

**SLEEK.  
DURABLE.  
FOOD-SAFE.**

Keeping Food Items Protected in Every Environment

# An Elegant Food Display & Presentation Tool

Sample Dome self-serve displays and food covers help keep your food items fresh and protected. The clear acrylic domes provide an unobstructed presentation of the food, while providing a protective barrier from dust, dirt, germs, and other contaminants.

## Sample Domes Are Perfect For:

- Grocers
- Restaurants
- Hotels
- Bakeries
- Markets
- Catering
- Weddings
- Buffets
- Cruise Ships
- And More

## Features & Benefits

- Made with food-safe ABS plastics & acrylic.
- Protective barrier from dust, dirt and contaminants.
- Blends in to any environment.
- Re-usable ice pack is included with all units.
- Sleek and durable metal stands.
- Quick and easy assembly (no tools required).
- Versatile with adjustable heights.

# Well Thought Out Design & Functionality

**1.** The convenient hinge design that connect the dome lid to the ice bowl allows you to lift and close the dome with smooth and effortless motion.

- 2.** The bottom side of the bowl features a plastic connector piece that provides a secure friction-fit onto the end of the metal pole.
- 3.** Adjust the pole length on the floor stand models for your desired display height. Simply twist right to tighten or left to loosen.

---

## Quick & Easy Assembly. No Tools Required.

Sample Dome self-serve displays and food covers were specifically designed to provide a 'no tools required' assembly process. Each component conveniently fits together with the next, in the particular order explained here:

- A.** The see-thru, clear acrylic dome with hinges.
- B.** The clear acrylic food tray with lip that rests on the rimmed edge of the ice bowl.
- C.** The optional, re-usable ice pack sits inside the ice bowl. (You can also use crushed ice, if preferred).
- D.** The ice bowl which holds your ice pack, or crushed ice, beneath the food tray to keep items fresh.
- E.** The metal connector pole friction fits into the plastic attachment piece on the bottom of the ice bowl.
- F.** The other end of the pole fits inside of the plastic coupling piece.
- G.** The plastic coupling piece goes inside the hole on the round plastic base with a tight friction fit.

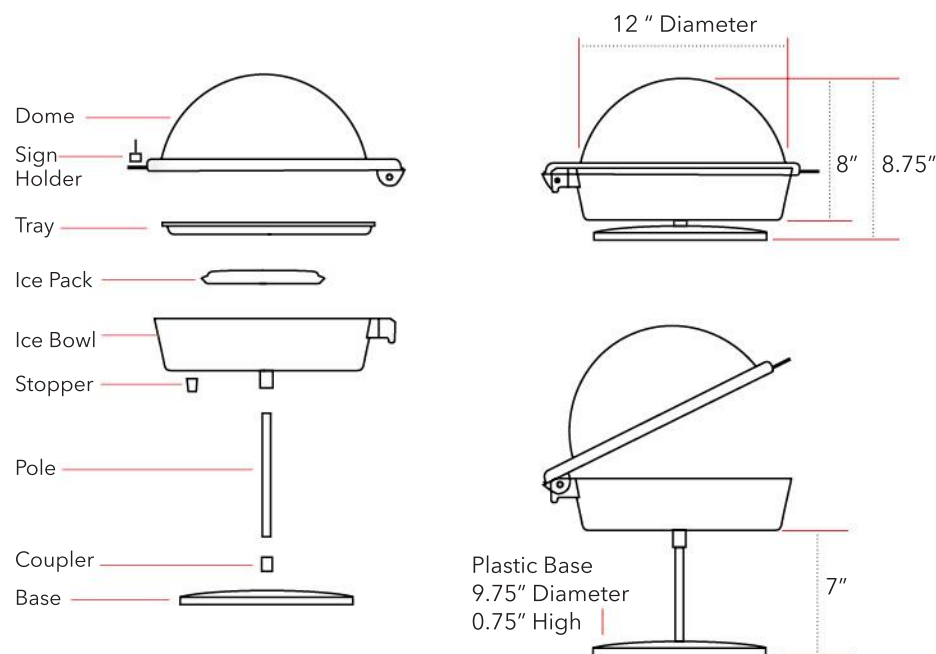

# Sample Dome 12-inch Counter Top / Free Stand

Item # S12C

Our 12-inch Sample Dome unit can be used as a counter top or free stand configuration. The light-weight, plastic base is suitable for display on elevated surfaces, and the included 7-inch metal pole provides the option to increase the display height when desired. Each unit comes with: (1) re-usable ice pack, (1) ABS plastic ice bowl, (1) removable insert tray, (1) clear acrylic dome, (1) round plastic base, (1) 7-inch metal pole, (1) rubber stopper, (1) sign holder).

# Sample Dome 12-inch Floor Stand

Item # S12F

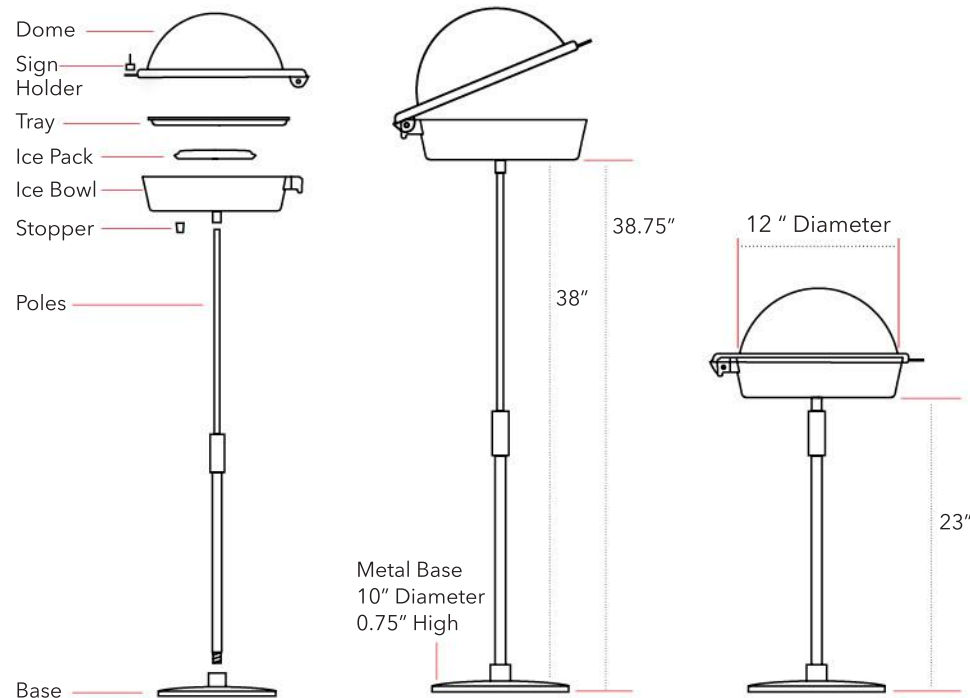

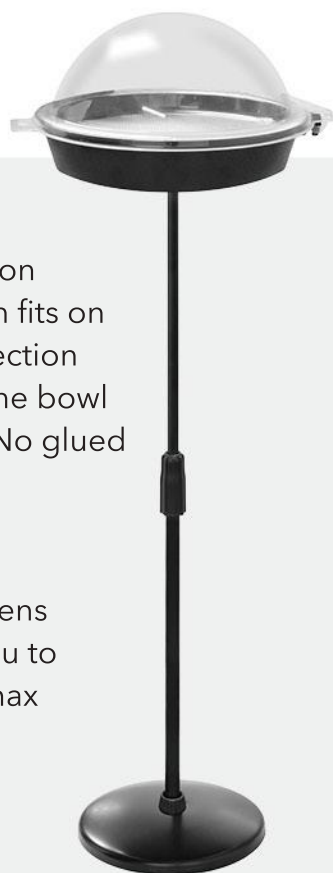

Sample Dome 12-Inch Floor Stand units combine a sturdy metal base with height-adjusting poles to display your food samples approximately 38-inches from the floor surface. Each 12-inch floor stand comes with: (1) re-usable ice pack, (1) ABS plastic ice bowl, (1) removable insert tray, (1) clear acrylic dome, (1) round metal base, (1) adjustable metal poles, (1) rubber stopper, (1) sign holder).

The connection piece on bottom of bowl friction fits on to the pole. This connection piece is molded into the bowl for added durability. (No glued together parts).

Twist mechanism tightens or loosens allowing you to adjust the poles to a max height of 38-inches.

# Sample Dome 12-inch Floor Stand Deluxe

Item # S12D

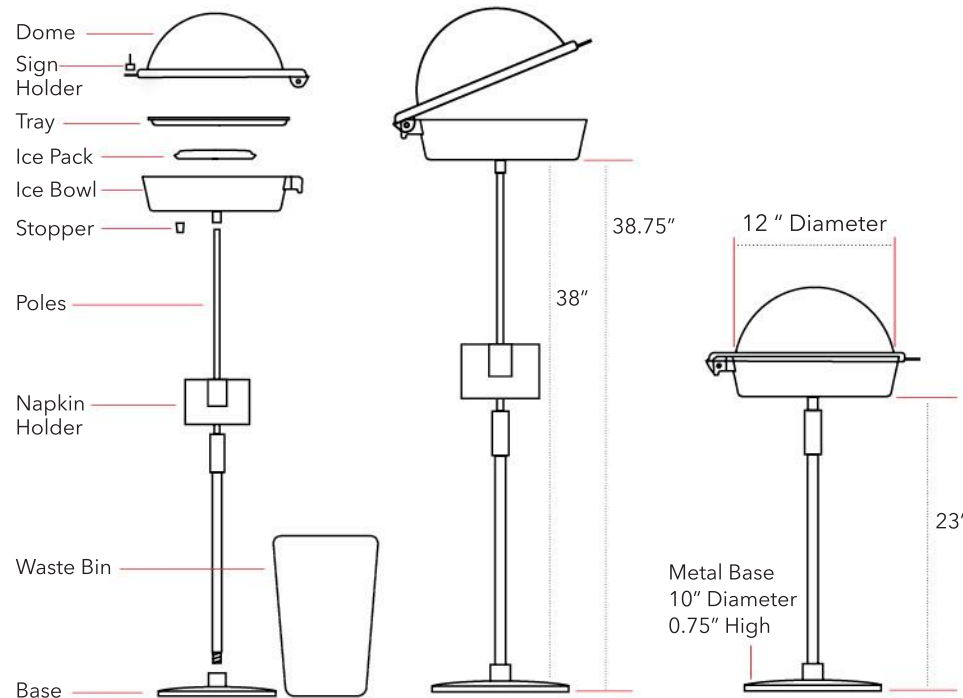

Sample Dome 12-Inch Floor Stand Deluxe units include a waste bin and attachable napkin holder. The height-adjusting poles display your food samples approximately 38-inches from the floor surface. Each 12-inch floor stand deluxe comes with: (1) re-usable ice pack, (1) ABS plastic ice bowl, (1) removable insert tray, (1) clear acrylic dome, (1) round metal base, (1) napkin holder, (1) waste basket, (1) adjustable metal poles, (1) rubber stopper, (1) sign holder).

Deluxe units include a removable plastic napkin holder that features a convenient connection piece that fits around the adjustable metal pole.

Deluxe units also include a plastic waste basket - an essential accessory for food sampling.

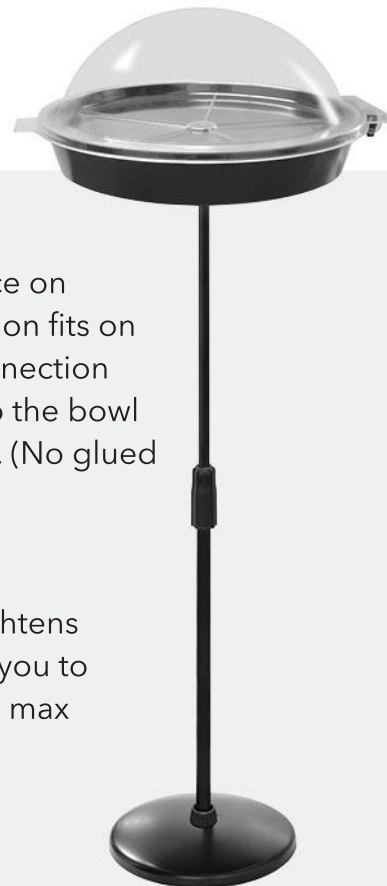

# Sample Dome 16-inch Floor Stand

Item # S16F

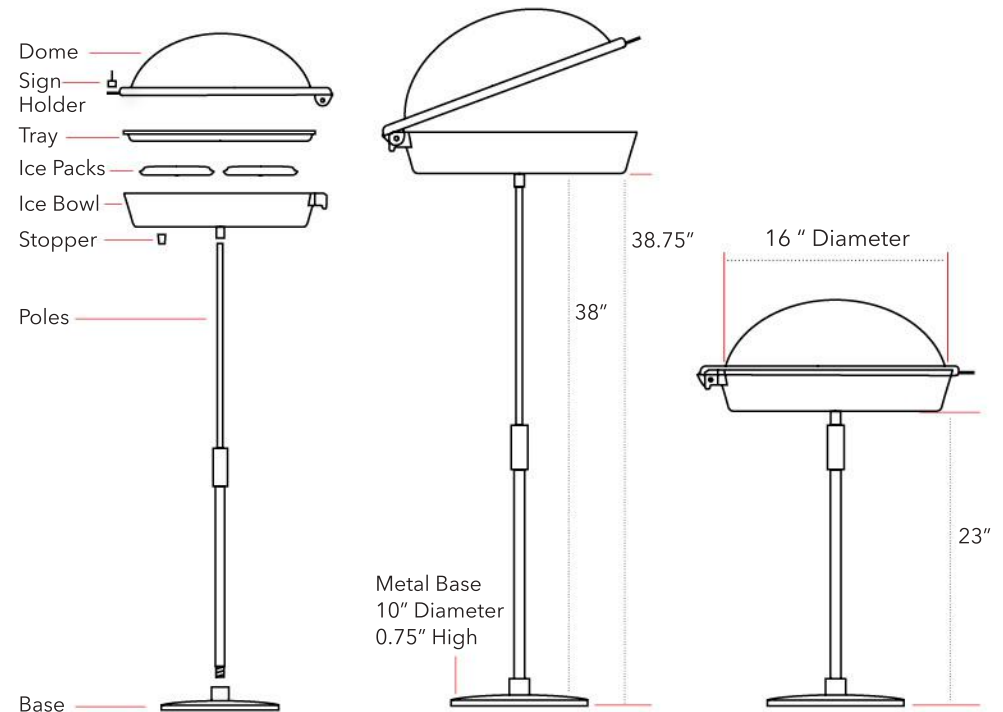

Sample Dome 16-Inch Floor Stand units combine a sturdy metal base with height-adjusting poles to display your food samples approximately 38-inches from the floor surface. Each 16-inch floor stand comes with: (2) re-usable ice packs, (1) ABS plastic ice bowl, (1) removable insert tray, (1) clear acrylic dome, (1) round metal base, (1) adjustable metal poles, (1) rubber stopper, (1) sign holder).

The connection piece on bottom of bowl friction fits on to the pole. This connection piece is molded into the bowl for added durability. (No glued together parts).

Twist mechanism tightens or loosens allowing you to adjust the poles to a max height of 38-inches.
