What is ArchieChain?

Archie Chain is a Layer 1 EVM Compatible POS based Blockchain.

Why have we created ArchieChain?

Our vision of creating an Eco-System that will support our ultimate goal of creating passive income for our holders by not pump and dump like traditional crypto projects. We needed our own system to build our ArchieMeta that will have projects that will be used by consumers on a daily basis whether it is for entertainment in the P-2-E section, products for their use from e-commerce or even Real Estate in the real world in Archie Realty later on.

We did not want to use a platform that uncertain of things and ways they conduct business. We have experienced volatility in our chart and prices not because we were selling but some one else is. We have no control over the fees that they collect as well as the security and safety.

Our Archie Blockchain is carefully created by the best in the industry with several years of experience to have the fastest and safest by using the latest technology, At the same time, we have set our gas to be Near-Zero (4GWEI) and the speed is at 2 seconds. We can accommodate as much business as possible and won't have any issue. We are using the best servers (AWS servers) in the industry for safety and speed. Not only that, but we also have 2 groups of cyber security team constantly watching our system.

Pros of ArchieChain?

Let's talk about the benefits of having our own blockchain.

1. Scalable to our needs.
2. Near-Zero Gas
3. Fast and secured blockchain at 2-second block time.
4. POS system.

Cons of having a new blockchain as ArchieChain?

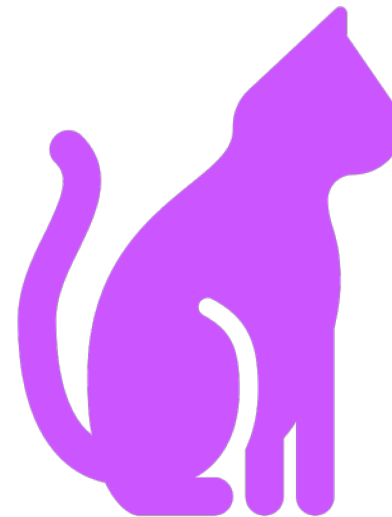

There are drawbacks of having our own blockchain too.

Being a new block chain there are no support from existing platforms such as Dextools, CMC and CG.

Hard to find a platform that can help us to support with trending charts and price bots.

Another big issue was the ability to buy and sell our native coin. \$ARC is our native coin and there are no way for anyone to buy or sell it.

Solution?

We are in development of creating our own trending tools exclusively ArchieChain along with Price Buy Bots. We do need this because we need to attract more tokens to deploy on our chain to adapt more users to use our ArchieChain

We also have developed ArchieVault, Exclusive De-Fi Exchange for ArchieChain, to solve issues of buying and selling. Please check more info in the ArchieVault Section.

archie AllianceTM
Complete DeFi Eco-System

Introducing

Native Coin of ArchieChain

archiechainTM

Layer 1 EVM Compatible Blockchain

archie AllianceTM
Complete DeFi Eco-System

What is ArcCoin?

ArchieCoin(\$ARC) is the native coin of Archie Chain, a L1 blockchain (EVM Compatible) project that aims a new paradigm for blockchain that emphasizes low fees, speed, security, and scalability.

Benefits ArcCoin?

1. Near-Zero Gas
2. No Buy or Sell Tax
3. Coin of ArchieMeta
4. Coin of Upcoming Archie Wallet & Archie Place.
5. Coin of Upcoming ArcVue
6. Low supply of 10 billion
7. Staking options both with Staking dApp and Validator Staking
8. Used as Gas on Archie Chain
9. Used to deploy other tokens on Archie Chain
10. Used as Liquidity Pairs to launch other tokens on Archie Chain.

1. Near-Zero Gas

ArchieCoin(\$ARC) is the native coin of Archie Chain. Archie Chain is set at 4 Gwei gas and a 2 second block creation. We did not want a zero-gas chain due to the fact it will attract too many jeets and not only that, but our validators also need to make a little money. Please refer to how to become a validator with ArchieChain.

Benefits ArcCoin?

2. No Buy or Sell Tax

ArchieCoin(\$ARC) is the native coin of Archie Chain. Since it is being the Native Coin of Archie Chain, there no tokenomics and in turn NO Buy Tax or Sell Tax.

3. Coin of ArchieMeta

You must have ArchieCoin (\$ARC) in your wallet to enter our exclusive ArchieMeta and enable transaction in the ArchieMeta DEX Bank of Archie. Visitors who are visiting first time and not a holder of ArchieCoin (\$ARC) are being re-routed to be part of our Eco-System through this.

4. Coin of Upcoming Archie Wallet & Archie Place.

Archie Wallet & Archie Place are two unique utilities that are being worked on by our engineers and will be launching soon.

Archie Wallet

Archie Wallet is a 3FA wallet that will help our holders to safeguard their investment through the 3FA security that is set in place. Not only that, but it will also have option to add more sub wallets in the event they hold a certain amount of \$ARC in their wallet. This will have more holders for our project.

Archie Place.

Archie Place is our flagship project that will introduce all new NFT marketplace. It will utilize all new technology available and make it affordable and fast for our holders and future holders. \$ARC will be the coin to be used to pay for fees in Archie Place.

(ARC)TM
arccoin

(WARC)TM
warccoin

www.archiecoin.io

Benefits ArcCoin?

5. Coin of Upcoming ArcVue

Since we are a New Blockchain and have not much transactions, there are no support from any price tools. We have decided to create our own price tools and buy bots since we are planning to have other tokens to launch on our Chain. \$ARC coin will be the native coin to be used in ArcVue.

6. Low supply of 10 billion

Total supply of \$ARC will stay and limited to 10 billion coins and we can burn some our supplies (we already have burned 1.3 billion already). We can not mint more coins or add more supply to the current Supply.

7. Staking options both with Staking dApp and Validator Staking

There are really two ways for our holders to earn more while Staking:

Validator Staking

Become a validator with one of the best L1 Blockchain with just 100,000 coins. Details are available in git hub at <https://github.com/archieneko/staking-contracts.git>. We also have a video on our you tube with detailed instructions: <https://youtu.be/rgRexTSLp3U>.

Coin Staking via dApp

We have set also 1 Billion (10% of total supply) for our long-term holders. Please see details in the staking part of this PDF.

Benefits ArcCoin?

8. Used as Gas on Archie Chain

\$ARC is the native coin of Archie Chain (ARC) and it is used as the gas for transactions. Remember to keep some \$ARC always in your wallet. Even though \$WARC and \$ARC are traded 1:1, you will need \$ARC in your wallet.

9. Used to deploy other tokens on Archie Chain

This is a heading that is very interesting. We are new and small now. But it is long before we have other projects and devs who wants to deploy their project on our chains. In that case, \$ARC is needed to deploy the contract and if they choose to, they can \$ARC to create their pair liquidity.

10. Used as Liquidity Pairs to launch other tokens on Archie Chain

This is the day we all are waiting for. Other Projects to come to ArchieChain to create a Liquidity pair against \$ARC or ARCUSD.

Wrapped tokens are assets that allow the value of a native asset from one blockchain to transfer to another blockchain. They work by swapping one token for another token in an equal amount via a smart contract, or code on the blockchain that can store and send funds. Wrapped tokens are a tokenized version of another cryptocurrency and can be used on non-native blockchains

www.archiecoin.io

What is wArc Coin?

wArc Coin is the wrapped version of \$ARC coin of Archie Chain. It is valued at 1:1 on Archie Chain.

Benefits wArcCoin?

One of the benefit of wrapping a coin is the ability to deploy our coin on another block chain. For example, our own WARC/WBNB on bsc chain. \$ARC being the native coin of Archie Chain, it is not able to deploy on other chains. Wrapping \$ARC to \$WARC allows us to easily deploy in multi-chain and get more exposure of our project to holders only deal with those chains.

How is Arc Coin and wArcCoin connected ?

\$WARC are created by swapping \$ARC. So, In technical 1 \$WARC is equal to 1 \$ARC. Value for arbitrage depends on the pairing factor each \$WARC is paired to. In other words, total supply remains the same but there is a mint and burn function connected to this process. When a holder wants to swap from \$WARC to \$ARC, then there is the function of burning those \$WARC to give \$ARC.

This is the reason; the bridge contract has mint function and audit report shows that.

WHITE PAPER/PITCH DECK

<https://heyzine.com/flip-book/c0f196da84.html>

www.archiecoin.io

Total Supply

| Arc/Warc Coin Supply & Token Allocations | | |
|--|---------------|----------------|
| Total Supply | | 10,000,000,000 |
| BURNT | 1,300,000,000 | |
| BSC | 1,300,000,000 | |
| ARC | 750,000,000 | |
| STAKING | 1,000,000,000 | |
| MARKETING | 2,000,000,000 | |
| DEV | 1,000,000,000 | |
| TEAM | 500,000,000 | |
| ARCHIE FOUNDATION | 300,000,000 | |
| SHILLER TEAM | 250,000,000 | |
| RESERVE | 1,600,000,000 | |
| CURRENT SUPPLY | | 8,700,000,000 |

Why is the Market Cap reporting being different?

There are few reasons to it. 1. All independent platforms (CG/CMC) are reading the supply from the bridge contract, which is deployed in bsc, and coming up with the market cap based on that supply. Actual supply is 10 billion minus 1.3 billion burned already.

Please do your own math. Since, our chain is new and not lot of platforms will be reading it correctly, multiply the total supply by the average price from ARC and BSC and you shall get the right Market Cap

How to buy Archie Coin in Archie Chain?

ArchieVault dApp Direct Link:

<https://archievault.io/>

Please note that this dApp is custom made for ArchieChain and it is directly available on our official websites.

Basically, this is a Defi Exchange that will allow holders to buy and sell ArchieCoin (\$ARC or \$WARC). Currently it allows to interact with 3 chains (Ethereum, Binance and Polygon) and near future we will be adding more chains and tokens.

Buying Process:

1. You can buy with Eth (Erc-20), BNB (Bep-20) or Matic (Polygon).
2. We have included Matic for those who complains about high gas fee on ETH.
3. You must be connected to the dApp from the network you are buying from.
4. You will receive your tokens/coin in Archie Network. (See how to add Archie Network to your MetaMask wallet).
5. Please use MetaMask wallet since it is compatible with EVM Chains and easier to deal with.

arccoin^(ARC) warccoin^(WARC)

www.archiecoin.io

How to buy Archie Coin in BSC Chain?

We have also created a bridge with limited supply of coin by wrapping the \$ARC to deploy on Binance Chain. We did that to attract more users to come and learn our project.

Why is the Audit Report saying the owner can mint more \$WARC?

This is really a technical question that lots of people are confused about. This is in no way to mint more \$ARC than the available supply of 10 Billion Max. Supply. This function is in the contract just to obey the bridging policy. Let me explain this in a laymen terminology.

\$ARC is swapped 1:1 ratio to create #WARC. But, when holder decides to get \$ARC for his/her \$WARC, the actual function is to burn their current \$WARC and in turns they receive \$ARC. In this case, the supply goes down and in order for us to maintain the total supply and to have enough supply on each chain, we will have to Swap more \$ARC to \$WARC and this process is called minting in crypto bridge world. So, in no way we can mint more than 10 billion total coins. And, by auditors stating the owner can mint more simply means that we can swap up to the limit of Max Supply(in our case, 10 billion on all chains together).

Complete DeFI Eco-System

www.archiecoin.io

Other Upcoming Utilities?

We are continually working on making our Eco-System more independent. We have planned the following utilities to be released soon.

Archie Wallet

ARCHIE WALLET™
3FA FOR SAFETY AND SECURITY

Archie Wallet, 3FA, will be a software cryptocurrency wallet used to interact with the Archie blockchain. It allows users to access their Archie wallet through a browser extension, which can then be used to interact with decentralized applications.

Archie Wallet allows users to store and manage account keys, broadcast transactions, send and receive EVM-based cryptocurrencies and tokens, and securely connect to decentralized applications through a compatible web browser.

BENEFITS:

- *Our own secure 3FA Wallet*
- *More holders by requiring to hold a min \$ARC to have access to all features.*
- *Ability to brand our name across more people.*

Other Upcoming Utilities?

We are continually working on making our Eco-System more independent. We have planned the following utilities to be released soon.

Archie Place

Why do we need our own marketplace? A good question, you will understand a lot more when you read Section of this publication. We are a MetaVerse based project will have thousand's of NFTs to be released in different format and sizes.

For the convenience and cost effectiveness, it is better to invest in our own platform to have a complete innovative system for us and other projects that wants to follow us.

BENEFITS:

- *Our own secure NFT Market Place with lower cost.*
- *More holders because \$ARC will be the native coin of ArchiePlace.*
- *Ability to brand our name across more people.*

Other Upcoming Utilities?

We are continually working on making our Eco-System more independent. We have planned the following utilities to be released soon.

Archie Bridge

The name says it all. A bridge across other chains. Currently, we have bridged our \$ARC coin in ArchieChain by swapping to \$WARC. We haven't given access to holders yet. In the near future, we will have Bridge Access to many other chains (Ethereum, Polygon, Arbitrium, Phantom, Solana to name a few.).

BENEFITS:

- *Bridge will give us more exposure to people from other chains.*
- *Having more holders in the ArchieChain by having more utilities on ArchieChain.*
- *They can easily bridge over to other chains.*

KNOWING

Other Upcoming Utilities?

We are continually working on making our Eco-System more independent. We have planned the following utilities to be released soon.

Archie Vue

archie **Vue**

The reason that I thought about this utility is because of the issues we have faced while launching our own chain. No one was out there to help us until we have several millions in trading volume. How are we supposed to be successful without a little help. So, I have decided to create our own price markers and charts and tokens that are listed on ArchieChain will have the priority.

ArcVue is a price data analytics tool which helps traders to more easily navigate decentralized networks. One of the most important features of the platform is the ability to keep a record of the live price of tokens..

ArcVue allows traders to have more insight into different tokens. The platform ranks tokens based on different data and allows the community to rank them as well. This can be seen under the "Community Ranking" section of the website. Furthermore, it gives you live prices and shows you detailed tokenomics, such as liquidity and volume.

BENEFITS:

- *Accurate Pricing*
- *Trending tokens ability*
- *Accurate transaction overview*

ARCHIE METAVERSE

KNOWING
archie

WHITE PAPER/PITCH DECK

<https://heyzine.com/flip-book/d34a85b2d3.html>

What is ArchieMeta?

Archie Metaverse is a photo-realistic Metaverse beginning with the play to earn Archie Island which offers games and experiences in a photo-realistic virtual reality environment.

Welcome to Archie Metaverse (Island of Archie), a photorealistic metaverse island built on its own unique Archie blockchain; a living experience that is designed to exist continuously and in real time, just as it does in the physical world.

Planning and development of this nearly 13000 acre(20 square miles) scenic island Metaverse is already underway. From the tranquil river estuary, breath-taking mountains and sun-drenched beaches, to the modern and futuristic architecture of its city structures, Archie Metaverse is designed to be a beautiful, harmonious blend of both landscape and cityscape.

The metaverse is considered next evolution of the internet. It will take many forms, including gaming, online communities and business meetings where people collaborate via a digital facsimile or avatar of themselves.

In the metaverse, people use avatars to represent themselves, communicate with each other and virtually build out the community. In the metaverse, digital currency is used to buy clothes -- or weapons and shielding in the case of video games -- and many other items. Users can also virtually travel through the metaverse for fun with no goal in mind using a virtual reality headset and controllers.

What is ArchieMeta?

Area: 13,000 acres aprox (20 sq. mile)

The need exists to change the current crypto space where the value of your project is only tied to hype and buying or selling the coin/token. Your project can fail instantly just by hype failing, one whale selling off their holdings, or a pump and dump group coming through. In order to survive long-term, a cryptocurrency project needs to have a product/service that generates revenue and this needs to be what the value is based on. This is what we are doing with Archie Metaverse. The demand for services provided in Archie Metaverse will drive the value of Archie Coin independent of the Crypto Market.

Archie Metaverse is a photo-realistic Metaverse beginning with the play to earn Archie Island which offers games and experiences in a photo-realistic virtual reality environment. Next will come e-commerce where actual products and services can be purchased in Archie Metaverse. And finally, a real estate component will be tied to actual properties in the real world represented in Archie Metaverse. The value of Archie Coin (\$ARC) will be determined by the success of the Metaverse rather than buying and selling Archie Coin. As a result of Archie Coin gains value, so indirectly will the tokens listed on Archie Chain which will have liquidity tied to Wrapped Archie Coin (WARC)

LAND AREA

What is ArchieMeta?

There are three sections to the ArchieMeta..

Archie Play2Earn

Play-2-Earn Game section will be launching in First Quarter of 2023 with the exception of Everest Gaming Centre in Q1 of 2023.

Archie e-Commerce

ArchieMeta will have various real world businesses whose real products/services will be mimicked in ArchieMeta. Visitors will be able to purchase these products/services and have them shipped to their actual homes or businesses. The types of products and services will be evaluated at a later time depending on how the market develops.

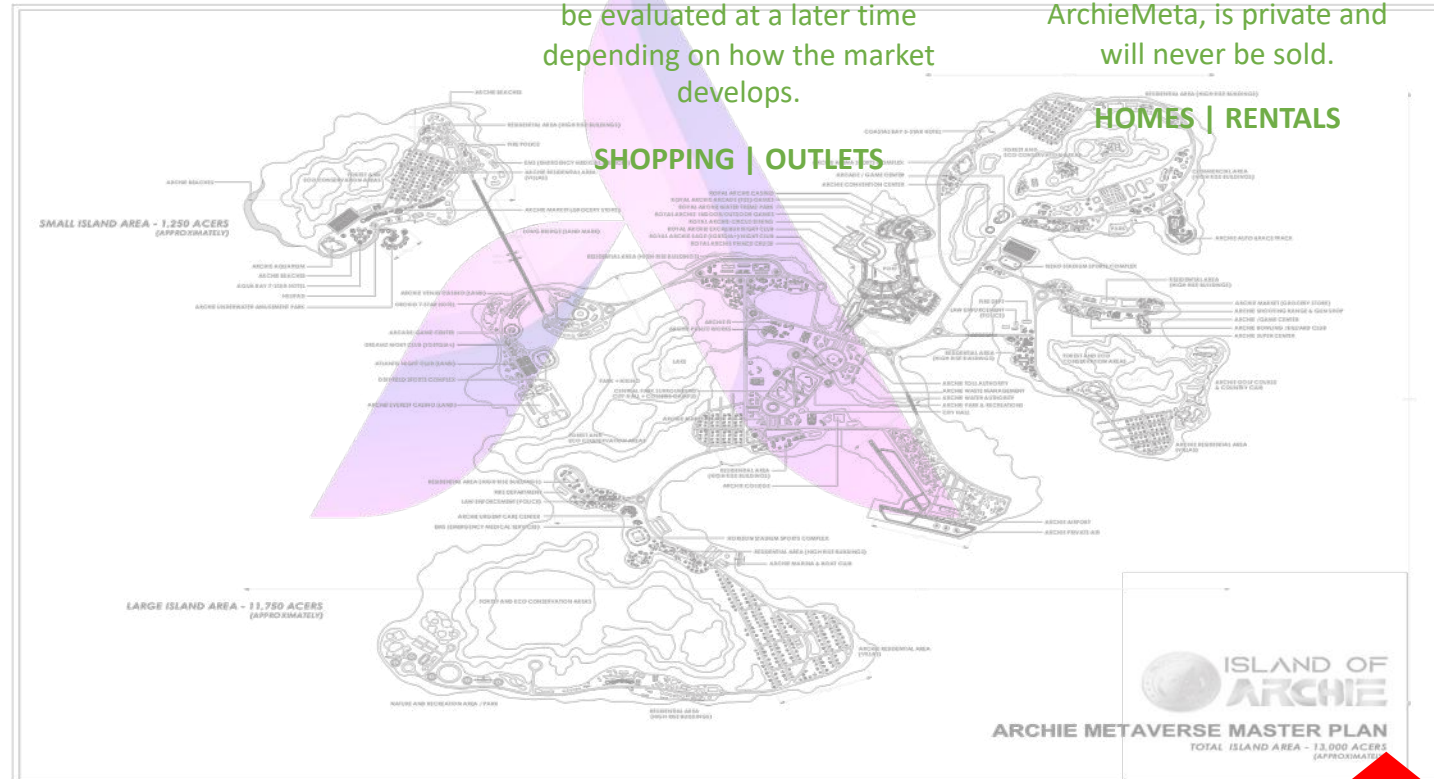

Archie Realty

In the 13,000 acres that make up ArchieMeta, there will be both Commercial Real Estate and Residential Real Estate. The commercial real estate, consisting of the various businesses in ArchieMeta, is private and will never be sold.

WHITE PAPER/PITCH DECK

<https://heyzine.com/flip-book/d34a85b2d3.html>

What is ArchieMeta?

ArchieMeta is our answer to several of our questions. This is our dream project. We do not follow other projects that concentrate in selling acres of land in virtual world. We have found a better way to pass part of the profit to our patrons. We do that by incorporating passive income through NFTs.

One of the draw back on this is the accounting functionality involved in this process. We need to make sure that we are able to do this through smart contracts. It is not feasible to do this manually.

In order to test this factor, we are releasing our first project, Project No. 2.1.A. Everest P-2-E Center

Project No. 2.1.A. Everest P-2-E Center

Everest P2E Gaming Centre is one of two land-based casino type game center where visitors can try their luck at table games and slot machines. Visitors can even opt for high stakes gambling, completely undisturbed, in one of the many exclusive private rooms.

With over 200 state-of-the-art slot machines, 20 blackjack games, 2 roulette tables and, of course, poker (including 3 world poker, 2 poker 123, and a gambler's favorite, Texas hold-'em), along with 4 Mahjong games, casino craps and baccarat, Everest is designed to appeal to a broad spectrum of players.

For entry into the casino, patrons are required to place a minimum of \$10 worth of bets. Once inside, betting costs range from a minimum of \$0.50 to a maximum of \$20.00 per game to be paid in Archie Coin. While some patrons find the \$10.00 minimum more affordable, the majority prefer higher stakes, betting an average of up to \$40 over a 24-hour period. Archie Coin is required for all casino entry.

BANK OF ARCHIETM
AN ARCHIE META EXCHANGE

WHITE PAPER/PITCH DECK

<https://heyzine.com/flip-book/897294a218.html>

What is Bank of Archie?

DEX for ArchieMeta

Bank of Archie is the DEX that enable our patrons to swap their ARC/WARC to ArchieMeta currency to play or use our ArchieMeta. Please refer to the pdf link for more details: <https://heyzine.com/flip-book/897294a218.html>

How does it operate in Bank of Archie??

Bank of Archie(BOA) is the DeFi Exchange of ArchieMeta. Bank of Archie (BOA) allows anyone that has \$ARC or \$WARC to convert their Archie Holdings to ArchieMeta crypto holdings with ease of a swap. Bank of Archie is deployed on ARC Chain (ARC) and it conveys all benefits of Archie Chain.

Bank of Archie has a 1% charge for every swap that happens. Value ration will be 1:1 for all tokens except \$ARWD is 1:1000 against \$ARC and/or \$WARC.

There are several different projects in our ArchieMeta. To name a few: casinos, shooting range, ship, arcades, night clubs and so on. In order for you to have the right experience and still have the every day common life effect, we need to separate the type of crypto used in our ArchieMeta.

For example:

We have 3 different casinos in our upcoming ArchieMeta. 1. Everest, 2. Venus and 3. Royal Archie. Even though, \$ARC and WARC are the official crypto currency of our ArchieMeta, we need to separate the use to make it more adventurous in our ArchieMeta. A person who wants to play in Everest Casino will have to surrender his \$ARC or WARC for Everest Casino Cash (\$ARCE) which, carries the same value but can't be swapped for any other token or used in any other place other than in our Everest Casino.

This will create a real-world experience as we do every day in our life. More information in next pages coming up.

BANK OF ARCHIETM
AN ARCHIE META EXCHANGE

BANK OF ARCHIE™

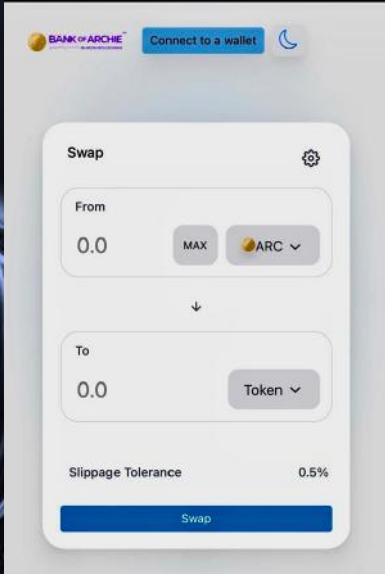

AN ARCHIE META EXCHANGE

Bank of Archie is used to convert the \$ARC (arccoin) to whatever the cash or currency that you need to play the actual game with in the ArchieMeta.

What is Archie Aggregator?

Swap 15000+ Assets Between All Chains
ETH, BSC, Cosmos, Avax, Harmony,
+ 50 more

Archie Aggregator is DEX Aggregator where you can swap any token/coin on a chain that is listed on our Archie Aggregator. Provided, there is liquidity, and it is tradable. Let me explain this a bit more. If the blockchain is listed, any token/coin on that chain is also available to swap through our aggregator.

This opens a big avenue for us, and I will explain that below.

Let's take our ArchieMeta projects for example. We have several projects in there that are commonly used amongst people, especially the games aspect of it. We have included mostly entertainment in our first sector of our ArchieMeta anyways.

PROJECT NO. 2.1.A

Everest Casino is one of two land-based casino type game centers where visitors can try their luck at table games and slot machines. Visitors can even opt for high stakes gambling, completely undisturbed, in one of the many exclusive private rooms.

PROJECT NO. 2.2.A

For those looking explore the island, Archie Auto offers a wide variety of vehicles available for rent/ lease. Residents and visitors can take a leisurely drive along scenic roadways or go off-road in a truck or ATV and of course can race on the state-of-art speedway

PROJECT NO. 2.20.A

Archie Shooting Range is the perfect place to show off those shooting skills! Archie Shooting Range offers game targets, competitive shooting, and ammunition as well as the latest firearm accessories(ammo and camo).

Everest Casino will be the first project to launch in ArchieMeta.

One of the main reason to launch this project in 2D is to test few things:

1. Ability to pay our ArchieNeko NFTs that are connected to this project as shown in the table via smart contract.
2. To attract the interest of new holders into our project.

KNOWING
archie

WHITE PAPER/PITCH DECK

<https://heyzine.com/flip-book/b3831c61af.html>.

archieAggregator™
www.app.archieaggregator.io

How does Archie Aggregator help our ArchieMeta and \$ARC?

Swap 15000+ Assets Between All Chains
ETH, BSC, Cosmos, Avax, Harmony,
+ 50 more

Archie Eco-System is not created as an investment-based project instead, it is a revenue-based project. We gladly cater to those who wants to spend few bucks and have fun in our ArchieMeta. That's why I was showing you some of the projects in our MetaVerse.

The question, What's the role of Archie Aggregator?

1. Imagine you are with a chain like Akash and wanted to reach out to our ArchieMeta. Think about the hurdles that person may have to go through to convert and swap. With Archie Aggregator, that person can be here within seconds.
2. Another instance, this is very important to pay attention to, let's say you are in the middle of a game in Project No. 2.1.A Everest P-2-E and you are out of money. What are the chances of you are able to bring money from another chain you are using and keep playing? With Archie Aggregator, it is very much possible.

Not only you are able to bring money to ARC, but you are also able taking it back to your native coin/token easily too.

archieTokenTM
ON ALL NEW ARCHIE CHAIN
www.archietoken.io

What is Archie Token?

Archie Token is the first token to be launched on Archie (ARC20) Chain. This token is a replacement of our original Archie(Erc-20) Token.

Total supply of this token will be 1,000,000,000 (1 billion). Original Archie (Erc-20) token had 10 sextillion supply. Every holder from Erc-20 will be air dropped their equal value (screen shot taken on March 20, 2023).

A little history on Archie(Erc-20) token.

Archie (Erc-20) Token was created and launched in memory of our beloved Archie. It was clearly our plan to have our own blockchain one day and it was included in the road map from day 1. With crypto market being volatile and not getting enough attention to our project, we have a big loss (almost 90%) and we have managed to create our new Blockchain, ArchieChain, it is our time to rebuild our original vision back.

What do you need to do to receive your Airdrop?.

1. Makes sure you have your wallet in MetaMask. For those who holds their original Archie Token (Erc-20) in any other wallets, please import your wallet to MetaMask. We need to keep the same wallet address for future reference and transparency.
2. Add Archie Network to your MetaMask Wallet. *See how to add Archie Network to your MetaMask wallet.*
3. Make sure you have some \$ARC in your wallet for usage of Gas.

Use Case of Archie Token?

Archie Chain is a Layer 1 EVM Compatible POS based Blockchain.

Low Tokenomics

I believe every token must have a tokenomics to support their project and cost. We have taken several things in to consideration before coming out with our custom tokenomics.

| | <i>First 30 Days</i> | | <i>Regular</i> | |
|--------------|----------------------|------------|----------------|-----------|
| | Buy | Sell | Buy | Sell |
| Liquidity | 2.5% | 5% | 3% | 3% |
| Marketing | 2.5% | 5% | 2% | 4% |
| Total | 5% | 10% | 5% | 7% |

We have setup the initial tokenomics higher to prevent people from dumping and causing the token price to go down drastically.

Staking with Archie Tokens

We have set aside 10% of our total supply (100 millions) for staking pool. There are two types of staking available with Archie Token.

1. Archie (ARC20) Token Staking.
2. Minimum 100000 tokens are needed to enable the staking.
3. There will be an option to stake for 30, 90, 180 and 360 days.
4. Current APY offer respectively are 12%, 18%, 24% and 30%.
5. There are no fees to stake or unstake.
6. There will be an early withdrawal fee of 10% incase you decide to withdraw before the pool term matures. EW fee is added to the staking pool.

<https://archietoken-archienft-staking.netlify.app/>

Staking with Archie Tokens with NFT

You will need ArchieMeta NFT (avatar NFT) to take part on this program:

1. Archie (ARC20) Token Staking.
2. Minimum 100000 tokens are needed to enable the staking.
3. There will be an option to stake for 30, 90, 180 and 360 days.
4. Current APY offer please check the table below
5. There are no fees to stake or unstake.
6. There will be an early withdrawal fee of 10% incase you decide to withdraw before the pool term matures. EW fee is added to the staking pool.
7. ArchieMeta NFT are ready to mint at www.archiemetanft.com at .049 eth each.

Where can you buy Archie Token?

ArchieVault dApp Direct Link:

<https://archie-vault-dapp.netlify.app/>

Please note that this dApp is custom made for ArchieChain and it is directly available on our official websites.

Basically, this is a Defi Exchange that will allow holders to buy and sell Archie Token (\$ARCHIE). Currently it allows to interact with 3 chains (Ethereum, Binance and Polygon) and near future we will be adding more chains and tokens.

Buying Process:

1. You can buy with Eth (Erc-20), BNB (Bep-20) or Matic (Polygon).
2. We have included Matic for those who complains about high gas fee on ETH.
3. You must be connected to the dApp from the network you are buying from.
4. You will receive your tokens/coin in Archie Network. (See how to add Archie Network to your MetaMask wallet).
5. Please use MetaMask wallet since it is compatible with EVM Chains and easier to deal with.

NFTS?

You have heard of many NFTs in crypto world. Many non-utility NFTs have no real value other than the value a buyer or community believes it to have, based upon the rarity of its collectability or current hype surrounding the subject.

This is where ArchieNeko vastly differs...in a very good way... from other NFT projects currently available.

Every one of Archie Project NFTs have a utility and passive income attached to it. There are three Different NFTs projects within Archie Alliance system.

1. ArchieNeko NFT
2. ArchieMeta NFT
3. WeCareKitty NFT

What is ArchieNeko NFT?

Passive Income forever

ArchieNeko NFT are the main NFT Project of ArchieMeta (Archie Meta Verse). It has two collections built in: a) ArchieNeko Collection and b) Hachi Collection.

a) ArchieNeko Collection

Based on the character image of our beloved "ARCHIE", we created ArchieNeko Collection. As of now, based on 72 projects that are planned in the P-2-E section of our ArchieMeta, there are 9352 ArchieNeko NFTs are currently available.

b) Hachi Collection

Based on the character image of our beloved "HACHI", who was Archie's best buddy dog, we have created Hachi Collection. These are unique collection that will used in the ArchieMeta Project No. 2.17.A Bank of Archie. Pretty much, the big brother is safeguarding his young buddy's money. There are total 300 NFTs assigned to Bank of Archie, which is the swap that controls all transactions within ArchieMeta.

Use case of ArchieNeko NFT?

NFT that will change your life forever

At the center of ArchieMeta is Island of Archie. Island of Archie will not only provide a fully functioning economy where individuals and business can buy, sell and trade virtual assets and services using ArchieNeko NFTs, it will also collect revenue from various businesses and governmental departments within its Metaverse

Just like in a real-world city, Archie City will need employees to oversee the daily operations of its businesses, services, and government in order to keep things running smoothly. Think of each unique ArchieNeko NFT as an employee...who has a job in the Archie Metaverse...and who receives an actual salary for performing this job. The amount of the employee's salary is based on the occupation held and is paid from the revenue collected from various enterprises throughout Archie Metaverse. Because you own the designated NFT, that salary is actually paid, in BUSD, to you!

Now, these NFTs are paid through smart contract. In order to test the actual transactions and to verify the accuracy, we are launching our Project No. 2.1.A Everest P-2-E Gaming center soon. Please check the details in ArchieMeta Pages

ArchieNeko NFT

How does the passive income work with ArchieNeko NFT?

Let's take Hachi NFT Collection for an example.

PROJECT NO. 2.17.A. BANK OF ARCHIE

The Central Bank of Archie (BOA) provides a wide range of service to patrons of Archie Metaverse. BOA is the only DEX they can use to swap tokens to and out of ArchieMeta.

| NFT/Employee | Qty | Earned |
|-----------------|-----|--------|
| MANAGER | 50 | 0.30% |
| TELLERS | 120 | 0.08% |
| SUPERVISOR | 80 | 0.10% |
| ASST MANAGER | 50 | 0.15% |
| TOTAL NFT | 300 | 0.63% |
| COST OF REVENUE | | 18% |
| GROSS PROFIT | | 52% |

There are total of 300 NFTs that are assigned to BOA. Every NFT is paid based on the revenue that is collected within the project and it is in a percentage of the total revenue. For example, there are 50 Managers available in the BOA system and each one of them will receive .30% of the total revenue collected as fees for swapping in and out of Bank of Archie DEX.

Bank of Archie charges 1% fee for swapping any token/coin in and out of the system and if we do about \$100.000 in a day:

| | |
|-------------------------------|------------|
| Total amount Swapped: | \$ 100,000 |
| Total charges Collected (1%): | \$. 1,000 |
| Manager gets paid: .30% | \$. 3.00 |

archieNEKONFT[™]
WITH PASSIVE INCOME TO HOLDERS

www.archienekonft.io

Now, that number looks too low for anyone. Only making \$3/day ? Imagine having 72 projects, e-Commerce from second section of ArchieMeta and eventually having Real Estate Transactions from our own Archie Realty. That is the long-term vision of ArchieAlliance.

How's ArchieNeko NFT help to build ArchieMeta?

Development of ArchieMeta is costly. We have 72 projects to be built and we are not thinking of selling acres of land in our virtual world. Instead, our plan is to sell NFT and use the money to build our ArchieMeta. Instead of using our coins from marketing wallet, that will create volatility in our chart, we rather use the money from NFT.

You may think, how will that work. We will be marketing only the NFTs from the specific project that will launch and being worked on. For example, first project to be launched is Project No. 2.1.A Everest P-2-E. Once the project launches and passive income are paid through smart contract, it will create demand for the NFT, and we can get more money for it.

How to buy a ArchieNeko NFT?

Since the ArchieNeko NFT have specific role in ArchieMeta and carries different passive income, it wasn't wise to have people mint them. So, I have minted all of them and available to purchase. Visit www.archienekonft.io and all pdfs and information attached there. Once you are ready to purchase you can reach us in our 24-hour voice chat or send an email with your request to info@archieneko.com.

ArchieMeta NFT

What is ArchieMeta NFT?

Exclusive Avatar Model NFTs are the newest addition to ArchieNeko Family. We are introducing this collection to fill the need of "Avatars" that visitors needed in the ArchieMeta. Visitors often will use these avatars in our ArchieMeta to attend a concert or even to visit our Casinos or any other projects.

There will be a total of 150,000 avatars altogether and will be released in 30 phases. These Avatar Models will represent almost all major races and ages to make it interesting and the diversification of our ArchieMeta.

Each character will be named accordingly and released as a separate collection. Benefits will be the same for all but, prices will be different. Earlier phases will have a cheaper price to mint versus later phases will carry higher price tag to build the demand and value

"AVA" Avatar ArchieMeta NFT

These are 3D base photo realistic character based NFTs that you can use as Avatars to enter the ArchieMeta.

These characters will be used to animated and will be available to you to enter and walk around or play in our upcoming Metaverse project. In addition to it, that will have more benefits for people that buys them in quantity. There are seven (7) exclusive clubs and they all have added benefit based on the amount of NFTs you owned. Only requirement is to have them in one wallet:

Mint @
.049 ETH

www.archiemanft.com

Buy multiple and earn extra rewards.

| Club Name | Min NFT | Max. NFT | |
|---------------------|---------|----------|--------------------------------------|
| 1 Elite Club | 25 | 49 | ArchieMeta NFT or WeCareKitty NFT |
| 2 Top Gun Club | 50 | 74 | Must be in one Wallet |
| 3 Admirals Club | 75 | 99 | Can be Combined |
| 4 Club 777 | 100 | 149 | Mint price for ArchieMetaNFT .049ETH |
| 5 High Rollers Club | 150 | 199 | |
| 6 Meta Master Club | 200 | 499 | |
| 7 Archie Executive | 500+ | | |

These NFTs are stakable in phase 2

These NFTs Rentable as Avatar in Archie Meta

Exclusive avatar NFTs of ArchieMeta can be used in our upcoming ArchieMeta for visitors to use as an avatar.

Base price to rent one of these Avatar NFT from ArchieMeta store will be .005 BUSD/hour and paid directly to the owner's wallet.

Based on the rarity and popularity of your ArchieMeta NFT, you can determine the rental price up to the maximum set by the system. The most popular will be rented out for higher price.

WeCareKitty NFT

WE CARE KITTY NFTs are being created mainly to help the Archie Foundation's We Care Kitty Project. There will be a total of 10000 NFTs to be minted on the first phase showcasing different characters of a kitty. These NFTs will have extensive benefits such as our ArchiemetaNFT (club membership and rewards). More details, please refer to Club Details on www.archiemetanft.com

How does this work and benefit our Archie Foundation and Archie Token Holders:

1. 33% of all proceedings from these NFT sales will be directly used for Archie Foundations need.
2. 10% of all proceedings from these NFT sales will be used to buy ARCHIE Token and will be burnt to lower the circulating supply.
3. Holders of these NFTs will have staking options along with other benefits as mentioned in the ArchieMetaNFT.com besides the rental income opportunity.

WeCareKitty NFT

WeCareKitty NFTs are created to help the Archie Token (\$ARCHIE) project in two ways:

1. For the foundation needs, we do not need TO sell our token to hurt our chart or investors. WE will use 33% of the proceeds from WeCareKitty NFT sale to do that.
2. 10% of the proceeds from WeCareKitty NFT will be used to buy \$ARCHIE circulating supply and burn it. This will help our price and chart tremendously.

In addition to all that, we are also extending our gratitude to you by adding more benefits as explained below:

| | Club Name | Min NFT | Max. NFT | |
|---|-------------------|---------|----------|-----------------------------------|
| 1 | Elite Club | 25 | 49 | ArchieMeta NFT or WeCareKitty NFT |
| 2 | Top Gun Club | 50 | 74 | Must be in one Wallet |
| 3 | Admirals Club | 75 | 99 | Can be Combined |
| 4 | Club 777 | 100 | 149 | |
| 5 | High Rollers Club | 150 | 199 | |
| 6 | Meta Master Club | 200 | 499 | We Care Kitty NFT. .079 eth |
| 7 | Archie Executive | 500+ | | |

You will be able to stake these NFTs once Archie Token (\$ARCHIE) launches on ArchieChain soon.

EXECUTIVE SUMMARY

KNOWING
archie

WHITE PAPER/PITCH DECK

<https://heyzine.com/flip-book/df1af53d42.html>

archie Alliance™
Complete DeFi Eco-System

www.archieoon.io

Executive Summary

Archie Alliance is a complete eco-system planned and ready to launch perfectly. Meanwhile, let me make my vision clear to you all. Our goal from day one is to have the ability to buy a cup of coffee with Archie Coin one day. This is not just a dream. This can be true if we work hard together.

We have developed and launched many parts of the Archie Alliance system already.

- ✓ ArchieChain
- ✓ ArchieScan
- ✓ ArchieSwap
- ✓ ArchieAggregator
- ✓ ArchieVault
- ✓ ArchieBridge

The rest that is being worked on are:

- Archie Wallet
- Archie Place
- Arc Vue
- Everest P-2-E Center

- ArchieMeta has started already.

We are creating a complete independent eco-system to differentiate ourselves from traditional crypto world. In order to do that , we needed to work on many things.

How can we achieve this?

We need an environment where real revenue is created in this crypto world rather than the fomo pump and dumps. Of course, after seeing the current meme crypto space that going crazy with tokens that have no utility is breaking charts and almost everyone is chasing it. But the reality is, are you in for a quick profit or are you in crypto for long term?

After long discussion and many thoughts, I have decided to create a crypto space that will stay here forever and create revenue-based profit to our patrons.

Let's Talk About it

How does the crypto really work? Have you thought of it? There is no new money coming in other than the money being invested by holders already. In other words, we are rotating the same money within a system. In this case, some will have to lose for someone to gain. Simple.

What about a crypto that will bring in Revenue every day

Instead of circling around the investment of our holders, let's figure a way that will bring in revenue for the service rendered by patrons to our project.

Sounds little crazy but let me explain.

We can use the Web 3.0 and AI (artificial Intelligence) together to create projects in a virtual world, we call it ArchieMeta, and offer the service to patrons to use. In turns, they pay a nominal fee for the service they receive, and that money can be used as revenue for the project.

Make a little sense now?

There are several projects in our ArchieMeta (please refer to ArchieMeta Section for more details), that can bring lots of people who are not traditional crypto investors. For example, Project No. 2.2.A Archie Motor Speedway.

Project No. 2.2.A. Archie Motor Speedway

For those looking to explore the island, Archie Auto offers a wide variety of vehicles available for rent/ lease. Residents and visitors can take a leisurely drive along scenic roadways or go off-road in a truck or ATV. and ofcourse can race on the state-of-art speedway.. Archie Auto has its very own racetrack where drivers can put their racing skills to the test. Archie Auto's servicing department offers repairs and has vehicle accessories and upgrades available for purchase

How many of you are interested in wearing those VR equipment's (glass, suite and so on) and enjoying a race against few of your friends in our Archie Motor Speedway. We haven't finalized the cost on it but, for the sake of an example let's say \$15 for 3 hours for each patron.

So, lets do the math,

Group of 4 individuals (friends or otherwise), are ready to race in the Archie Motor Speedway. And the Basic cost is \$15 for 3 Hours.

Remember they can upgrade their vehicle style, type and other accessories. So, lets. Say they spend another \$25 each on accessories.

Total Revenue from 4 of these individuals: \$15/person + \$25 accessories and upgrades. Totaling to a \$160 pool.

Now this a P-2-E game to make it interesting for people to play and spend money. So, 50% of the original cost to play (\$60) will be up for grab by one winner. In other words, they can spend \$15 and enjoy their race or ride for 3 hours and there is a chance to win \$30 reward.

Isn't that interesting?

Project No. 2.2.A. Archie Motor Speedway

Now let's look at the figures based on the example shown to see how this will generate revenue and income for our project and NFT holders.

For this example, we will copy the above said example of average \$160 per group times 50 groups joining our Archie Motor Speedway.

That is a total revenue of \$8000/ day.

Project No. 2.2.A. NFT ASSIGNMENT

| NFT | QTY | PCT% |
|------------------|-----|-------|
| MANAGER | 1 | 0.40% |
| ASST MANAGER | 2 | 0.15% |
| SALESMAN | 20 | 0.10% |
| SERVICE | 40 | 0.20% |
| CASHIER | 5 | 0.10% |
| TRACK MANAGER | 2 | 0.15% |
| TRACK ASSISTANCE | 60 | 0.10% |
| TRACK SUPERVISOR | 20 | 0.13% |

As you may notice in the table shown above, there a total 150 NFTs are supported from the revenue collected from this project.

Based on the \$8000 revenue per day, let's figure out how much a Manager will make. Now, this is to note, all NFTs are paid based on a percentage (%) of the revenue.

In this case, The Manager makes .40% of the revenue collected and which is, \$8000 x .40% = \$32/day. Now, this is based on a very conservative figure of only 50 groups (200 people) visiting the Speedway. We are a global project and with correct support and marketing, we can take to the next level.

Turn to the next page to see, how this same project helping other projects within ArchieMeta.

archie AllianceTM
Complete DeFi Eco-System

www.archiecoon.io

How's a project within ArchieMeta help other Projects?

Project No. 2.2.A. PAY OUT

| DESCRIPTION | PCT% |
|-----------------------|------|
| CITY REVENUE | 3% |
| BUSINESS REVENUE | 2% |
| CLEANING SERVICE | 1% |
| RENEWABLE ENERGY | 1% |
| WATER AUTHORITY | 1% |
| ESCROW | 2% |
| ADVERTISEMENT | 6% |
| LOGISTICS | 2% |
| PUBLIC TRANSPORTATION | 2% |
| UPDATION SERVICE | 2% |
| ARCHIEFI | 1% |
| MARKET SUPPORT | 2% |
| RESTAURANT SUPPORT | 1% |
| ACCOMODATIONS | 0% |
| SCHOOL | 1% |
| SECURITY | 1% |
| INTERNAL AD | 1% |
| SERVICE REVENUE | 2% |
| EMPLOYEE | |

As you may notice in the table shown, there are projects within our ArchieMeta that does not bring direct revenue from our patrons.

For example,
Project No. 2.11.A Archie Valley Renewable Energy

It has 211 NFTs attached to this project and how are they supporting the NFTs? It is done by a unique system within our Archie Meta. Every projects that are directly paid by patrons has to share their revenue to other projects. Please note that this doesn't affect the payment to NFTs in those projects because, NFTs are paid out based on the Gross Revenue. This avoids lots of confusion and trigger much more accounting needs.

A system in place, well thought through, to help grow our project.

After launching or just prior to launching this project, we will offer to sell these NFTs and that will bring in money to build the next project and so on.

Ingredients to Success

@ 1. Right Marketing

I am well aware of this topic. But we have our way of marketing set up. We don't need mass marketing for people to invest into our project instead, we need patrons to come enjoy our project. Once that happens, our project will be well known to be the strongest and safest to invest and that will attract many more investors

@ 2. Community Support

We need our holders to support us abundantly. Our telegram voice chat is open 24/7. This is not to hype the energy and make people all up and up. This is a way to thank our investors and assuring that we are here for you when you need us. Our clear policy of "NO DM" works. As you may notice, we haven't got many of our holders that got screwed with scammers. They try their level best, but they can't copy our style of having 24-hour voice chat.

As a holder of this project, you can come by spend some time on our voice chat, whenever you are available, and write a positive message on our social media. I hope you all will consider doing this.

@ 3. Shilling

This is the best way to reach more people who are not aware of our project directly. We have a shilling team in place, and they do shill a lot. Anyone can join and earn a bit with our shilling contest too. In addition to the reward, I have put away 250 million coin to share with our Shillers. Please join main chat and check it out .

@ 4. Voice Chat Mods

We are looking for qualified individuals who are ready to learn and grow with us. Interested parties join our 24 hours Voice Chat to inquire.

https://t.me/archie_coin

I think I have covered most of the key points in this project. If I may have forgot to cover anything, I will cover it on the next open letter.

Archie Alliance system is unique project, and it will lead us to our dream. In return, all I am asking for is to learn the project the correct way and support us as much as you can. You can always help us by following our social media. Also, you can help us by telling the world how we are doing and at the same time when we are making mistakes, criticize us positively.

We need your kind support not just investments.

Looking forward to hear from you all.

With warm regards,
