Building Solid Foundations,
Embracing Change**

Selamat Datang!

Welcome Message From Organising Chair

Greetings and warm greetings from us here in Malaysia. We look forward to your participation in the **9th Asia-Oceanian Conference of Physical and Rehabilitation Medicine**, here in our beautiful island of Penang, Malaysia, in conjunction with the **16th Annual Malaysian Rehabilitation Medicine Conference**.

Coming out of the global pandemic, rapid changes had been taking place. The World Health Organisation (WHO) estimates 1.3 billion or 16% of the global population experiences significant disabilities. The pace of aging is more rapid in the developing countries in the Asia and Pacific regions, where by 2050, a quarter of population will be aged 60 years or older. We are reminded of WHO's Rehabilitation 2030, a call for action to deal with the unmet rehabilitation needs.

Technology and artificial intelligence is establishing itself as part of mainstream life as well as in all aspects of medicine and especially rehabilitation. Even as the march of technology drums on, it is also pertinent that the human touch and connection especially the bond between healthcare professionals and their patients are equally important lest we forget that we must be adding life to years and not merely adding years to life.

It is thus so that we have themed our conference; **Future Proofing Rehabilitation: Building Solid Foundations, Embracing Change**; We need to equip and prepare ourselves for evolving and upcoming practices while enforcing our fundamentals to be sound and solid. We have put up a robust scientific programme encompassing hands on preconference workshops, plenaries and symposium on topics from Technology, Artificial Intelligence, Robotics, as well as the wide range from Neuro to Musculoskeletal Rehabilitation to Fragility and Paediatric Rehabilitation. We also invite you to submit your research from oral to posters, to enable us to discuss, share and learn from each other.

While you are here, we also invite you to enjoy Malaysia, truly Asia and soak up the many attractions ranging from the natural beauty of lush green equatorial rainforests to pristine warm sandy beaches, diverse multi-ethnic cultures and its delicious multi-cultural and fusion food. In Penang, whom is known as the Pearl of the Orient, one can taste the diverse attractions in one island. From the UNESCO Heritage awarded city of Georgetown, to the natural beauty of Penang Hill and beaches at Batu Feringgi, and lastly the great cuisine from amazing street food to fine dining.

We look forward to see you here in AOCPRM 2025, to reunite with old friends and make new ones. We are certain that you will enjoy yourselves in this multi disciplinary conference and experience our warm Malaysian hospitality.

Warm regards,

Dr Tze Yang Chung

Organising Chair

9th Asia-Oceanian Conference of Physical and Rehabilitation Medicine in conjunction with

16th Annual Malaysian Rehabilitation Medicine Conference

Welcome Message from President of AOSPRM

Dear Colleagues,

It is my pleasure to introduce the 9th Asia-Oceanian Conference of Physical & Rehabilitation Medicine (AOCPRM) taking place in beautiful Penang, Malaysia from August 21 to 23, 2025. This prestigious event, held biennially by the Asia-Oceanian Society of Physical & Rehabilitation Medicine (AOCPRM) serves as a flagship event for our specialty. AOCPRM 2025 will be held alongside the 16th Annual Malaysian Rehabilitation Medicine Conference, promising an enriching experience for all attendees.

The Conference theme is **“Future Proofing Rehabilitation: Building Solid Foundations, Embracing Change”**. Join us as we embark on a journey to explore and strengthen the very foundations of rehabilitation practices that will prepare us for the challenges and opportunities of tomorrow.

The program will feature exciting topics including: Exploration of cutting-edge technologies such as robotics, virtual reality, and AI in rehabilitation; Precision medicine and personalized rehabilitation care plans; Strategies to prevent disability and promote independence in aging populations; and Access to rehabilitation services through telehealth and remote monitoring technologies. Additionally, we will delve into innovation in rehabilitation education and policy. These topics will spark discussions that will help us build resilient frameworks, embrace technological advancements, and implement forward-thinking strategies aimed at ensuring the sustainability of rehabilitation.

In addition to pre-congress workshops, keynote, plenary, thematic symposium sessions, and abstract presentations, the program will feature special “Collaboration pitching sessions”. In these sessions, aimed at promoting rehabilitation research collaborations which strengthen our specialty in a globalized world, presenters will have the opportunity to pitch their new projects or ideas to potential collaborators and create enhanced research teams.

I strongly encourage you not to miss this opportunity to hear the latest in research, discoveries, updates and innovations in the field of rehabilitation medicine presented by excellent international and national speakers. And of course, to catch-up with old and meet new colleagues and friends in the PMR community from Asia-Oceania and around the world.

Thank you for your valuable support, and I am very much looking to welcoming you to AOCPRM in Penang in August 2025.

Best regards,

Prof Jianan Li

- *President of the Asia-Oceanian Society of Physical and Rehabilitation Medicine*
- *Professor and Chief Doctor in Medical Rehabilitation Center of the first Affiliated Hospital of Nanjing Medical University, China*
- *International Associate of National Academy of Medicine, USA*
- *Past President of International Society of Physical and Rehabilitation Medicine*
- *Past President of Chinese Society of Physical Medicine and Rehabilitation*

Welcome Message from the President of the Malaysian Association of Rehabilitation Physicians

Distinguished guests, respected colleagues, and dear friends,

On behalf of the Malaysian Association of Rehabilitation Physicians (MARP), it gives me great pleasure and honour to welcome all of you to the **9th Asia-Oceanian Conference of Physical and Rehabilitation Medicine (AOCPRM) 2025**, in conjunction with the **16th Annual Malaysian Rehabilitation Medicine Conference (AMRMC)**.

We are deeply privileged to host this important gathering here in **Malaysia**, a country known for its vibrant diversity, warm hospitality, and growing commitment to inclusive healthcare. It is truly heartening to see experts and practitioners in Physical and Rehabilitation Medicine (PRM) from across the Asia-Oceania region and beyond coming together to exchange knowledge, inspire innovation, and strengthen the bonds of collaboration.

As a young association of 14 years, the **Malaysian Association of Rehabilitation Physicians (MARP)** a professional body representing rehabilitation physicians in the country was founded with a clear mission: to strengthen and advance the field of Rehabilitation Medicine in Malaysia, particularly through capacity building and the development of high standards in clinical practice, education, and research.

The growth of the specialty has been strongly supported by the national rehabilitation medicine training programme, which is jointly run by two universities — Universiti Malaya (UM) and Universiti Teknologi MARA (UiTM) and strongly supported by the Ministry of Health Malaysia. Over the years, the majority of Malaysia's rehabilitation physicians have been trained through these two institutions, reflecting the central role they play in producing skilled specialists for the nation. We now boast 144 registered specialist in the National Specialist Register (NSR) with 139 registered MARPians.

Beyond physician training, MARP has also been proactive in running courses and educational initiatives that cater to the wider rehabilitation ecosystem. These programmes are designed for doctors, allied health professionals, therapists, nurses, community members and others working in rehabilitation services. By doing so, MARP ensures a multidisciplinary approach to patient care and fosters collaboration across professions.

Today, MARP continues to serve as the collective voice of PRM in Malaysia, advocating for the specialty, advancing professional standards, and ensuring that patients benefit from comprehensive, evidence-based rehabilitation services nationwide.

The theme of this year's conference, **"Future Proofing Rehabilitation: Building Solid Foundations, Embracing Change"** reflects our collective vision of a future where every individual, regardless of ability, can live with dignity, autonomy, and purpose. As we gather here, we are reminded of the powerful role that PRM plays—not only in restoring function, but in restoring hope.

Over the next few days, I hope you will be inspired by the thought-provoking key-notes, plenaries, symposiums, enriched by the diverse scientific sessions, and invigorated by the shared passion for patient-centred rehabilitation. I encourage you to engage fully—with the programme, with one another, and with the beautiful surroundings that Malaysia has to offer.

Let us use this platform not only to share evidence and ideas, but to reaffirm our commitment to excellence, equity, and empathy in rehabilitation care.

Once again, welcome to AOCPRM 2025, and welcome to Malaysia.

With warmest regards,

Prof Dr Fazah Akhtar Hanapiah

- *President, Malaysian Association of Rehabilitation Physicians (MARP)*

Conference Information

OFFICIAL CONFERENCE VENUE

Lower Ground Floor and Ground Mezzanine Level,
Setia SPICE Convention Centre,
No 108C, Jalan Tun Dr Awang, 11900 Penang, Malaysia

REGISTRATION COUNTER & SPEAKER READY ROOM OPENING HOURS

Workshop & Main Conference

- » 20th August 2025, Wednesday 7.00am to 5.00pm
- » 21st August 2025, Thursday 7.00am to 6.00pm
- » 22nd August 2025, Friday 8.00am to 6.00pm
- » 23rd August 2025, Saturday 8.00am to 12.00pm

COFFEE, TEA BREAK & LUNCH (LG)

Coffee and Tea Break will be served inside the exhibition area and foyer

- » Day 1: Buffet Lunch at Dining Hall
- » Day 2: Bento lunch boxes will be served during the Lunch Symposium in ballroom

PARKING

Flat Rate is RM8.00 nett per day. Use TNG, Credit / Debit Card.

LANYARD CATEGORIES

Only those with lanyards and name tags will be allowed into the conference area.

Pink: VIP/Faculty

Blue: Conference Delegates

Orange: Exhibitor

Black: Crew

PRAYER ROOM/SURAU

Lower Ground Floor towards Amari Hotel. Both Umar Ibnu Al-Khattab Mosque and Masjid Al-Ittifaq are 5–10 minutes away by car.

CPD POINTS ACCREDITATION

20 MMA CPD points are awarded. The secretariat will submit the attendees list for CPD accreditation within a week post-conference.

TOKEN HUNTER

Visit our exhibitors to collect stamps and stand a chance to win exciting mystery prizes.

CERTIFICATE OF ATTENDANCE

Certificates of attendance and presentation will be available on your user dashboard upon submission of the feedback form. Please download them within a month after the conference.

VIDEO ON DEMAND

Missed a Session?
Conference lectures will be available on your user dashboard from 15 Sept – 31 Oct 2025.

AOCPRM 2025: Walking the Talk on ESG

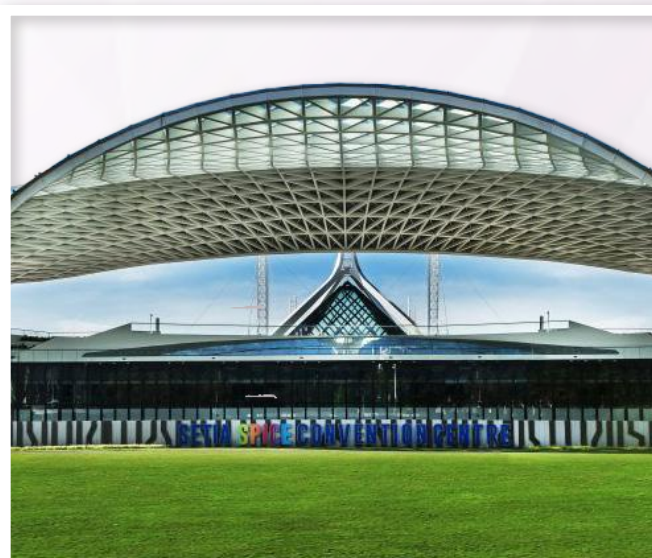

At the **9th Asia-Oceanian Conference of Physical and Rehabilitation Medicine (AOCPRM 2025)**, we go beyond science to embrace our responsibility to create a conference that is **sustainable, inclusive, and ethically grounded**.

Rooted in the principles of **Environmental, Social, and Governance (ESG)**, AOCPRM 2025 is a reflection of what we stand for — not only as healthcare professionals, but as global citizens committed to long-term impact.

Environmental

Our commitment to sustainability is reflected in every layer of the conference:

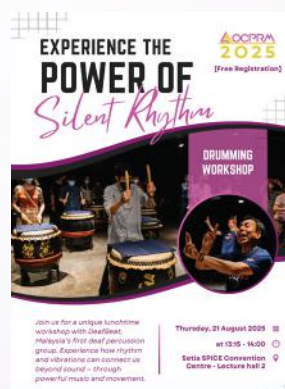

- **Venue with Purpose:** We have selected the **Setia SPICE Convention Centre**, Malaysia's first hybrid solar-powered convention centre. The venue practices energy efficiency, rainwater harvesting, and smart waste management.
- **Tree Planting Ceremony:** A symbolic tree planting session involving our delegates and Universiti Sains Malaysia will promote green rehabilitation, sustainability, and community connection.
- **Recyclable Plastic Lanyards:** All AOCPRM 2025 delegate lanyards are made from recycled plastic, a small but conscious step towards reducing our plastic footprint.
- **Digital-first Communications:** Programme books and materials are shared digitally to reduce paper use wherever possible.

Social

AOCPRM 2025 champions diversity, inclusion, and community involvement:

- **DEAFBEAT Performance:** Witness an inspiring cultural performance by **DEAFBEAT**, a percussion ensemble comprising Deaf youth, showcasing the power of rhythm, teamwork, and breaking barriers through art.
- **Morning Tai Chi & Breathing Class:** Delegates can join daily **Tai Chi sessions led by a delegate from China**, alongside **gentle breathing/stretching sessions led by a local physiotherapist**. These wellness classes on the SPICE rooftop garden emphasize holistic care for body and mind.
- **Pre-Conference Tour for Persons with Disabilities (PWDs):** In partnership with local organizations, a tailored cultural tour will be hosted before the conference begins, ensuring that delegates with disabilities can explore and enjoy Penang's heritage in a welcoming and accessible way.
- **Cultural Heritage Integration:** Batik art, henna, and local crafts will be featured throughout the event to celebrate Malaysia's diverse cultural roots.

Join our ESG activities, RSVP at registration counter!

Governance

Sustainable Venue Selection: SPICE Convention Centre is a green-certified facility known for its energy efficiency and eco-conscious operations.

ESG Survey – Carbon Footprint Tracker

In our efforts to measure and reduce the conference's environmental impact, AOCPRM 2025 will implement an ESG Survey for all delegates.

What It Tracks: The survey will gather data on travel methods, accommodation choices, and daily commuting during the event.

Why It Matters: This will allow us to calculate our total carbon footprint, identify areas for improvement, and report back to participants after the conference.

Your Role: By completing the survey, every delegate contributes to a collective action plan that supports our tree planting initiative and other sustainability measures.

**Scan for
ESG Survey**

A Conference With Purpose

AOCPRM 2025 is more than a meeting of minds — it is a step toward building a better future. From empowering marginalized communities to embracing environmental care and ethical leadership, we are committed to doing things differently, and doing them meaningfully.

We invite you to not only **participate in AOCPRM 2025**, but also to take part in its **impact**. Together, let's learn, connect, and grow — with **purpose**.

Meet Our Faculty

Keynote & Plenary Speakers

Keynote Speaker

Prof Jianan Li

China

Professor and Chief Doctor, Medical Rehabilitation Center of The First Affiliated Hospital of Nanjing Medical University

Prof Jianan Li drives advancements in cardiovascular and neurological rehabilitation, leads ICF application in China, and innovates in gait analysis, rehabilitation robotics, and intelligent assistive technologies. He actively promotes sports-health integration, AI-driven health, and oncological, cardiopulmonary, and spinal cord rehabilitation, shaping new pathways for care and recovery.

Plenary Speaker

Prof Fary Khan

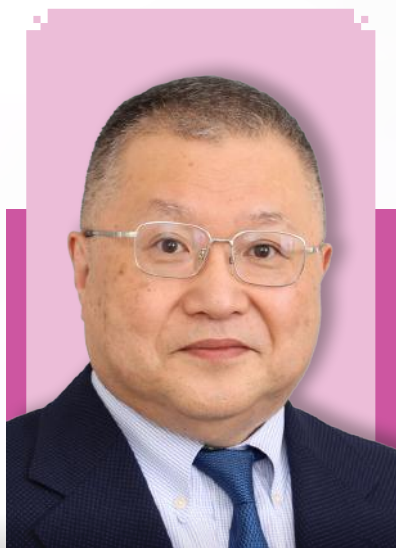

Australia

Director Rehabilitation Service, Royal Melbourne Hospital, University of Melbourne

Prof Fary Khan is a Specialist in Rehabilitation and Physical Medicine, and the Director of Rehabilitation Services, Royal Melbourne Hospital and Clinical Director, Australian Rehabilitation Research Centre; Clinical Professor, Department of Medicine at University of Melbourne and the Nossal Institute of Global Health, and the PeterMac Centre Melbourne. She is an elected International Member for the USA Academy of Medicine for her contribution to Rehabilitation Medicine and Research. She was awarded the Member for the Order of Australia (2022) for significant contribution to Rehabilitation Medicine and Research. She is awarded the George Burniston Oration and Medal of the RACP in May 2024 for development and services to Rehabilitation Medicine. She is also the recipient of the Ollie Hook Oration Award at the ISPRM ASM 2024 for her work in Cancer Rehabilitation. She is the elected Board Member of the Rehabilitation Medicine Society of Australia and New Zealand (RMSANZ) and Executive Committee Member for the Bi-National Rehabilitation Strategy for Australia and New Zealand. She is immediate past Inaugural Academic Fellow to the Board of the Australasian Faculty of Rehabilitation Medicine (AFRM)-RACP.

Meet Our Faculty

Keynote & Plenary Speakers

Plenary Speaker

Prof Eiichi Saitoh

Japan

Professor, Fujita Health University, Supreme Advisor of Fujita Academy

Dr Saitoh is a board-certified physiatrist, Professor of Fujita Health University, Supreme advisor of Fujita Academy, Aichi, Japan. He also holds adjunct/visiting professorships at several universities, including Johns Hopkins University (USA), University of Health and Rehabilitation Sciences (China), China Medical University (China), and Kyoto Prefectural University of Medicine (Japan). He was selected as an international member of National Academy of Medicine (USA, 2020) and a recipient of China High-end Foreign Experts Program (China, 2015). He chaired the 13rd World Congress of International Society of Physical and Rehabilitation Medicine (ISPRM, Kobe, 2019) and chaired as the National representative, the 2nd World Dysphagia Summit (WDS, Nagoya, 2021). Recently he established the Asian Dysphagia Society as the chairperson (2023). His research areas are dysphagia, activity assistive technologies (including robotics, orthosis, smart home, activity monitoring, etc), motion analysis, locomotion, exercise science, and psychology.

Plenary Speaker

Prof Dr Der-Sheng Han

Chinese Taipei

Medical Director, National Taiwan University Hospital (Beihu)

Professor Han earned his PhD from Graduate Institute of Clinical Medicine, National Taiwan University, Chinese Taipei. He is a certified Physical Medicine & Rehabilitation Specialist in Chinese Taipei. He is now the director of Taiwan Osteoporosis Association, Taiwan Society of Neurorehabilitation, and Taiwan Academy of Physical Medicine and Rehabilitation. He is also active in the international academic societies. He is a member of the Education Committee and of the Special Interest Group on Geriatric Rehabilitation, International Society of Physical and Rehabilitation Medicine. His research interests are on muscle biology, sarcopenia, exercise and fitness, molecular biology, and geriatric rehabilitation. He has published over 110 research articles in the related fields.

Meet Our Faculty

Keynote & Plenary Speakers

Plenary Speaker

Prof Michael Nilsson

Australia

Director, Centre for Rehab Innovations, University of Newcastle

Professor Michael Nilsson, MD, PhD, FAFRM (RACP) is an internationally recognized leader in rehabilitation medicine and translational neuroscience. He is Emeritus Professor of Rehabilitation Medicine and Director of the Centre for Rehab Innovations (CRI) at the University of Newcastle, Australia. He has held senior academic and clinical leadership roles in Sweden and Australia. His research has advanced understanding of long-term recovery after neurological and musculoskeletal conditions highlighting the role of, for example, environmental enrichment, stress modulation, and neuroplasticity. Big data sets from Swedish patient-, population- and conscription registries have been utilised in translational rehabilitation research programs. A champion of translational science, he has led several collaborations that have contributed to new models of rehabilitation care and influenced best practice globally. He holds academic affiliations and senior advisory roles with LKC Medicine, Singapore, La Trobe University, Melbourne, and the University of Gothenburg and was recently elected chair of the Research Committee of the Asia-Oceanian Society of Physical and Rehabilitation Medicine.

Plenary Speaker

Dato' Prof Dr Zaliha Omar

Malaysia

Honorary Professor, Universiti Malaya

The University Malaya's visionary leaders shaped **Dato' Prof Dr Zaliha Omar's** Rehabilitation Medicine career to provide holistic patient care. Twenty-five years of academic capacity building began in 1980 - a handful of allied health professionals and a rapidly increasing number of patients. It focused on an inter-multi-transdisciplinary approach, condition-specific rehabilitation, and technology. In preparation for the Commonwealth Games 1998, the Master of Sports Medicine and Rehabilitation postgraduate training was started, and a team served in the games. In 1997, the new Master of Rehabilitation Medicine engaged in international collaboration; Malaysians can now access nationwide rehabilitation medicine services. After retirement from University Malaya in 2005, she served nationally in the National Specialist Registry, interministerial work for rehabilitation, people with disabilities, and the older population; internationally through ISPRM, Asia Dysphagia Society, ARMA, ACRM, AAP, etc. Lifelong education has helped she earn the DMR (RCP Lond), AFFARM, FRCP (Glasg), and FAMM and she is doing a PhD from Fujita Health University Japan. Her passions are leadership in Medicine, community, Nature-based, and Geriatric rehabilitation. In 2024, she was accorded the International Council for Caring Communities Humanities Award and the Herman Flax Lifetime Achievement Award.

Meet Our Faculty

Keynote & Plenary Speakers

Prof Shi-Uk Lee

South Korea

Professor, Seoul National University, College Of Medicine

Professional experiences - Graduated Seoul National University, College of Medicine. - Residency & Fellowship in PM & R at Seoul National University - Postdoctoral research fellowship at Stanford University Medical Center for two years - 2001~ Present: Professor at Seoul National University College of Medicine Academic Positions - 2022~2024: Chairman of Board of Korean Academy of Rehabilitation Medicine - 2023~Present: Vice President of Asia-Oceanian Society of Physical and Rehabilitation Medicine - 2012-2022: Associate Editor of PM & R Journal - 2006~2022: Editor-in-Chief. Annals of Rehabilitation Medicine Main Research Area: - Musculoskeletal Rehabilitation including rehabilitation exercise and ultrasonography.

Plenary Speaker

Prof Sheng Bi

China

Chief Expert, Jianjia Rehabilitation, Shanghai

Sheng Bi MD. PhD, Chief Expert, Jianjia Rehabilitation, Shanghai, China. He has established the Pain Rehabilitation Society in China, and served as the first chairman of the Special Society on pain rehabilitation of Chinese Association of Rehabilitation Medicine. Chairman of the Rehabilitation Medicine Professional Committee of the Chinese Non-Governmental Medical Institutions Association Honorary Chairman of the Pain Rehabilitation Specialty Committee, Chinese Association of Rehabilitation Medicine Leader of the Ultrasound Technology Group, Rehabilitation Therapy Professional Committee, Chinese Association of Rehabilitation Medicine Member of the Rehabilitation Engineering Branch of the Chinese Biomedical Engineering Society Member of the International Exchange Committee of the International Society for Physical Medicine and Rehabilitation (ISPRM) Member of the International Pain and Spinal Interventional Society (IPSIS).

AbbVie Tea Symposium

Topic

Each BoNT/A is unique: Theoretical and clinical perspectives

Thursday, 21 Aug 2025

03:45 pm - 04:15 pm

Lecture Hall 1

Claire Sprink
Toxin Science,
International Medical Affairs,
AbbVie

Jorge Jacinto
Centro de Medicina de
Reabilitação de Alentejo,
Portugal

Fazah Hanapih
Faculty of Medicine,
Universiti Teknologi MARA,
Malaysia

A session where we will explore:

How different BoNT/A manufacturing processes lead to products that are unique and units that are non-interchangeable

How clinical characteristics such as safety, efficacy and immunogenicity vary between different BoNT/As and how this impacts clinical practice

Founder & CEO, Vielight Inc.

Photobiomodulation (PBM) in Neurorehabilitation: A New Frontier in Brain Recovery and Performance

Discover how PBM is transforming brain recovery. This lunch presentation will highlight PBM's role in treating TBI, long COVID, and neurodegenerative conditions—offering evidence-based insights into its mechanisms, clinical applications, and integration into rehabilitation practices. A must-attend for professionals seeking innovative, non-invasive solutions in neurorehabilitation.

22 August 2025

12:30 PM – 1:15 PM

09:32 - 09:37	National Anthem - Negaraku Prayer Recitation
09:37 - 10:21	Welcome Address by Organising Chair of AOCPRM 2025 Dr Tze Yang Chung Welcome Speech by President of AOSPRM Prof Jianan Li Welcome Speech by President of MARP Prof Dr Fazah Akhtar Hanapiah Opening Speech by Director of the Medical Development Division, Ministry of Health Malaysia Dato' Dr Mohd Azman bin Yacob Opening Speech by Guest of Honour, Penang State EXCO for Youth, Sports and Health YB Tuan Daniel Gooi Zi Sen Officiating Ceremony Drum performance by DeafBeat Dance Performance SMJK Heng Ee Cawangan Bayan Baru MyCEB Video
10:21 - 10:30	Tree Planting Ceremony YB Tuan Daniel Gooi Zi Sen <i>Penang State EXCO for Youth, Sports and Health</i> Dato' Dr Mohd Azman bin Yacob <i>Director of the Medical Development Division, Ministry of Health Malaysia</i> Dr Tze Yang Chung <i>Organizing Chair of AOCPRM 2025</i> Prof Jianan Li <i>President of AOSPRM</i> Prof Dr Fazah Akhtar Hanapiah <i>President of MARP</i> Prof Datin Dr Lydia Abdul Latif <i>Environment Society & Governance Committee</i> Photo Sessions & Group Photo Session

Gala 2025

Dinner

A NIGHT OF HERITAGE AT PENANG'S OLDEST HOTEL

- 18:00** **Guest Transfer**
Departure from Setia SPICE Convention Centre
- 18:30-19:45** **Pre-Dinner Activities**
 - Photobooth Experience
 - Batik Painting Showcase
 - Henna Hand Printing
 - Light refreshments and networking
- 19:45** **Guests Seated in Ballroom**
- 19:50** **Welcome Remarks**
Speech by Prof Dr Julia Patrick Engkasan
Professor of Rehabilitation Medicine, Universiti Malaya
Speech by YB Wong Hon Wai
Penang State Executive Councillor for Tourism and Creative Economy
- 20:00** **Cultural Dance Performance by Euphoria Group**

Dinner Commences
- 20:30** **Awards Presentation**
- 20:45** **Dinner & Networking**

Cultural Dance Performance by Euphoria Group

Live Band
- 21:45** **Conclusion of Dinner**

FRIDAY **22** AT 07:00 PM
AUGUST

E&O HOTEL, GRAND BALLROOM

TRADITIONAL WEAR/SMART CASUAL

Penang Durian & Tropical Fruits Experience

 21st & 22nd August 2025 | 10:00-13:00 >

Recommended Attire

Outdoor wear (comfortable clothing) and comfortable walking shoes.

Price

 **RM 190.00/**
Person

Includes

- Private Vehicle
- English / Mandarin Speaking Tour Guide
- Durian Testing
- Local Fruit Testing

For more information, please contact us at tour@aacprn2025.com.
