WELCOME

Get a **BIG DEAL** **MORE Science** with SciChem...

Welcome to the Summer Term Essentials Brochure from SciChem, packed to bursting with quality science equipment for the classroom and with great deals on all the favourites including glassware and labware.

SciChem is proud to offer the UK's leading range of affordable science education supplies and equipment, from trusted brand partners when you need it most.

What's more, we are the exclusive UK supplier for PASCO, the global leader in developing technology-based solutions for hands-on science. Our dedicated PASCO specialists will support you with the delivery of demonstrations to enable your students to reach their full potential.

PRIMARY EDUCATION

Helping pupils to engage with primary science learning through affordable resources that support teaching in early years and key stages 1 & 2.

SECONDARY EDUCATION

GCSE curriculum-relevant and budget-friendly equipment for teaching key stages 3 & 4 practical science.

FURTHER EDUCATION

A selection of quality curriculum-relevant apparatus for teaching AS and A-Level Biology, Chemistry, Physics and Environmental Science.

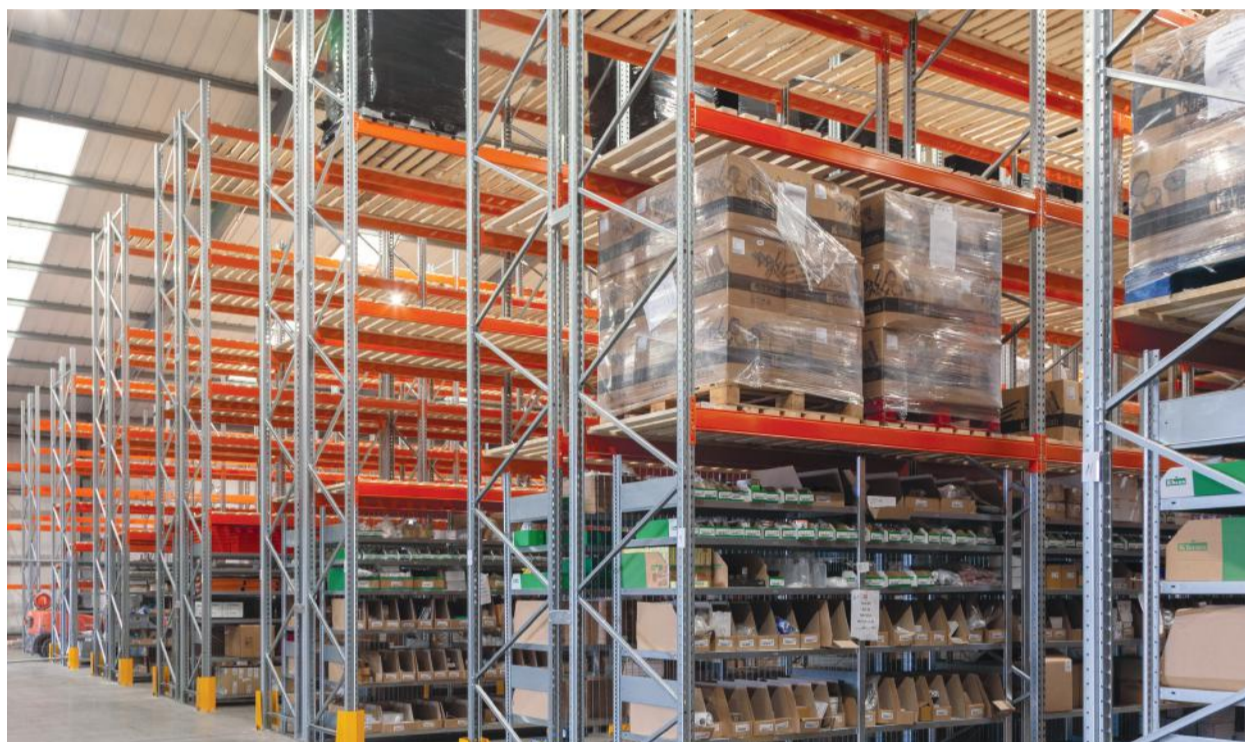

UNIVERSITY

Specialist resources from leading brands including PASCO Scientific for teaching advanced Physics, Chemistry, Biology and Engineering.

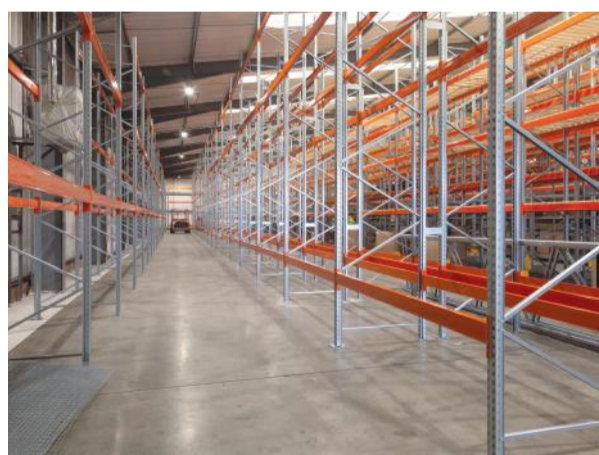

LATEST NEWS

£3 Million warehouse investment well underway to streamline stock and improve customer satisfaction

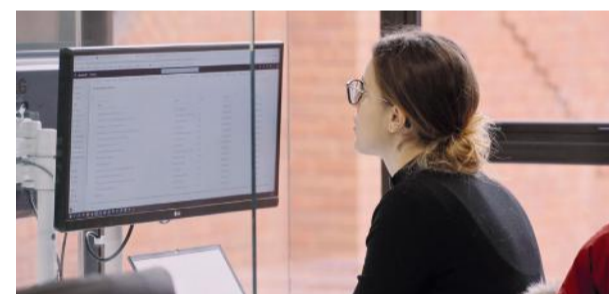

Following the buy-out by Inivos Scientific, we're excited to be working through a business transformation programme. This programme has now commenced and will continue over the coming months and is set to deliver rapid delivery of products, world-class customer service and renewed customer experience.

As part of this programme, we have two exciting updates to share as we invest in the future of our customer loyalty.

REDUCING OUR DELIVERY TIMES!

We're excited to announce that we have now taken control of our stock into our **all-new state-of-the-art warehousing facility**. We've invested £3million into this project as part of our business transformation programme to **enhance the experience of our customers**. You'll notice over the coming quarter that our delivery time may significantly increase as we take our stock into our own control enabling us to rapidly distribute products to our customers.

WE'RE RENEWING OUR CUSTOMER EXPERIENCE!

As part of our business transformation programme we're growing our Account Management and Customer Services Team! Say hello to some of the growing team below:

Dr Nichola Swann MInstP: PASCO Expert

As a Dr of Physics, Dr Nichola Swann is ready and on hand to support all your PASCO demonstration and training needs. Nicola runs hands-on teacher training workshops to make sure products can be used in the most engaging ways, and is available for technical queries and troubleshooting.

Mark Roberts: Customer Services Team Leader

Mark is dedicated to ensuring every customer interaction with SciChem is smooth, professional and as easy an experience as possible. He works to empower those in the customer service team take complete ownership of all queries, to follow each communication through to resolution and engage with customers to develop seamless processes, creating a stress-free purchase experience.

Tracey Jenkins: Customer Services

Tracey is a committed resource for customers right through their buying journey, from answering questions about products, throughout to processing orders and dealing with any post-order queries. Over her time with SciChem, Tracey has built excellent relationships with both our Laboratory and VIP customers, among others, who trust her with their needs.

MAKE SCIENCE MORE REWARDING...

Spend over £100 and not only will you get FREE DELIVERY, you'll be able to share a treat (or two) with your team...

See back page for details.

Carbon Dioxide Monitors

Here at SciChem we have a long tradition in supplying scientific equipment into schools. Our range of classroom CO₂ monitoring solutions are designed to give you peace of mind that you have sufficient ventilation to help minimise COVID transmission.

Our in-house R&D team can design CO₂ monitors to your specification and then work with our manufacturers to produce the quantity required.

Revolution Variable Power Supply

Refreshed and updated but still offering the same precision full specification power supply for the school laboratory with unrivalled advantages in terms of design and electrical specification.

Up to 8A DC, switched or variable but, most importantly, constant, regulated DC voltage regardless of load. Combine this with a simple to adjust maximum voltage limiter, automatic overload protection, digital voltage readout and a compact, lightweight case and you have the perfect power supply in a truly space saving package.

- Regulated DC output
- Maximum voltage limiter
- Digital panel meter
- Automatic over-current protection
- Additional AC 6V and 12V (unregulated) are provided at 1.5A max
- Switched or Variable
- Compact design with clear simple controls

Digital Signal Generator

Decade free frequency changing is by pressing buttons UP and DOWN controls with time sensitive rate of change.

Now Only
£251.79
Each

- Ultra simplicity
- Continuous frequency control from 0.1Hz to 100kHz. This means a full sweep through the audio band with no decade switch to contend with
- Precision waveforms, Sine, Square and Triangle
- High power amplified output for speakers and transducers
- Precision frequency and amplitude display
- High resolution control with fast change selectors
- Output 1: 24V Pk to Pk into 600 ohms for electronics
- Output 2: 4.5V Pk to Pk into 8 ohms for transducers Amplitude Control resolution 0.1V
- Step resolution 0.1 to 1% of indicated frequency
- 4mm output connections

PASCO Renewable Energy Kit

Only
£140.64
Each

With the renewable energy kit students can investigate key concepts around energy transformation and factors that affect the efficiency of wind turbines and solar (photovoltaic) cells.

Using PASCO sensors for voltage and current, students can explore the following concepts:

- Effect of angle, light, and temperature of solar cell output
- Solar cell and wind turbine efficiency
- The effect of number of blades, length, pitch, and shape on wind turbine power output
- Energy, power curves, and efficiency

Kit includes: 6x 6 inch turbine blades, 6x STEM adaptors for student designed blades, 2x Towers, weighted base, Nacelle with generator, 1W Solar Cell, LED, 2x Patch Cords.

PASCO

Wireless Spectrometer

The Wireless Spectrometer from PASCO is specifically designed for modern chemistry, biology, and physics labs. With Bluetooth and USB connectivity, students can quickly connect from their device or computer using the free PASCO Spectrometry Software (www.pasco.com/downloads/spectrometry).

Please note, Chromebooks are not compatible with the PASCO UV-Vis Spectrometer for data collection (analysis only).

With this affordable spectrometer students can gather a full visible spectrum of data in under one second. After specifying a target wavelength, students can study concentrations (Beer's Law), rates of reactions, or investigate emission spectra using the optional fibre optic cable.

- Spectral scans from 390 to 950 nm
- Intuitive, software-based operation
- One-click light and dark calibrations
- Clear marking to indicate proper cuvette positioning

Includes:

- 1x Semi-Microvolume Cuvettes (Qty. 10)
- 1x Cuvette Rack (EC-3590)
- 1x USB-A to USB-B Cable
- 1x External AC Adaptor, 24 V Power Supply
- 1x Foam Lined Carrying Case (ABS)
