DS-KV9503 V2.3.13_250407

◆ Core Values for Residents:

- Cloud-Based Access: Seamless control from gates to mobile apps
- 24/7 Security Monitoring: Monitor yards, elevators, and corridors via mobile app from anywhere
- Continuous Property Security: On-site or remote monitoring always active

Flexible Options for Every Budget

Building 1

◆ Core Values for Residents:

- Budget-Friendly Options: Tailored solutions for diverse needs in one building
- Smart Doorbell Integration: Always aware of doorstep activities
- Uninterrupted Reliability: Wired Ethernet, PoE, and UPS-backed intercoms—zero downtime
- Instant, Secure Access: High-speed facial recognition with top-tier security

Modernization Upgrade

Building 1

◆ Core Values for Residents:

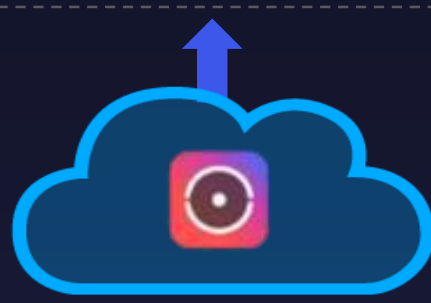

- Analog-to-IP Digital Upgrade
 - Seamless Transition: Retain existing analog systems while adding remote calling, facial recognition access, and more
 - Cost-Effective Solution: No complete system replacement required, saving time, money, and operational disruption
- Core Values for System Integrators:
 - New Revenue Opportunities: Annual maintenance fees for value-added services create recurring income streams

Notes: Analog phone is not mandatory

Open Capability

Third-party software

- Open API & SDK Integration: Call handling, live view, two-way talk, and remote access control
- Visitor Access: QR code-based door entry for visitors
- Bluetooth Access: Digital key generation through Hikvision's bluetooth SDK

Hik-Connect Team Mode

Manual configuration of communities, buildings, rooms, devices (indoor/outdoor), and access levels in Hik-Connect Team Mode.
