WHY CLUBSDOCK?

DESIGNED FOR EVERY GOLF BAG

The sliding system allows for easy adjustments to fit all golf bags of every size (>31 inch). The rubber coated hook prevents your bag from tipping over and keeping it safe and sound from shaft scratches.

PROTECTIVE DUTCH DESIGN

ClubsDock features a premium, high-quality steel construction covered with a special coating that is resistant to rust and oxidation. Making it possible to hang in- and outdoors.

CAN HOLD UP TO 50KG

The solid base can hold up to 110 LBS (50 kg). Its firm backbone prevents the golf bag from directly touching the wall. Avoiding dirt and scratches.

OUR BRAND STORY

At the end of 2023, ClubsDock successfully completed a crowdfunding campaign in the United States, leading to the launch of their first consumer product line in January 2024. Since then, ClubsDock has expanded globally and is now venturing into the commercial market. Their commercial line makes their products available to golf clubs, indoor simulators, driving ranges, and more, extending their reach and impact.

ClubsDock aims to **enhance your golf essentials and elevate the off-course experience by transforming golf bags into works of art—functional yet striking pieces that spark conversation.**

PRODUCT LINES

COMMERCIAL

Featuring an integrated air spring, the commercial model offers a smooth, adjustable solution for effortless height adjustment—no need for manual locking. This innovative design allows for seamless customization to fit bags of all sizes, providing unmatched convenience and flexibility.

CONSUMER

Designed for home use, the consumer products are tailored to securely display or store a single golf bag. By allowing you to measure and lock the height for one specific bag, ClubsDock ensures a perfect fit, making it an ideal solution for showcasing or organizing your golf bag with ease.

WE TAKE CARE OF YOUR GOLF ESSENTIALS

DRIVING RANGE PRODUCTS

Product #007

BAY DIVIDER STANDARD

Material : Stainless steel (recycled)

Fabric: 40gsm vinyl, 1440 dpi, 0.42mm, 440g/m²

Dimensions: H 1M / 0.82 M / L 1.60M

USP: Fully flush screen + Phone holder

Weight: 3 LBS / 1.5 KGs

Product #008

BAY DIVIDER EXTENDED

Material : Stainless steel (recycled)

Fabric: 40gsm vinyl, 1440 dpi, 0.42mm, 440g/m²

Dimensions: H 1M / 0.82 M / L 2M

USP: Fully flush screen + Phone holder

Weight: 3 LBS / 1.5 KGs

Integrated Phone Holder:

The only divider worldwide with a fixed, vibration-free holder positioned at an ergonomic eye level. It eliminates the frustration golfers face when improvising with bags or loose clamps.

Anti-Rebound Safety System:

Uses double-layer mesh canvas that absorbs the balls' kinetic energy—unlike steel grids that can dangerously deflect balls back.

Flush Frame Design:

A smooth, finished frame with no protruding bolts or sharp corners, eliminating ricochets and preventing damage to golf clubs.
