ENGINEERED FOR PROFESSIONALS

Each of our devices is designed to provide you with the professional performance essential to fulfilling your passion.

DESIGNED TO BE REPAIRED

Our products are designed to be easily repairable, disassembled, and reassembled. DYNAMIC is committed to ensuring that its products are repairable for 10 years in France and worldwide, and guarantees the immediate availability of spare parts.

A rigorous renewal and stock monitoring process ensures quick supply to every customer around the world.

WARRANTED PRODUCTS

Each DYNAMIC product comes with an instruction and warranty manual.

In this document, you will find all our guidance for starting, using, and maintaining your appliance to ensure their long-lasting usage.

1 / CARBON FOOTPRINT MONITORING & COMMITMENTS

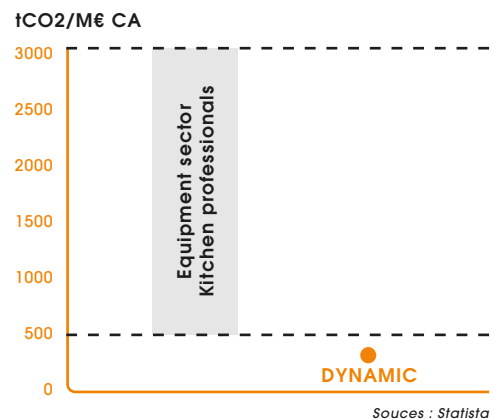

Since 2021, Dynamic has carried out an annual carbon footprint assessment to measure its environmental impact, track progress, and adjust its reduction strategy.

In 2024, our emissions reached **372 tCO₂ per million euros of turnover**, a level below the industrial sector average (500 to 3,000 tCO₂e/M€ - source: Statista).

Our objective remains unchanged: to reduce our emissions by 4.2% per year (Scopes 1 and 2) and 2.5% for Scope 3 by 2030, in line with the Paris Agreement targets.

Progress monitoring:

- Gradual reduction of emissions linked to purchasing and manufacturing
- Logistics optimization and circular economy initiatives

ECO-DESIGN & CIRCULARITY

2 / A STRENGTHENED ECO-DESIGN APPROACH

At Dynamic, the design of **robust, durable, and repairable** products has been part of our DNA since 1964.

This commitment drives every innovation. In response to current environmental challenges, we are reinforcing this approach by integrating **eco-design** principles into each stage of the product life cycle.

Our strategy is built around four key pillars:

1. **Packaging reduction:** use of recycled cardboard, gradual elimination of single-use plastics.
2. **Logistics optimization:** fewer transports through more efficient industrial organization.
3. **Skills development:** staff training in eco-design principles and practical application.
4. **Impact measurement:** 88% of our products are now covered by a Life Cycle Assessment (LCA) to identify improvement areas right from the design stage.

This strategy aims to **limit environmental impact without compromising performance**, embracing a circular approach: design better to consume less, repair rather than replace, and increase the use of recyclable materials.

SOCIAL COMMITMENT

3 / INCLUSION, INTEGRATION AND TRAINING

At Dynamic, social responsibility is an integral part of our values. It translates into concrete actions promoting inclusion and skills development.

Protected work & integration:

- Dynamic promotes the inclusion of people with disabilities through strong partnerships with local adapted companies.

Training:

- In 2024, 58% of employees received an average of 3 days of training.

Towards a more inclusive company:

- Ongoing partnerships with integration and disability organizations.
- Future initiatives: improved accessibility, team awareness on diversity, and continuous training efforts.

Key HR figures (2024):

- Employees with disabilities: 2.84%
- Subcontracting (labour cost): €17,733.66
- Training hours delivered: 625 hours
- Trained employees: 30
- Average hours per trained employee: 20.83
- Average hours per total workforce: 11.42

Because every field has its own needs.

MD95 +

PROFESSIONAL SERIES

A small and robust appliance.

MONOBLOCK EQUIPMENT | 250 W | 1 TO 8 L

+ ADVANTAGES

+ ROBUSTNESS

Stainless steel monobloc designed for intensive daily use. Additional vents for improved motor ventilation and increased service life.

+ ERGONOMY

Comfortable handle, intuitive grip, and perfect balance for easy handling

+ VERSATILITY

One-click speed control
LED display for increased precision
4 or 2 blade knife for versatile production (ganache, icing, gravy, etc.)

+ MODEL WITH TEMPERATURE PROBE

Built-in probe with digital display showing real-time temperature (5°C to 115°C).

DYNAPUMP

Compatible with the blender attachment only.

Empty your pots in a few minutes !

With its innovative process, DYNAMIC transfer pump is perfectly adapted to the GIGAMIX blender attachment and allows the effortless and fast transfer of the mixed food preparation into packaging areas or to simply empty the pot quickly.

The DYNAPUMP allows to transfer between 40 and 60 liters per minute, depending on the viscosity of the liquid and the length of the hose used.

CUSTOMER SERVICE

TO BE BY YOUR SIDE IN
TASTE INNOVATION

1 - GENERAL TERMS

In the absence of a special written agreement, all purchase orders imply the full and legal acceptance of these terms and conditions by the customer, notwithstanding any terms to the contrary that may feature in the customer's general purchase terms and conditions.

2 - ORDERS - QUOTES

Order only become final after written or tacit acceptance by DYNAMIC, hereafter referred to as "the Company". If a quote is provided, the order only becomes final after the quote is returned signed to the Company by letter, fax or any other means of transmission, within eight days of the quote being issued. Any changes to the order or the quote must be the subject of a written agreement between the Company and the customer.

3 - LEAD TIMES

Deliveries are made depending on supply and transport availability in the order in which the orders arrive, and according to the indications provided by the Company in its acceptance. The Company is authorised to make total or partial deliveries. Lead times are given for information and are not binding on the Company, especially in the event of force majeure or acts of God. No late delivery may entitle to the application of penalties or the payment of compensation, or deduction from the price or the cancellation of the order. In all cases, a customer shall only receive delivery if their situation relative to the Company is in order.

4 - DELIVERIES

Prices are given excluding VAT, FCA, packaging included. Unless there is a special indication in the order or the accepted quote, all orders are shipped with transport costs added. All the costs for express delivery are fully payable by the customer who requests this service. The goods become the property of the customer when they leave the Company shop floor, on condition of the application of the ownership clause below. Consequently all transport, customs, insurance and handling operations are at the customer's expense and at their risks and perils. The customer must make sure the delivery is compliant and check for possible damage and missing items and, where applicable, issue the necessary reserves to the relevant organisations and transporters by registered letter with acknowledgement of receipt within 72 hours. The customer shall notify the Company of this.

5 - RETURNS

Any product returns must be the subject of a prior formal agreement between the Company and the customer. If accepted, 10% will be deducted for costs. Special orders cannot be returned.

6 - WARRANTY

The Company is bound to deliver goods that are compliant with the contract and shall respond to compliance faults that are found on delivery. To be compliant with the contract, the goods must:

- Be fit for the purpose expected of a similar item and, where applicable, correspond to the description given by the Company and have the properties that the Company presented to the customer in the form of a sample or model;
- Have the characteristics that a customer may legitimately expect considering the claims made by the Company, especially in advertising;
- Or have the characteristics mutually defined between the parties;

- Or be fit for any special purpose sought by the customer, made known to the Company and accepted by the Company; Electric appliances have a one year manufacturing defect warranty starting from the purchase date. The warranty covers all parts and labour. The warranty covers the replacement of any defective parts but does not cover damage from dropping or impacts, damage caused by improper use, incorrect connection to the power supply, or the failure to follow the usage conditions described in the instructions.

7 - PRICE

The prices and information featuring in the catalogues or other Company printed advertising material are only binding on the Company, which reserves the right to make any changes to the sizes, materials or weights of the products presented or described, without any duty to modify products previously delivered or of which the order is ongoing. Goods are invoiced on the basis of the price applicable at the time of the order. Payments are made to the Company headquarters. Unless special terms are agreed, orders are payable in full on shipment of the goods. A discount of 0.5% per full month, generating a proportional reduction in VAT, shall be granted on the total amount excluding VAT in the event of early payment. Any other terms of payment must be the subject of a prior agreement. On failure to pay on the contractual due date, late payment penalties equal to 3 times the legal interest rate shall be due automatically and without notice, starting from the 1st day late. Furthermore, a fixed compensation for debt recovery costs of 40 euros shall be due automatically and without notice. If the debt recovery costs are higher than this amount, additional compensation shall be due on presentation of proof. The Company may also suspend any further deliveries.

8 - OWNERSHIP

The Company retains full ownership of the sold goods until full payment by the customer. However, the risks of loss, theft or deterioration of the goods are exclusively borne by the customer as soon as the goods are made available to them. The failure to pay a term may lead to a claim for existing goods.

9 - COPYRIGHT

The drawings, models, plans and quotes, and more generally all types of document issued by the Company carry the exclusive copyright of the Company; they may not be communicated or performed without its written authorisation. They must be returned on request by the Company.

10 - RENOUNCEMENT

No late delivery, omission or any tolerance by the Company in the exercise of one of its rights resulting from this agreement shall be construed as a renouncement by the Company to the exercise of that right.

11 - JURISDICTION

In the event of a dispute, the Company and the customer in question shall undertake arbitration out of court by a single arbitrator, chosen mutually or, failing this, appointed on request from the most diligent party by the President of the Roche-sur-Yon commercial court. The parties renounce all right of appeal against the decision of the arbitrator which shall be final, and undertake to obey the decision without proceedings or exequatur.
