Fall-Winter 25|26

Introducing our exquisite Fall/Winter 2025 Collection, where the finest Italian wool fabrics are meticulously crafted into garments that embody timeless elegance.

The collection, designed through the lens of our psychologist-designer fuses a sober aesthetic with provocative touches and sharp edges, seamlessly blending classical silhouettes with innovative designer twists.

**"It is time we take a good look at the world around us and then another, deep inside of us. It will be a season of introspection and finding of answers"**

The palette, rich in blacks, whites, soft greys, deep blues, and punctuated by daring blood red, evokes a sense of luxurious sophistication that whispers of both restraint and allure. Each piece is not merely clothing but an invitation to embrace one's essence, making a statement that is both profound and stylishly provocative.

## The new Aleksander Revas Sizes

2025 brings forth the implementation of a project very close to our hearts - Removal of the psychological pressure of numbered sizes for women. We want our amazing clientele to be emboldened and proud of their bodies, irrespective of shape.

We genuinely feel they are all goddesses of beauty, strength and kindness and we want our garments to celebrate them.
