INTRODUCTION

DaltronX is a leading manufacturer of carbide cutting picks, bases, and holders for the road construction industry. Our carbide teeth are specifically designed to meet the demands of road milling, asphalt recycling, and road maintenance operations, making them the trusted choice for contractors worldwide. Whether you're working on heavy-duty road construction or routine maintenance, we provide the ideal solutions to meet your needs.

We manage every step of the production process for our road cutting picks, ensuring full control over quality and precision. With over 30 years of experience, we've refined our techniques to produce durable, efficient carbide tools that excel in the toughest conditions.

Explore our range of carbide cutting teeth and holders or work with our team to develop custom cutting picks tailored to your specific requirements.
