

Global Sustainability Innovation Competition (GSIC)

Introduction

The Global Sustainability Innovation Competition (GSIC) is a prominent platform dedicated to fostering and recognizing innovators who are at the forefront of creating impactful solutions for sustainability. The core purpose of this event is to actively encourage and spotlight initiatives that bring about a demonstrable positive effect on the environment. This includes, but is not limited to, efforts focused on the preservation of vital natural resources, the crucial reduction of carbon emissions, and the development of a wide range of other environmentally friendly solutions that contribute to a more sustainable future.

General Provision

- The competition is open to Elementary and Secondary school students who are currently enrolled in a recognized educational institution, with the following age details:
 - Elementary School: Ages 7-13 years old.
 - Secondary School: Ages 14-18 years old
 - University Level: Ages 19-22 Years old
- Participation can be individual or in teams of up to 3 students.

MECHANISM OF COMPETITION

1. Online Competition

- The entire participating team will facilitate the judging process through the Zoom platform.
- The presentation must be conducted in English, and the presentation material (PowerPoint) should be created using proficient and accurate English.
- Each team will be allocated 15 minutes, divided into 7 minutes for the presentation and 8 minutes for the Q&A session with the judges.
- During the presentations, participants are required to showcase their products.

2. Offline Competition

- Each team is obligated to bring an A0 size poster and embellish the booth/table provided by the organizing committee. The decoration should be tasteful and in accordance with the project theme, avoiding excessiveness.

(Times New Roman, 10)
[1] XXXXXXXXXXXXXXXXXXXX
[2] XXXXXXXXXXXXXXXXXXXX
[3] XXXXXXXXXXXXXXXXXXXX

Poster Format

55 cm

RESEARCH POSTER

AUTHORS

List the full names and titles of the research authors from the studies.

AFFILIATIONS

List the universities, organizations, and institutions where the research was conducted.

INTRODUCTION

Use this section to give a brief overview of the research. This may include background information of the topic. How is this research important to the industry? You may include a hypothesis if it is relevant to your research.

OBJECTIVE

The objective is the purpose of the study and your research. There may be more than one goal you aim to achieve in this research.

METHODOLOGY

The methodology explains how you conduct your research. Be sure to include any materials or equipment that is needed.

RESULTS

What are the outcomes of your research? Are you able to support or reject your hypothesis? This section will explain your findings.

ANALYSIS

Use this section to give a visual representation of your research. Use bullet points, graphs, tables, and graphics that support your study.

CONCLUSION

Include 2-3 key findings from your research. What can be learned from the project?

References: Site your key sources here.
