HOT-DIP GALVANIZING

### Available accessories

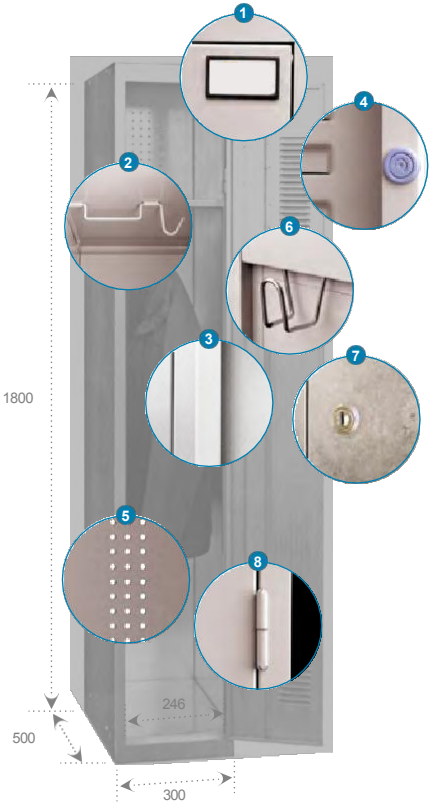

Feet - Benches - Headresses - Benches - Wall & Bench Hangers - Locks & Padlocks - Hangers & Coat Hangers

## Galvanized for environments sensitive to industrial design

Like the eXtreme® locker, or the stainless steel locker, the galvanized locker uses a durable, recyclable material. Used wisely, galvanizing provides long-lasting protection against corrosion.

What's more, your lockers have a shiny, industrial look that's highly decorative.

### Highlights

- 1 Adhesive plastic label holder.
- 2 1 shelf with coat rail and 1 coat hook.
- 3 Metal body with structural reinforcement.
- 4 Door mufflers for your comfort. Top and bottom ventilation.
- 5 Optimized full-height back ventilation, 40% higher than standard.
- 6 Door with vertical reinforcement omega with additional hook.
- 7 Locking system with padlock hasp or key lock, others on request.
- 8 Exclusive anti-deflating system, 180° door travel.

In the disassembled version, CO<sub>2</sub> emissions during transport are divided by 6 compared to the monoblock version.

Sheet thickness 7/10<sup>th</sup> as standard. 10/10<sup>th</sup> to order. Compliant with AFNOR D 65-760 standard.

# Vintage metal industrial locker

### To remember

- Monobloc on feet, metal body in high-quality sheet steel with folded edges.
- Anti-burglary hinges with 180° rotation.  
Stylish adjustable feet with plastic jacks.
- 3-year warranty, ISO 9001 and 14001 certified.
- 

### Monobloc

#### Packaging

Plastic film, cardboard corner protectors.  
Palletization on request.

#### Assembly

Our lockers are ready use after unpacking.  
They are pre-punched on the back and sides.  
to create homogeneous sets.  
Each foot is fitted with stability jacks for perfect adjustment.

## Space-saving, optimized filing

Ideal for filing suspension files that need to be consulted frequently.

The BS credenza has extra capacity 30% more filing space than a drawer file. Its 440 mm opening is particularly suitable for small spaces. Each drawer offers either side-by-side filing, 2 front rows in 800 mm width or 3 front rows in 1200 mm width. A model with 2 A3 front rows per drawer is also available.

### Highlights

- 1 Monobloc welded a single sheet 8/10<sup>th</sup> thick steel, smooth back for space separation.
- 2 **Central locking system** for all drawers. Numbered lock with 2 keys.
- 3 **Safety anti-tilt system** with selective drawer opening and counterweight.
- 4 Wired handle with translucent **label holders** integrated into the front panel.
- 5 **drawers with solid sides and bottoms** to hold all types of documents.
- 6 **Telescopic ball bearing slides** with total extraction.
- 7 4 jacks to compensate for uneven floors when aligning furniture.  
Possibility of 2 front rows of DS in L.80 cm and 3 rows in L.120 cm.  
Side-by-side DS reading with adjustable rail to accommodate :  
A4 (spacing 39 cm), dutch folio (36.5 cm) or foolscap (39 cm).

# Locking systems

# Locking systems

## for Metal Racks

### Standard closures :

Lock Key or Hasp Padlock Door

### Other locking systems :

Single-user 3-wheel code lock

Resettable Electronic Code Locks  
(each time a door is opened or fixed code+ pass).

### Padlock

Double-locking padlock with brass body and 6 mm diameter steel shackle. Indispensable for our Hasps.

3-wheel, 10-digit code padlock with 1,000 combinations in zinc alloy. Reinforced steel handle, diameter 4.7 mm.

Hasp and 3-point lock

### NEW

#### Visitable Hasp

Allows the locker to be visited with a passkey without removing the user's padlock. So, based on our Clean Industry, Dirty Industry and Multicase Lockers (Pages 3 to 9), you can turn each model into a low-cost Visitable Locker. Padlock handles, Ø 6 mm recommended.

Coin-operated or token lock (0.50€ and 1 €)
