

J&T Farm

12th *Production Sale*

Wicked Witch

August 1, 2026 – 10:30 a.m.
Lexington, Tennessee
First Farmers Co-op Livestock Center

TERMS AND CONDITIONS OF SALE

BIDDING: Each animal will be sold to the highest bidder without reserve.

BIDDING DISPUTE:

TERMS: Terms of the sale are cash due upon sale, unless prior credit arrangements for the sale have been agreed upon in writing between the Buyer and Seller, in which event, the terms of the written credit arrangement between the Buyer and Seller for the sale shall prevail. The failure of a member buyer to pay the appropriate party the sale amounts when due may constitute a cause for exclusion from BBU pursuant to

Article I, section 9 of the By Laws of BBU.

The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as the auctioneer declares it sold.

CERTIFICATE OF BREEDING AND/OR TRANSFERS: All required paperwork will be transferred to the buyer at the seller's expense, upon settlement.

HEALTH: All animals will have appropriate certificates of veterinary inspection for travel to the sale site and will to the best of the seller's knowledge be eligible for interstate shipment, however, buyers need to be aware of their individual resident state's requirements for shipment of cattle. Any and all testing will have been completed within thirty (30) days of the sale date.

ANNOUNCEMENTS: If any changes in information of any kind are announced from the auction box, said announcements shall take precedence.

BREEDING GUARANTEES:

1) The seller guarantees that all animals are breeders, with the exception of: (a) calves under 12 months of age at the time of the sale; (b) animals shown after the sale has occurred (in such cases, the breeding guarantees, if any, will be those guarantees as are agreed upon between the seller and the buyer); (c) animals who suffer injury or disease following the sale; (d) animals administered any super ovulation drug or growth hormone after purchase; and, (e) animals subjected to negligence by or willful misconduct on the part of the buyer.

2) Females: (a) open females are so guaranteed; (b) any female is considered to be a breeder if she is certified to be pregnant by a licensed veterinarian at the time of sale and/or has a nursing calf at side; and, (c) safe in calf females have been examined by a veterinarian and so guaranteed.

3) Bulls eighteen (18) months or older are guaranteed by the seller to have passed a breeding soundness exam (BSE) and have been certified a satisfactory potential breeder by a licensed veterinarian within 60 days prior to the sale.

4) If within one-hundred twenty (120) days from the date of sale, the bull has failed to pass a BSE certified by a licensed veterinarian, buyer must send seller written notification of the failure of the test within one-hundred twenty (120) days from the date of sale and include the BSE test results. Within sixty (60) days after seller's notification of the failed BSE test, buyer and seller shall identify a mutually agreeable licensed veterinarian or technician certified by a licensed veterinarian to perform another BSE on the bull at the buyer's expense. The results of the test shall be deemed final and conclusive of this matter and binding on buyer and seller. If, in the opinion of said veterinarian or technician, the bull is unable to pass a BSE and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer which shall include the official form used by the Society of Theriogenology or the official BBU BSE form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller. **Unless otherwise agreed by the buyer and the seller, the seller makes no guarantees with respect to the ability to freeze semen.**

PRIVILEGES OF RETURN OR ADJUSTMENT OPTIONS:

1) With the exception of any applicable transportation expenses described herein, a seller shall never be liable to a buyer for an amount greater than the original selling price of any animal sold under these Sales Terms and Conditions.

2) Unless otherwise stated, all claims for adjustment or refund must be made in writing to the seller within 180 days following the sale of the animal in question.

3) If an animal is claimed to be a non-breeder, the animal may be returned to the seller if it is in a good condition and complies with the health requirements of the seller's state. At the option of the buyer, the seller may issue a credit to the buyer for use in a future purchase or provide an animal of equal value subject to the approval of buyer. If the buyer exercises either such option, the claim shall be deemed fully and satisfactorily resolved. However, in the event that the buyer requests a refund of the purchase price, the seller may, at its option, either issue a refund of the full purchase price or, shall have 180 days from the date the animal is returned to the seller's farm to conduct a trial to demonstrate the returned animal is a breeder. Refund of the full purchase price or demonstrated proof that the animal is a breeder during the test trial shall be deemed full satisfaction and settlement of the claim. Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.

4) If an animal is sold and subsequently becomes ineligible for registration under the rules of BBU for reasons other than incorrect parentage, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the seller, refund the purchase price upon the return of the animal to the farm of the seller.

5) If an animal (including the offspring of a pregnant recipient) is sold and through parentage verification is proven to have incorrect parentage, as represented by the animal's certificate of registration, and for which correct parentage can be determined, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the seller's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary of the date of the sale.

6) Unless stated otherwise, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.

MISCELLANEOUS:

1) The above terms and conditions of sale constitute a contract between the buyer and the seller and are equally binding upon both parties. Each sale or resale of an animal constitutes a separate transaction.

2) Neither BBU nor any director, officer, employee or representative of BBU or any of its related entities shall be liable in any way with respect to a transaction conducted under these Sales Terms and Conditions; nor shall BBU, its directors, officers, employees or representatives be responsible in any way for enforcing the terms and conditions of any agreement between a buyer and a seller. Each buyer and seller agree to hold BBU, its directors, officers, employees, representatives and related entities harmless from all damages, expenses, claims, losses and other liabilities associated with a transaction conducted under these Suggested Sales Terms and Conditions.

3) No sponsor, sale manager, or other person connected with the management of a sale shall be liable in any way with respect to transactions conducted under these Sales Terms and Conditions.

4) These sale terms and conditions and all rights, obligations and duties arising hereunder and all disputes arising hereunder will be construed in accordance with, and governed by, the laws of the state in which the sale occurs, without giving effect to such state's choice of law rules.

5) UNLESS OTHERWISE EXPRESSLY STATED IN THESE SALE TERMS AND CONDITIONS OR ANY OTHER WRITTEN AGREEMENT BETWEEN THE PARTIES RELATING TO THE SALE OR BEEFMASTER, BEEFMASTER ADVANCER, E6 OR UPGRADING CATTLE UNDER THESE SALE TERMS AND CONDITIONS, SELLER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, EVEN IF SUCH PURPOSE IS KNOWN TO THE PARTIES. THE REMEDIES PROVIDED IN THESE SALE TERMS AND CONDITIONS ARE THE EXCLUSIVE REMEDIES OF THE BUYER, OR ANY PARTY CLAIMING THROUGH THE BUYER, AND UNDER NO CIRCUMSTANCES WILL THE SELLER BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES UNDER ANY INDEMNITY PROVISION OR OTHERWISE.

F A R M

Dear Beefmaster Friends,

On behalf of Tammy, Taylor, and myself, we would like to invite you to our twelfth production sale. The sale will be held at the First Farmers Co-Op sale facility in Lexington, TN on August 1.

This is our 18th year of breeding beefmaster cattle. In the beginning, we only hoped to survive, but over the past few years, we have strived to produce the most complete beefmaster possible. This sale offering is much more solid and is deeper than we've had in a while. There will be as many polled performance driven females with program changing carcass traits as in any sale this year. As always, they are out of top cow families that include Wicked Witch, Diamond Maiden, Oasis, JT Franchise, and JT Timeless. The sires are equally good with names like Game Day, The Rock, Captain Sugar, Genesis, High Velocity, Brock, and Daybreak.

If myself, Trey, Mike, or Anthony can assist you in any way, don't hesitate to call. We hope to see you at the sale, but if that's not possible bidding will be available on premierlivestockauctions.com. Try to make it Friday night as Ty Afee will be providing the food.

**Best Regards,
Jerry Thomas**

2555 Simmons, Henderson, TN 38340

jrt1tht2@netzero.net

Dear Beefmaster Breeders and Friends,

The summer temperatures are in full sizzle and J & T Farm is turning up the heat with another scorching offering of some of the best animals and genetics in the breed. It has been a true honor to work with Jerry, Tammy, and Taylor over the past few years, witnessing the explosion of their program. From their creation of breed changing herd sires like Daybreak and Nightfall to their drive to enhance carcass, growth, and polled traits within the breed, J & T Farm has become a true leader in the Beefmaster industry.

Jerry, Tammy, and Taylor are "hands-on" breeders and work tirelessly with their animals and program daily to ensure you are getting the best animals possible with the most reliable information around. Within minutes of visiting with the Thomas family, one can easily feel the intimacy they have with their herd and the depth of knowledge they possess about the breed. These are the things that make J & T unique and have allowed them to establish their program as one of the best in the entire Beefmaster breed.

This year's offering is again featuring donor prospects, bred heifers, open heifers, and a herd bull prospect. Beyond the obvious, the 2026 production sale highlights an extensive offering from premier donors like Timeless, Franchise, Alexa, and of course, Wicked Witch. What makes this offering even more rare and special are the carcass traits exhibited by these animals. Nowhere else, will you find this level of IMF and REA merit in this volume. If you are truly serious about pushing the carcass merit and value of the breed forward, J & T genetics are a must have to compliment your herd.

It is with the utmost enthusiasm that I encourage everyone to make the journey to Lexington, Tennessee and witness the offering created by the Thomas family. From heart-felt hospitality to some of the most unique and exclusive genetics in the breed, the 2026 J & T Farm Production Sale is one you won't want to miss!

**Sincerely,
Trey Scherer, Strategy Cattle, LLC**

We are offering 50% ownership of the production of this fine heifer. JT 354 is exactly what I have been striving for over the last several years. With a 12.76 REA and an 8.77 adjusted IMF, this female is what the beef industry and the American consumer demand. She also has the phenotype, the bone, the polled, and the look that most breeders prefer. The Daybreak and Timeless mating is consistently good. This girl is no fluke.

If you are needing that phenomenal classic Beefmaster donor to use with a performance bull, here she is. Captain Sugar, Painted Tiger, & Maiden Lady are the Who's Who of Beefmasters. Now, for the cherry on top, TT 38 has a 11.13 REA and a 5.17 adjusted IMF. These are superior numbers for this mating. When you take into account the bone, sogginess, and overall look, this is one complete female.

If you are serious about trying to raise a better Beefmaster, what more could you ask for? JT 298 is the number one animal in the breed for marbling. Her REA is 11.70 adjusted, and her IMF is 8.97 adjusted. She's slick polled, deep bodied, super thick and ready to improve someone's program. As a bonus, she's puppy dog gentle. This girl is your building block into the future.

JT 1225 is the epitamy of what a commercial cattleman wants. She's slick polled, black with a mottle face, thick, and efficient with good carcass data. Consider the demand for white faced bull and females across the breed. This female will enable you to facilitate this. This girl has an excellant sire and dam, and both contribute to a great uddered, efficient female.

I elected to stay safe on unique oasis' first flush. So, I used the Rock, and it worked well. JT 359 is a polled, deep bodied powerhouse. She had a 10.69 REA and a 4.15 adjusted IMF. She is also gentle, big boned and ready to produce.

I feel like JT 358 is the most complete Genesis daughter that we have raised to date. She is pretty solid in her build, and she is perfect red. Her pedigree offers the opportunity for greatness. Her carcass is good as well. She has a 11.71 REA and a 4.32 adjusted IMF.

This Hemby Farms female is that kid and grandchild friendly heifer that you've been looking for. She will also be low maintenance and easy keeping. She goes back to Wicked Witch and Big Tex. She is an outcross to most of the popular bulls.

JT 352 is the supermodel out of this flush. No matter how you see her in the pasture, she always has the look. She's perfect red and has a great phenotype. She has plenty of bone, depth and looks. Bruce Robbins would say that she has the charisma. This heifer is front pasture all the way. She also has over a 13 inch ribeye and 3.74 IMF.

JT 351 did her best to be the bell ringer. Her contemporary group just happened to be super tough. However, she still had a 11.49 REA and an adjusted IMF of 7.19. Now, consider her Dam is Timeless, and her sire is out of one of CJ's Best Lines. This combination makes her top notch.

Wicked Witch has risen to the occasion. JT348 could see the competition was tough. So she put up a good fight. She had a 14.26 REA and an adjusted IMF of 4.24. Polled performance in a red package combined with a great pedigree makes this female an easy pick.

JT 3716 has brought you another Game Day daughter. JT 3924 is about the third heifer in a row out of this mating. This is a sister of JT Fair Game in the Hbar program that is the dam of the lot 20 in that sale. These females never miss. JT 3924 is big and powerful with a 11.49 REA and an adjusted IMF of 3.49. If you are looking for a gentle female with some character, here she is.

JT 327 is an absolute meat wagon. Hey cherry red color, big bone and wide top made me consider keeping her. This is the last of the Danica line of cattle. Her performance is also good with over an inch of REA/CWT and an adjusted IMF of 3.43. She's scurred as a bonus.

Here is my blast from the past. We sold this mating in our first sale. JT326 is dog gentle, super deep flanked, ands he has ample bone. This donor prospect will excel with all of the performance bulls used today. She will be somewhat exclusive because HIATT Diamond H has the only other one that I know of in production.

JT 300 is certainly a hard one to let go. She is what folks in the real cow business strive for. She is slick polled, deep bodied, and has great bone. Her performance numbers are excellent with a 1.3 REA/CWT and an adjusted IMF of 5.75. When you can get this performance out of a female this broody, you have something few others do.

This is another female hard to let go of. JT 301 is slick polled with the perfect phenotype. She has a 1.23 REA/CWT and an adjusted IMF of 3.84. I wish I had a pasture full of these. She's laid back, easy fleshing, and will be perfect uddered. A flush to Let'R Rip could create some fancy black females.

JT Infinite Witch keeps producing the good ones. She's fixing to be 12 and still produces at a high level. JT 310 should be no exception. JT 310 has the perfect red color, deep flank, and nice bone. I think this is a perfect female for Daybreak or Wrecking Ball. She is super feminine and smooth. Her performance is also good with over an inch of REA/CWT and an adjusted IMF of 4.48.

JT 311 is about as traditional as you can get in a beefmaster herdsire. This guy's pedigree is stacked with breed greats. He is deep bodied, big boned, and gentle.

J&T Consignment Rules:

Heifers raised out of a J&T consigned female that was purchased at a J&T production sale beginning in 2021 are eligible to be sold at future J&T sales.

These females need to have all of their weights and scan data.

Consignors interested in consigning need to notify J&T 6 month prior to the upcoming sale.
