MAYU

“Mayu,” the Japanese word for cocoon, symbolizes softness, potential, and transformation—
perfectly capturing the spirit of this new Studio Glass collection.

Mayu celebrates the intricate art of glassblowing and the depth of artisan skill behind each piece. Every delicate, hand-pulled gesture forms an organic, one-of-a-kind silhouette that radiates effortless beauty. When illuminated, Mayu transforms a space the way twilight transforms the world—enveloping it in gentle radiance, guiding the eye like a flowing river, and revealing the quiet poetry of shadow and light.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

RAIN

This is rain as you've never seen it centuries-old techniques meet modern innovation, creating forms beautifully suspended in time. A cascade of glass droplets frozen mid-fall, infused with an encapsulated mist that seems to swirl and bloom from within, amplified with an integrated LED, creating a diffused light through fine veils of glass. The effect is ethereal; achieving this delicate balance of form and feeling requires a level of craftsmanship possessed by only a few, shaped by artisans whose specialized glasswork techniques are as mysterious as the nature they reflect

Offered in Silver, Gold, or Copper drops, each paired with clear and black droplets and complemented by a hand-applied ombré finish that enhances its luminous depth.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

ANTONIA

Since the turn of the 20th century, when the wonder of electric light was thrust into the mainstream of civilization, it begged designers to integrate its newfound relevance into their work. One hundred years later, with new technology, the splendor of design continues to evolve, and we reinvent the classics of the past while still paying homage to the master's that came before.

The Antonia lifestyle “steps into the light” in her collaboration with Fine Art Handcrafted Lighting—a seamless marriage between two iconic design movements: Art Deco and Mid-Century Modern. Each handcrafted piece transitions from parchment to glass, from form to luminosity, revealing a quiet sophistication that transcends eras.

Originally defined by graceful, soft curves, Antonia now expands into new straight-line designs that bring a refined architectural presence to the collection. Offered in a range of elegant finishes and multiple parchment options—including the choice of no parchment—each piece embodies the perfect harmony of craftsmanship, artistry, and timeless design.
