WELCOME NOTE

Our main All Seasons 2024 proposal is a fusion of Aleksander Revas's aesthetic directions, blending statement pieces with everyday essentials and, as always, crafted in a curated selection of premium fabrics, with provable sustainable qualities.

From minimalist pieces with a designer twist to flattering silhouettes and reinterpreted signature classics, AS24 draws creative influences from our travelling around the World and is the expression of our hope for global peace, harmony and love.

SHIRTS & SHIRT-DRESSES

Organic Cotton Mini Dress with
Stiff Collar and Accentuated Waistline.

EYSA

WHS: 98 GBP

CONTINUATIVE | SEE NOW – BUY NOW

RRP: 264 GBP

100% GOTS Organic Cotton (Made in Italy)

EYSA reinterprets a classical silhouette with a narrow waistline and a gathered ample bust and it plays on the idea of corsetry without being boned or uncomfortable in any way. Its round, wide collar gives this dress an elegant touch while the GOTS certified organic cotton it is created in makes it a great piece to touch the wearer's skin.

- Available sizes: EU: 34 - 42 | UK: 6 - 14
- Available colours: BLACK | WHITE
- Ethically manufactured in EU (Romania)
- We plant a tree for every unit sold
- Buy-Back available

It feels so precious.

"Nothing fashionable, elegant or beautiful can ever come from
ignorance, destruction or suffering."

SUSTAINABILITY

Our brand has been built on the vision of imbedding sustainability in designer wear, fusing ethics with quality in garment crafting and pairing luxury with responsible practices. This is our main reason of existing. Still, we know this is a lifelong commitment. Commitment for always doing better and being better. For our customers, for fashion, for the world and for us. In the end, our biggest promise is that we will not stop as we continue to look for even more and even better ways to create, to produce and to protect!

Aleksander Rasas

SUSTAINABLE FABRICS

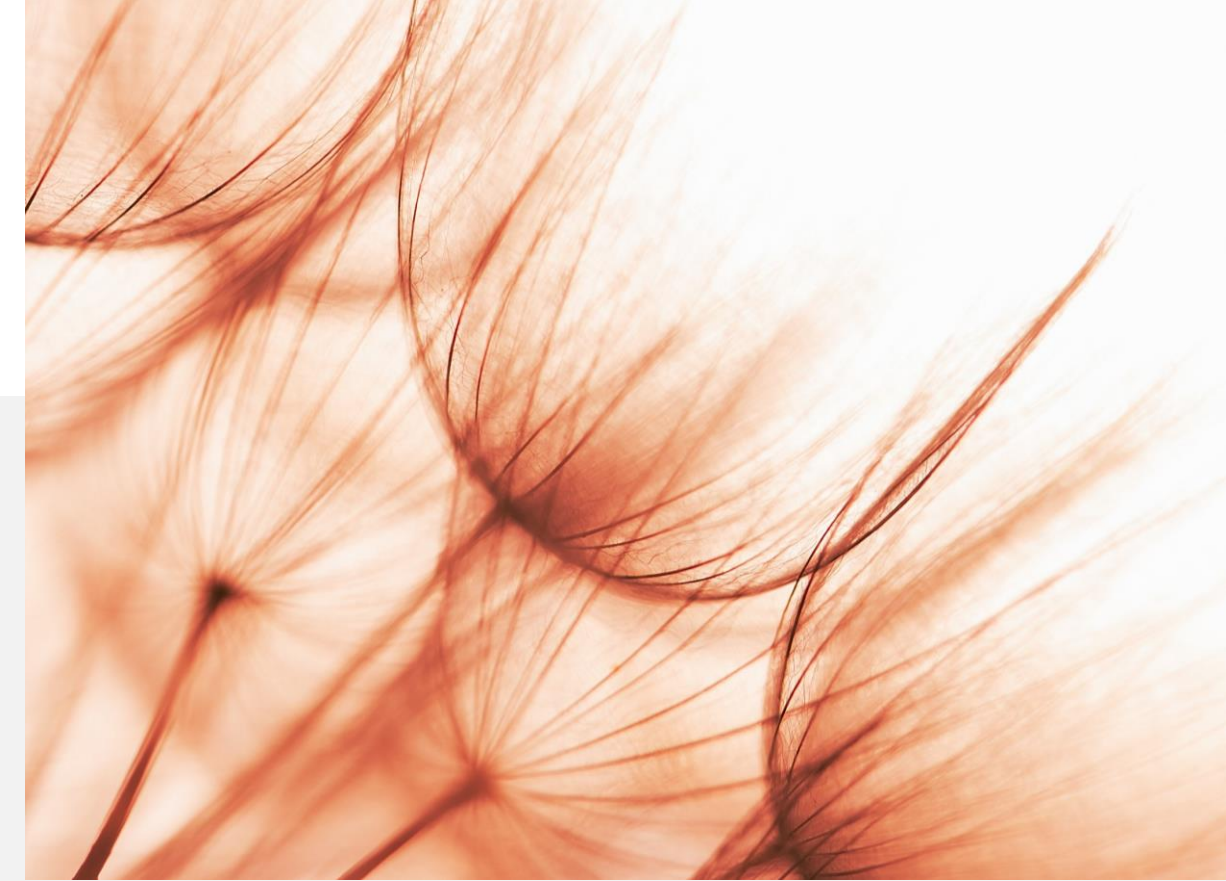

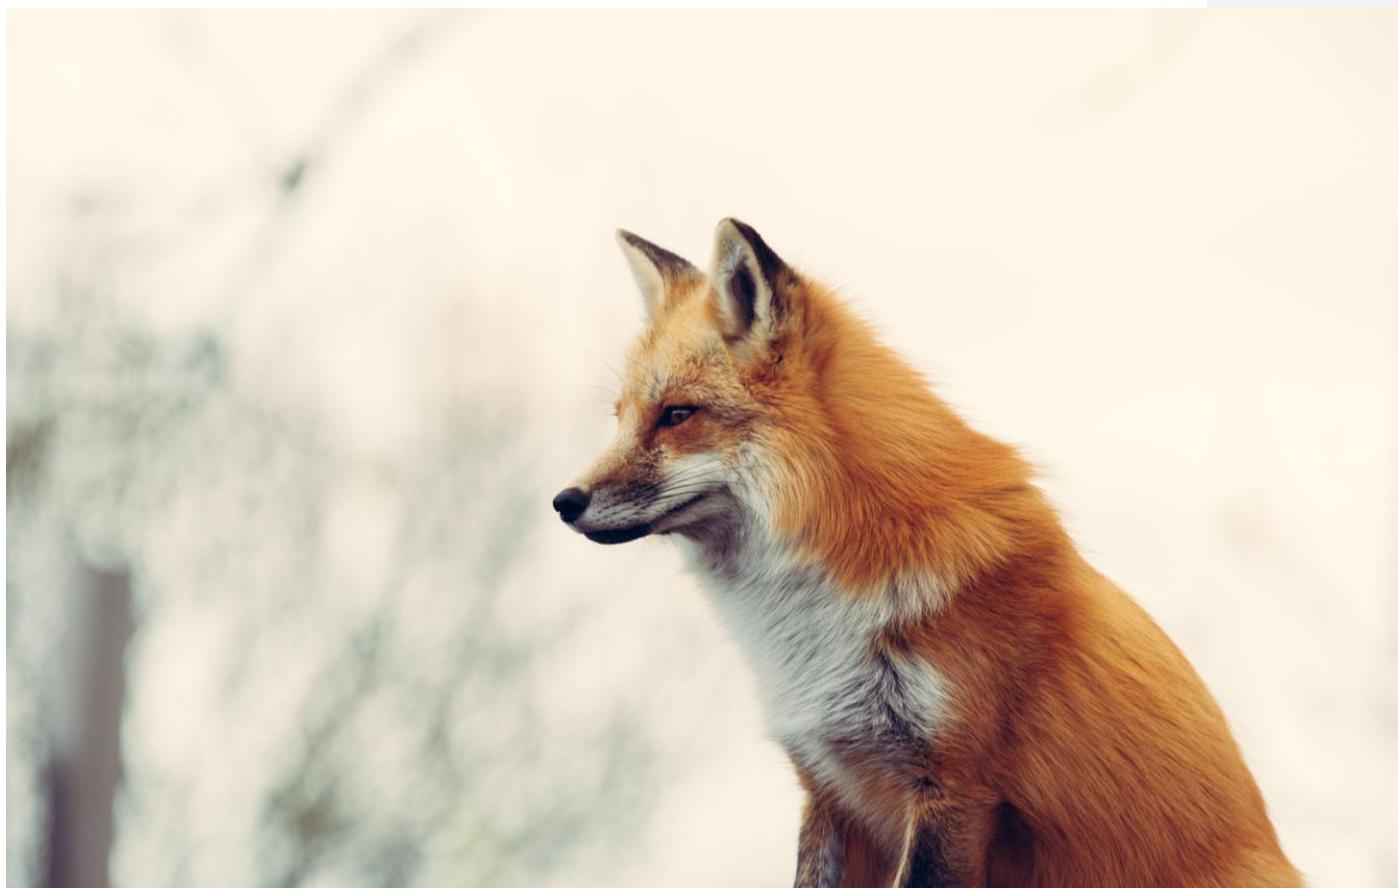

From the natural properties of Organic Cotton, Linen or Hemp to the amazing versatility of innovative fabrics and from our commitment to not use polyester or plastic-derived fibers to our responsibly sourced wools, every fabric found in an Aleksander Revas piece was carefully selected for its quality, beauty and sustainability component.

ANIMAL WELFARE

We genuinely believe that nothing beautiful or elegant could ever be built through death and pain. Protecting the beauty of life is similar to protecting the beauty of fashion. This is a core concept in our philosophy. As such, we will never use leather, fur or any other animal derived fibres that imply the death or torture of an animal.

Further, we will only use wool derived from responsible husbandry that guarantees proper animal care and do not include inhumane practices.

ETHICAL PRODUCTION

We strongly believe that Health and Safety in fashion is a holistic approach that ensures the well-being of both workers and consumers while minimizing environmental impact. We audit our production partners to ensure they have implemented safe working conditions, proper ventilation, and ergonomic designs in their production facilities.

We also audit our manufacturing partners to ensure they respect all national and EU directives on fair wages, labour legislation and employee protection. We exclusively manufacture our garments in the European Union.

PLANT A TREE

We know the Earth is not an inexhaustible well of resources and we have to give back to the World we take from. That is why we partner with a reforestation NGO to plant one tree for every product we sell. Together we can replenish this generous planet's resources, minimise our impact and protect our world for generations to come.

BUY BACK

Our products are timeless in design and made to last, so we hope our customers will love them for a long time. Still, if the moment comes for them you to part with their Aleksander Revas products, the only need to send them back to us and we will offer credit vouchers or discounts for new purchases. We will properly recycle or upcycle them while they enjoy their new-found Aleksander Revas pieces.

This programs is also available through retail partners under different formats.

revas@aleksanderrevas.com | www.aleksanderrevas.com

For all marketing materials printed by Aleksander Revas we plant double the number of trees needed, to make up for our impact.
