve a better knowledge of how poetry works.

“A masterpiece of enjoyable reading and enriching information.”

Grammar for Writers builds on a native speaker and reader's instinctive understanding of language in order to demystify English grammar and sentence structure. The course provides concrete tools to analyze, diagnose, and repair writing problems.

FITTING WORDS

Classical Rhetoric for the Christian Student

What is rhetoric and why do we need it? The short answer is that God created us as people of words, and He wants us to use them in a fitting way. “A word fitly spoken is like apples of gold in settings of silver” (Proverbs 25:11). Rhetoric is the art of using words well, and is measured by our ability to teach men the truth, to move men to goodness, and to delight men with verbal beauty. Effective speaking and writing is informative, powerful, and elegant.

Fitting Words instructs students in the art of classical rhetoric, providing them with tools of communication that will equip them for life. Intended for high school students and above, *Fitting Words* is a complete curriculum covering a year of instruction. In this course, students will learn the theory of using words well, study the greatest speeches of all time, and practice the skills of effective oratory.

“The supplementary materials...will enable a parent with no experience in rhetoric to teach this well, but the real key for homeschoolers will be the videos that go along with the text and workbook.” — Wes

CALCULUS

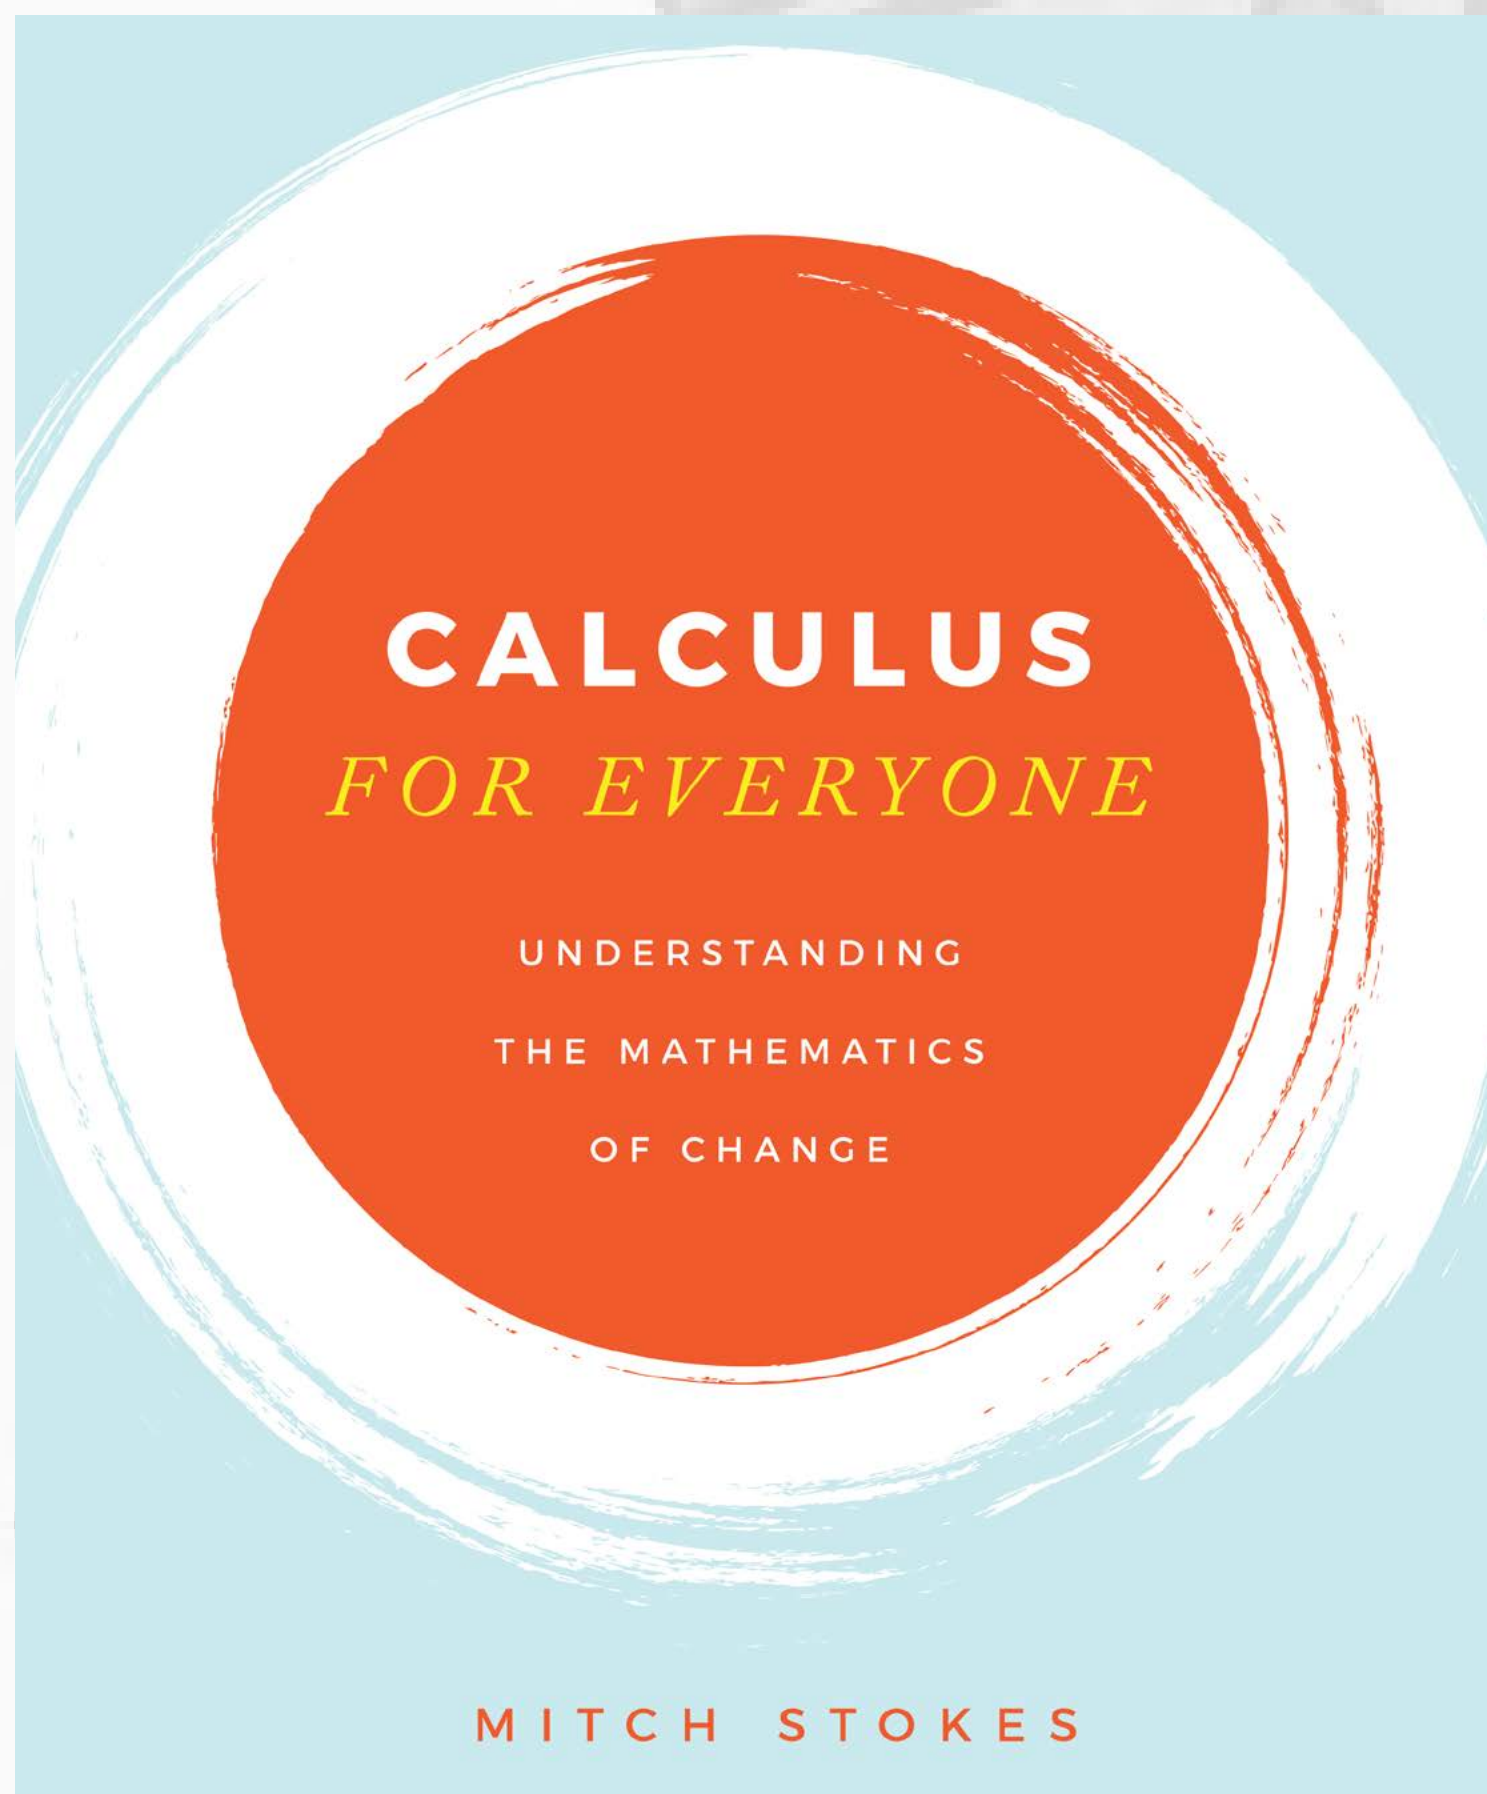

FOR EVERYONE

***Calculus for Everyone* teaches calculus.** But it also represents one of the first tangible steps in recent years at reunifying STEM (Science, Technology, Engineering, Math) with the liberal arts. Pulling from over a decade of experience teaching calculus, Dr. Mitch Stokes presents the mathematics of change in an extremely effective way for anyone with a first-year course in algebra in this new video curriculum.

“‘Show, don’t tell’ is such a helpful rule of thumb—for writers, for teachers, for boastful teenage boys. This book is my own attempt to show what I’ve been telling people for fifteen years: that there’s a better way to teach mathematics. And though the book is specifically about calculus, its point is general.”

HOW SHOULD WE THEN LIVE?

Francis A. Schaeffer

This is the apologetics and intellectual history series every young Christian should know.

Francis Schaeffer—perhaps the most influential Christian thinker in the last 100 years—clearly explains the basics of worldview thinking in this combined book and video series. Filmed at over 100 locations in eight countries, it is a spectacular presentation of the flow of history, ideas, and cultural analysis from a Christian perspective.

The fact that the series is nearly 50 years old makes it even more valuable: many of his predictions have come true with startling accuracy. This lends great credibility to his Biblical and cultural insight.

PHILOSOPHY: CONSEQUENCES OF IDEAS

WITH DR. R. C. SPROUL

Ideas have consequences, and worldviews matter. Expose your student to history's most powerful ideas and the men who developed them. We've put this demanding high-school elective course together because of the rise of ideology over truth in the public square, and because we knew the best way for students to get a hold of powerful ideas is to send them to the actual sources with a bit of background.

"The way you combined the video lectures with a text and incorporated a deeper understanding of the video lectures is a wonderful way to teach the material. I can't wait to use this with my kids when they get a bit older, but I am excited about using it for myself before then!" — Lacey

Dr. Kurt Wise designed this unique class to fully integrate a Christian worldview with the biological sciences. The result is a completely new way to approach biology. One of the many interesting things about the class is how Dr. Wise starts with our understanding of who God is, then shows how God has created the living world to reflect His unique attributes in His creation. He explains a fascinating array of subjects from a creationist perspective, including the nature of life, biblical kinds, biosystems, biodiversity, cell theory, the history of life, and much, much more.
