# Pioneering the future of sustainable surfaces

For more than 30 years, WK STONE has been trusted to deliver surfaces of beauty, strength, and innovation. With our QUANTUM ZERO range, we are proud to lead the way in sustainable, crystalline silica-free design.

Crafted from up to 90% premium recycled glass, QUANTUM ZERO combines responsibility with style. The collection offers **38 versatile colours**, from marble-inspired statement veining to soft-touch matte finishes and classic neutrals — each designed to balance luxury with everyday living.

More than a surface, QUANTUM ZERO reflects our commitment to healthier homes and a more sustainable future. Designed for benchtops, splashbacks, and spaces that deserve both beauty and resilience, it brings together performance, safety, and creativity without compromise.

Bring your vision to life with QUANTUM ZERO — where design freedom meets a better future.

# Surfaces that shape spaces

At WK Stone, we believe sustainability and design should live side by side. That's why we created Quantum Zero — a next-generation surface made with up to 90% premium recycled glass and free from crystalline silica. More than just safe and sustainable, every slab is crafted to deliver enduring beauty and freedom of design.

## Slab Size

3210x1610x20 mm

## Slab Identification

Every Quantum Zero slab is stamped on the underside to certify authenticity.

## 10 Year Limited Warranty

Quantum Zero surfaces are of the highest quality and offer a 10 Year Limited Warranty. Register your completed project online.

## Edge Profiles

Quantum Zero recommends a minimum radius of 3–4 mm on edge detail for optimal performance. A mitred edge of 40 mm or greater is recommended for the Palazzo designs as the digital print sits on the stone surface only. Here are a few of the popular edge profiles:

Arris  
20 mm

Arris  
40 mm

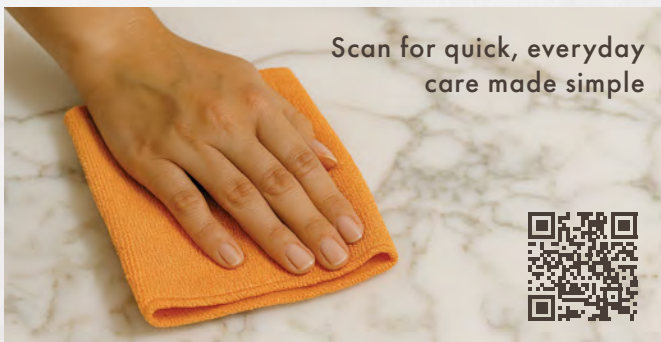

Mitred  
Apron  
40 mm

Shark  
Nose

Shadow  
Line  
5 x 5 mm

NOTE: Quantum Zero is a recycled surface. It may contain variation in colour due to raw materials. Particles used in the products may sometimes produce minor irregularities such as blotches and coloured particles. Select colours combine a mix of unique veins with some natural variations. Vein structure may vary. It is recommended for the customer to view the whole slab. Due to the printing process colours may vary from those in this brochure and should be used as a guide only.

## Warmth in every touch

With their gentle texture and grounded palette, Quantum Zero matte and satin surfaces feel warm, inviting, and made to be lived in.

Champagne

## Luxury in every vein

Our advanced 3D vein technology creates lifelike, full-bodied veining that runs through the slab, delivering depth and unrivalled beauty with the lasting strength of Quantum Zero recycled surfaces.
