# Moving Forward With Intention

As we rise from the fog of a confusing and sometimes terrifying period of disease, isolation, and instability, we take stock of what's still standing and what we have learned. Public libraries have learned a lot working through the 2020/ 2021 pandemic. Most of all, we've verified what we suspected all along- that we are essential anchor institutions for young and old. We're the friendly place to gather as a community and learn together, discover, create, and improve our personal and collective futures. We're the institution you trust to give you real answers and translate confusing messaging into clear ideas.

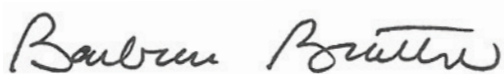

As the world faces so many challenges, our community calls on us to do even more and to do so with a clear focus on diversity, equity and inclusion. So we're moving forward with intention to be at the center of community recovery and resilience. We've identified four areas of focus for the coming year to help us reach this goal.

**Whole Person Librarianship.** For over 100 years librarians have been handing phone numbers to people in crisis, providing directions to the nearest social service agency or counselor. But crisis is immediate, not confined to "working hours." More and more, people on the edge are finding day shelter in our buildings, sleeping on our park benches, and camping in our parking lots. Sometimes they go unnoticed, often they do not. Whole Person Librarianship (WPL) calls on libraries to move beyond traditional reference services, incorporating social services into the library, adding licensed social workers and trained mental health counselors to library staff. Library workers receive training to understand the variations in mental illness and are equipped to de-escalate incidents without police intervention, resulting in better outcomes for everyone.

**Flexible Spaces.** The pandemic changed the way we work and the way we come together as a community in public spaces. As we plan for the future, KPL is evaluating the spaces in our four locations to determine how they serve the new normal of remote workers, online school, and people's need for connection to each other, albeit at a safe distance. To that end, the Wisconsin Humanities Council has awarded KPL a strategic space planning grant to identify the most efficient ways to use the resources we already have to support your library needs in the future.

**Digital Literacy.** The worldwide web was introduced to the general public more than 20 years ago, and it's now so immersed in our daily lives that people without the skills and equipment necessary to use it are left with fewer and fewer choices to conduct their daily business. Students without access to technology at school or at the library cannot keep up with their assignments or participate in online education. Libraries have been working tirelessly since the worldwide web began to teach, guide, and provide access to the digital world, yet many remain disconnected. When KPL was forced to close March to April 2020, it quickly became clear just how dependent so many still are on library computers and wireless Internet access. The pandemic proved that the “digital divide” still exists, sustaining low student achievement among the poorest of our children, leaving displaced workers with no access to social service benefits, and cutting off our elderly from basic needs like food in a time of crisis. Federal funding is supporting KPL's efforts to reconnect families who cannot afford their own computer equipment and provide access to the Internet with low cost and no cost hotspot plans. But access isn't our only challenge as a community and a nation. Our struggle to discern fact from fiction, hoax from truth is staggering and destructive to our democracy. It is a public library imperative to step up and teach the basic skills of Internet security, privacy, and evaluation.

**Equity, Diversity and Inclusion.** KPL's 2021-2023 Strategic Plan calls out EDI as a primary focus, not separate from our other initiatives, but enmeshed in every decision we make, every program we offer, and every service we build. This includes hiring a more diverse staff, continuous staff training to help us recognize latent racism in our decision making, and collection evaluation to ensure that our print and digital collections reflect the experiences of all our community members. It includes an honest evaluation of how we fund individual branch services and policies such as overdue fines. In 2021, the City of Kenosha became a member of the Government Alliance on Race and Equity and as a city department with member benefits, library staff are engaging with government employees from around the country to share strategies and policies that erode institutionalized racism in our organizations. We have a long way to go, but we are energized and determined to do better.

# KPL Business Model 2022

**KPL's Business model rests on four tenets:**

1. Local government provides support for core services.
2. State and County governments provide for technology infrastructure.
3. Public/Private partnerships enhance programs and services beyond core levels.
4. Lean initiatives increase efficiency, reduce costs, and allow the library to allocate resources toward direct, enhanced public service.

**In 2022, KPL projects \$2,170,128 in outside funding to support the work of the Library.**

- State government funding will provide \$285,298 to support data lines, network costs, digital collections, and other shared resources through the Kenosha County Library System.
- KPL will receive \$1,884,830 reimbursement for service to residents outside of our service area.

**Additionally, the Library raises funds through:**

- Late fees and lost items (\$40,000 projected 2022)
- U.S. Bank credit card rebate program (\$8,000 projected 2022)
- Print, copy and fax revenue (\$40,000 projected 2022)
- Gifts and memorials (\$5,000 2021 estimate)
- Library Services and Technology Act (LSTA) federal grant programs administered through the Department of Public Instruction.

## Partnerships and resource sharing lead to cost savings and enhanced services:

- KPL purchases electronic databases in a buying pool with Racine, Rock, Walworth and Kenosha County libraries, significantly reducing costs.
- The Library participates in the the Wisconsin Public Library Consortium buying pool for eBooks, eAudiobooks, eMagazines and downloadable/streaming video products.
- KPL leverages free quality public programming through local nonprofits, National Issues Forum, PBS, NEA, and Wisconsin Humanities Council.
- KPL receives federal discounts on Internet lines and services through the state TEACH and Wiscnet programs.

## LEAN Initiatives:

- Automating inventory control functions allows more staff to directly serve patrons, teach digital literacy skills, and provide children's educational programming. Our self check machines handled 83% of our checkout activity in 2021.
- Shifting phone service to new fiber data system reduced service costs 50% in 2018.
- Redesigning circulation and cataloging workflows reduces steps, decreases staffing needs, and gets items to customers more quickly.
- Combining circulation and reference staff at consolidated service desks at Northside and Simmons locations reduced staffing needs, opened up floor space, and improved both customer service and staff skills.
- Reorganizing three circulation staff positions into two increased efficiency, flattened the organizational chart, and provided better paying jobs.
- Hiring maintenance staff with advanced mechanical skills reduced our dependency on outside contractors, saving the library significant dollars.

# Kenosha Public Library Strategic Plan

The Kenosha Public Library Business Plan is designed to support the mission and goals of the Strategic Plan. In 2020 KPL staff, trustees, and community members convened online with the purpose of charting a future course for the Kenosha Public Library. Groups received trends, public surveys, and listening session data to develop the library's response to shared community concerns. Three prominent roles for KPL were identified, all under a common lens of Equity, Diversity, and Inclusion:

- Strengthening Neighborhoods
- Inspiring Learning
- Keeping You Curious

**Staff brainstormed targets, gaps, and strategies to improve performance within each goal.**

**The 2022 Business Plan allocates resources to meet the following strategies:**

- Expand Outreach Services into neighborhood parks, senior centers, daycares and schools.
- Embed our reference staff into community initiatives to strengthen relationships and provide research support for data-driven decision making.
- Intensify our efforts to teach digital literacy skills in support of workforce development.
- Train the community in 21st Century Literacy skills with an emphasis on teaching data privacy and security, as well as responsibly navigating social media.
- Teach critical thinking skills as they apply to both print and online information.
- Continue to invest in Early Literacy initiatives, with an intensive focus on parent and caregiver training in early learning teaching techniques.
- Offer cultural programs for a wide variety of audiences: all ages, backgrounds, skill sets, and interests in a socially distanced environment.
- Build and maintain a collection for all ages that inspires learning and sparks creativity.
- Develop a well-trained library workforce skilled in technology and customer service competencies.
- Employ creative interior and exterior space planning to make library buildings flexible and responsive to patron priorities.
- Commit to becoming an inclusive and diverse organization that offers equitable service to all customers.
- Pursue new funding and partnership opportunities.

Department goals listed in this Business Plan further identify specific strategies for meeting these ambitious goals. At the core of the plan is the organizational structure, that is, the people who deliver programs and services to our community. KPL's transition to self-serve options has allowed the organization to reallocate valuable staff resources toward public programming and outreach activities that require personal touch and relationship building skills. Outstanding customer service will continue to depend on an organization that emphasizes core competencies, cross-training, and a team environment fostered by shared core values.

## **Strengthening Neighborhoods**

KPL tailors collections, programs, and services to reflect neighborhood resident needs in each of our four locations. We serve as warming centers, cooling centers, polling locations, tax help centers, and trusted places for community conversations. Since 2016, KPL has co-led summer youth programming efforts in city parks. Together with the city's Community Outreach Coordinator, and alongside numerous community organizations, the Library has successfully coordinated education, and recreation programs that mitigated juvenile crime and strengthened neighborhoods.

KPL serves on the Leadership Table, Early Grade Reading Network, and Smart Beginnings Network for Building Our Future, a Strive Together initiative that coordinates efforts of 40 community organizations toward supporting children's success from cradle to career.

Outreach Services brings library service to those who experience challenges with library access due to age, disability, or language barriers. In addition to the 40 foot bookmobile, a second smaller vehicle provides improved accessibility to nursing homes and assisted living facilities and a means to transport books and technology classes to community centers. A third Outreach Van was converted to a mobile hotspot during the 2020 pandemic to provide WiFi access to underserved neighborhoods. Through federal LSTA grant support, KPL now lends Google Chromebooks and Internet hotspots to families with limited income to connect to the Internet at home through the Kenosha Connects program.

### **2022 Strengthening Neighborhoods Initiatives:**

- Uptown Project: Focus on diversifying staff, adding dedicated Early Literacy Specialists to the branch, teaching financial literacy and health literacy, and tailoring collections to the neighborhood.
- Northside Project: Focus on developing a strong series of public cultural programs, financial literacy, health literacy and tailoring the collection to the neighborhood.
- Simmons Project: Embed social work students from Carthage College at points of service to provide connection to community resources to patrons in need.
- Outreach Services Project: Expand services to those who cannot reach us and partner closely with area schools to support out of school learning.

## Inspiring Learning

The Southwest Neighborhood Library's Digital Media Lab, The Hub, provides professional video and audio equipment for public use along with classroom and personal instruction in digital media capture and editing.

Self-service options for holds pickup, checkout, and return allow realignments of staff resources toward public programs, technology instruction, and literacy activities.

Investment in STEAM programming for preschoolers through grade 12 continues, with beginner and intermediate Computer Coding Camps for Kids, Art Sparks, and Lego Robotics program series, in addition to early literacy programming to prepare children for kindergarten and foster creative and curious lifelong learners.

In support of children's education and school success, KPL eliminated overdue fines on children's books and magazines in November of 2017. It is our intent to eliminate barriers that keep children of limited economic means from using the library for fear of accumulating late fees.

### 2022 Inspiring Learning Initiative:

The new 2021-2023 Strategic Plan emphasizes core areas of collaborative learning:

- Health Literacy
- Financial Literacy
- Digital Literacy, emphasizing authority of information and online personal safety.
- Early Literacy
- Science, Technology, Art, Engineering, Math (STEAM)
- Cultural Literacy, with an emphasis on building positive community relationships.

Service delivery will continue to be a combination of formats, online and in-person with a gradual return to majority in-person events.

## Keeping You Curious

Libraries have long been centers for self-directed learning, but the modern library is also a fun place for discovery, for testing new technology, new ideas, and collaboratively creating new inventions. Up to the 2020 pandemic, our cultural programming included comic cons, tech petting zoos, maker spaces and writing workshops. Children gathered for Art Sparks programming, and adults enjoyed Sunday Crafternoons, photography composition, adult coloring groups and Models and Miniatures Club. The public was free to indulge in a game of chess, immerse in the deep stacks of ideas, or engage with our music and film collections. We offered performances of Shakespeare, spoken word, and live music. As the pandemic wanes, we have gradually returned to an interactive environment, allowing visitors to learn by doing and dabble in skills they didn't know they had.

### 2022 Keeping You Curious Initiatives:

- Expand the number and themes for KPL Kids to Go and adult craft boxes.
- Return to in-person public programs under pandemic guidelines.
- Take to the outside, with an emphasis on environmental and nature-inspired programming.

### Additional Major Library Initiatives in 2022:

- Completion of the air conditioner replacement at Simmons Library and planning for limestone facade restoration.
- Focus on policy, staffing, and service improvements to create a more diverse staff and more equitable library services.

# KPL Digital Strategy

With the help of an evaluative instrument called the Edge Survey, KPL has been able to grade its digital service, equipment, and training against national standards for public libraries. KPL conducted a baseline survey in 2014, a follow-up survey in 2017, and another in 2021. We are glad to report that we have made substantial progress in becoming an innovative and progressive library, but there is still much work to be done.

## 2022 Strategies:

- Collaborate with local agencies, organizations, and institutions on digital access and literacy in the community
- Require yearly digital literacy trainings, including at least one “innovative technology” training as a staff performance goal
- Implement targeted community outcome assessment tools for digital services, programs, and training
- Expand technology training and digital resource signage in Spanish
- Create on-demand public training on library digital resources
- Compare digital offerings and usage using dashboards in Libinsights

# Sustainability Plan

New York Library Association uses these three words to summarize sustainable thinking for libraries: Sustainable, Resilient, Regenerative.

- Sustainable to ensure libraries secure the funding they need.
- Resilient to bounce back after disruption, such as the introduction of new information technologies, public distrust of traditional information sources, and for-profit competitors offering affordable, instant on-demand entertainment.
- Regenerative to bring new, energetic life to libraries that have traditionally supported self-directed learning.

## 2021-2023 Sustainability Initiatives:

- Implement results of space audit to redesign existing space in support of evolving community needs.
- Investigate electric vehicle charging stations for library parking lots.
- Pursue additional facility for support services.
- Maintain a 7-year capital plan for each library location to anticipate major facilities needs.
- Evaluate all major library divisions under “lean” principles to gauge areas for efficiency improvements and cost savings.
- Work with community partners to identify additional funding sources.
- Partner with local technology leaders to predict the future of information seeking behavior and align library services “ahead of the curve.”
- Improve the Library’s internal recycling and waste reduction program.
- Consider non-traditional library collections in support of community needs.
- Expand cross-training staff opportunities.
- Maintain a proactive Business Continuity Plan to prepare for unforeseen disasters.
- Subscribe as an organization to continuous improvement cycles, responsive to changing community needs and priorities.
- Build community cultural programming around local interests and concerns.
- Build digital literacy training in support of local job training initiatives.
- Create Pop-Up Libraries in neighborhoods of low engagement.
- Emphasize data collection and analysis to monitor trends and evaluate projects.
- Consider entrepreneurial library activities.
- Develop a responsive library collection.
- Offer participatory community experiences.

# Significant Statistics

Like all public institutions, attendance and participation in library activities as well as use of collections was hard hit by the 2020 pandemic. Through creativity and hard work, the library was able to circulate 436,262 items, 50% of its previous year's circulation, despite a loss of 73% of its visitors. Over 17,000 cars used our curbside service and our live and recorded programs were viewed 40,000 times.
