3. Advanced Stitch Quality & Fabric Control

The deLuxe™ Stitch System, Integrated Dual Feed, and EXCLUSIVE SENSOR SYSTEM™ work together to deliver consistent, beautiful stitches on everything from silks to heavy quilts.

4. Powerful Built-In Creativity

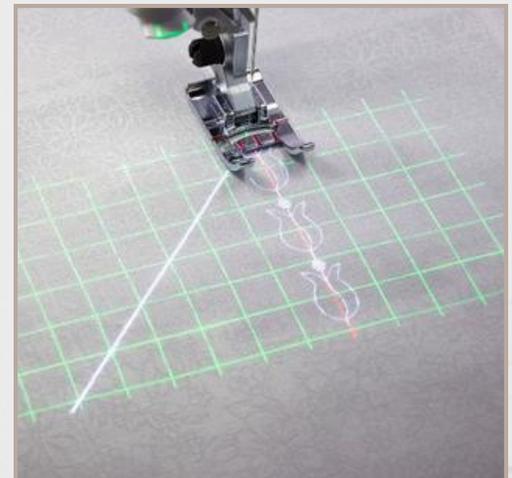

With hundreds of stitches and embroidery designs, specialty techniques like ribbon and bobbin work, and STITCH CREATOR™, you can customize projects without extra software.

5. Smart Technology That Works With You

New Guided Pictogram Stitch Technique

Use the new stitch technique, Guided Pictogram, to easily make large motifs while the machine guides you every step of the way. Simply sew until the machine automatically stops and then let the projected guide show you where and when to pivot your fabric until you are done.

DESIGNER™ Embellishment Attachment* Capabilities

Embroider ribbon, beads or yarn directly and precisely on fabric as the attachment guides the material into place. Automatically stitch a variety of materials with your machine to avoid the time and stress of stitching them down by hand.

Artificial Intelligence Technology

Attach any included presser foot and the machine will inform you if the foot is compatible with your stitch selection. It will also show you if the foot is attached incorrectly to make sure you are using the best foot in the best way for your projects.

Integrated Dual Feed Technology

Feeds fabric from both the top and bottom for effortlessly sewing multiple layers of fabric or specialty fabrics, eliminating the need for a separate dual feed presser foot.
