Street Name Signs

Street name signs are constructed of rust-proof aluminum and **3M** High Intensity Prismatic reflective sheeting. Signs come with lettering applied to both sides. All signs will have a white border to the outside of the sign and come available in 6", 9" or 12" height. Sign length is determined by the length of the sign legend.

How to Order:

1

Select Blade

Flat Blade

.080" Aluminum - .75" Radius Corners
6", 9" and 12" Blade Heights

Extruded Blade

Square Corners
6" and 9" Blade Heights Only

2

Color

MUTCD guidance

Acceptable alternative background colors to Green are Blue, Brown or White. The legend shall be white except for Black on white signs.

White on Green

White on Blue

White on Brown

Black on White

3

Logo

[optional - \$3 charge]

MUTCD guidance - Route symbols or Logos may be placed on the left side of the sign. The maximum height is the same as letter height.

4

Prefix/Suffix

MUTCD guidance - Prefix/Suffix height may be smaller than the height of the primary name and may be abbreviated. No punctuation is to be used.

Option A

Option B

Option C

5

Lettering Style

MUTCD guidance - Mixed case lettering required for names of places, streets and highways for guide signs. Mixed case lettering consist of an initial upper-case followed by lowercase letters. Letter height is determined by initial uppercase letter.

Mixed Case Lettering

All Uppercase Lettering

6

Size

Roadway Type Local Two Lane Roads 0-25 MPH

6" Blade height Letter Height 4" | Prefix/Suffix Height: 2" | Case: U/L

Two Lane Roads Over 25 MPH and Multi Lane Roads 0-40 MPH

9" Blade height Letter Height 6" | Prefix/Suffix Height: 3" | Case: U/L

Multi Lane Roads Over 40 MPH

12" Blade height Letter Height 8" | Prefix/Suffix Height: 4" | Case: U/L

Street Name Signs

FLAT ALUMINUM

Blades are .080 aluminum
Blades are one solid thickness
Radius corners

EXTRUDED ALUMINUM

Stronger than flat blade signs.
Have a thickness of .080" in the center with top and bottom edges at .240 thick
Square corners

Full Color Print Decals

Custom decals are printed with solvent inks and then laminated giving them the longest indoor/outdoor lifespan possible. Decals are waterproof, scratch resistant, and apply easily to any clean, smooth, dry surface. Pricing is determined by square inches. Use chart below to determine pricing. Ordering is EASY, just email your sample to sales@EconoSignsllc.com.

Example:

Minimum order or 10 decals per legend.

To compute the square inches multiply the length by the height.

No Set-up Charge!

Part # CSTDCLP

Qty.	Qty.	Qty.
10-24	25-50	51+
\$.24 sq. inch	\$.20 sq. inch	\$.14 sq. inch

Application Squeegee

Makes easy work out of applying decals. Gently rub over decal to smooth out bubbles or wrinkles to create a professional, even finish.

Part # PA-1B Price: \$2.90 ea.

Cut Vinyl Decals

Custom cut vinyl decals are made from a high performance vinyl with application tape applied. Any size lettering available with many choices of colors. Enhance your vehicle with your City/Town/County department, website, number, the possibilities are endless. All standard colors available. Pricing is determined by square inches. Use chart below to determine square inches and price.

Decal with application tape applied.

Align the decal and "squeegee" it down. Remove the application tape. This will leave decal applied to your vehicle or object your applying it to.

Example:

To compute the square inches multiply the length by the height.

$$3 \text{ inches} = 3.0$$

$$20 \text{ inches} = 20.0$$

$$\begin{array}{r} 3.0 \\ \times \\ 20.0 \\ \hline 60.0 \end{array}$$

Sign/Inspection Date Decals

These pressure sensitive decals can be placed on the back of signs enabling a person/inspector to know when sign was erected and to help determine the signs remaining years of useful life. Decals can also be used to prove ownership of stolen signs. Sold by 50/pkg.

WARNING

It is UNLAWFUL to deface, detach or remove any official road sign or traffic control device. It is UNLAWFUL to buy or sell this item for scrap or any other purpose punishable by fine and/or imprisonment.

Solar Flashing Signs

- 080 Aluminum
- 3M Diamond Grade Sheeting
- 20W High Efficiency Solar Panel
- MUTCD Compliant
- Fast & EAsy Installation
- 24 hr Operation
- High Efficiency LEDS
- Reliable Operation
- Mounts to Square, round, U-Channel & Wood post
- Digital Battery Display

• Sheeting: Any Available Color

What's Included

• LED Sign

• Li-ion Battery

• Bi Facial Solar Panel

• Panel Direction Mount

• Function Keys

• (x2) Stainless Steel Bolts

Allen Wrench & Compass

• (x2) Zip Ties

Battery on the back with digital battery display

Description (Size width x height)	Part #	 Price

Triple Flag Mounting Bracket

Bracket for mounting safety flags to signs

Item No: FH3010 Price: \$13.43

Red Solid Vinyl Non-Reflective Flag

18" x 18" Non- Reflective Flag with 24" wood staff

Item No: 2024-18M Price: \$7.90 ea.

Sign Faces

Make your stop signs look new again! These high intensity prismatic stop signs faces are a very economical way to upgrade signage to the new FHWA and MUTCD standards. You can upgrade your existing stop sign for as little as \$19.90. Sign faces are pressure sensitive/self-adhesive and have a peel off release liner. Made to re-cover existing stop signs.

Quick Stop

Quick Stop quick deploy stop sign system is a quick set up, effective traffic control system designed to be used at 4 way intersections, parking lots, schools, airports, hospitals, industrial plants, intersections where the stop light is inoperable. The highly visible 18" x 18" high intensity prismatic stop signs provides 4 way stop visibility. This easy to use system includes 1 white delineator post, 1 - 15 lb. recycled rubber base, and 2 18" x 18" high intensity prismatic plastic stop signs.

03-747QDHI15

Price:
153.28 ea.

*Shown with optional STF18-RUB Stand.
*Sold Separately.

***Twin flex dual coil spring stand pictured.

Roll-up Portable Reflective Stop Sign

The portable roll-up STOP SIGN is essential to have on hand for storms, blackouts, wrecks or any situations that would require a temporary quick fix. Marathon reflective material ensures the sign will have maximum night visibility. Sign comes with supporting sign ribs, you just need to choose a stand.

3M REFLECTIVE

Hinged traffic signs are constructed from the same high quality .080 aluminum, 3M reflective high intensity prismatic sheeting as your standard signs. Signs feature two hinges enabling them to be folded down when not in use. They are available in high intensity prismatic sheeting only and sizes 24" x 24" and 30" x 30". Signs pictured below are just examples, you can choose any wording you want for the sign legend.

Description	Part Number	Price

Standard Overlay Legends

Roll-up Sign Ribs

Durable, flexible sign ribs insert into the four corner pockets located on the back of the roll-up signs to provide rigid sign support. Constructed of fiberglass and allows for rapid deployment on site. Meets MUTCD specifications for highway use, approved for NCHRP-350 crash test standard.

Part No.	Description	Price
RR300-36	36" Sign Ribs	\$15.90 ea.
RR300-48	48" Sign Ribs	\$18.90 ea.

Roll-up Sign Storage Bag

Storage bags pay for themselves quickly by protecting your roll-up signs and keeping them safe and secure. Constructed of flexible, yet durable plastic that resist cracking and breaking.

Part No.	Description	Price
TCBAG36	36" Sign Bag	\$29.00 ea.
TCBAG48	48" Sign Bag	\$32.00 ea.

Folding Flag System

The folding flag system allows for permanent attachment of two 18" vinyl safety flags to roll-up signs. Flags roll-up with the sign for storage and are always available for fast deployment. Sliding clips quickly lock flags in their open position.

Part No. FFS-2-B Price: \$23.90 ea.

LED Roll-Up Signs

LED Roll-Up temporary signs are compatible with all industry standard roll-up sign stands. Signs are high intensity prismatic and feature 8 amber lights and a velcro battery case, you can take this sign anywhere.

Batteries and stand not included and sold separately. Requires x8 C cell batteries.

WHAT'S INCLUDED

1. LED Roll-Up Sign with fiberglass ribs
2. Battery Box with velcro strap, on/off switch and LED connector cable

Part No.: RL-36BKO-HIP

Description: Any Legend 36" LED Roll-Up Sign

Price: \$269.90 ea.

T-55 Tripod Stand

For use with rigid or roll-up signs.

The T-55 Tripod is an all-purpose three legged economy sign stand designed for 36" and 48" rigid and roll-up signs. Powder coated steel construction and ease of use makes the T-55 a smart choice for low to medium wind conditions.

- Meets MUTCD specifications - NCHRP-350 compliant
- Compact storage, easy to use
- Weight 10lbs.

Part # T-55 Price: \$69.80 ea.

T-155 Tripod Stand

For use with rigid or roll-up signs.

* If using with roll-up sign, must use part # RUB100

The T155 Tripod is a three legged heavy duty sign stand designed to display 36" and 48" rigid or roll-up signs. The stand features a powder coated, rugged square tubular steel construction with a telescoping mast and flag holders that will hold 3 standard safety flags. Meets MUTCD specifications and is NCHRP-350 compliant.

For Rigid Signs

Part # T-155

Price: \$93.60 ea.

For Roll-up Signs

Part # T-155RUB100

Price: \$98.90

Pogo Stand

For use with roll-up signs only

The Pogo Stand is designed to push in the ground providing a solid, economical solution for displaying 36" and 48" roll-up signs. Constructed of heavy duty galvanized steel bar angle and feature spring clips that holds the sign secure. Cross bar at bottom for pushing into ground by foot.

Part # P100 Price: \$47.20 ea.

Flags and sign sold separately.

A-Frame Stand

For use with rigid signs only

These heavy duty A-frame stands are constructed of steel angle iron. Stands are for displaying temporary signs due to road work or construction. Accommodates 24" x 24", 30" x 30", 36" x 36" and 48" x 48" signs.

Part # AFRAME Price: \$79.40 ea.

Dual Coil Springs

Flags and sign not included.

TwinFlex Stand Rigid Sign Stand

The TwinFlex stand is designed to display rigid 36" and 48" rigid signs. Stand features include: Wind-relieving dual coil spring system, fast kick leg release system, two position height adjustment, legs lock into place when fully extended, Aluminum/Steel construction.

- Meets MUTCD specifications
- NCHRP-350 compliant
- Open footprint: 36" x 84"
- Ease of use with leg-kick release system

Part # STF18-RGB Price: \$289.90 ea.

DynaLite Stand Roll-up Sign Stand

The DynaLite stand displays 36" and 48" roll-up signs a minimum 12" off the ground. Perfect for low wind conditions. By eliminating a spring mechanism, this stand weighs 20% less than most spring loaded stands.

- Telescoping legs lock into place when fully extended.
- NCHRP-350 compliant - Meets MUTCD standards
- Open footprint: 71" x 45"

Part # SDL1000W Price: \$143.70 ea.

Flags and sign not included.

Single Coil Spring

UniFlex Stand Roll-up Sign Stand

The UniFlex is our most popular compact stand for roll-up signs. Features include: Single coil spring, displays roll-up signs 12" above the ground, foot activated leg-kick release, 3 locking positions for storage and stability on uneven terrain, 22" powder coated steel legs that telescope

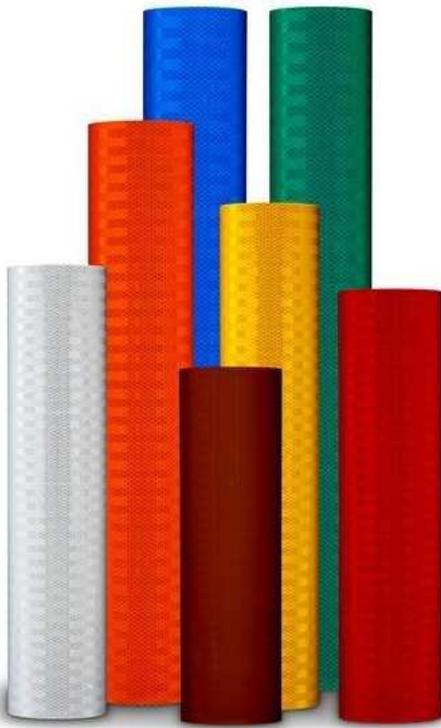

- Meets MUTCD specifications
- NCHRP-350 compliant
- Open footprint: 36" x 84"

Part # SUF2000W Price: \$189.40

Flags and sign not included.

Springless

Rapid TAC Application Fluid

This application fluid makes applying vinyl to glass or any smooth surfaces fast, easy and bubble free. Rapid TAC cleans the substrate without leaving any residues, ensuring a contaminate free installation but also helps "Float" the decal until it is properly

Decal will start to bond in as little as 90 seconds. One Gallon - Part # AP21
 Price: \$49.66 ea.

Rapid TAC Adhesive Remover

This product is a non-toxic, water soluble adhesive remover that breaks down and removes adhesives in as little as sixty seconds! Works fast without causing damage to most painted or bare metal surfaces.

One Gallon - Part # AR21
 Price: \$83.30 ea.

R-Tape Application Tape

Used to apply all graphics and films. Conform Series specializes in superior "lay flat" and conformability. This 4.5 mil tape will not tunnel and can be used wet or dry. Clear Choice tape is 3.5 mil and has exceptional clarity and a medium tack.

Impact Hazard Marker

Impact directional markers are ideal for marking obstructions within or adjacent to the roadway. Hazard markers are perfect for low water crossings, as well as protecting guardrail and bridge approaches. Markers are double sided and come standard with an anti-twist reactive spring assembly that returns the panel to its original position after impact to ensure product longevity and reduced replacement cost. Base and hardware sold separately.

FlexGuard™

Delineator Pole

Flattened Top

Flexible, soil anchored delineator post provide delineation and enhance motorist safety. Typical applications include guide post, culvert markers, median crossovers, and mile markers. This unique two part system consist of a driveable metal anchor and a impact resistant, flexible post. If post replacement becomes necessary, the soil anchor remains in the ground. To replace the post, simply push the post down 2" and twist the post 90 degrees and pull up firmly. The top of the delineator post is flattened with 3" x 9" high intensity sheeting. Post height is 66". Soil anchors may be installed by digging out area and burying or with manual/automatic drivers.

Installation and Removal:

1. Set metal anchor in desired position. Flat bottom of anchor must be set so post and sheeting face desired direction.
2. Drive anchor socket into the ground 1" below ground level.
3. Line up holes near bottom of post with internal anchor indentions.
4. Push post down approximately 9" into anchor socket, then pull up post until locked.
5. If post removal is necessary, push post down 2" and then turn 90 degrees. Pull up firmly.

Item #	Description	Price
CFGF066-01U-Y	White delineator and anchor with yellow HIP sheeting	\$43.85 ea.
CFGF066-01U-W	White delineator and anchor with white HIP sheeting	\$43.85 ea.
CFGF066-02U-Y	Yellow delineator and anchor with yellow HIP sheeting	\$43.85 ea.
CFGF066-02U-W	Yellow delineator and anchor with white HIP sheeting	\$43.85 ea.

Anchor should be driven 1" below ground level

FlexGuard Socket Driver

FlexGuard socket driver is used for installing FlexGuard post sockets.

Item #: RMTLDSMD10 Price: \$1184.00 ea.

Curv-Flex Road Marker

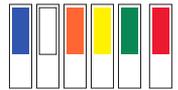

This 66" height flexible composite delineator is our most flexible fiberglass composite marker, the Curv-Flex is recommended for areas where vehicle impacts are likely. With its trademarked curve and flange profile, the Curv-Flex marker withstands direct tire impacts. In dense soil conditions, the Curv-Flex may require a small pilot hole before installation.

Item # Description

CFR-WHITE-1 62" height white Curv-Flex marker with 3" X 9" high intensity delineator - one sided
 Price \$29.81 ea. Specify delineator color : blue, white, orange, yellow, green, red

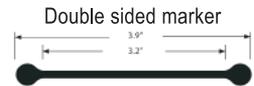

CFR-YELLOW-1 62" height white Curv-Flex marker with 3" X 9" high intensity delineator - one sided
 Price \$29.81 ea. Specify delineator color : blue, white, orange, yellow, green, red

Standard Highway Road Marker

High performance RoadMarker has a three-rail design and was the first fiberglass composite highway marker in the industry and remains the most popular marker in the market today. Two ribs on the side protect sheeting from vehicle impacts while the back rib gives added strength for driving the marker into hard soil conditions.

Marker Driver

Driver is used to install Utility Markers, Tuff Flex, Curve Flex and Dual Sided markers.

Driver is for post 5 to 6 foot in length.

Item #: RMTL-PDR1
Price: \$345.40 ea.

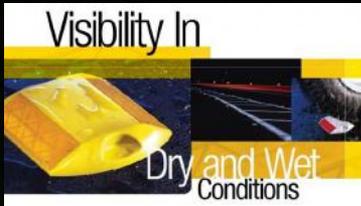

Pilot Hole Driver

Driver is for use in hard or rocky soil when driving post can be difficult. The driver's spaded head leaves a hole to assist in driving the post. For use on all markers.

Item #: RMTLDP100
Price: \$298.55 ea.

Raised Pavement Markers

Raised pavement markers (RPM) are the ultimate device for lane delineation in all weather conditions. These 3M RPM's are made with 3M™ Diamond Grade™ prismatic optics for maximum reflectivity, are lightweight and impact resistant. Used for longitudinal lines and gore markings on new and existing asphalt or concrete road surfaces. Can be installed using butyl adhesive pads or two part epoxy.

White

Used for the middle or side of the road. If the road stripe is white you use a white marker. If the stripe is yellow you use an amber marker.

One-Way Amber (sold by case/100 case) - **Part # 291-Y \$322.54**
 One-Way White (sold by case/100 case) - **Part # 290-W \$322.54**

Amber

Amber/Amber

Used for the middle or side of the road. If the road stripe is white you use a white marker. If the stripe is yellow you use an amber marker.

Two-Way Amber/Amber - (sold by case/100 case) **Part # 291-2Y \$322.54**
 Two-Way White/White (sold by case/100 case) - **Part # 290-2W \$322.54**

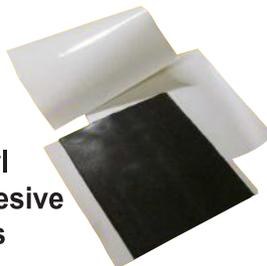

White/White

Blue/Blue

Used all over the country to mark fire hydrant locations. Placed either in the center or edge of the road.

Sold by case/100 case
 Two-Way Blue/Blue - **Part # 295-2B \$398.00 case**

Butyl Adhesive Pads

Butyl Pads are generally used for temporary applications or low traffic areas. These "sticky" tar pads stay soft and pliable throughout their life thus making it possible to pry a marker off the pad if necessary. The advantage of the pad is quick application, a marker can be applied in just seconds using the peel and stick butyl pads. To apply markers you simply peel the wax paper off one side, press and lay pad into the road, peel the paper off the top and press the marker into the butyl pad.

4" x 4" for pavement markers - **Part # TC3003 \$244.11 100/case**

Adhesive Kit

E-Bond Industrial two-part epoxy adhesive consist of one gallon resin and one gallon hardner. Used for permanent installation of pavement markers and delineators. The two part kit should be sufficient for installing approximately 100 raised pavement markers depending on rate of application. Cure rate depends on rate of application but sets in just minutes. Do not apply when temperature is below 40 degrees Farenheight. Mixing ratio is 1 to 1. **Part # TCEPOXY \$243.11 kit**

*** Base and Post Only - Sign sold separately.

Roll-A-Post Portable Sign Post

Roll-A-Post features a rust free plastic 5' square post and 24" wide plastic base. The base can be filled with water or sand for extra stability. The sturdy, pre-installed wheels make transporting quick and easy. Sign sold separately. Hardware Included.

Part # RAP24Y-8660-1PK

Price: 123.59 ea

Foil Back Reflective Temporary Pavement Marking Tape

Draws the line for traffic control in work zones. It incorporates high index glass bead technology for maximum reflectivity. Designed to stripe asphalt and concrete surfaces. Self adhesive, conformable foil back tape comes available in white or yellow. Simple to install with no special equipment needed. Conformable foil backing insures lines stay in place but can be removed if necessary. Sand, dirt and oil will prevent this tape from adhering properly. To install tape, simply apply to a clean, dry surface and press it on. Adhesion can be achieved by roller or using your vehicle tire. Must be applied to a dry surface and works best when it has not rained for 48 hours. For longer, larger, or projects where tires will be twisting on the striping try our 3M Wet Reflective Tape. Roll size is 6" x 150'.

White - **Part # TC6X150WH**
Price: \$94.67 roll

Yellow - **Part # TC6X150YE**
Price: \$94.67 roll

Reflective Spheres For Striping

These are **NOT** crushed glass - they are **GLASS SPHERES**. Applying marking spheres to pavement markings is one of the most cost-effective ways to increase highway safety conditions, especially in poor visibility conditions at night. Can be applied as drop-on spheres in all commercial applications - waterborne paint, epoxy, polyester, thermoplastic, MMA, polyurethane, polyurea and VOC-compliant paints. Sold by 50lb. bag

50 lb. bag - **Part # AC-110-50**

Price: \$96.12 ea.

Striping Machine

Create 2"- 4" straight lines quickly and easily covers a large area in a shorter time. Storage compartment holds 12 extra cans. Sturdy steel construction. Collapsible handle for easy storage.

Part # SS-8
Price: \$193.30 ea.

RUST-OLEUM

Striping Paint

Solvent-based inverted striping paint for crisp, long lasting lines. For use in athletic facilities, parking lots and more. Dries in less than 10 minutes. Guaranteed not to clog. USDA acceptable. Coverage area: 200 Linear Ft. per 4" stripe. 18 oz. can

One Case (12 cans) White - Part # DSW
Price: \$89.40 case

Traffic Safety

Traffic Cone Sold Separately

Micro Cone Light

Cone Light will sit on any style 18, 28, or 36" traffic cone. Features a flashing amber lens with a photocell technology that allows the light to automatically turn on in low light conditions. Powered by a single 6 volt lantern battery (not included) this light produces a flash rate of 120-150 flashes per minute with 360 degree visibility, high clarity polycarbonate lens. Dimensions: 8" height x 3 1/4" diameter.

- Amber** Part # UCW6S Price: \$29.42 ea.
- Red** Part # UCW6S-R Price: \$29.42 ea.

Barrier Tape

3 Mil polyethylene barricade tapes help mark off dangerous zones and control access to hazardous areas indoor and out. Sold by the roll. Rolls are 3" x 1000'

- Caution Do Not Enter - Part # BT5044-1 \$18.90 roll
- Caution, Caution, Caution - Part # BT5058-1 \$18.90 roll
- Danger Do Not Enter - Part # BT5061-1 \$18.90 roll

Day/Night Visibility Tape

Brand new technology. Day/Night visibility barricade tape is formulated with exclusive nighttime visibility silver. In the dark, when a beam of light is directed at the legend, light bounces back for enhanced visibility. Sold by the roll. Rolls are 3" x 1000'

- Caution, Caution, Caution - Part # SS31000CCRFL \$28.65 ea.
- Danger, Danger, Danger - Part # SS31000DERFL \$28.65 ea.

Tape Tender Dispenser

Tape tender dispenses 1000' rolls of plastic barrier tape quickly, safely, and efficiently. Use of this dispenser cuts preparation time as it ends waste and snarls. The Tape Tender is a sturdy polypropylene storage reel equipped with a hardened steel safety cutting blade and carrying handle. Can be used with 2" or 3" plastic tape on 3" core.

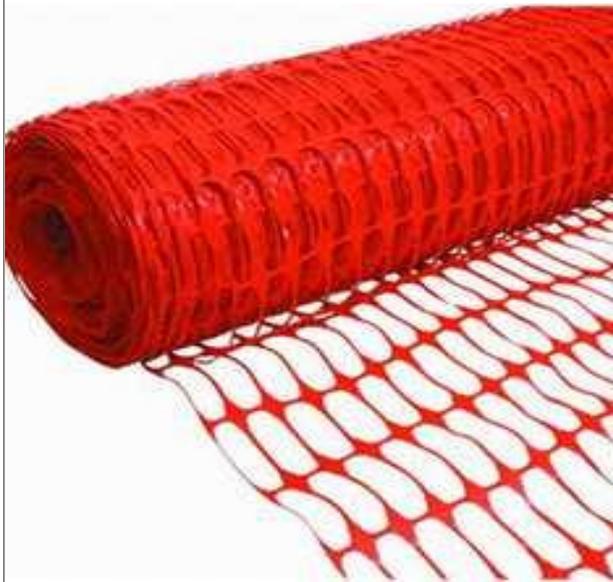

Part # TC1010 Price: \$39.95 ea.

Barricade Tape Cone Clips

Designed for attaching barricade tape to traffic cones and post. Fits all manufacturers traffic cones. Provides a quick, easy set up visual barrier around hazardous areas. Sold in 5 packs only.

Part # 03-500-BTC Price: \$3.20 per/5

Barrier Safety Fence

Heavy duty plastic polyethylene diamond mesh fence is ideal for fencing off areas on work sites, crowd control, warning and restricted areas. This rugged, flexible, high visibility orange fence provides safety and stability. Fencing is reusable
 Roll size: 4' height x 50' length

* Sold by the case due to freight
 10 rolls per case

Barricade light sold separately

ECONO★CADE

Custom Legend Barricade

These all plastic orange Barricades are strong and very durable. Features a solid wall design with legs and boards that are molded in a one piece design and only weighing 13.2 lbs. The top panel measures 24" x 12" and the bottom panel measures 24" x 8" with Engineer Grade reflective sheeting on both sides. Features a molded barricade light attachment for mounting barricade lights (sold separately). The one piece molded barricade features a inter-locking design which allows the barricades to lay flat and lock together when stacking. Easy to handle, pack and transport. The all plastic design makes the barricades "maintenance free". Will never need painting, rust, or need the legs straightened.

NCHRP-350 accepted, Meets MUTCD standards.

You design it! We'll do it!

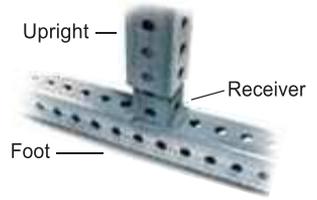

Ordering Is Easy

1. Choose the wording want.
2. Choose the color you want the reflective panels to be.
3. Tell Us, it's that easy!

Part # ECADE

Price: \$148.40 ea.

Type III Barricade with Telespar Feet and Uprights

Alert drivers of lane changes, work zones or harardous situations! These Type III barricades have galvanized steel perforated square tube bases and uprights. Square tubing bases provide maximum stability and duability. Panels are 8 feet feet in length and made with high density plastic and are re-inforced to prevent bowing in hot weather conditions. The single sided panels come with High Intensity Prismatic sheeting. Square tubing allows for quick removal of the uprights from the feet and provides superior windload capabilities and inhibits warping.

NCHRP-350 accepted, Meets MUTCD standards.

Description	Item No.	Price
Complete Barricade Kit - 8' length panels double sided - high intensity prismatic sheeting	3508-HIP-LR-KIT	\$321.11 ea.

Outdoor Convex Mirror

This outdoor convex mirror is 20% brighter than glass mirrors. Less distortion, longer lasting and lighter in weight. For use in "Blind Spot" areas or can be used in many traffic hazard situations. Mounting hardware included.

30" Diameter Mirror - Part # CVO30
Price: \$195.00 ea.

*Shown with Base
(Base sold separately)

Commander Traffic Drum

New! Econocade II Barrel is shorter in height from the original, making it lightweight and easier to transport. The tire locking ring grips the tire ring (sold separately) giving you security and stabilization. Accepts tire ring base along with many other rubber bases. With the Econo-Cade being only 36.77" in height, you can stack at least 10% more drums in the same space. More of the drums improved features include a comfort grip handle for secure and easy pick-up, a "light ledge" that keeps light upright, dual light attachment, thick walls making it very rugged and durable, five tier design to maximize the four high intensity prismatic stripes.

Dimensions: 36.77" height x 22.94" width (40.02" height with handle) Weight: 8 lbs. NCHRP-350 Accepted, Meets MUTCD Standards

* Minimum purchase of 5 drums and bases due to freight cost.

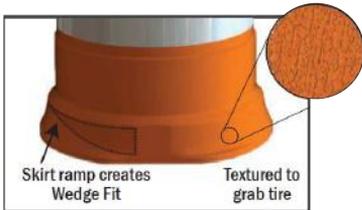

Part # 456-HD-44-HIP-5

Price: \$64.80 ea. (5 Drum minimum order)

New tighter stacking

Skirt ramp creates Wedge Fit

Textured to grab tire

Light folds over for stacking

Tire Ring Base

Black rubber tire ring simply fits over traffic drums to prevent the drum from "creeping" or "walking". Made from truck tire sidewalls, its waffle design "grips the road" and minimizes drum movement and rotation in the windiest conditions. Eliminates the need for sandbags that tear or break. Weighs 24 lbs. and has an inside diameter of 22.5".

Part # 450 Price: 10.59 ea.

D-Cell Barricade Flasher - LED Bulb

The AC4D barricade flasher is highly visible in evening and low light conditions. Features photo-cell technology that allows for automatic on-off with low light conditions. LED light source that is encased in a high-impact plastic and the neck is essentially unbreakable. Lens has a 90 degree angle to increase visibility and three lighting choices: Flashing, Steady Burn and Off. Works with all standard barricade and barrels. Operates on four D-Cell batteries (not included.)

Barricade Light / No Battery - Part # AC4D	\$42.80 ea.
Barricade Light / With Batteries - Part # AC4DB	\$46.80 ea.

Solar Powered Barricade Flashers

Innovative renewable system provides superior performance and dependability over conventional battery powered systems. A daily recharge, even on cloudy days enables this flasher to operate for a minimum of 5 nights for years before the batteries need replaced. Fully compliant with MUTCD specification 6E-5, fully compliant with ITE specifications for flashing and steady burn warning lights. High impact housing between the lenses absorb impact to help reduce breakage and replacement cost, 180 degree swivel base. High impact polypropylene body and polycarbonate lens with dual modes - flashing and steady burn. High intensity LED light with a flash rate of 65 flashes a minute. Battery is rechargeable Lead Acid. Flasher operates 5 nights on a single charge. Automatic turn on when ambient light falls.

Amber Solar Barricade Flasher	Part # 03-10-SBLG	\$48.76 ea.
Red Solar Barricade Flasher	Part # 03-10-RSBLG	\$48.76 ea.
