Strategic Innovation Program

What is strategic innovation?

Strategic Innovation is a skill set required by leaders to redesign and adapt their organisations. According to the World Economic Forum, these are the Top Ten Skills most sought-after now, and into 2030:

Unlock your creative genius

You will tap into each of these, whilst rediscovering what human intelligence is and how to augment it with AI. **Leading4Breakthrough®** distills the latest research on human-AI collaboration into a practical approach that is being used by leaders in governments, Fortune 500 corporations and Not-for-Profits to:

- Redesign work and employee value propositions
- Become the best government in the world
- Recruit, engage, and retain staff
- Develop future revenue streams
- Transform culture
- Become sustainable
- Re-imagine intensive care
- Re-think policy and law enforcement
- Make mental health healthy once again
- Innovate and adapt to compliance changes

Psycho-Cyber Co-Creation

In just two days, you will gain world-leading innovation skills, combining the best of human and artificial intelligence to solve your most intractable challenge.

You will emerge with a new set of mental models, and a psycho-cyber skill set that puts every problem on notice.

NOT A TALK FEST

What else will I get out of this?

The **LEADING4BREAKTHROUGH**[®] strategic innovation program has delivered transformative breakthroughs in spaces like health and aged care, industrial engineering, financial services and even space itself. Trusted by governments and corporations around the world this program delivers immediate tangible benefits.

You will:

- ✓ Emerge with a pilot-ready innovation that resolves a real-world challenge for the organisation;
- ✓ Acquire re-usable world-class creative problem-solving skills that can be deployed whenever and wherever fresh thinking is needed;
- ✓ Learn mental models that create the scaffolding for psycho-cyber co-creation through AI-augmented ways of working; and
- ✓ Experiment with AI augmentation, ranging from simple prompt to engineering to vibe coding and agentic application.

 - CEO, Global Financial Services Group

Program Facilitation Lead

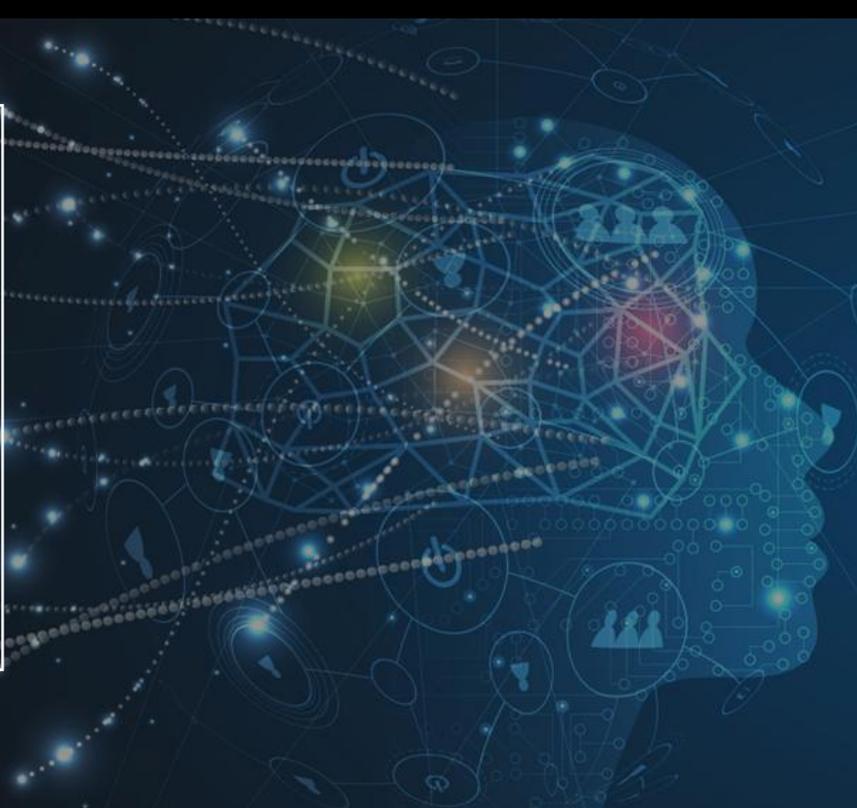

Paul Hawkins |
Chief Combobulator

PAUL founded Crazy Might Work in Antarctica in 2015, on a mission to bring leadership lessons from frontiers like space to the workplace. Prior to that, he worked in over 20 countries, on everything from mergers and acquisitions to global shared services and product innovation. Today, Crazy Might Work is the leading provider of the Four-Dimensional Leadership program used by NASA, receiving recognition for this in the Australian Space Industry Awards 2025. Crazy Might Work is the strategic innovation partner of peak bodies like Ageing Australia, as well as governments, agencies and multinationals around the world.

Outside of Crazy Might Work, Paul chairs the Board of a Community Services not-for-profit and is a sought-after speaker on the topics of leadership and creativity, where his PhD explores psycho-cyber co-creation at the intersection of human and artificial intelligence.

“Leave your assumptions at the door and enter a brave new world of disruption and innovation!”

– CHRO, Japanese Listed Corporation

About Us

| Mission

Bringing leadership and innovation learnings from frontiers like space to the workplace.

Crazy Might Work is the first leadership and innovation academy to be launched in Antarctica. Our mission is to equip and inspire people and organisations to innovate, collaborate and make a difference.

| Method in our Madness

Our scientific approach to leadership and innovation, draws on our own proprietary research in specialist areas, such as human^{+AI} (psycho-cyber) creativity.

Using immersive experiential approaches and simulations from the current space program, we train high-performing teams to recall critical behaviours under pressure.
