

# DANCING IN THE NIGHT

The image features a group of people dancing in a nightclub. The scene is captured in silhouette against a vibrant background of green and blue light beams radiating from behind the dancers. The lighting creates a dynamic and energetic atmosphere. The dancers are in various poses, some with arms raised, suggesting a lively dance session.

# PREFACE

Dancing in the Night is about those moments when music becomes escape, memory, hope or simply a reason to keep going.

Whether dancing with someone, remembering someone, or standing alone under the stars, the night has a way of making emotions louder and dreams feel closer.

This song invites you to let go for a while. To step away from worries and into rhythm. To remember that even in darkness, there can still be light, movement and joy.

Turn it up. Feel it.

And dance.
