Multifunctional Trainer On Pillar - Lite

The multifunctional trainer is a versatile piece of workout equipment that allows for leg raises, knee raises, and dips with the front handles of the element. This versatility makes this element the perfect choice for those people who are looking for complex outdoor training equipment for the home. Two multifunctional trainers may be combined on one column.

Attributes

Product code	1-1-720

For more color options, discuss with your sales representative.	

Warranty

Structure	25-15 years
Steel	5-10 years
Paint	2 years
Plastic	5-10 years
Rubber	1-3 years
Moving parts	2 years
Detailed information in the warranty document	

Material specification

The element is made of high quality S235 steel, which has been cleaned via sandblasting. A corrosion resistant powder coating finish is then applied. Also available with galvanized surface for even greater protection and longevity!

The seats and backrests are made of strong HDPE material. Which is fully heat, moisture and UV resistant.

The connecting elements are fastened with vandal-proof stainless steel screws and nuts.

The ends of the bars and posts are sealed with injection-moulded plastic caps.

The plastic clamp system allows for easy assembly and extreme stability.
