"

The quality of products and the advice and guidance from the team at Educated Furniture, are unquestionably second to none.

I have moved around the country and have been the Principal in a variety of schools and I continue to purchase my school furniture from EF and have never been let down by quality or price.

My advice to any principal looking to purchase school furniture is to get a quote from Educated Furniture. You will save money and your children will benefit from excellent furniture.

Modular Units and Custom Cabinetry

iQuad Desk Units

Our iQuad Desk Units are a heavy duty, high quality storage solution with a range of options avaialble. Made at standard desk height, they are designed to create an extension to your desk area or they can be banked together against a wall to create functional storage and an additional work surface. With solid matching backs, the units can also be used to create desk height 'partitions' in a large, open office space with the idea being that desk units can be mixed and matched to create a range of storage options.

Custom Cabinetry

In addition to our extensive range of furniture, we also manufacture and install custom cabinetry. Our factory has the capability to produce built-in cabinetry to any specification and for any environment, including kitchens, bathrooms, wet areas, changing rooms, storage spaces, staffrooms and resource rooms.

All our cabinetry comes with quality soft close Hettich drawer and hinge systems and can be made in any colour/finish required.

Our Account Managers can help you every step of the way, from assisting with the design and layout, to overseeing installation.

Contact us today to turn your vision into a reality.

Case Study
Kotata Early Childhood Centre

In early 2023 EF completed a large scale custom cabinetry fit out at a brand new ECE in central Whangarei. We liaised closely with both the architect, (who had designed the centre) and the head contractor to ensure the best solution was provided to the client. Ultimately the fit-out included the manufacture, supply and installation of the following units:

- Custom made reception desk with integrated drawers and hutch. This was made to measure, built around walls and pillars and included cable ducting for data and power to be fitted tidily within the desk.
- Staffroom lockers - all doors individually locked and numbered.
- Staffroom kitchen - made to customer specifications with fridge surround and Formica benchtops with coved upstands.
- Main kitchen - commercial grade kitchen units to suit commercial appliances, complete with full custom stainless steel bench tops
- Multiple changing rooms - these included change table bench units with Formica tops and integrated pull out steps, with cupboards and overhead storage for nappies and changing aides.
- Art bench units with overhead storage - split level for adult / toddler use with Formica bench tops and coved upstands.
- Multiple kitchenettes made to customer specifications with fridge surround and Formica benchtops with coved upstands
- Laundry - full built in laundry cabinets with wrap around overhead storage
- Built-in wave shaped shelving units for a large resource room/storage area
